RE: Authorization for Intermunicipal Agreement with the Town of Templeton- Veterans Services

Dear Madam President and Councilors,

Attached, please find a proposed Intermunicipal Agreement with the Town of Templeton for the City to provide Veterans Services to Templeton for the remainder of this fiscal year through the end of Fiscal Year 2026.

In speaking with Director Gabrila, the office currently has the capacity to take on this work and we would still be at the statutorily required staffing levels for the office with this addition.

I respectfully request that the City Council vote to authorize the Administration to enter into this Intermunicipal Agreement.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

CC:

Finance Committee

Public Welfare Committee

AUTHORIZING AN INTERMUNICIPAL AGREEMENT  
BETWEEN THE CITY OF GARDNER AND  
THE TOWN OF TEMPLETON  
FOR VETERAN'S SERVICES

VOTED: To authorize the Mayor to enter into an Intermunicipal Agreement with the Town of Templeton for the purpose of providing Veteran's services among the two communities for the remainder of this fiscal year and through Fiscal Year 2026, under such terms and conditions as the Mayor deems appropriate and in accordance with the provisions of Section 4A of Chapter 40 of the General Laws.

**TOWN OF TEMPLETON AND CITY OF GARDNER  
MUNICIPAL AGREEMENT  
VETERAN SERVICES**

This Intermunicipal Agreement, made and entered into this 10<sup>th</sup> day of April 2023, pursuant to the provisions of Massachusetts General Laws, Chapter 40, Section 4A, by and between the town of Templeton, a municipal corporation within the County of Worcester and the Commonwealth of Massachusetts, acting by and through its Board of Selectmen, hereinafter referred to as "Templeton," and the City of Gardner, a municipal corporation within the County of Worcester and the Commonwealth of Massachusetts, acting by and through its Mayor, hereinafter referred to as "Gardner" (collectively referred to as the "Municipalities").

WITNESSETH

WHEREAS, the Municipalities have determined that they share a need for veteran services; and

WHEREAS, the Municipalities have determined that the sharing of the benefits and costs of those services would be beneficial to each Municipality, and

WHEREAS, this Agreement shall provide for the terms, conditions and liabilities of the parties with respect to these services, including, but not limited to terms of cooperation and obligations of each Municipality relative to cost of shared human resources, training, facilities, and operating costs; and

WHEREAS, the voters at Templeton Town Meeting authorized the Board of Selectmen and the Gardner City Council authorized the Mayor to enter into this agreement in accordance with the provisions of G.L.c. 40, Section 4A.

NOW, THEREFORE, in consideration of the promises and mutual benefits to be derived by the parties hereto, the parties agree as follows:

1. The Templeton Town Administrator and the Gardner Mayor will be the Municipalities respective representatives to oversee the cooperative arrangement. The approval of the Templeton Board of Selectman and Gardner Mayor will be required to amend this Agreement.
2. All the privileges and immunities from liability and exemptions from laws, by-laws, ordinances and regulations that veteran services officers employed by any of the parties hereto have in their own jurisdictions shall be effective in the jurisdiction in which they are giving assistance unless otherwise prohibited by law.
3. The shared veteran services officer shall have all of the authority under the applicable provisions of the Massachusetts General Laws as well as the by-laws of

Templeton and the City of Gardner city ordinances in which veteran services are being provided.

4. Term. The term of this Agreement is for three (3) years and three (3) months from FY2023 to FY2026 commencing on **April 1, 2023** and ending on **June 30, 2026** unless or until terminated by the parties hereto on written notice. Such notice shall be provided one hundred eighty (180) days prior to the end of the then current fiscal year and withdrawal from the agreement will be effective as of the last day of the succeeding fiscal year. In the event that Templeton fails to pay any invoice to Gardner in a timely manner, or in the event Templeton fails to approve a veteran services budget, as provided for herein and that is subject to appropriation by the Templeton Town Meetings, then Gardner may immediately suspend its services under this Agreement for non-performance. Upon receipt of the past due payments, together with adequate assurances of payment for future services, Gardner may commence performing its services again.
5. Cost sharing. During the term of this Agreement, Templeton will bear the costs of the Veteran's Service Officer according to the following fee schedules:
  - a. Templeton:
    - i. Fiscal Year 2023: \$5,000.00 (\$20,000 prorated)
    - ii. Fiscal Year 2024: \$20,500.00
    - iii. Fiscal Year 2025: \$21,000.00
    - iv. Fiscal Year 2026: \$21,500.00

with said costs based upon an approved veteran service budget subject to appropriation by Town Meeting and appropriation by the Gardner City Council, which will provide for the complete cost of wages, maintenance of the Veterans' Services Office, employee stipends, and supplies and training. Any modification(s) to this schedule must be agreed to in writing by each of the respective Town Select Boards and Gardner City Council and will take effect in the following fiscal year.

6. Services and Office Community Hours. Veterans' Services to be provided as part of the intermunicipal agreement are outlined in Massachusetts General Law Chapter 115, the by-laws of Templeton, Gardner ordinances, and the job description of the Veteran Services Officer, incorporated herein by reference.

Gardner, as the host municipality, shall provide office space and adequate support during designated office hours. Each municipality will allow the Veteran Services Officer to assist veterans and other eligible persons from each of the participating municipalities in this agreement during designated office hours to facilitate regional service delivery.

7. Dispute Resolution. In the event any disputes or questions arise between the parties as to the interpretation of the agreement or the satisfactory performance by any of the parties of the services and other responsibilities provided for in the

contract, the parties first agree to try in good faith to settle the dispute through negotiation, then try resorting to other dispute resolution procedures, before proceeding to litigation.

8. Reports. Gardner shall, upon request of Templeton, provide Templeton with reports on the services provided and annual reports of expenditures and revenues of all accounts necessary to provide a complete picture of the financial condition of the shared function.
9. Notice. Any and all notices, or other communications required or permitted under this Agreement, shall be in writing and delivered by hand or mailed postage prepaid, return receipt requested, by registered or certified mail or by other reputable delivery service, to the Boards of Selectmen and the Gardner Mayor at the addresses set forth below or furnished from time to time in writing hereafter by one party to the other party. Any such notice or correspondence shall be deemed given when so delivery by hand, if so mailed, when deposited with the U.S. Postal Service or, if sent by private overnight or other delivery service, when deposited with such delivery service.

Town Administrator  
Town of Templeton  
PO Box 620  
160 Patriots Road  
East Templeton, MA 01438

Mayor  
City of Gardner  
95 Pleasant Street  
Gardner, MA 01440

10. This Agreement constitutes the entire agreement of the parties and supersedes any prior agreements or understandings, whether oral or in writing, between them. This Agreement may not be changed or modified except by a written instrument in accordance with the provisions above.
11. This Agreement shall be governed by, construed and enforced in accordance with the laws of the Commonwealth of Massachusetts, the provisions of which shall not be deemed waived by any provision hereof, and the parties hereto submit to the jurisdiction of any of its appropriate courts for the adjudication of disputes arising out of this Agreement.
12. If any provision of this Agreement is declared to be illegal, unenforceable, or void, then the parties shall be relieved of all obligations under that provision provided, however, that the remainder of the Agreement shall be enforced to the fullest extent permitted by law.

In witness thereof, the parties hereto have executed this Agreement as of the first date written above.

RE: Notification regarding sale of City properties authorized by the City Council since 2020

Dear Madam President and Councilors,

As you are well aware, there are several properties that the City has recently sold that were either being unutilized by the City or were taken by the City through the tax title process.

Per the General Laws of the Commonwealth (Chapter 44, Section 63), when a property that was taken through the tax title process, any proceeds from those sales fall directly into the General Fund and fall to Free Cash at the end of the fiscal year, since they were not originally budgeted for/appropriated revenues. The proceeds of any property that the City sells that was not taken through the tax title foreclosure process fall to a special revenue account. The funds in this account may be used to help pay any costs associated by the City relating to the sale of property or be used to pay off any debt incurred by the City or for any purpose for which the City is authorized to incur debt.

***Section 63: Sale or other disposal of realty; disposition of proceeds***

*Section 63. Whenever the proceeds of the sale or other disposal of real estate, including the taking by eminent domain by another governmental unit, but other than that acquired through tax title foreclosure, by a city, town, or district, exceed five hundred dollars, the same shall be applied to the payment of indebtedness incurred in acquiring such real estate or shall be added to the sinking fund, if any, from which said indebtedness is payable, or if no such indebtedness is outstanding may be used for any purpose or purposes for which the city, town or district is authorized to incur debt for a period of five years or more or be applied to the payment of indebtedness incurred under clause (3) of section seven, except that the proceeds of a sale in excess of five hundred dollars of any park land by a city, town, or district shall be used only by said city, town, or district for acquisition of land for park purposes or for capital improvements to park land.*

I am hereby attaching a list of all of the properties the City has sold since 2020, if they were taken through the tax title process, the final sale price, and all responses submitted for the RFP processes.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

**PROPERTIES SOLD BY THE CITY:**

| Location                             | Tax Title | Listing Price | Accepted Offer       |
|--------------------------------------|-----------|---------------|----------------------|
| 53 School St                         | No        | \$ 1.00       | PROPOSALS REJECTED   |
| 73 Stuart St                         | Yes       | \$ 17,000.00  | \$ 17,000.00         |
| 177 West St                          | Yes       | \$ 20,000.00  | \$ 21,100.00         |
| 14 Leamy St                          | Yes       | \$ 51,000.00  | \$ 51,100.00         |

| <b>Total Sales:</b>                  |           |               | <b>\$ 360,400.00</b> |

**PROPERTY PROPOSAL BREAKDOWN FROM LATEST SALES:**

***53 School Street – School Street School:***

The City received one bid for this property to turn the property into 30 condominium units. However, the City was required to later reject the proposal, due to the fact that during the title search being done by the buyer, it was revealed that a portion of the back of the property was originally purchased as part of Jackson Playground for the purpose of creating a playground. As such, it falls under the protections of Article 97 of the Commonwealth's Constitution.

Since Jackson Park and School Street School sit on land that was purchased through three separate sales by the City, the Administration has begun to work with our local legislative delegation to conduct the statutorily required land swap vote that will come before the City Council for consideration as a Home Rule Petition once the vote document is completed.

After this process is done, the Administration will put the property back out for disposition.

***73 Stuart Street – Former Factory:***

The City received one proposal for this property from Millennium Holding Group, which is part of the Candor Realty/Simplified Management business group.

The proposal called for the full demolition of the existing structures on the property and the construction of two buildings that combined would have six to seven condominium units in them.

The price on the proposal was \$17,000.

The proposal came with a zoning relief contingency, so the closing has not happened yet. The applicant is scheduled to appear on the May Zoning Board of Appeals meeting.

***177 West Street – Former Finishing Factory demolished by City:***

The City received two proposals for this property:

| <b>Name</b>                 | <b>Proposal</b>                                      | <b>Price</b> | <b>Other:</b>                                                       |
|-----------------------------|------------------------------------------------------|--------------|---------------------------------------------------------------------|
| <b>Finished Homes, LLC.</b> | Either a 2-4 family dwelling or a mixed use building | 25,151       | -LLC dissolved by Secretary of Commonwealth<br>-Not a buildable lot |
| <b>David Bettez</b>         | Parking lot for existing business                    | 21,100       |                                                                     |

The property was awarded to David Bettez and is in the process of closing.

While Furnished Homes, LLC was the highest bidder, their LLC was dissolved by the Secretary of the Commonwealth's Corporations Division and after repeated requests for either clarification as to why this happened or new documentation showing otherwise, the company did not respond. As a result this bid had to be ruled as an incomplete submission and thrown out.

***14 Leamy Street – Former factory demolished by GRA:***

The City received one proposal from Mr. David Bettez for this property for the purpose of constructing an ADA/elderly friendly multifamily residential building. The price proposal came in at \$51,100. The property was awarded and is in the process of closing.

***75 East Broadway – Prospect Street School:***

The City received five (5) proposals for this property:

|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|----------------------------------------------------------------------------------|
| <b>MPZ Development</b>            | 53 apartment units. Requires construction of second building on site.                                                                                                             | 295,000 | -Required 5 year closing timeline<br>-Required \$1.2 million tax break from City |
| <b>Furnished Homes, LLC</b>       | After purchase would conduct survey to either attract national business or build housing if couldn't find a business.                                                             | 126,151 | LLC dissolved by Secretary of the Commonwealth                                   |
| <b>Molina Realty Group</b>        | Upscale market rate residential housing                                                                                                                                           | 105,000 |                                                                                  |
| <b>East Coast Properties, Inc</b> | Art Studio Loft Apartment building. 6 Art studios on first floor, apartments for artists on second floor.                                                                         | 100,000 | Empire Management Company                                                        |
| <b>NewVue Communities</b>         | 65 rental apartments for mixed income- extreme low income to workforce housing. 15 one bedroom apartments reserved for seniors. Requires construction of second building on site. | 100,000 | Also required sale of parking lot behind South Gardner Fire Station              |

The property was awarded to Molina Realty for the price of \$105,000.

While MPZ Development was the top bidder, the Review Committee and the Administration did not believe that the 5-year closing time period and the \$1.2 million property tax break by the City were in the best interest of the City.

Furthermore, while Furnished Homes, LLC was the second highest bidder, their LLC was dissolved by the Secretary of the Commonwealth's Corporations Division and after repeated requests for either clarification as to why this happened or new documentation showing otherwise, the company did not respond. As a result this bid had to be ruled as an incomplete submission and thrown out.

***Land on the corner of Nichols and Parker Streets – former multifamily that was demolished after fire:***

The City received two (2) proposals for this property:

RE: Notification regarding Information about District Improvement Financing Study

Dear Madam President and Councilors,

In both 2021 and 2022, the City received grant funding from the Community One Stop for Growth program to study whether or not the City should adopt District Improvement Financing areas.

As part of this process, the consultants from MassDevelopment would like to present their findings to the City Council at an informal meeting, in order to keep a dialogue going about the subject in the event that a proposal for this comes before the City Council at a later date.

I have attached the presentation they plan to give to this correspondence so that the Councilors may view the presentation beforehand to be able to ask questions that may arise from the information.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

City of **GARDNER**

City Presentation

City of Gardner, MA  
May 1, 2023

# AGENDA

---

- Introductions
- What Has Been Done So Far
- What is District Increment Financing
- How has DIF been used
- Next Steps
- Questions & Discussion

# WHAT HAS BEEN DONE SO FAR

## WHAT HAS BEEN DONE SO FAR

- 2011 –Urban Renewal Plan
- 2012 – Urban Renewal Plan, Mill Street Corridor
- 2022 – District Increment Financing Feasibility Analysis
  - Found DIF would generate funds to offset public investment
- 2023 (ongoing) – Phase 2 of the DIF analysis
  - Refine assumptions
  - Create DIF Master Plan

# WHAT IS DIF?

## WHAT IS DISTRICT IMPROVEMENT FINANCING (DIF)?

- Financing method to **catalyze economic development**
- Allows some or all of future property tax revenues from development to be dedicated to support infrastructure, projects, and programs related economic development
- Property tax increment can be used to help finance public development costs
- Portion of incremental revenues not dedicated for DIF can be transferred to General Fund and once DIF expires, all revenues go to general fund

It is ***not*** a new tax or a special assessment on top of the existing property tax.

It ***is*** a tool that enables a community to identify and capture tax revenue from new private investment that has been *catalyzed* by public investment.

# KEY DIF TERMS

Development  
District

Development  
Program

New  
Growth

Tax  
Increment Revenue

A specified area within the corporate limits of a city or town which is to be developed by the municipality under a Development Program. Also referred to as a **DIF District**.

A statement of means and objectives designed to improve the quality of life, the physical facilities and structures and the quality of pedestrian and vehicular traffic control and transportation within a Development District.

Increases to the assessed value of a property, as a result of development or other changes.

New Growth generates new tax revenue and enables you to raise your tax levy limit.

All annual increases in the municipality's limit on total taxes assessed that are attributable to parcels within the DIF District.

*Tax Increment Revenue* is additional revenue that is collected because of New Growth in the DIF District.

# WHAT DIF DOES

Establishes the Original Assessed Value of the District,

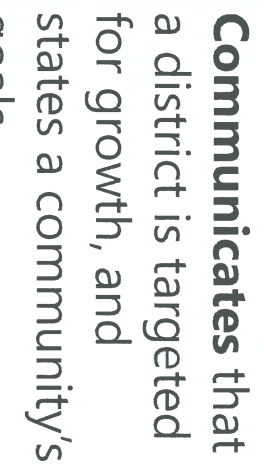

Measures New Growth each year and the cumulative increases, or Tax Increment

Calculates and captures revenues from the Tax Increment

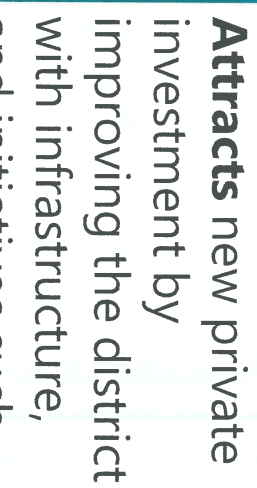

## Mechanics of DIF

1. Identify a district
2. Identify public projects and estimated costs
3. Estimate revenues from increased assessed values from new private investment
4. Make policy choices on revenue capture, capital plan, duration of district
5. Adopt through local process
6. Manage over time: identify, collect, and spend revenues, complete public projects

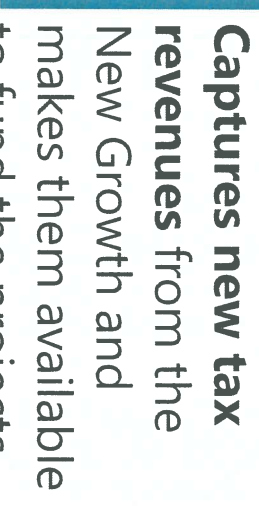

# HOW DIF PAYS FOR ECONOMIC DEVELOPMENT

**Communicates** that a district is targeted for growth, and states a community's goals

**Attracts** new private investment by improving the district with infrastructure, and initiatives such as workforce training

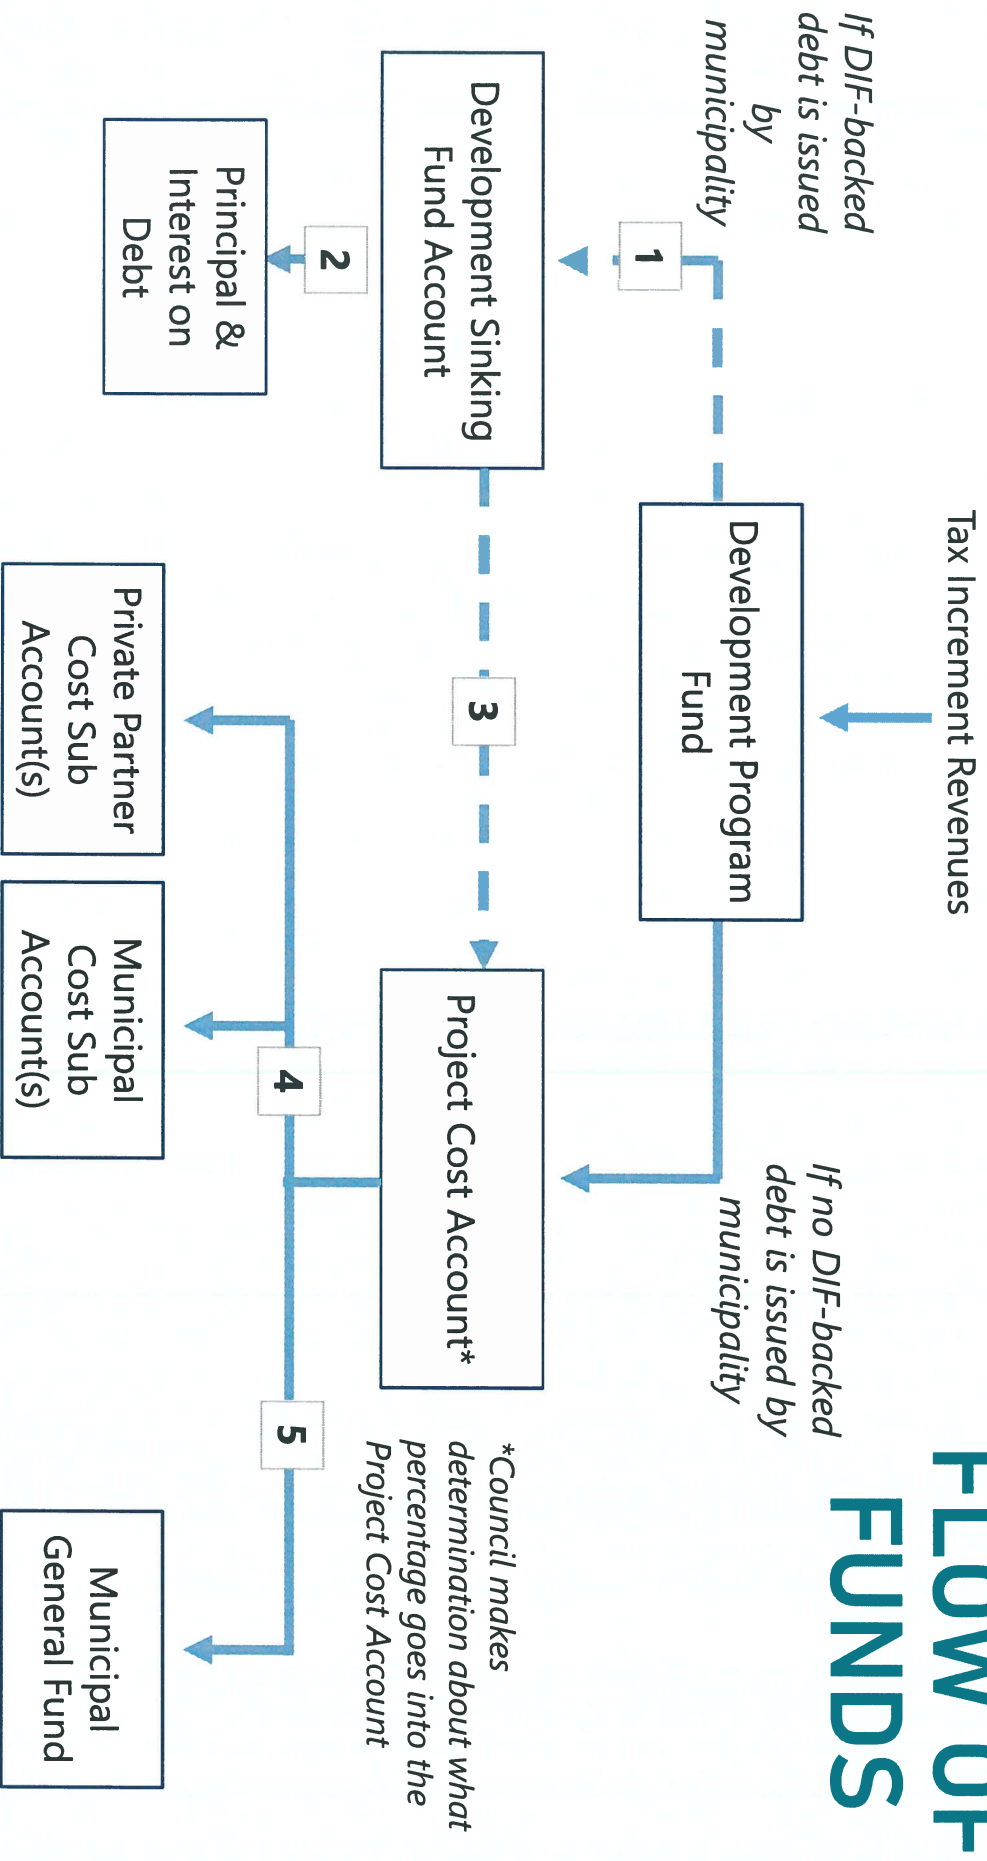

**Captures new tax revenues** from the New Growth and makes them available to fund the projects that drive growth

### DIF Revenues and the General Fund

# FLOW OF FUNDS

# TYPES OF INVESTMENT

Eligible Public Project Costs

**Capital &  
Workforce  
Investment**

**Land & Leasing**

**DIF Creation &  
Administration**

# HOW ARE COMMUNITIES USING IT?

## WHAT ARE MASSACHUSETTS COMMUNITIES DOING WITH DIF?

- Revitalize downtowns
- Support long-term infrastructure plans
- Return under/unused property to taxable use
- Encouraging community-desired mix of business, housing, recreation

Town of Dedham, Adopted May 20, 2019

*Providence Highway District*

- *DIF District Adoption to catalyze community conversation*
- *Work with MassDot to improve Route 1*
- *Connect to greenspace at Wigwam Pond and Charles River*
- *Adopt Development Program after Town Master Plan complete*

- City of Amesbury, South Hunt DIF, Adopted February 13, 2019
- Atlantic Center Youth Sports Facility with Office, Restaurant*
- *\$400,000 MassWorks grant facilitated by DIF*
  - *Tax Increment Financing Approved*
  - *\$40 million private investment*
  - *DIF will fund road improvements to support project*

Town of Easton, Adopted May 20, 2019

*Five-Corners District*

- *Implements Envision Easton plans for vibrant mixed use*
- *Reduces betterments for critical sewer infrastructure costs*
- *Sidewalks, streetscapes, connectivity can be funded*

# KEY STEPS

## Planning:

- Why (purpose)
- What (projects)
- Where (district)

## Approval:

- Communications, engagement
- Local review and approval

## Implementation and Monitoring:

- Internal tracking and reporting
- Reporting to policymakers and public

## NEXT STEPS

- Refine public and private project list
- Update build out analysis
- Measure the potential new revenue and potential uses of funds
- Draft of legislative documents
- Council approval process

# QUESTIONS & DISCUSSION

*Rachel Selsky, Project Manager*

*Jim Damicis, Principal*

*Camoin Associates*

*518 899-2608*

*Rachel@camoinassociates.com*

*jim@camoinassociates.com*

# HOW DIF GENERATES AND CAPTURES REVENUE

## Original Assessed Value (OAV): \$3 million

Property Taxes Paid on OAV: \$59,850

(\$3 million X tax rate at 19.95 per \$1,000 of value)

Available to General Fund: \$59,850

## Assessed Value (AV) of New Growth: \$10 million

Tax Revenues from New Growth in Year 1: \$199,500 (\$10 million x tax rate of 19.95)

\$997,500 of Cumulative New Growth with DIF, by Year 5

*(assumes no other New Growth or tax rate changes)*

RE: Update Regarding Federal Earmark for Water Transmission Line

Dear Madam President and Councilors,

The attached correspondence was sent to the Public Service Committee for their information regarding the FY2023 Congressional Directed Spending Earmark that the City received to replace the Water Transmission Line connecting the Crystal Lake Water Treatment Facility to the James Street Storage tanks.

Please note that the City also was approved for an additional \$1 million bond authorization in the Commonwealths Infrastructure Improvement Bond Bill that was voted by the General Court last session.

Should Governor Healey choose to fund this bond authorization, the language was written in a way that it would allow us to use this additional appropriation, if received, on other water line work in the area.

Respectfully Submitted,

Michael J. Nicholson

RE: Free Cash Appropriation Request – Snow and Ice Deficit

Dear Madam President and Councilors,

The Administration has begun the process of closing out the fiscal year and covering any deficits that exist in accounts.

The attached request covers the deficit that exists in the City's snow and ice removal account for operations that took place this winter.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

**From:** Chris Coughlin  
**Sent:** Wednesday, April 26, 2023 8:59 AM  
**To:** Mayor  
**Subject:** FW: [EXTERNAL] Final FY23 Community Grant Guidance  
**Attachments:** FY23 Community Grants Final Implementation Guidance.pdf

Mr. Mayor,

Here is the latest correspondence I received from the EPA who will be administering the grant for our new transmission main. In summary, we've officially been awarded the money but are still waiting on guidance for funding. We will likely have more information after EPA reaches out directly within the next few weeks.

Thanks,  
 -Chris

**From:** Spinale, Mark <Spinale.Mark@epa.gov>  
**Date:** Thursday, April 20, 2023 at 8:19 AM  
**To:**  
**Subject:** [EXTERNAL] Final FY23 Community Grant Guidance

**CAUTION:** This email originated from a sender outside of the City of Gardner mail system. Do not click on links or open attachments unless you verify the sender and know the content is safe.

As you may recall, I sent an initial email on March 8, 2023 to all FY23 Community Grant recipients indicating that we were awaiting final guidelines that will be in effect for the FY23 Congressionally Directed Spending (CDS) projects. The guidelines have now been finalized and I am attaching that document to this email which explains the Community Grant Program and includes important information regarding the program. The guidance (1) provides information on how EPA plans to award and administer the Community Grants, (2) identifies the associated requirements and (3) provides resources and tools to assist recipients with developing comprehensive application packages. Key highlights include:

- An overview of the grant phases (pre-award and post-award) and associated requirements and processes.
- Steps for submitting requests for Technical Correction when the identified recipient and/or project purpose need to be corrected/revised.
- Publicly available cost share waiver criteria data sources for recipients who decide to request consideration for cost share waiver approval.
- Resources to assist with National Environmental Policy Act (NEPA) compliance, workplan and budget development, and complete application instructions.

You can also visit [EPA Community Grants](#) for program updates and to access training information and additional resource materials as they become available.

I strongly encourage you to read these guidelines and become familiar with the requirements that will be applicable to your projects.

In the next few weeks, staff from EPA will be reaching out to you for the purpose of assessing the readiness of your project to proceed to bid/construction. We will make that assessment through a series of questions we have developed to inform us in that regard. As mentioned in my March 8 email, we are currently hard at work with the FY22 CDS recipients on their projects to move them forward and work towards grant award for those

projects. Because of this, it will take time for us to assign specific EPA Project Officers for the FY23 CDS recipients. In order to move on any FY23 project, EPA first needs to determine how soon your projects will be ready to proceed, knowing that many preliminary steps must be taken before any grant award can be made.

I thank you upfront for your patience as we work through this process together, and please try to make yourself available for the calls we will be making in the coming weeks.

Mark

## Purpose

This document provides information and guidelines on how the U.S. Environmental Protection Agency (EPA) will award and administer water infrastructure projects identified as Congressionally Directed Spending (CDS) and Community Project Funding (CPF) items in Appropriations Acts. For Fiscal Year (FY) 2023, the Consolidated Appropriations Act (P.L. 117-328) includes \$1,472,364,541 in the State and Tribal Assistance Grants (STAG) account for 715 drinking water, wastewater, stormwater infrastructure, and water quality protection projects.<sup>1</sup>

## Background

President Biden signed the FY 2023 Consolidated Appropriations Act (P.L. 117-328) into law on December 29, 2022. In this law, Congress continued the practice of funding specifically named community infrastructure projects, referred to by the Senate as CDS items and in the House of Representatives as CPF items. [Appendix A](#) of this document provides the pertinent section of the Consolidated Appropriations Act, 2023, also referred to as the EPA's FY 2023 Appropriations Act. Water infrastructure CDS/CPF projects are further referred to as Community Grants projects in this document.

## Eligibility

Community Grants projects are designated for the planning, design, and construction of drinking water, wastewater, and stormwater infrastructure and for water quality protection. Eligible Community Grant projects are included in Appropriations Acts. For FY 2023, eligible projects are referenced in the explanatory statement found in [Appendix A](#). [Appendix B](#) lists each project that is eligible for funding under the FY 2023 Appropriations Act and identifies the state, recipient name, purpose, and appropriated funding amount of each project. EPA will use the Clean Water State Revolving Fund (CWSRF) and Drinking Water State Revolving Fund (DWSRF) framework to guide implementation of these Community Grants; the [CWSRF](#) and [DWSRF](#) eligibilities should be referred to for development of workplans, project scopes, costs, and sub-awards. Funds appropriated for Community Grants projects may not be awarded solely to repay loans received from SRF programs or to repay other debts unless there are explicit instructions to do so in Appropriations Acts or accompanying explanatory statements and/or committee reports. These funds may not be used for operation and maintenance.

## Technical Corrections

Should a Community Grant recipient identified in an Appropriations Act need to modify the type, purpose, or named recipient of the Community Grant, a technical correction will be needed. The Agency's FY 2006 Appropriations Act (P.L. 109-54) included a permanent authority that allows EPA to make technical corrections to Community Grants only after consultation with Congress, without the need for additional legislation. For example, if a recipient (*e.g.*, City of Salem) is named in the authorizing language but a different legal entity (*e.g.*, Salem Wastewater

---

<sup>1</sup> In the FY 2023 Consolidated Appropriations Act, EPA received a total of 733 CDS/CPF projects for \$1,502,588,541. Of this total, 715 projects are for water community projects; this document pertains to these projects.

Utility) owns the infrastructure, the recipient can request a technical correction. As another example, if the Appropriations Act provides for a specific type of project (*e.g.*, drinking water) when a different type of project (*e.g.*, wastewater) is needed, the recipient can request a technical correction to change the project type.

### **Appropriate Types of Technical Corrections**

A technical correction can be made for all, or part of a project identified in an Appropriations Act to change the recipient, the purpose, or both. The statutory language that provides EPA with the authority to make technical corrections does not limit the extent to which a technical correction can alter the original project, if the new project provides for water quality protection or involves construction<sup>2</sup> of drinking water, wastewater, or stormwater infrastructure. Technical corrections cannot, however, be used to change the project purpose to debt repayment, because debt repayment does not meet the statutory terms of the authority. After consultation with the House and Senate Committees on Appropriations, EPA will generally approve changes in purpose that meet the above criteria or changes in recipient where both the original entity and the new entity to be named concur with the change. Any technical correction request involving a change to both the purpose and the recipient entity must be accompanied by additional documentation explaining:

- The need or reason for the change;
- The relationship between the two entities;
- Who initiated the request; and
- The involvement of any third parties, if known.

Additional information on technical corrections is provided in [Appendix C](#).

### **Cost Share Requirements**

Appropriations Acts require each Community Grant recipient to provide a cost share from non-federal sources unless the recipient is approved for a cost share waiver by EPA. For FY 2023, the cost share amount is 20% of the total grant project cost. All contributions toward cost share should be included in the grant budget and must be categorized in the appropriate grant budget category (see [Appendix D](#) for more information on budget development). The source of the cost share must be included in the workplan and payment requests. EPA may pay 80% of costs shown on approved payment requests up to the approved federal funding amount.

- All grant funds, including a cost share, can be used only for allowable costs in executing the project. All cost sharing funds must have supporting source documents (a record that supports a transaction).
- Services donated to recipients may be furnished by professional and technical personnel and consultants in accordance with [2 CFR 200.434](#). Dollar values must be placed on all

---

<sup>2</sup> “The term ‘construction’ means any one or more of the following: preliminary planning to determine the feasibility of treatment works, engineering, architectural, legal, fiscal, or economic investigations or studies, surveys, designs, plans, working drawings, specifications, procedures, field testing of innovative or alternative waste water treatment processes and techniques meeting guidelines promulgated under section 1314(d)(3) of this title, or other necessary actions, erection, building, acquisition, alteration, remodeling, improvement, or extension of treatment works, or the inspection or supervision of any of the foregoing items.” (33 U.S.C. § 1292(1)).

donated services in accordance with 2 CFR 200.306. All cost sharing funds must be included in the workplan and budget and be part of the grant's total project costs.

- All cost sharing funds must conform to the same laws, regulations, grant conditions, etc., as the federal funds within the grant; recipients may prefer to limit cost sharing to the amount required.

See Appendix D and Appendix F for information on general principles of cost allowability.

### Sources of Cost Share

Eligible sources of “non-federal” funds to meet the cost share requirement are described below; recipients can use any or a combination of the following eligible sources if the requirements in 2 CFR 200.306 are met:

**1) Public sources<sup>3</sup>.** The following public funding sources can be used to meet the cost share requirement:

- State appropriations;
- Local government match to the grant project;
- U.S. Department of Housing and Urban Development, Community Development Block Grant funds;
- U.S. Department of Agriculture, Rural Development funds;
- Appalachian Regional Commission funds; and,
- The CWSRF and DWSRF programs if those funds are:
  - non-federal funds such as loan repayments, interest earnings, bond proceeds, and fees, or
  - a state contribution to the SRF above the statutorily required 20% match.

*Note:* EPA has issued a class deviation document pertaining to CWSRF and a policy memo pertaining to DWSRF that allow Community Grant recipients to use certain sources of funds from the two SRF programs as the non-federal cost share. The class deviation and policy documents allow SRF programs to use the non-federal and non-state match share of SRF funds to provide loans that Community Grant recipients can use as the cost share for community projects.

Funding made available to jurisdictions through the American Rescue Plan Act of 2021 (ARPA), including ARPA Revenue loss funds, cannot be used to meet the non-federal cost share requirement.

- 2) Private sources.** These include funding from a business or nonprofit contributing to the project.
- 3) In-kind services.** These may include the applicant's administrative expenses for managing and overseeing the grant and projects, provided that the expenses are not being reimbursed by the federal share of the grant award. In-kind services contributed by other

---

<sup>3</sup> Community Grant recipients can use federal funds from other programs as all, or part, of the cost share only if the statute authorizing those programs specifically allows the funds to be used as match for other federal grants. Additionally, other federal program funding must be allowed to support the planning, design and/or construction of drinking water, wastewater, or stormwater infrastructure projects.

entities may also be allowable as cost share. Force accounts may be used as in-kind services: personnel costs include salaries, wages, and allowable incentive compensation for recipient employees (i.e., who receive W-2 forms) who spend time working on the project. In-kind (cost share) contributions must be verifiable and documented. For example, if the recipient does not intend to charge the EPA assistance agreement for all time employees spend working on the project, the applicant may include salaries or wages in the personnel category for cost share purposes.

### **Determining Cost Share Amount**

For the purposes of calculating the cost share amount, the amount specified in the FY 2023 Appropriations Act for EPA's contribution represents 80% of the total grant project cost. Grant applications are not required to reflect costs that exceed total grant project costs as calculated below; this is the minimum total grant project cost required to receive the full FY 2023 appropriation amount.

The following example demonstrates how to calculate the cost share amount using \$100,000 as the EPA contribution:

#### **A. Identify the Total Grant Project Cost**

Divide the EPA contribution by .80 to calculate the total grant project cost:

$$\$100,000 \div 0.80 = \$125,000.$$

\$125,000 is the total grant project cost

#### **B. Multiply the Total Grant Project Cost by .20 to determine the cost share amount**

Total grant project cost x .20 = required cost share amount

$$\$125,000 \times .20 = \$25,000$$

\$25,000 is the required 20% cost share amount

#### **C. Confirm**

*Total grant project cost = EPA Contribution + Cost Share Amount.*

$$\$125,000 \qquad = \qquad \$100,000 \qquad + \qquad \$25,000$$

### **Waivers to Cost Share Requirements**

EPA supports waiving required non-federal cost share for projects located in, or that primarily serve, disadvantaged communities. EPA is using the discretion provided by the FY 2023 Appropriations Act (see [Appendix A](#)) to consider waiving or reducing statutorily required non-federal cost share on Community Grant funds when requested and appropriate.

For projects identified in the FY 2023 Appropriations Act, EPA will consider the Cost Share Waiver Criteria A – F<sup>4</sup> below, in defining disadvantaged communities for the purposes of Community Grants. This set of criteria differs from that which is available when EPA considers requests for waivers from the cost share requirement for projects identified in the FY 2022 Appropriations Act.<sup>5</sup> Projects identified in the FY 2023 Appropriations Act that are in communities that meet at least one of the criteria below may request a waiver of the non-federal cost share requirement under the Community Grants Program. Systems that serve large service areas with a specific project that will primarily serve a subset of its service area that meets one of these criteria may also request a waiver.

Waivers to the cost share requirement must be approved by EPA’s Assistant Administrator for Water, in accordance with EPA’s Delegation of Authority 1-102.<sup>6</sup> Recipients requesting cost share waivers should submit a written request to the Regional EPA Project Officer for consideration. Waiver requests should include applicable Cost Share Waiver Criteria(s) and any related supporting documentation including source data retrieved from the websites noted below.

Many of the criteria can be found online on the Census Bureau’s website. Recipients can start by entering their community’s name in the search bar and viewing the community’s profile. Tables and graphics from the Census Bureau’s website can be downloaded or embedded in a recipient’s cost share waiver request. Recipients should use the most recent data available. Specific tables with more detailed information and other publicly available datasets beyond the community profile page for each metric are provided below.

### Cost Share Waiver Criteria

#### **A. Community median household income (MHI) is less than 80% of State MHI**

- MHI can be found on a community’s profile page of the US Census Bureau – use the search function to find your community. Communities should use the most recent data available.
- MHI is also available for most communities from the latest annual Census American Community Survey (ACS) data collection. In the few cases where a

<sup>4</sup>EPA developed Cost Share Waiver Criteria A – F for the purposes of assessing the appropriateness of waiving the cost share requirement for the 715 drinking water, wastewater, stormwater infrastructure, and water quality protection projects identified in the FY2023 Consolidation Appropriations Act, based on EPA’s Memorandum: Implementation of the Clean Water and Drinking Water State Revolving Fund Provisions of the Bipartisan Infrastructure Law, March 8, 2022 (see Attachment 1, Appendix E, of the memorandum).

<sup>5</sup> EPA’s FY 2022 Community Grants Implementation Guidance identifies three criteria that are not available for consideration of cost share waivers for projects identified in the FY 2023 Appropriations Act: Communities with  $\geq$  3.4% unemployed population  $\geq$  16 years in civilian labor force, Communities with  $\geq$  12.1% vacant households, and Communities in counties with Social Vulnerability Index scores higher than 0.80.

<sup>6</sup> EPA’s *Delegation of Authority 1-102, Grants and Cooperative Agreements for Water Infrastructure Projects or Other Water Resource Projects from Funds Appropriated for the State and Tribal Assistance Grant Account or the Environmental Programs and Management Account*, authorizes EPA’s Assistant Administrator for Water and Regional Administrators, “To approve and administer grants and cooperative agreements for water infrastructure projects or other water resource projects from funds appropriated for the State and Tribal Assistance Grant Account or the Environmental Programs and Management Account or any successor accounts, including a project authorized by Section 510 of the Water Quality Act of 1987, P.L. 100-4, 101 Stat. 7,80, EPA’s FY 1991 Appropriations Act (P.L. 101-507), and any subsequent public law; and to perform other activities necessary for the effective administration of those grants and cooperative agreements.”

local jurisdiction's MHI is not available, the surrounding county's MHI may be sufficient. The Census Bureau provides annual 5-Year Average Median Household Income data in Table B19013. Click on the B19013 Table, select GEOS and search under “most common geographies” select “State” and then select the relevant and enter community name in the search bar.

- B. Communities with \$25,766 or less upper limit of Lowest Quintile Income**
  - Communities can view their Lowest Quintile Income on the Census Bureau website and search by community name and “B19080 HOUSEHOLD INCOME QUINTILE UPPER LIMITS.” Communities should use the most recent data.
- C. Communities with  $\geq 30.9\%$  Population Living Under 200% of Poverty Level**
  - The US Department of Health and Human Services provides US Federal Poverty Guidelines, including a chart with percentage of poverty levels (i.e., 200%).
  - More detailed information on the population living under the poverty level can be found in Table S1701: Poverty Status in the Past 12 months for communities.
- D. Community with census tracts that have a poverty rate greater than or equal to 20%**
  - Percent of the poverty rate can be found on a community’s profile page provided by the Census Bureau.
  - More detailed information can be found in Table S1701: Poverty Status in the Past 12 months.
- E. Combined sewer and drinking water costs are greater than 2% of the 20th percentile household income**
  - Communities can view their Lowest Quintile Income on the Census Bureau website and search by community name and “B19080 HOUSEHOLD INCOME QUINTILE UPPER LIMITS”. Communities should use the most recent data.
  - The total bills for one year for residential customers can be found from the community’s local utilities.
- F. Communities with  $\geq 11.7\%$  Population Receiving Food Stamps/SNAP Benefits**
  - Communities can find the percentage of their population receiving SNAP benefits on the Census Bureau website. Select “view state and local data” to search by state and then City/town or county.

### **Insular Territories Projects**

The non-federal cost share requirement is waived for any community projects located in the U.S. territories. This is consistent with the Omnibus Territories Act of 1977, which authorizes Departments and Agencies to award grants to Insular Territories, such as the U.S. Virgin Islands, without a match requirement.

### **Tribal Projects**

Consistent with the implementation of the Clean Water Indian Set-Aside Grant Program under Clean Water Act (CWA) Section 518 and the Drinking Water Infrastructure Grants Tribal Set-Aside Program under Safe Drinking Water Act (SDWA) Section 1452(i), which do not require tribal cost share, EPA will waive the non-federal cost share for tribal community projects.

## Grant Administration: Community Grants Lifecycle

EPA's Community Grant appropriations are STAG infrastructure grants to improve water infrastructure and water quality through funding for drinking water, wastewater, and stormwater projects. [Appendix B](#) lists the 715 water CDS/CPF projects identified in the FY 2023 Appropriations Act. These 715 projects are collectively funded "off the top" at a level of \$863,108,642 from the FY 2023 general CWSRF appropriations and \$609,255,899 from the FY 2023 general DWSRF appropriations.

EPA's Regional Offices will administer Community Grants as authorized under EPA's Delegation of Authority 1-102.<sup>6</sup> Per EPA's Delegation of Authority 1-14A,<sup>7</sup> EPA Regional Administrators are authorized to award grants and cooperative agreements, including Community Grants, that were appropriated in FY 2023.

The following sections describe the lifecycle stages of each award. Additional information on grants policies and resources, including on receiving and managing EPA grants, is listed in [Appendix F](#).

### Pre-Award Phase

While Congress directs Community Grant funds to specified recipients for defined projects, recipients are required to fulfill statutory and regulatory requirements **before** EPA can award grant funding. These requirements include but are not limited to providing necessary information for the National Environmental Policy Act (NEPA) environmental review, review of any pre-award costs, and submitting a complete grant application package. [Appendix D](#) and [Appendix E](#) provide information on grant application package content and submission.

#### **1. NEPA Environmental Review**

As required by EPA's NEPA implementing regulations ([40 CFR 6.100-6.406](#)), EPA must complete the NEPA review process before awarding a grant for design and/or construction.

The requirement for an environmental review under NEPA generally does not apply to grants solely for planning activities, such as infrastructure assessments, watershed plans, and wastewater capital improvement plans. Applicants should check with their [EPA Regional Contact](#) to determine if NEPA applies to a particular Community Grant. See the [Regulations and Requirements](#) section and [Appendix F](#) for additional information about NEPA Environmental Review.

#### **2. Pre-award Costs and Procurement Review**

Costs incurred prior to grant awards may be eligible for reimbursement if the costs are in conformance with applicable federal and EPA statutes and regulations. Incurred costs are financial obligations: costs owed by an entity as a result of a transaction. The costs may have

---

<sup>7</sup> EPA's *Delegation of Authority 1-14A, Assistance Agreements*, authorizes Regional Administrators, the Assistant Administrator for Mission Support, and the Chief Financial Officer, "To take all necessary actions to award, obligate and de-obligate funds for, and administer fellowship, grant, cooperative and loan agreements (hereinafter financial assistance), and to make any final determinations required by law or regulations, with eligible recipients."

been paid or remain unpaid. The regulations at 2 CFR 200.458 require that pre-award costs be incurred "...directly pursuant to the negotiation and in anticipation of the Federal award where such costs are necessary for efficient and timely performance of the scope of work. Such costs are allowable only to the extent that they would have been allowable if incurred after the date of the Federal award and only with the written approval of the Federal awarding agency. If charged to the award, these costs must be charged to the initial budget period of the award, unless otherwise specified by the Federal awarding agency or pass-through entity."

For Community Grants projects identified in the FY 2023 Appropriations Act, pre-award costs must be incurred on or after October 1, 2022, to be considered for eligibility. Notwithstanding, and consistent with 2 CFR 1500.9, all costs incurred before EPA makes the award are at the recipient's risk. EPA shall review the eligibility of such costs on a case-by-case basis prior to approving the project budget and awarding the grant.

A review of pre-award costs includes a review of contracts executed prior to award for compliance with applicable procurement regulations as described in Regulations and Requirements.

### **3. Application Forms, Workplan, and Submitting an Application**

Upon completion of an environmental review under NEPA, development of a project workplan<sup>8</sup>, and review of any pre-award costs (including any costs related procurement), applicants should submit a complete grant application package to EPA. The workplan and application must include any pre-award costs. Recipients must ensure that their organizations have registered with the federal government's System for Award Management (SAM). Recipients must have an active registration/record with SAM.gov and complete the Grants.gov registration process to apply for any federal funding.

The complete grant application includes several forms, as described in Appendix D. These forms **must** be downloaded from the Community Grant opportunity package on Grants.gov - generic versions of the standard forms not downloaded from the Grants.gov website will not

---

<sup>8</sup> The SRF appropriations are the vehicles being used to appropriate the CDS/CPF funds. However, the SRF authorities do not govern or authorize the CDS/CPF grants. The Consolidated Appropriations Act is structured so that the CDS/CPF funding is taken from the total amount in the SRF appropriations prior to the SRF allocation to the states. Accordingly, Program Results Codes (PRCs) have been assigned to each CDS/CPF project's funding based on the SRF account from which each project's funding was appropriated. However, the authorities governing the CDS/CPF projects are the language in the FY 2023 Consolidated Appropriations Act, which states that, "...\$863,108,642 of the funds made available for capitalization grants for the Clean Water State Revolving Funds and \$609,255,899 of the funds made available for capitalization grants for the Drinking Water State Revolving Funds shall be for the construction of drinking water, wastewater, and storm water infrastructure and for water quality protection..." and in the explanatory statement accompanying the FY 2023 Consolidated Appropriations Act (Appendix A)." **Therefore, CDS/CPF grant/workplan activities may entail construction of drinking water, wastewater, and storm water infrastructure, and water quality protection related tasks, irrespective of EPA's assignment of PRC.** Additionally, there is language in the explanatory statement that indicates the SRF is not intended to be the authority for the CDS/CPF funds. For example, the explanatory statement states: "Applicable Federal requirements that would apply to a Clean Water State Revolving Fund or Drinking Water State Revolving Fund project grant recipient shall apply to a recipient receiving a CDS/CPF grant under this section." That direction would be unnecessary if Congress was appropriating the CDS/CPF funds under the SRF authorities.

be accepted. See [Appendix D](#) for instructions on how to navigate to the Funding Opportunity Package and download the standard forms. [Appendix F](#) includes information on budget development and allowability of costs. In addition to the required forms, grant applicants must submit a project workplan that describes the proposed project, the milestone schedule, the need for the project, and the anticipated environmental and public health benefits (outputs and outcomes). See Community Grants Workplan Contents/Outline in [Appendix E](#) for more information.

Applicants must submit a complete application package (with all required forms, a workplan, and additional required documentation) for EPA review and approval, through the grants.gov portal. See additional information in [Appendix D](#).

### Post-Award Phase

After receiving an award, the recipient is ready to start working on the activities outlined in the approved workplan. Adhering to various grant regulations and the terms and conditions outlined in the grant agreement are critical to ensuring a successful grant project.

- Recipients submit payment requests to EPA for incurred costs. In some cases, pre-award costs may be included. Once the payment request is approved, the recipient can draw down the requested amount. As required by [2 CFR 200.305\(b\)](#), EPA requires that recipients of EPA financial assistance participate in the [Automated Standard Application for Payments \(ASAP\)](#) system. Recipients must request payment for the minimum amounts needed for actual and immediate cash. Recipients will submit a payment request including supporting documentation such as copies of bills (vouchers, invoices, etc.), along with a description of services rendered, time spent, and charges for EPA review and approval. After review and approval, EPA will pay the recipient for the federal share of the allowable costs shown on the payment request. Information on [ASAP](#) is available online.
- EPA grants contain General, Administrative, and Programmatic terms and conditions, which include reporting requirements such as filing an interim (annual) Federal Financial Report (FFR), annual MBE/WBE Reporting, and progress report submission. [EPA's General Terms and Conditions](#) are applicable to all EPA awards, and additional terms and conditions for Community Grants awards will be specified in individual award agreements. Recipients should regularly review grant award terms and conditions throughout the life of the project to ensure that the organization remains in compliance with all requirements and must inform EPA if problems arise that jeopardize the completion of the project. EPA Regional Offices perform construction monitoring and oversight.
- Recipients' personnel payroll and records system must be capable of providing reports on the activities of each employee who works directly on a grant. Charges to federal awards for salaries and wages must be based on records that accurately reflect the work performed. Activity reports are typically signed by the individual employee and/or by a responsible supervisory official having first-hand knowledge of the activities performed by an employee. The supervisor should be able to certify that the distribution of activity represents a reasonable estimate of the actual work performed by the employee during the periods

covered by the reports. [2 CFR 200.430](#) provides additional information on Standards for Documentation of Personnel Expenses.

- Recipients should contact the EPA Project Officer should any changes to the grant agreement (e.g., workplan, milestone schedule, budget) become necessary for the project to succeed, as soon as possible to discuss the changes. In accordance with [2 CFR 200.308](#), most changes must be approved by EPA and may require a formal amendment to the assistance agreement.
- EPA conducts administrative monitoring, including reviewing recipient invoices/payment requests and programmatic reports, and can request access to all records and conduct grant audits. EPA can disallow costs and take enforcement actions if the recipient fails to remain in compliance.

### **Closeout Phase**

Closeout refers to the process EPA uses to determine that a recipient has completed all the required workplan activities under a grant and confirm that all applicable financial and administrative requirements as described in [2 CFR 200.344](#) have been met.

- Recipients must submit the final progress report according to the terms and conditions listed in the grant agreement and should demonstrate satisfactory completion of all workplan tasks and activities.
- Recipients prepare and submit several reports as part of the grant closeout process. [EPA's Frequently Asked Questions about Closeouts](#) provides information about closeout requirements, procedures, records retention, and associated regulations. EPA provides more information for recipients via the [online course on closing out grants](#).

### **Regulations and Requirements**

Recipients are responsible for compliance with many statutes, regulations, and requirements including but not limited to [EPA's general regulations](#). In addition, each grant agreement will specify terms and conditions that establish a legally binding agreement between EPA and the recipient including but not limited to [EPA's General Terms and Conditions](#). Details and information related to several requirements that are of particular importance for recipient compliance prior to receiving grant awards are discussed below. Additional information and resources on these requirements, including recipient responsibilities for compliance, can be found in [Appendix F](#). EPA will review documentation from recipients to assess eligibility of costs incurred in accordance with EPA's General Principles for Cost Allowability, as described in [EPA's Interim General Budget Development Guidance](#).

### **Environmental Review**

NEPA and other relevant applicable statutes and Executive Orders, such as the Endangered Species Act (ESA), apply to Community Grants projects authorized by the Annual Appropriations Acts. The applicable NEPA regulations are the Council of Environmental

Quality's (CEQ) implementing regulations at 40 CFR Parts 1500-1508 and EPA's NEPA regulations at 40 CFR Part 6. In accordance with EPA's NEPA regulations, EPA must complete the NEPA process before issuing a grant award for construction activities.

NEPA and other cross-cutting Federal requirements that apply to the project (i.e., the approval and/or funding of work beyond the conceptual design point) cannot be delegated. Although EPA may fund the recipient's development of an Environmental Information Document (EID) or other analysis for cross cutting authorities or executive orders in order to provide supporting information, EPA has the legal obligation to make the NEPA related decision, to issue the NEPA documents, to sign NEPA determinations, and to fulfill other cross-cutting Federal requirements before approving or paying for design and/or construction. Therefore, EPA grant funds cannot be used to prepare a federal document, such as an Environmental Assessment (EA) or Environmental Impact Statement (EIS).

When both EPA and another Federal agency are funding the same project, the agencies may negotiate an agreement for one to be the lead agency for performing grant oversight and management activities, including those related to NEPA and other cross-cutting Federal requirements. The lead agency can be the one that is providing the most funds for the project, or the agency that provided the initial funds for the project. The CEQ NEPA regulations at 40 CFR 1501.7(c) provide the factors listed in order of descending importance to determine the lead agency designation. If an EIS is required on a joint or related Federal action, EPA may serve as a co-lead or request to be a cooperating agency. In addition, EPA may adopt another Federal agency's EIS or EA. Note EPA may adopt another Federal agency's EA and use it as a basis for its Finding of No Significant Impact (FONSI), provided EPA has independently reviewed the EA and agrees with the analysis and circulates the FONSI and attached EA for the requisite 30-day comment period.

Recipients with CWSRF or DWSRF co-funded projects for which a State Environmental Review Process (SERP) has been completed can submit the completed state analysis for EPA review. EPA will review the SERP document and will incorporate by reference any pertinent part of that document into EPA's environmental document. EPA will request additional information from the recipient if necessary for EPA to conduct its own environmental analysis.

Each federal agency has its own regulations pertaining to the NEPA environmental review process. Recipients with projects that have undergone an environmental review by another federal agency may submit documents pertaining to another federal agency's analysis for EPA review. EPA will independently review these documents to determine if the proposed actions is substantially the same and if it meets the standards of an adequate EIS, EA, or Categorical Exclusion (CATEX) determination. If so, EPA may adopt the federal EIS, EA, or CATEX determination, pursuant to 40 CFR 1506.3. If EPA is unable to adopt the federal EIS, EA, or CATEX determination, EPA will conduct its own environmental review and incorporate by reference any pertinent part of the agency's environmental document. EPA will request additional information from the recipient if necessary for EPA to conduct its own environmental review. See Appendix F for additional information on CATEX and EID development.

For design and construction projects for which another federal agency has not completed a NEPA review and projects that CWSRF or DWSRF do not co-fund and/or have not undergone a SERP, recipients will need to determine whether to request a CATEX from EPA or to prepare and submit an EID in order to proceed with a NEPA review.

### **Procurement**

In general, all procurement transactions for professional engineering services and construction contractors must be conducted in a manner that includes and promotes fair and open competition from an adequate number of qualified sources. 2 CFR 200.320 details the specific methods of procurement to be followed and the circumstances under which each method can be used. Recipients and subrecipients must have and use documented procurement procedures, consistent with State, local or tribal laws and regulation as well as Federal laws and regulations in accordance with the Procurement Standards contained in 2 CFR 200.317 – 2 CFR 200.327.

In accordance with 2 CFR 200.325, recipients must provide EPA with technical specifications on proposed procurements when requested by EPA, including when pre-award costs are being considered for eligibility. In addition, upon request by EPA's Grants Management Office (GMO) under 2 CFR 200.325 or 2 CFR 200.337, grantees must provide procurement documents to EPA for pre-procurement review when EPA is concerned that the grantee's procurement procedures or practices do not comply with federal procurement requirements, including but not limited to procurements that do not comply with competition requirements. As provided in 2 CFR 200.332(d) and the terms of conditions of their EPA award, pass-through entities are responsible for monitoring subrecipient compliance with procurement requirements in 2 CFR Parts 200 and 1500. EPA's GMO may also request that pass-through entities provide EPA with information regarding subrecipient compliance with these requirements.

### **Selection of Architects and Engineers (projects inclusive of CWSRF-eligible activities)**

Projects consisting of CWSRF-eligible activities, irrespective of whether such projects are co-funded with CWSRF funding, must comply with the procurement processes for architectural and engineering (A/E) services as identified in 40 U.S.C. 1101 et seq., or an equivalent State requirement. Where equivalent State requirements are complied with, the source of the requirement (e.g., existing State legislation or regulation, etc.) must be stated, and the Governor of the State must provide a certification to accompany the grant application that the State's A/E procurement requirements are equivalent to 40 U.S.C. 1101 et seq. In lieu of a certification from the Governor, the Attorney General's certification submitted with each grant application may include the A/E certification.

### **EPA's Disadvantaged Business Enterprise (DBE) Program**

EPA's DBE Program applies to all EPA Assistance Agreements and requires recipients who procure goods and/or services to: employ the good faith efforts, document their efforts, and maintain DBE forms and other documentation from the prime contractor. EPA grant recipients and subrecipients are required to seek and encouraged to utilize disadvantaged business enterprises (DBEs) for their procurement needs under grant agreements. Recipients and subrecipients must ensure that their contracts contain the following term and condition:

“The contractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 40 CFR Part 33 in the award and administration of contracts awarded under EPA financial assistance agreements. Failure by the contractor to carry out these requirements is a material breach of this contract which may result in termination of this contract or other legally available remedies.”

Other DBE requirements are identified in 40 CFR Part 33.

### **Davis Bacon Act (DBA)**

The DBA requires that all contractors and subcontractors performing construction, alteration, and repair (including painting and decorating) work under federal contracts in excess of \$2,000, pay their laborers and mechanics not less than the prevailing wage and fringe benefits for the geographic location. DBA requirements may be extended to federal financial assistance programs by the terms of other statutes (referred to as Davis Bacon and Related Acts (DBRA)) establishing or funding the programs. The FY 2022 Appropriations Act provides that those federal requirements that would apply to a CWSRF or DWSRF project grant recipient shall also apply to a grantee receiving a Community Grant, and the FY 2023 Appropriations Act directs the Agency to follow the guidance in the joint explanatory statement accompanying the FY 2022 Appropriations Act (see Appendix A). Consequently, the FY 2023 Appropriations Act extends DBRA provisions applicable to state revolving fund projects to the Community Grants. Clean Water Act (CWA) Sec. 513 applies DBA requirements to projects for treatment works. DBA requirements apply to all laborers and mechanics employed by contractors and subcontractors with job duties that are physical and manual in nature including: laborers and mechanics, watchmen or guards (under certain conditions), and working foremen (under certain conditions). The term laborer or mechanic does not include workers whose duties are primarily administrative, executive, or clerical, rather than manual. Requirements only apply to construction at the “site of the work,” which has generally been defined as the physical place where the construction occurs. Work conducted off-site is generally not covered. EPA’s Interim Davis-Bacon Act Guidance provides additional information on requirements and compliance.

### **Build America, Buy America (BABA)**

BABA states that: “[N]one of the funds made available for a Federal financial assistance program for infrastructure... may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States.” Project means any activity related to the construction, alteration, maintenance, or repair of infrastructure in the United States. This law applies to all Federal financial assistance as defined in section 2 CFR 200.1, whether funded through the Infrastructure Investment and Jobs Act (IIJA) or not. New awards made on or after May 14, 2022, must comply with BABA requirements. EPA provides information and guidance on BABA compliance, implementation, and any applicable waivers. Recipients are required to ensure that procurement plans comply with BABA requirements prior to grants being awarded.

### **American Iron and Steel (AIS)**

The AIS provision requires recipients to use iron and steel products that are produced in the United States for the construction, alteration, maintenance, or repair of a public water system or treatment works. Compliance with AIS requirements for iron and steel products will satisfy a subset of BABA requirements (e.g., those pertaining to iron and steel); however, BABA also includes requirements pertaining to manufactured goods and construction materials, which must also be met. Projects in compliance with BABA are in compliance with AIS. EPA provides information and guidance on AIS compliance and implementation, any applicable waivers, as well as a step-by-step process for requesting waivers and the circumstances under which waivers may be granted.

### **Federal Cross-cutting Requirements/Other Applicable Federal Laws**

Recipients must comply with Federal cross-cutting requirements as well as other applicable Federal laws. These requirements may include but are not limited to –

- **Environmental Authorities:** Archeological and Historic Preservation Act, Pub. L. 93-291, as amended; Clean Air Act, Pub. L. 95-95, as amended; Clean Water Act, Titles III, IV and V, Pub. L. 92-500, as amended; Coastal Barrier Resources Act, Pub. L. 97-348; Coastal Zone Management Act, Pub. L. 92-583, as amended; Endangered Species Act, Pub. L. 93-205, as amended; Environmental Justice, Executive Order 12898; Flood Plain Management, Executive Order 11988, as amended by Executive Order 12148; Protection of Wetlands, Executive Order 11990, as amended by Executive Order 12608; Farmland Protection Policy Act, Pub. L. 97-98; Fish and Wildlife Coordination Act, Pub. L. 85-624, as amended; Magnuson-Stevens Fishery Conservation and Management Act, Pub. L. 94-265; National Environmental Policy Act, Pub. L. 91-190; National Historic Preservation Act, Pub. L. 89-655, as amended; Safe Drinking Water Act, Pub. L. 93-523, as amended; Wild and Scenic Rivers Act, Pub. L. 90-54, as amended;
- **Economic and Miscellaneous Authorities:** OSHA Worker Health and Safety Standards; Contract Work Hours and Safety Standards Act, Pub. L. 91-54; Debarment and Suspension, Executive Order 12549; Demonstration Cities and Metropolitan Development Act, Pub. L. 89-754, as amended, and Executive Order 12372; Drug-Free Workplace Act, Pub. L. 100-690; Copeland “Anti-kickback” Act, Pub. L. 73-324; Government Neutrality Toward Contractor’s Labor Relations, Executive Order 13202, as amended by Executive Order 13208; New Restrictions on Lobbying, Section 319 of Pub. L. 101-121; Prohibitions relating to violations of the Clean Water Act or Clean Air Act with respect to Federal contracts, grants, or loans under Section 306 of the Clean Air Act and Section 508 of the Clean Water Act, and Executive Order 11738; Uniform Relocation and Real Property Acquisition Policies Act, Pub. L. 91-646, as amended;
- **Civil Rights, Nondiscrimination, Equal Employment Opportunity Authorities:** Age Discrimination Act, Pub. L. 94-135; Equal Employment Opportunity, Executive

Order 11246; Section 13 of the Clean Water Act, Pub. L. 92-500; Section 504 of the Rehabilitation Act, Pub. L. 93-112, supplemented by Executive Orders 11914 and 11250; Title VI of the Civil Rights Act, Pub. L. 88-352;

- Under Title VI of the Civil Rights Act, EPA has a responsibility to ensure that federal funds are not being used to subsidize discrimination based on race, color, or national origin. This prohibition against discrimination under Title VI has been a statutory mandate since 1964, and EPA has had Title VI regulations since 1973. EPA's nondiscrimination regulations prohibit recipients of EPA financial assistance from taking actions in their programs or activities that are intentionally discriminatory and/or have a discriminatory effect based on race, color, national origin (including limited English proficiency), age, disability, or sex.
- **Disadvantaged Business Enterprise Authorities:** EPA's FY 1993 Appropriations Act, Pub. L. 102-389; Section 129 of the Small Business Administration Reauthorization and Amendment Act, Pub. L. 100-590; Small, Minority and Women Owned Business Enterprises, Executive Orders 11625, 12138, and 12432.

## **Regional Contacts**

For general questions about the Community Grants Program, or for project specific questions that require the assistance of an EPA Regional Office, contact the [EPA Regional Contact](#).

## Appendix A: Statutory Language

---

The Consolidated Appropriations Act, 2023,<sup>9</sup> contains the following provision:

*For environmental programs and infrastructure assistance, including capitalization grants for State revolving funds and performance partnership grants, \$4,480,428,000, to remain available until expended, of which— (1) \$1,638,861,000 shall be for making capitalization grants for the Clean Water State Revolving Funds under title VI of the Federal Water Pollution Control Act; and of which \$1,126,101,000 shall be for making capitalization grants for the Drinking Water State Revolving Funds under section 1452 of the Safe Drinking Water Act: Provided, That \$863,108,642 of the funds made available for capitalization grants for the Clean Water State Revolving Funds and \$609,255,899 of the funds made available for capitalization grants for the Drinking Water State Revolving Funds shall be for the construction of drinking water, wastewater, and storm water infrastructure and for water quality protection in accordance with the terms and conditions specified for such grants in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act) for projects specified for “STAG—Drinking Water SRF” and “STAG—Clean Water SRF” in the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” included for this division in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act), and, for purposes of these grants, each grantee shall contribute not less than 20 percent of the cost of the project unless the grantee is approved for a waiver by the Agency[.]*

The aforementioned “explanatory statement<sup>10</sup>” accompanying the Consolidated Appropriations Act, 2023, states:

The bill provides \$4,480,428,000 for the State and Tribal Assistance Grants program and includes the following specific funding levels and direction: Community Project Funding Items/Congressionally Directed Spending Items.-From within funds provided for capitalization grants for the Clean Water State Revolving Fund and the Drinking Water State Revolving Fund, the Committees recommend \$863,108,642 from the Clean Water SRF and \$609,255,899 from the Drinking Water SRF be for Community Project Funding/Congressionally Directed Spending grants for the construction of drinking water, waste-water, and storm-water infrastructure and for water quality protection. The Agency is directed to follow the guidance in the joint explanatory statement accompanying Public Law 117-103.

The aforementioned joint “explanatory statement<sup>11</sup>” accompanying Public Law 117 - 103, states:

---

<sup>9</sup> P.L. 117-328.

<sup>10</sup> Explanatory Statement Explanatory Statement for Division G of P.L. 117-328.

<sup>11</sup> Explanatory Statement for Division G of P.L. 117-103.

*Community Project Funding Items/Congressionally Directed Spending Items.—From within funds provided for capitalization grants for the Clean Water State Revolving Fund and the Drinking Water State Revolving Fund, the Committees recommend \$443,639,051 from the Clean Water SRF and \$397,766,044 from the Drinking Water SRF be for Community Project Funding/Congressionally Directed Spending grants for the construction of drinking water, waste-water, and storm-water infrastructure and for water quality protection. Each project shall provide not less than 20 percent matching funds from non-Federal sources, unless approved for a waiver. Applicable Federal requirements that would apply to a Clean Water State Revolving Fund or Drinking Water State Revolving Fund project grant recipient shall apply to a grantee receiving a CPF grant under this section. The Committees note that the following funding sources are to be treated as non-Federal funds and can be used to meet the non-Federal matching fund requirement: U.S. Department of Housing and Urban Development, Community Development Block Grant program; U.S. Department of Agriculture, Rural Development Program; and Appalachian Regional Commission grants. Funding made available to jurisdictions through the American Rescue Plan Act of 2021 (P.L. 117–2) are considered Federal funds and may not be applied towards the non-Federal cost share requirement. A detailed list of projects is in the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items.”*

**Appendix B: List of EPA Congressionally Directed Spending Community Projects  
and Funding Levels  
(FY 2023 Consolidated Appropriations Act)**

| STAG Account                                                                                                                                                                                                                                                                                                                                                                                     | State | Project<br>(Recipient Name and Purpose)                                                  | Amount (\$) |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|------------------------------------------------------------------------------------------|-------------|
| <i>The list below is organized by: (1) Community projects funded by the Clean Water SRF; and (2) Community projects funded by the Drinking Water SRF. Projects are arranged alphabetically by state within each category. Note that EPA made grammatical changes to remove extra spaces, hyphens, and periods. The <u>original CDS list</u> should be referred to for technical corrections.</i> |       |                                                                                          |             |
| <b>Community Projects Funded with Clean Water SRF Appropriations (alphabetical by state)</b>                                                                                                                                                                                                                                                                                                     |       |                                                                                          |             |

## Appendix C: Technical Corrections-Procedural Information

### Examples of Acceptable Technical Corrections

Below are three common types of corrections that are generally acceptable. All examples assume concurrence from the original recipient and the new recipient to be named, if applicable.

| Original Language                                  | Purpose (P) or Recipient (R)? | New Language                                                                                 |
|----------------------------------------------------|-------------------------------|----------------------------------------------------------------------------------------------|
| Anytown for wastewater infrastructure improvements | P                             | Anytown for water infrastructure improvements                                                |
| Anytown for wastewater infrastructure improvements | R                             | Greater Anytown-Area Regional Sewer Authority for wastewater infrastructure improvements     |
| Anytown for wastewater infrastructure improvements | P, R                          | Greater Anytown-Area Regional Water Authority for drinking water infrastructure improvements |

Technical corrections cannot: 1) change the purpose to a non-construction project unless it otherwise provides for water quality protection; 2) change the purpose to construction of infrastructure that is not drinking, waste, or stormwater-related unless it otherwise provides for water quality protection; 3) change the purpose to debt repayment; or 4) transfer funds to another Federal Agency.

### Who Can Request a Technical Correction?

Technical correction requests must be in writing and, for a change in purpose, must be originated by the original recipient. A request involving a change in recipient can be initiated by either the original recipient or the new entity to be named, but such a request requires the written concurrence of the other party. Requests involving a change in both recipient and purpose can also be initiated by either entity with concurrence from the other; however, the original earmark recipient must specifically acknowledge both the change in purpose and the change in recipient in their concurrence. Any request for technical corrections from parties other than the original recipient or the new entity will generally not be considered.

### Procedure for Making a Technical Correction

Recipients requesting a technical correction should first consult their EPA Regional Contact to discuss the need for, and evaluate the appropriateness of, a technical correction. When appropriate and necessary, the EPA Regional Office will submit technical corrections to EPA Headquarters for consultation with and resolution by Congress.

EPA Regional Offices provide all written requests that are consistent with this Guidance to EPA Headquarters for review and submission to the Agency's Liaison to the House and Senate Committees on Appropriations ("Appropriations Liaison"). The Appropriations Liaison initiates consultation with the House and Senate Committees on Appropriations. EPA approves proposed corrections after the Appropriations Liaison transmits confirmation of consultation with the Committees.<sup>12</sup> EPA may then proceed with administering projects within the scope of approved corrected language.

### **When a Technical Correction is Unnecessary**

All changes in the project purpose require a technical correction. All changes in the recipient require a technical correction unless the intended recipient is an agency of the original recipient or is wholly owned or controlled by the recipient (e.g., the recipient is listed as Anytown, USA, but the intended recipient is the Anytown Department of Water Quality). In such cases, a grant may be made to the intended recipient without a technical correction.

### **Withdrawing or Reversing a Technical Correction**

Technical corrections requests that have been approved by EPA can be reversed (i.e., reverted to the original appropriation language). Reversing a technical correction requires a new technical correction following the procedures outlined above. Technical corrections requests that have not been approved by EPA Headquarters can be withdrawn. Withdrawal procedures depend on how far along the request went in the Congressional consultation process.

- If the request has not yet been provided to Congress for consultation, the request will simply be removed from the submission list. Upon confirmation from EPA Headquarters that the request was removed, the Region can proceed under the scope of the original language.
- If the request has been sent to Congress for consultation, but not yet returned, EPA Headquarters will request its removal from consideration and will notify the Region when they can proceed under the scope of the original language.
- If the consultation process was already completed, EPA will send the language reversal back to Congress in a subsequent request.

### **Administering a Technically Corrected Project**

Technical corrections made under the technical corrections authority should be administered in accordance with the guidance document from the fiscal year of appropriation.

---

<sup>12</sup> If the circumstances surrounding a technical correction for a particular project change after consultation with the Committees and EPA decides not to approve the request, EPA will notify the Committees in a subsequent request.

## Appendix D: Application Forms and Attachments

---

The following registration steps must be completed prior to submitting an application package:

**Registration in SAM.gov.** Unique Entity Identifiers (UEIs) are assigned during the SAM.gov registration process. Recipients with active SAM.gov registrations prior to April 2022 automatically have a UEI but may need to complete entity validation within SAM.gov. Recipients must be registered in SAM.gov. Recipients may refer to the **Entity Registration Checklist** and obtain SAM.gov assistance via the Federal Service Desk at 1-866-606-8220 or [fsd.gov](http://fsd.gov) (M-F 8am-8pm ET).

**Registration in Grants.gov.** Once registered in SAM.gov, recipients who have a SAM.gov registration can then register with Grants.gov and assign Grants.gov Roles. Please note that only an Authorized Organization Representative (AOR) can submit an application on behalf of the recipient.

Grants.gov instructions, and Training Resources & Videos are available online.

Grants.gov assistance is available 24 hours a day, 7 days a week at 1-800-518-4726 or [support@grants.gov](mailto:support@grants.gov) (closed on federal holidays).

**Complete application packages must be submitted through Grants.gov and must include the following:**

1.  **Application for Federal Assistance (SF 424) with authorized signatures submitted.**
2.  **Additional information for SF424, Block #19 (if applicable): Is application subject to review by State under Executive Order 12372 Process?**

Select the appropriate box. If box "a" is selected, enter the date the application was submitted to the State SPOC (generally, applicants must submit the SF424 or summary thereof to the State SPOC to meet the requirements under Executive Order 12372).

- California. All EPA programs and activities subject to Intergovernmental Review have been selected for State Single Point of Contact (SPOC) review. Community Grant Applications for projects in California should be submitted to the California SPOC at [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).
- Utah. Only applications for EPA financial assistance subject to Intergovernmental Review submitted by Utah state agencies have been selected for SPOC review. Applications by local governments, nonprofit organizations and other entities are not reviewed by the Utah SPOC. Utah state agencies are to submit their Community Grant applications to [stategrants@utah.gov](mailto:stategrants@utah.gov).

No other SPOCs have selected EPA programs and activities subject to Intergovernmental Review for SPOC review, however there may be requirements for submission of Federal grant applications to SPOCs or other state agencies based on state law that are independent of 40 CFR Part 29. EPA encourages applicants to comply with state requirements but does not enforce those requirements.

- Intergovernmental Review SPOC List provides contact information for each SPOC.
- Fact sheet for Applicants Intergovernmental Review Process provides additional information on Intergovernmental Review.

3.  **Budget Information for Non-Construction Programs (SF 424A).**

**Budget Detail-Breakdown by Object Class Categories.**

RAIN-2019-G02 at <https://www.epa.gov/grants/rain-2019-g02>

- Costs for hiring construction contractors would be reflected in SF 424A Category g “Construction.”
- Costs for building or repairing facilities and related demolition and site preparation work or for remediating contamination are to be classified as SF424A Category g “Construction.”
- Costs for hiring Architectural and Engineering firms for design/project management services would be categorized in SF 424A Category f “Contractual.”
- Construction activities carried out by the applicant’s own employees (“force account”) are to be classified as SF 424A Category a “Personnel.”
- Information on cost allowability is provided in 2 CFR Part 200, Subpart E. Recipients may review EPA’s training course on budget development. EPA reviews costs included in project budgets as part of the application/pre award process to ensure they conform with general principles of cost allowability:
  - A cost is eligible if it is permitted by statute, program guidance, or regulations.
  - A cost is reasonable if it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost.
  - Costs must be allocable: costs must be incurred either directly or indirectly to carry out the project and must be charged proportionately across all benefitting cost centers.
  - Costs must be necessary for the project being funded.

Allowable costs are:

- Adequately documented.
- Conform to limitations of laws, regulations, etc. and grant terms and conditions.
- Consistent with recipient’s policies/procedures – same factors apply to both federal and non-federal activities.
- Accorded to consistent treatment – a cost may not be assigned as direct if a similar cost incurred for the same purpose has been allocated as an indirect cost.

- Not included as a cost or used to meet a matching requirement for any other federal grant.
  - Consistent with generally accepted accounting principles
4.  **Use the Project Narrative Attachment Form to submit the Workplan.** The workplan should include tasks, milestones, and expected environmental results or outcomes (See [Appendix E](#)).
  5.  **Use the Other Attachments Form to submit the Current Indirect Cost Rate Negotiation Agreement.** If applicable, include Rate and Signature pages (i.e., Sections 1 and 3) of the approved Indirect Cost Rate Agreement with application. **EPA Policy on Indirect Rate Costs (IDC) effective 10/1/2018, RAIN-2018-G02.** Prior to drawing down EPA funds for IDCs, and/or using unrecovered IDCs as cost-share, recipients must have an approved rate and an EPA- approved budget that includes IDCs.
    - IDCs are those that are not readily identifiable with a particular activity but are necessary to the general operation of the recipient organization and the conduct of the proposed project (such as general administration expenses).
  6.  **EPA Key Contacts Form (EPA Form 5700-4).**
  7.  **Pre-Award Compliance Review Report (EPA Form 4700-4),** current form with authorized signature. See [Tips for Completing EPA Form 4700-4](#).
  8.  **Use the Other Attachments Form to submit the Certification Regarding Lobbying (EPA Form 6600-06)** with authorized signature. All applicants, including Tribes, are required to submit this certification if the total federal dollar awarded to the applicant/recipient is greater than \$100,000 for the life of the grant.
  9.  **Use the Other Attachments Form to submit the Disclosure of Lobbying Activities (Form SF-LLL),** with authorized signature attached with the grant application package. For all other applicants, form is required for reporting entity, whether subawardee or prime federal recipient, at the initiation or receipt of a covered federal action, or a material change to a previous filing, pursuant to Title 31 U.S.C Section 1352. Used by applicants to disclose lobbying activities that have been secured to influence the outcome of a federal grant action.

**Accessing the Application Package**

**NOTE: Do not use the “SEARCH” bar located at the top right of the Grants.gov webpage to find Application Packages.**

To locate Application Package:

1. Go to directly to the funding opportunity on Grants.gov.
2. In the “Package” tab, scroll down the page to locate Assistance Listing Number 66.202 (listed under the column heading “CFDA”) for the application package.

**REMINDERS:**

- Do NOT use the “SEARCH” bar located at the top right of the Grants.gov screen to find Application Packages. Follow the instructions above.
- Recipients must ensure appropriate role(s) and access in Grants.gov Workspace are assigned within recipient entity as applicable; each entity’s EBiz point of contact (POC) is the person that authorizes or assigns Grants.gov roles. Additional information on Grants.gov role assignment is available online.
- There are a series of automated emails generated by Grants.gov during the application submission process. See sample email below.
- Obtain a Tracking Number from Grants.gov Support technicians when contacting the Grants.gov Support Center for assistance. This Tracking Number is used to help ensure your issue(s) is fully addressed.

Please contact the [Grants.gov Support Center](#) by phone (1-800-518-4726) or email ([support@grants.gov](mailto:support@grants.gov)) for technical support or questions. Help is available 24 hours a day, 7 days a week, excluding federal holidays.

**ALERT:** It is important to read the automated emails generated by Grants.gov as the messages provide application status updates during the submission process. Below is a sample automated email indicating that an application has been sent to the funding agency with an assigned tracking number.

## Appendix E: Community Grants Workplan Contents/Outline

---

### Name of Applicant and Project Title

### Project Objective(s) and Need

Narrative, how project will resolve need/purpose.

### Project Description

Narrative, maps, photographs, relevant design parameters etc. Clearly defined scope of work, outlining all activities to be performed under the grant; detailed description of the proposed project, summary of deliverables. Framework for managing the project, explanation of the approach, procedures, and controls for ensuring that awarded grant funds will be expended in a timely and efficient manner, evaluating performance and reporting progress toward achieving the expected outputs and outcomes. How tasks/activities will be undertaken. The scope of work must be in conformance with the project description. Budget narrative that links the budget to workplan tasks activities and includes source(s) of non-federal cost share.

### Milestone Schedule

Narrative or tabular depiction of each grant activity's estimated start and end dates, interim milestones, deliverables, and project completion. The length of the grant award project period should be consistent with the milestone schedule.

### Environmental Results/Benefits

Narrative or tabular linkage of each grant activity with the applicable EPA Strategic Plan goal and objective (i.e. EPA's FY2022 – FY2026 Strategic Plan Goal 5: Ensure Clean and Safe Water for All Communities, Objective 5.1: Ensure Safe Drinking Water and Reliable Water Infrastructure), anticipated environmental results, anticipated environmental outputs, and anticipated environmental outcomes.

- **Outputs:** environmental activities, efforts, and/or associated work products related to environmental goals or objectives, that will be produced or provided over a period of time or by a specified date. Outputs should be well-defined and may be quantitative or qualitative but must be measurable during an assistance agreement funding period.
- **Outcomes:** the results, effects or consequences that will occur from carrying out an environmental program or activity that is related to an environmental or programmatic goal or objective. Outcomes should be well-defined to the maximum extent practicable, and may be environmental, behavioral, health-related, or programmatic in nature, must be quantitative, and may not necessarily be achievable within an assistance agreement funding period.

### Workplan Requirements for Identifying Contractors

Contractual selection must comply with the competitive Procurement Standards set forth in 2 CFR 200.317 – 2 CFR 200.327. EPA's Contracts and Subawards solicitation clause provides more information about partnerships, and the Best Practice Guide for Procuring

Services, Supplies, and Equipment Under EPA Assistance Agreements can assist community project recipients in complying with procurement requirements. In general, all procurement transactions for professional engineering services and construction contractors must be conducted in a manner that promotes fair and open competition from an adequate number of qualified sources. 2 CFR 200.320 discusses the specific methods of procurement to be followed and the circumstances under which each method can be used.

**Workplan Requirements for Identifying Subrecipients**

Any proposed subawards must comply with regulatory standards as implemented in EPA's Subaward Policy. In almost all cases, for-profit firms and individual consultants are not proper subrecipients. For-profit firms and individual consultants would more likely be considered contractors.

## Appendix F: Grant Policies and Resources

---

### Grants Management Training for Applicants and Recipients

- EPA's online training courses are free and are designed to introduce potential EPA grant recipients to key aspects of the entire grant lifecycle, from preparation of an application through grant closeout.
- Information on EPA Form 4700-4 is available online, see Tips for Completing EPA Form 4700-4

### EPA Grant Policies

- EPA grant policies may affect how recipients manage and administer EPA assistance agreements.

### Budget Development

- Community Grant recipients may refer to Interim General Budget Development Guidance for Applicants and Recipients of EPA Financial Assistance to learn more about cost eligibility and preparation of the budget component of the application package.

### Selected Items of Cost

EPA POs and grant specialists review costs included in project budgets as part of the application. Allowability of costs is based on several factors specified in 2 CFR Part 200, Subpart E. EPA's Guidance on Selected Items of Cost for Recipients provides information on the allowability of specific costs.

### Environmental Review

The National Environmental Policy Act (NEPA) requires evaluation of how federal grant actions may affect the quality of the environment. Under NEPA, environmental impacts must be considered before EPA can award the grant.

- The Categorical Exclusion (CATEX) Checklist provides information on assessing whether a project may be considered for a CATEX. EPA's list of actions that can be categorically excluded is contained within 40 CFR Part 6 Subpart B. EPA makes CATEX determinations based on its own regulations and can use information collected as part of another federal agency's NEPA process. Recipients having a CATEX determination resulting from another agency's NEPA review of their project may provide that information to EPA as part of any request for a CATEX.

The following tools may be used to support development of Environmental Information Documents (EIDs).

- The sample EID Outline provides optional format and content on what to include in an EID.
- The Infrastructure Task Force Preliminary Engineering Report provides a recommended format for preliminary engineering reports (PER) for use when planning drinking water and wastewater infrastructure.

### **Procurement**

- EPA's Best Practice Guide for Procuring Services, Supplies and Equipment Under EPA Assistance Agreements describes the financial transactions covered by the competitive procurement requirements and other rules you must follow when awarding and administering EPA funded contracts.
- Community grant recipients must follow their own procurement procedures, which must be documented and comply with State, local or tribal laws and regulation as well as Federal laws and Uniform Grant Guidance (UGG) procurement regulations. Projects inclusive of CWSRF-eligible activities, irrespective of whether such projects are co-funded with CWSRF funding, must comply with the procurement processes for architectural and engineering (A/E) services as identified in 40 U.S.C. 1101 et seq., or an equivalent State requirement.

### **Davis Bacon**

- The Davis-Bacon Act requires that all contractors and subcontractors performing construction, alteration, and repair (including painting and decorating) work under federal contracts in excess of \$2,000, pay their laborers and mechanics not less than the prevailing wage and fringe benefits for the geographic location. Personnel costs include salaries, wages, and allowable incentive compensation for recipient employees (i.e., who receive W-2 forms) who spend time working on the project and are not subject to Davis Bacon.

### **EPA's Disadvantaged Business Enterprise (DBE) Program**

- EPA's DBE Program applies to all EPA Assistance Agreements and requires recipients who procure goods and/or services to: employ the good faith efforts, document their efforts and maintain DBE forms and other documentation from the prime contractor, and report their procurement and DBE activities even if there isn't anything to report.

### **Build America, Buy America (BABA)**

- Recipients are required to ensure that procurement plans comply with BABA requirements prior to grants being awarded. Requirements call for all the iron, steel, manufactured products, and construction materials used in the project to be produced in the United States.

### **American Iron and Steel (AIS)**

- The AIS provision requires recipients to use iron and steel products that are produced in the United States for the construction, alteration, maintenance, or repair of a public water system or treatment works. Compliance with AIS requirements correspond to for iron and steel products will satisfy a subset of BABA requirements, (e.g., those pertaining to iron and steel), however BABA also includes requirements pertaining to manufactured goods and construction materials, which must also be met. Projects that are in compliance with BABA are in compliance with AIS.

### **EPA Community Grants program**

- The EPA Community Grants web page will be updated as new information becomes available.

**Reporting waste, fraud, abuse, or other suspected violations of law**

- The EPA Office of Inspector General is an independent oversight office charged with preventing and detecting waste, fraud, and abuse by EPA and U.S. Chemical Safety and Hazard Investigations Board employees, grantees, contractors, and others. It does this through audits and investigations of Agency programs and operations, often in response to complaints submitted to the OIG Hotline regarding alleged violations of law, needless spending, or intentional deception.
- Suspected waste, fraud, abuse, or other violations of law can be reported anonymously or confidentially to the OIG Hotline via phone at (888) 546-8740, email, or online form. Listen to this podcast to learn more about the hotline.

**Whistleblower Protection**

- A whistleblower is a federal employee, an employee of a federal contractor, subcontractor, grantee, or subgrantee or personal services contractor who discloses what the individual believes to be evidence of a gross waste of federal funds, a substantial danger to public health or safety, or any of the following related to a federal contract or grant: gross mismanagement, abuse of authority, or other violation of law, rule, or regulation.
- Because of the important public service these individuals perform when they come forward, whistleblower protection laws prohibit reprisal against them, such as firing, demotion, or other discrimination, and protect the identities of those who make anonymous or confidential disclosures, such as via the OIG Hotline. Learn more about Whistleblower Protection here.

RE: Notification Regarding the Submission of the School Department Budget

Dear Madam President and Councilors,

It is my understanding that the School Department presents their annual operating budget to the City Council at an informal meeting as part of our yearly budget review process.

I am writing to inform you that the Gardner School Committee will be voting to finalize the School Department Budget Request at their meeting of Monday, May 8, 2023.

If the Council so chooses, the Administration will be prepared to present this budget to the City Council at their meeting of May 15<sup>th</sup>.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

RE: Bond Proceeds Appropriation Request – Downtown Improvement Project Phase III

Dear Madam President and Councilors,

As you are likely aware, the City is in currently in Phase III of a six (6) phase infrastructure improvement project for the greater downtown area.

Phase III, which is set to begin this year, involves upgrades to the North Central Pathway Bike Trail and new ADA compliant sidewalks along Monument Park with new Victorian light posts.

The bids for this project came in at a total of \$1,590,050.00.

While the majority of the project had already been funded through Community Development Block Grant Funds, MassTrails Grants, and a previously approved free cash appropriation request, that all only added up to \$1,240,500.00.

Therefore I am requesting that the City Council appropriate the remaining \$350,000 from the City's Bond Revenue Account to complete this project.

Respectfully Submitted,

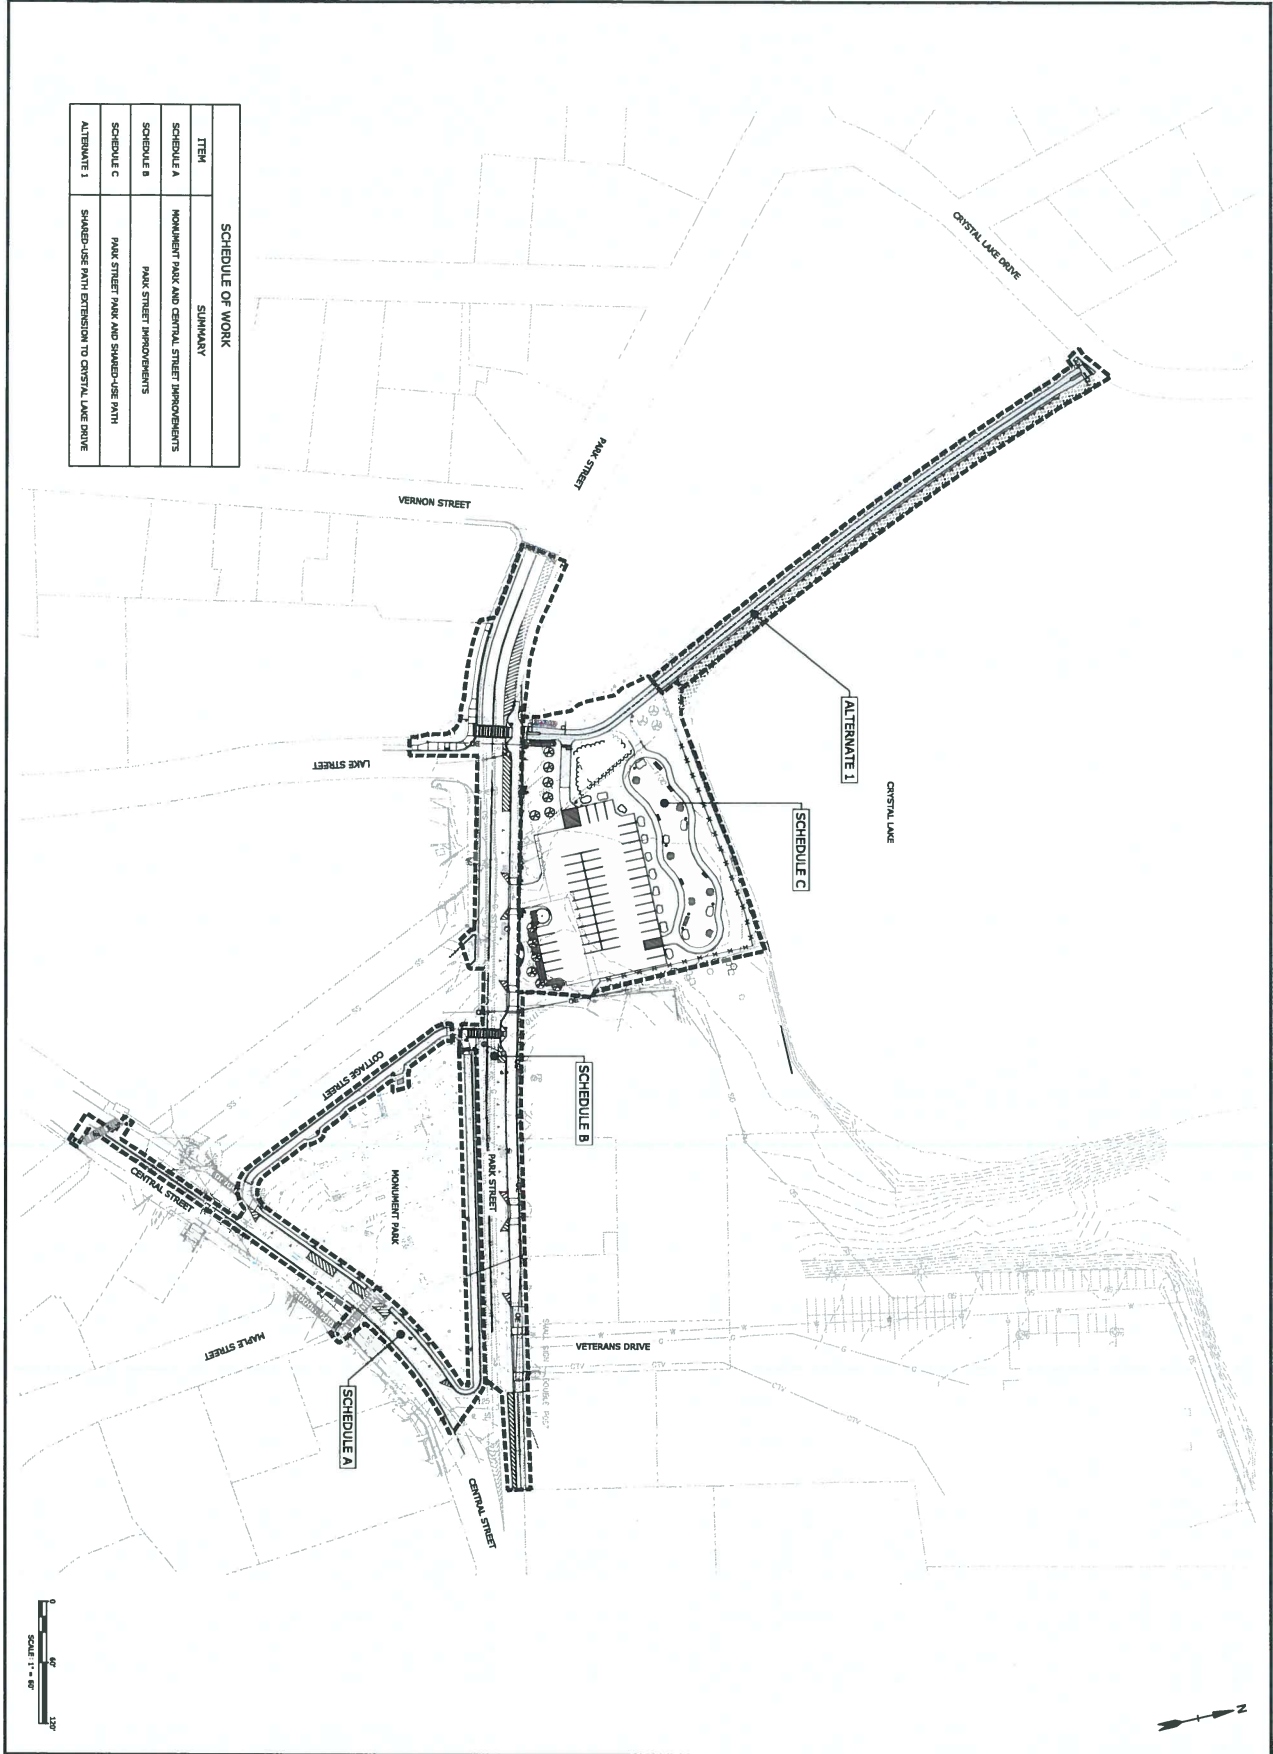

Michael J. Nicholson  
Mayor, City of Gardner

AN ORDER APPROPRIATING A SUM OF MONEY FROM AVAILABLE FUNDS-  
BONDS PROCEEDS CAPITAL PROJECTS RESERVED.

*ORDERED:*

That there be and is hereby appropriated the sum of THREE HUNDRED, FIFTY  
THOUSAND DOLLARS 00/100 CENTS (\$350,000) from Available Funds-Bonds  
Proceeds Capital Reserved to Downtown Improvement Capital Project.

**COMPLETE SET 23 SHEETS**

**BASE PLAN NOTES**

1. THE EXISTING CONDITIONS INFORMATION SHOWN ON THE DRAWINGS IS BASED ON THE FOLLOWING:
    - \* SURVEY DRAWINGS PROVIDED BY WSP USA, INC. TITLED "EXISTING CONDITIONS PLAN PARK STREET & CENTRAL STREET, GARDNER, MASSACHUSETTS" AND "SURVEY DRAWINGS PROVIDED BY WSP USA, INC. TITLED "EXISTING CONDITIONS PLAN PARK STREET & GREEN STREET, GARDNER, MASSACHUSETTS" AND DATED NOVEMBER 10, 2011.
  2. UTILITY LOCATIONS SHOWN WERE OBTAINED FROM INFORMATION SUPPLIED BY RESPECTIVE UTILITY COMPANIES AND DATA OBTAINED FROM FIELD SURVEYS OF THE PROJECT AREA. THE LOCATION OF EXISTING UTILITIES SHOWN ON THESE DRAWINGS IS NOT GUARANTEED. DETERMINE THE LOCATION OF EXISTING UTILITIES BY FIELD SURVEY, AND LOCATE EXISTING UTILITIES TO BE CROSSED BY HAND EXCAVATION.
  3. THE DRAWINGS ARE BASED ON THE FOLLOWING DATA: - HORIZONTAL: MOORE; - VERTICAL: NAD83.
  4. THE EXISTING CONDITIONS SHOWN ARE APPROXIMATE FIELD VERIFIED EXISTING CONDITIONS.
- GENERAL NOTES**
1. LOCATED DISPERSED AT 1:884, 344-223. THE CITY OF GARDNER, DEPARTMENT OF PUBLIC WORKS AND OTHER UTILITY OWNERS IN THE AREA NOT ON THE DISPERSED LIST AT LEAST 72 HOURS PRIOR TO ANY DRAINING, TRENCHING, ROCK REMOVAL, DEMOLITION, BORING, BACKFILLING, GRADING, LANDSCAPING, OR ANY OTHER EARTH MOVING OPERATIONS.
  2. LOCATION OF EXISTING UTILITIES ARE APPROXIMATE. IN ADDITION, SOME UTILITIES MAY NOT BE SHOWN. DETERMINE THE EXACT LOCATION OF UTILITIES BY FIELD SURVEY. THE LOCATION OF EXISTING UTILITIES SHOWN ON THESE DRAWINGS IS NOT GUARANTEED. DETERMINE THE LOCATION OF EXISTING UTILITIES BY FIELD SURVEY, AND LOCATE EXISTING UTILITIES TO BE CROSSED BY HAND EXCAVATION.
  3. NOT ALL OF THE UTILITY SERVICES TO BUILDINGS ARE SHOWN. THE CONTRACTOR SHALL DETERMINE THAT EACH PROPERTY HAS SERVICE CONNECTIONS FOR THE VARIOUS UTILITIES.
  4. ROAD TEXT AND LINES INDICATE PROPOSED WORK. LIGHT TEXT AND LINES INDICATE APPROXIMATE EXISTING CONDITIONS.
  5. THERE IS A BOND ASSIGNED NO RESPONSIBILITY FOR ANY ISSUES, LEGAL, OR OTHERWISE, RESULTING FROM CHANGES MADE TO THESE DRAWINGS WITHOUT WRITTEN APPROVAL FROM THESE & BOND.
  6. EXCAVATE ADDITIONAL TEST PITS TO LOCATE EXISTING UTILITIES AS DIRECTED OR APPROVED BY THE ENGINEER.
  7. NOTIFY THE ENGINEER OF ANY UTILITIES IDENTIFIED DURING CONSTRUCTION THAT ARE NOT SHOWN ON THE DRAWINGS OR THAT DIFFER IN SIZE OR MATERIAL.
  8. THE CONTRACTOR IS RESPONSIBLE FOR SITE SURVEY, COORDINATION WITH THE OWNER, ALL SUBCONTRACTORS, AND WITH OTHER CONTRACTORS WORKING ON THE PROJECT. THE ENGINEER IS NOT RESPONSIBLE FOR VERIFYING THE LOCATION AND DEPTH OF EXISTING UTILITIES.
  9. EXCAVATION SHALL BE DONE BY HAND EXCAVATION. THE CONTRACTOR SHALL PROVIDE PROVISION FOR A COMPETENT PERSON ON SITE AND ANY REQUIRED DOCUMENTATION THAT MAY BE REQUIRED BY LOCAL, STATE, AND FEDERAL AGENCIES.
  10. SPECIAL, ANY JOB, AND COMMUNITY SERVICES, AND FEES NECESSARY TO COMPLETE THE WORK, ADVANCE AND PAY FOR NECESSARY INSPECTIONS AND APPROVALS FROM THE APPLICABLE AUTHORITIES.
  11. SLOPE UTILITY TRENCHES WHERE FIELD CONDITIONS DICTATE AND/OR WHERE REQUIRED BY LOCAL, STATE AND FEDERAL, HEALTH AND SAFETY CODES.
  12. FLOOD CONTROL: ALL EXISTING CONDITIONS TO BE MAINTAINED FOR FLOOD CONTROL. FIELD CONTRACTORS ARE ADVISED THAT ANY TEMPORARILY FROM THESE SHOWN ON THESE DRAWINGS AND MATERIALS TO BE MAINTAINED FOR FLOOD CONTROL. THE CONTRACTOR SHALL MAINTAIN FLOOD CONTROL THROUGHOUT THE CONSTRUCTION PERIOD.
  13. PROTECT AND MAINTAIN ALL UTILITIES. THE USER UNDER CONSTRUCTION SHALL BE RESPONSIBLE FOR THE PROTECTION AND MAINTENANCE OF ALL UTILITIES. THE CONTRACTOR SHALL MAINTAIN ALL UTILITIES AT ALL TIMES. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION AND MAINTENANCE OF ALL UTILITIES. THE CONTRACTOR SHALL MAINTAIN ALL UTILITIES AT ALL TIMES. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE PROTECTION AND MAINTENANCE OF ALL UTILITIES. THE CONTRACTOR SHALL MAINTAIN ALL UTILITIES AT ALL TIMES.
  14. NOTIFY THE ENGINEER IN WRITING OF ANY CONFLICT, ERROR, AMBIGUITY, OR DISCREPANCY WITH THE PLANS OR BETWEEN THE PLANS AND ANY APPLICABLE LAW, REGULATION, CODE, STANDARD SPECIFICATION, OR MANUFACTURER'S INSTRUCTIONS.
  15. THE CONTRACTOR IS RESPONSIBLE FOR SUPPORT OF EXISTING UTILITIES AND REPAIR OR REPLACEMENT COSTS OF UTILITIES DAMAGED DURING CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPAIR OR REPLACEMENT OF ANY UTILITIES DAMAGED DURING CONSTRUCTION.
  16. THE CONTRACTOR SHALL MAINTAIN AND PROTECT ALL EXISTING UTILITIES AND REPAIR OR REPLACEMENT COSTS OF UTILITIES DAMAGED DURING CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPAIR OR REPLACEMENT OF ANY UTILITIES DAMAGED DURING CONSTRUCTION.
  17. NO OPEN TRENCHES WILL BE ALLOWED OVER NIGHT. THE USE OF ROAD PLATES TO PROTECT THE EXCAVATION WILL BE CONSIDERED UPON REQUEST, BUT BACKFILLING IS MANDATED.
  18. THE CONTRACTOR IS RESPONSIBLE FOR ALL NECESSARY TRAFFIC CONTROL, SAFETY SERVICES TO ENSURE SAFE OPERATION AND RESTRICTION ACCESS THROUGHOUT THE WORK AREA, OR FOR SAFELY IMPLEMENTING DETOURS AROUND THE WORK AREA, PERSONNEL TRAFFIC CONTROL, IN ACCORDANCE WITH THE CONTRACTOR'S APPROVED TRAFFIC CONTROL PLAN.
  19. MAINTAIN EGRESS ACCESS TO ALL PROPERTIES WITHIN THE PROJECT AREA AT ALL TIMES DURING CONSTRUCTION.
  20. WHEN WORKING IN THE ROAD, REMOVE THE OWNER AND LOCAL RESIDENTS/SCHOOL, AUTHORITY'S A DETAILED PLAN OF APPROACH INDICATING METHODS OF PROTECTING TRAFFIC ROUTING ON A DAILY BASIS. REMOVE OBSTRUCTIONS TO TRAFFIC COMMUNICATION AND COORDINATION BETWEEN THE OWNER, CONTRACTOR AND LOCAL RESIDENTS/SCHOOL, AUTHORITY THROUGHOUT THE CONSTRUCTION PERIOD.
  21. REMOVE AND DISPOSE OF ALL CONSTRUCTION-RELATED WASTE MATERIALS AND DEBRIS IN STRICT ACCORDANCE WITH ALL APPLICABLE LOCAL, STATE, AND FEDERAL REQUIREMENTS.
  22. THE TERM "MAINTAIN" USED ON THE DRAWINGS MEANS TO REMOVE AND DISPOSE OF IN ACCORDANCE WITH LOCAL, STATE, AND FEDERAL REQUIREMENTS.
  23. THE TERM "MAINTAIN" USED ON THE DRAWINGS MEANS TO LEAVE IN PLACE AND TAKE APPROPRIATE MEASURES TO DISCOMMISSION AS SPECIFIED ON WORD ON THE DRAWINGS.
  24. ALL PROPOSED WORK MAY BE ADJUSTED IN THE FIELD BY THE OWNER'S PROJECT REPRESENTATIVE TO MEET EXISTING CONDITIONS.

**EROSION CONTROL NOTES**

1. REMOVE ALL EXISTING CONTROL MEASURES SHOWN, SPECIFIC, REQUIRED BY PROJECT AND/OR REQUIRED BY THE ENGINEER PRIOR TO ANY CONSTRUCTION OR IMMEDIATELY UPON COMPLETION OF CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE INSTALLATION AND MAINTENANCE OF ALL EROSION CONTROL MEASURES THROUGHOUT THE CONSTRUCTION PERIOD. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE INSTALLATION AND MAINTENANCE OF ALL EROSION CONTROL MEASURES THROUGHOUT THE CONSTRUCTION PERIOD.
2. INSTALL SILT SOCKS ON OTHER APPROVED SEDIMENTATION MEASURES THAT ARE REQUIRED BY THE PROJECT AREA.
3. REMOVE EXISTING AND NEW AND SED SOLES, STABILIZATION AREAS AND DISTURBED VEGETATED AREAS TO A MINIMUM DEPTH OF 4 INCHES. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPAIR OR REPLACEMENT OF ANY DISTURBED AREAS TO A MINIMUM DEPTH OF 4 INCHES. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPAIR OR REPLACEMENT OF ANY DISTURBED AREAS TO A MINIMUM DEPTH OF 4 INCHES.
4. SETTLE OR FILTER ALL SILT-LADEN WATER FROM DEWATERING ACTIVITIES IN A SEDIMENTATION OR FILTER BAG TO REMOVE SEDIMENTS PRIOR TO RELEASE USING A SEDIMENTATION OR FILTER BAG LOCATED DOWN-GRADIENT OF THE DEWATERED AREA.
5. UTILIZE APPROPRIATE DEWATERING SYSTEMS AND TECHNIQUES TO MAINTAIN EXCAVATIONS SURFACE WATER FROM EXISTING WATER AND SURFACE RUNOFF SO AS NOT TO DISTURB EXISTING VEGETATION OR DISTURB EXISTING VEGETATED AREAS TO A MINIMUM DEPTH OF 4 INCHES. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPAIR OR REPLACEMENT OF ANY DISTURBED AREAS TO A MINIMUM DEPTH OF 4 INCHES.
6. WRITE FROM THE TRENCHES AND EXCAVATIONS SHALL BE DISPOSED OF IN SUCH A MANNER AS TO AVOID PUBLIC NUISANCE, INJURY TO PUBLIC HEALTH OR THE ENVIRONMENT, AND AS REQUIRED BY THE STATE OF MASSACHUSETTS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPAIR OR REPLACEMENT OF ANY DISTURBED AREAS TO A MINIMUM DEPTH OF 4 INCHES.
7. WATER FROM TRENCHES AND EXCAVATIONS SHALL NOT BE DISCHARGED DIRECTLY TO STORM DRAIN SYSTEMS, WATERS DISCHARGED TO SEDIMENTATION BASINS IS TO BE DISCHARGED TO ANY DRAINAGE SYSTEM.
8. RECONSTRUCTION SHALL BE TAKEN TO PROTECT NEW WORK FROM FLOODING DURING STORMS, GRADING IN THE AREAS SURROUNDING ALL EXCAVATIONS SHALL BE PROPERLY SLOPED TO PREVENT WATER FROM RUNNING INTO THE EXCAVATED AREA OR TO ADJACENT PROPERTIES, WHERE REQUIRED. TEMPORARY MATS SHALL BE PROVIDED FOR DRAINAGE UPON COMPLETION OF THE WORK AND WHEN DIRECTED, ALL AREAS SHALL BE RESTORED TO A SATISFACTORY MANNER.
9. REMOVE AND PROPERLY DISPOSE OF SILT TRAPPED AT BARBERS IN UPLAND AREAS OUTSIDE BUFFER ZONES, REMOVE MATERIALS DEPOSITED IN ANY TEMPORARY SETTLING BASINS AT THE END OF CONSTRUCTION IF NECESSARY. SWEEP, COLLECT, REMOVE AND DISPOSE OF ANY SEDIMENT TRAPPED ONTO PUBLIC RIGHT-OF-WAYS AT THE END OF EACH DAY.
10. LOWM AND SEED ALL DISTURBED VEGETATED AREAS TO ESTABLISH COVER AND STABILIZATION AS SOON AS POSSIBLE FOLLOWING DISTURBANCE.
11. TEMPORARY STOCKPILES OF MATERIALS RELATED TO THE CONSTRUCTION ACTIVITIES ARE TO BE PROPERLY STABILIZED, PROTECTED AND DEMOLISHED TO PREVENT MOVEMENT OF MATERIALS INTO THE STORM DRAIN SYSTEM OR TO ADJACENT PROPERTIES.
12. MAINTAIN AN ADDITIONAL SUPPLY OF EROSION CONTROL MEASURES ON-SITE FOR EMERGENCY USES.
13. REPAIRING AND ANY WORK ASSOCIATED WITH THE MAINTENANCE OF CONSTRUCTION EQUIPMENT SHALL BE PERFORMED IN COMPLIANCE WITH ALL REPAIR REGULATIONS.
14. STONE FILL, OIL, PAINT, OR OTHER HAZARDOUS MATERIALS IN A SECONDARY CONTAINER AND REMOVE TO A SECURE LOCKED AND COVERED AREA DURING NON-WORK HOURS.
15. REMOVE A SUPPLY OF ABSORBENT SPILL RESPONSE MATERIALS SUCH AS BOOMS, BULKHEADS, AND OIL ABSORBENT MATERIALS AT THE CONSTRUCTION SITE AT ALL TIMES TO CLEAN UP SPILLS OF OIL, PAINT, OR OTHER HAZARDOUS MATERIALS. IMMEDIATELY REPORT SPILLS OF HAZARDOUS MATERIALS TO THE STATE ENVIRONMENTAL AGENCY AND THE MUNICIPALITY WHERE THE WORK IS OCCURRING.

**SURFACE RESTORATION NOTES**

1. ALL IMPACT DAMAGED BY THE CONTRACTOR'S OPERATIONS SHALL BE REPLACED IN ACCORDANCE WITH THE CONTRACT DOCUMENTS.
2. REMOVE SITE GRADING AT UNIMPAVED AREAS, SIDEWALKS, AND BUILDING EXTERIORS THAT IS CONSISTENT WITH THE REPAIR REQUIREMENTS OF THE ADJUTANTURAL BARBERS ACT (M.G.A. CHAPTER 261B). THE CONTRACTOR SHALL MAINTAIN ACCESS ROAD REQUIREMENTS (M.G.A.) SHALL CHANGES IN GRADE OVER RELATIVE TO THE ORIGINAL GRADE. THE CONTRACTOR SHALL MAINTAIN ACCESS ROAD REQUIREMENTS (M.G.A.) SHALL CHANGES IN GRADE OVER RELATIVE TO THE ORIGINAL GRADE. THE CONTRACTOR SHALL MAINTAIN ACCESS ROAD REQUIREMENTS (M.G.A.) SHALL CHANGES IN GRADE OVER RELATIVE TO THE ORIGINAL GRADE.
3. ACCESSIBLE FLOORING SHALL BE REPAIRED TO THE ORIGINAL FINISH (ANY DIRECTION) SLOPE < 2.0%  
- LONGITUDINAL SLOPE ACCESSIBLE ROUTES < 2.0%  
- CROSS SLOPE ALONG ACCESSIBLE ROUTES < 2.0%
4. WALKWAYS SHALL HAVE A CONTINUOUS COMMON SURFACE, NOT TOLERANCE FOR STOPS OR CHANGES IN LEVEL, GREATER THAN 1/4 INCH.
5. PROVIDE A SHOULDER, FLUSH TRANSITION BETWEEN ALL NEW AND EXISTING PAVEMENTS.
6. WHEELCHAIR LAWN SLOPE AND SIDE SLOPES (TRANSITIONS) WILL BE A MAXIMUM OF 7.5% WITH A CONSTRUCTION TOLERANCE OF 0.5%.
7. AT NO TIME IS ANY PART OF THE WHEELCHAIR LAWN, EXCLUDING CURB TRANSITIONS, TO BE LOCATED OUTSIDE OF THE CROSSWALK. THE WHEELCHAIR LAWN ENTRANCE IS TO BE CENTERED IN THE CROSSWALK WHENEVER POSSIBLE.
8. THE ENTRANCE OF A WHEELCHAIR LAWN SHALL BE FLUSH WITH THE ROADWAY.
9. DETRIABLE WARNING SIGNS ARE REQUIRED ON ALL THE PROPOSED WHEELCHAIR SLOPES AND ARE TO BE INSTALLED IN ACCORDANCE WITH THE MASSACHUSETTS DEPARTMENT OF TRANSPORTATION (MASSDOT) CONSTRUCTION STANDARD E 107.5.5 (OCTOBER 2017).
10. PROVIDE TEMPORARY SIGNAGE, WHEN APPLICABLE.
11. IF REMOVAL OF PRODUCT FEATURES IS REQUIRED IN ORDER TO PERFORM THE PROPOSED WORK, REMOVE THESE SITE FEATURES ONLY UPON APPROVAL OF ENGINEER. REPLACE ALL REMOVED PRODUCT FEATURES; NEW ITEMS SHALL BE EQUAL OR BETTER IN QUALITY AND CONDITION TO THE ITEMS REMOVED.
12. EXISTING SIGNAGE NOTIFICATIONS DISTURBED BY THE CONSTRUCTION SHALL BE REPLACED BY A LAND SURVEYOR LICENSED IN THE STATE IN WHICH THE WORK IS PERFORMED AT NO ADDITIONAL COST TO THE OWNER.
13. COORDINATE THE ADJUSTMENT OF EXISTING UTILITY STRUCTURES WITH EACH RESPONSIBLE UTILITY OWNER PRIOR TO RECONSTRUCTION AND/OR PAVING OPERATIONS. RAISE ALL EXISTING UTILITY STRUCTURES TO THE ORIGINAL FINISH. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPAIR OR REPLACEMENT OF ANY DISTURBED AREAS TO A MINIMUM DEPTH OF 4 INCHES.
14. REPAIR DISTURBED DRAIN SURFACES AT THE END OF EACH WORK WEEK, UNLESS OTHERWISE APPROVED/REQUIRED BY THE OWNER.
15. PLACE TEMPORARY VEGETATED CONCRETE PAVEMENT AT DISTURBED PORTLAND CEMENT CONCRETE SIDEWALKS AND DRIVEWAYS AT THE END OF EACH WORK WEEK, UNLESS OTHERWISE APPROVED/REQUIRED BY THE OWNER.
16. TRANSFER ALL TEMPORARY BENCHMARKS, AS NECESSARY.
17. ACCOMMODATE PEDESTRIAN TRAFFIC WHERE A SIDEWALK IS TO BE CLOSED FOR SAFETY. TEMPORARY CLOSED HEAR SIDEWALK SHALL BE USED AT THE NEAREST SAFE INTERSECTION. SEE TRAFFIC CONTROL DETAILS FOR SIGN INFORMATION.
18. RESTORE ALL AREAS DISTURBED BY THE CONSTRUCTION BEYOND THE MATCHLINE LIMITS TO ORIGINAL CONDITION AT NO ADDITIONAL COST TO THE OWNER.
19. LOWM AND SEED ALL DISTURBED AREAS UNLESS OTHERWISE SPECIFIED. OVER EXCAVATE LOWM AND SEED AREAS AS REQUIRED TO MEET GRADE.
20. RESTORE ALL UNPAVED AREAS DISTURBED BY THE WORK AS REQUIRED. REPAIR/REPLACE DAMAGED SURFACES DISTURBED BY THE WORK IN-KIND, UNLESS OTHERWISE NOTED. RESTORE SURFACES TO ORIGINAL FINISH/CONDITION AS INDICATED ON THE DRAWINGS.

- SIDEWALK AND WHEELCHAIR RAMP NOTES**
- WIDTH OF WALKWAYS SHALL NOT BE LESS THAN 48 INCHES, EXCLUDING CURBS.
  - ALL UNCONSTRUCTED PORTION OF TRAVEL SHALL BE PROVIDED WHICH IS AT LEAST 36 INCHES CLEAR, EXCLUDING CURBS.
  - LOW SIDE TRANSITION LENGTH SHALL BE A MINIMUM OF 6'-6".
  - HIGH SIDE TRANSITION LENGTH AS SHOWN ON PLANS.
  - THE WHEELCHAIR RAMP SLOPES AND SIDE SLOPES (TRANSITIONS) WILL BE 7.5% WITH A CONSTRUCTION TOLERANCE OF ±0.5%.
  - WHERE THE ROAD PROFILE EXCEEDS 4%, THE HIGH SIDE TRANSITION LENGTH, UNDER ANY CONDITIONS, NEED NOT EXCEED 15 FEET.
  - AT NO TIME IS ANY PART OF THE WHEELCHAIR RAMP, EXCLUDING CURB TRANSITIONS, TO BE LOCATED OUTSIDE THE CROSSWALK. THE WHEELCHAIR RAMP ENTRANCE IS TO BE CENTERED IN THE CROSSWALK WHEREVER POSSIBLE.
  - THE ENTRANCE OF A WHEELCHAIR RAMP SHALL BE FLUSH WITH THE ROADWAY.
  - SHALL BE NO DEGRADATION FROM A "TRUE SURFACE" IN EXCESS OF 1/4".
  - DEFECTIVE WARNING PANELS ARE REQUIRED ON ALL OF THE PROPOSED WHEELCHAIR RAMP AND ARE TO BE INSTALLED IN ACCORDANCE WITH THE CONSTRUCTION STANDARD VET 107.6.5R (OCTOBER 2004).

**HIGH SIDE TRANSITION LENGTH**

| ROADWAY PROFILE GRADE % | TRANSITION LENGTH |
|-------------------------|-------------------|
| 0                       | 6'-6"             |
| 0-1                     | 7'-6"             |
| 2-3                     | 8'-6"             |
| 3-4                     | 14'-0"            |
| >4                      | 15'-0" MAX        |

NOTE: BASED ON A DESIGN SLOPE OF 7.5% AND A CURB REVEAL OF 6"

- NOTES:
- FRAME AND COVER SHALL BE PROVIDED FROM THE SAME MANUFACTURER.
  - LETTERING SHALL BE CAST INTO COVERS AS SPECIFIED.

| DATE         | FEB 13 09:41 |

- NOTES:**
- DRAIN DESIGN AND APPLICATION SHALL BE AS PER THE CURRENT EDITION OF THE MANUAL.
  - DRAINS SHALL BE APPROXIMATELY 36" IN HEIGHT, MINIMUM DIAMETER OF 12" REGARDLESS OF ORIENTATION.
  - DRAIN MATERIAL MUST BE APPROVED BY RESISTANT, LOW DENSITY, IMPACT RESISTANT, LUMINOUS, FLAME RETARDANT, AND APPROVED FOR USE WITH TYPE IV REFLECTORIZED SHEET CONFORMING TO M 9.20.6.
  - ALL DRAINS SHALL BE WELL MAINTAINED INCLUDING REMOVAL OF DIRT OR ROAD FILM, SO AS NOT TO TRAP VALUE FT SHALL BE REPLACED.
  - STORE UNUSED DRAINS IN ONE LOCATION, AWAY FROM ALL TRAFFIC, OR REMOVE FROM SITE ENTIRELY.

**PLASTIC DRUMS**

**FORMULAS FOR DETERMINING TAPER LENGTHS**

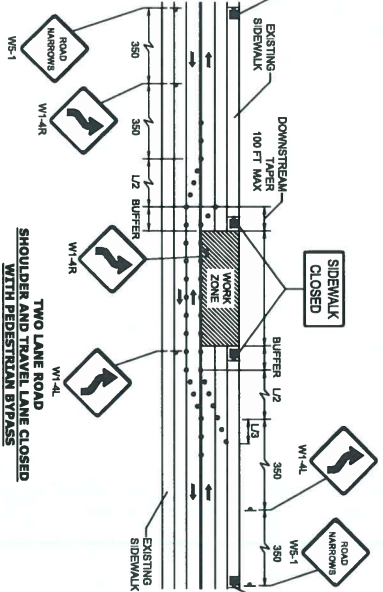

| SPEED LIMIT (S) | TAPER LENGTH (L) | FEET |
|-----------------|------------------|------|
| 40 MPH OR LESS  | $L = WS^2$       | 60   |
| 45 MPH OR MORE  | $L = WS$         | 5    |

WHERE:  
 L = TAPER LENGTH IN FEET  
 W = WIDTH OF OFFSET IN FEET  
 S = POSTED SPEED LIMIT, OR OFF-PEAK 85TH PERCENTILE SPEED, OR THE UNPOSTED OPERATING SPEED IN MPH

**WORK ZONE LIMIT SIGNS**

**TWO LANE ROAD SHOULDER AND TRAVEL LANE CLOSED WITH PEDESTRIAN BYPASS**

**LATERAL DROP-OFF DETAIL**

**LONGITUDINAL DROP-OFF DETAIL**

**LATERAL AND LONGITUDINAL DROP-OFF DETAILS**

\* INCREASE SLOPE RATIO FOR HIGHER SPEEDS

**GENERAL NOTES:**

- ALL TEMPORARY TRAFFIC CONTROL WORK SHALL CONFORM TO THE LATEST EDITION OF THE MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (MUTCD) AND ALL REVISIONS, UNLESS SPECIFIED BY THESE PLANS.
- ALL SIGN LEGENDS, DIMENSIONS, AND MOUNTING SHALL BE IN ACCORDANCE WITH THE MUTCD.
- TEMPORARY CONSTRUCTION SIGNING AND ALL OTHER TRAFFIC CONTROL DEVICES SHALL BE IN PLACE PRIOR TO THE START OF ANY WORK.
- TEMPORARY CONSTRUCTION SIGNING, BARRETTORS, AND ALL OTHER NECESSARY WORK SHALL BE MAINTAINED THROUGHOUT THE DURATION OF CONSTRUCTION.
- SIGNS AND SIGN SUPPORTS LOCATED ON OR NEAR THE TRAVELED WAY, CHANNELIZING DEVICES, BARRETTORS AND OTHER ATTENUATORS MUST PASS THE CRITTELA SET FORTH IN THE MUTCD. THE MUTCD SHALL BE REFERRED TO FOR THE LATEST EDITION OF THE EVALUATION OF HIGHWAY FEATURES' MANUAL FOR ASSESSING SAFETY HAZARD/WEAR (MHSF).
- CONTRACTORS SHALL NOTIFY EACH ANOTHER AT LEAST 24 HOURS IN ADVANCE OF THE START OF ANY WORK THAT WILL REQUIRE THE TEMPORARY CLOSURE OF ACCESS, SUCH AS PAVEMENT PLACEMENT, AND SIMILAR OPERATIONS.
- THE FIRST FIVE FEET OF A TAPER SHALL BE EQUIPPED WITH TYPE A LIGHTS.
- THE ADVISORY SPEED LIMIT, IF REQUIRED, SHALL BE DETERMINED BY THE ENGINEER.
- MAXIMUM SPACING OF TRAFFIC DEVICES IN A TAPER (DRUMS OR CONES) IS EQUAL IN FEET TO THE SPEED LIMIT IN MPH.
- MINIMUM LANE WIDTH IS TO BE 11 FEET UNLESS OTHERWISE SHOWN. MINIMUM LANE WIDTH SHALL BE MAINTAINED THROUGHOUT THE DURATION OF CONSTRUCTION.
- ALL SIGNS SHALL BE MOUNTED ON THEIR OWN STANDARDS SIGN SUPPORTS.
- SIGN MARK 108 AND MK-42-108 SHALL BE LOCATED AT THE PROJECT LIMITS FOR THE DIRECTION OF THE WORK.

**LEGEND:**

- REFLECTORIZED PLASTIC DRUM ON 36" CONE
- PLASTIC DRUM DETAIL
- TYPE III BARRETTOR

**NOTES**

1. CONCRETE WASHOUT FACILITIES SHOULD BE LOCATED A MINIMUM OF 25 FEET FROM STORM DRAIN INLETS, OPEN EXHAUST FACILITIES, AND WATER RECEIVING FACILITIES. FACILITIES SHOULD BE LOCATED IN A WAY THAT CONSTRUCTION TRAFFIC OR ACCESS DOES NOT OBSTRUCT OR INTERFERE WITH THE FACILITIES.
2. A SIGN SHOULD BE INSTALLED ADJACENT TO EACH WASHOUT FACILITY TO INSTRUCT CONCRETE EQUIPMENT OPERATORS TO UTILIZE THE PROPER FACILITIES.
3. TEMPORARY CONCRETE WASHOUT FACILITIES SHOULD BE CONSTRUCTED ABOVE GRADE. TEMPORARY CONCRETE WASHOUT FACILITIES SHOULD BE CONSTRUCTED AND MAINTAINED IN SUFFICIENT QUANTITY AND SIZE TO CONTAIN ALL LIQUID AND CONCRETE WASTE GENERATED BY WASHOUT OPERATIONS.
4. TEMPORARY WASHOUT FACILITIES SHOULD HAVE A TEMPORARY 1/2" OR HEAVIER GAUGE POLYETHYLENE SHEETING OR CONCRETE WASHOUT FACILITIES SHOULD BE CONSTRUCTED WITH A MINIMUM OF 1/2" POLYETHYLENE SHEETING.
5. WASHOUT OF CONCRETE TRUCKS SHOULD BE PERFORMED IN DESIGNATED AREAS ONLY.
6. ONLY CONCRETE FROM THICK CURBS SHOULD BE WASHED INTO CONCRETE WASH OUT.
7. ONCE CONCRETE WASTES ARE WASHED INTO THE DESIGNATED AREA, AND ALLOWED TO HARDEN, THE CONCRETE SHOULD BE BROKEN UP, REMOVED, AND DISPOSED OF PER SOLID WASTE MANAGEMENT STANDARDS. DISPOSE OF HARDENED CONCRETE ON A REGULAR BASIS.

**DEMOLITION PART PLAN**  
 SCALE: 1" = 20'

**EXISTING EQUIPMENT:**

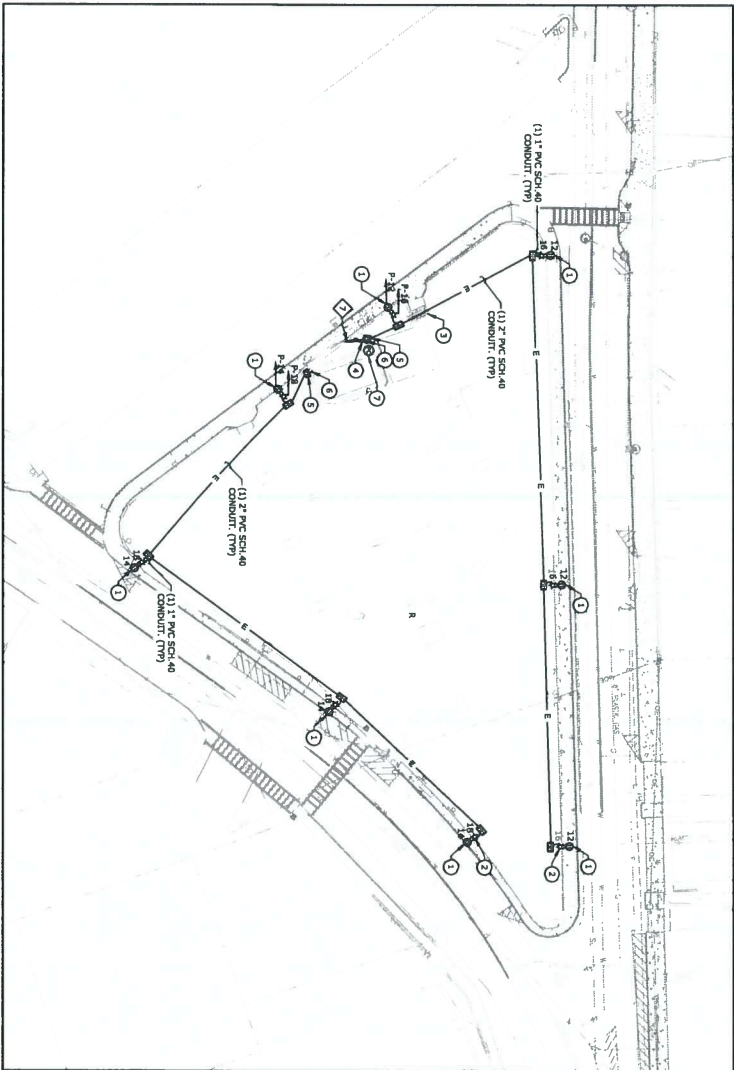

- ◇ EXISTING TO REMAIN 120/200V SINGLE PHASE 300A 4:1 RATIO TRANSFORMER
- ◇ EXISTING TO REMAIN UTILITY METER
- ◇ EXISTING TO REMAIN SERVICE JUNCTION BOX
- ◇ EXISTING TO REMAIN JUNCTION BOX FOR LIGHTING
- ◇ EXISTING LIGHTPOLE "12"
- ◇ EXISTING TO REMAIN ELECTRICAL HANDPOLE

**NEW EQUIPMENT:**

- ◇ LIGHTING CONDUIT IN NEW 1 ENCLOSURE

**DEMOLITION LEGEND:**

- X EXISTING DEVICES TO BE DEMOLISHED. EXISTING PERSON CONDUITS INCLUDING CONDUIT RACEWAYS AND WIRING SERVING DEVICES SHALL BE RULLED BACK TO AND DISCONNECTED FROM THE PANEL OF ORIGIN.
- \* EXISTING DEVICES TO REMAIN ACTIVE AS-IS.
- /// EQUIPMENT, STRUCTURES, PIPING AND/OR CONDUIT TO BE DEMOLISHED.

**PROPOSED SITE PLAN**  
 SCALE: 1" = 30'

**GENERAL POWER NOTES**

1. VICTORIAN LIGHT POLE AND BASE WITH W/40FT RECEPTACLE REFER TO DETAIL ON SHEET E-501.
2. 10FT GROUND ROD AT THE END OF LIGHTING CIRCUIT (TYPICAL)
3. CONCRETE ENCLOSURE REQUIRED. REFER TO DETAIL ON SHEET E-501
4. PROVIDE (4) IN KIND 120V 1PH, 20A CIRCUIT BREAKER FROM PANEL "P" TO SERVICE E-501.
5. PROVIDE (4) NEMA 3R RILUX FOR BRANCH WIRING SERVING SITE LIGHTS AND 120V RECEPTACLES. COORDINATE WALL PENETRATIONS AND INTERIOR SCHEDULE ROUTING PRIOR TO ALL WORK. PROVIDE SCHEDULE FOR CONDUIT AND 120V RECEPTACLES. COORDINATE WALL PENETRATIONS AND INTERIOR SCHEDULE ROUTING PRIOR TO ALL WORK.
6. ROUTE SITE LIGHTS AND 120V RECEPTACLE CIRCUITS IN 3/4" SWP FROM PANEL "P" TO INTERIOR (4" BOX) LOCATED AT WALL PENETRATION.
7. COORDINATE EXACT LOCATION OF PROTECTIVE RIGID TO ALL WORK.

**GENERAL SITE NOTES**

1. FOR SYMBOLS AND ABBREVIATIONS, REFER TO DRAWING E-501.
2. BOLD TEXT AND LINES INDICATE PROPOSED WORK. LIGHT TEXT AND LINES INDICATE APPROXIMATE EXISTING CONDITIONS.
3. ALL EXCAVATION, TRENCHING, BACK FILL AND COMPACTION OF DUCT BANKS, SITE LIGHTING POLE BASES SHALL BE FINISHED BY THE ELECTRICAL CONTRACTOR.
4. REFER TO SHEET C-201 FOR EXACT LOCATION AND QUANTITY OF 18" DIA. HOLES.
5. REFER TO SHEET C-201 FOR EXACT LOCATION OF VICTORIAN LIGHTS. HOLES SHALL BE FINISHED BY THE GENERAL CONTRACTOR TO FIELD CONDITIONS PRIOR TO ALL WORK.
6. CONDUIT ROUTING WITH ARCHITECT AND DUSTING SITE CONDITIONS PRIOR TO ALL WORK.
7. ALL CONCRETE AND TRENCH WORK SHALL BE BY THE GENERAL CONTRACTOR.

RE: Free Cash Appropriation Request – Workers Compensation Audit Expenses

Dear Madam President and Councilors,

As part of our annual auditing procedures, the City is required to audit our workers compensation claims and payments every two years.

The attached appropriation request is to cover the cost incurred by the audit for FY2021 and FY2022.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

AN ORDER APPROPRIATING FROM FREE CASH TO THE PERSONNEL DEPARTMENT –WORKER COMPENSATION EXPENSE ACCOUNT.

ORDERED:

That there be and is hereby appropriated the sum of Ninety-Nine Thousand Dollars and No Cents (\$99,000.00) from Free Cash to the Personnel Dept. – Worker Compensation Expense Account.

RE: Free Cash Appropriation Request – Snow and Ice Deficit

Dear Madam President and Councilors,

The Administration has begun the process of closing out the fiscal year and covering any deficits that exist in accounts.

The attached request covers the deficit that exists in the City's snow and ice removal account for operations that took place this winter.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

AN ORDER APPROPRIATING FROM FREE CASH TO THE DPW DEPARTMENT –SNOW & ICE REMOVAL EXPENSES ACCOUNT.

ORDERED:

That there be and is hereby appropriated the sum of Seven Hundred One Thousand Seven Hundred Dollars and No Cents (\$701,700.00) from Free Cash to the DPW Department – Snow & Ice Removal Expenses Account.

City of Gardner - *Executive Department*

Mayor Michael J. Nicholson

RE: Free Cash Appropriation Request – Tax Title Services

Dear Madam President and Councilors,

The Administration has made a more concerted effort going after properties on our tax title foreclosure list to get them back on the tax rolls.

However, doing so does create additional legal expenses of getting these properties through the land court.

This free cash appropriation request is to cover the cost of these land court filings that were over what was appropriated in the FY2023 operating budget.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

AN ORDER APPROPRIATING FROM FREE CASH TO THE TREASURER'S  
DEPARTMENT –PROFESSIONAL SERVICES EXPENSE ACCOUNT.

ORDERED:

That there be and is hereby appropriated the sum of Ten Thousand Dollars and No  
Cents (\$10,000.00) from Free Cash to the Treasurer's Dept. – Professional Services  
Expense Account.

RE: Free Cash Appropriation Request – Law Department Outside Counsel

Dear Madam President and Councilors,

The Administration has begun the process of closing out any deficits that may exist in the current FY2023 operating budget due to unanticipated expenses that were not thought of in June of 2022 when the budget was adopted.

The attached Free Cash Appropriation Request is being submitted to close the existing deficit in the Law Department's outside counsel line item.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

AN ORDER APPROPRIATING FROM FREE CASH TO THE LAW DEPARTMENT – OUTSIDE COUNSEL EXPENSE ACCOUNT.

ORDERED:

That there be and is hereby appropriated the sum of Three Thousand Three Hundred Twelve Dollars and No Cents (\$3,312.00) from Free Cash to the Law Dept. – Outside Counsel Expense Account.

City of Gardner - *Executive Department*

Gardner, MA 01440

RE: Free Cash Appropriation Request – Medical Exams

Dear Madam President and Councilors,

The Administration has begun the process of closing out any deficits that may exist in the current FY2023 operating budget due to unanticipated expenses that were not thought of in June of 2022 when the budget was adopted.

It is always hard to determine how many employees will be hired in a given fiscal year. This year, we saw a lot of turn over in the School Department, Department of Public Works, Fire Department and others due to either new opportunities or retirements.

The City Code requires that all new hires undertake a pre-employment medical exam and drug test. The attached appropriation request is to cover the costs of those exams that came in higher than what was appropriated in the operating budget.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

AN ORDER APPROPRIATING FROM FREE CASH TO THE PERSONNEL DEPARTMENT –MEDICAL EXAMS EXPENSE ACCOUNT.

ORDERED:

That there be and is hereby appropriated the sum of Fifteen Thousand Dollars and No Cents (\$15,000.00) from Free Cash to the Personnel Dept. –Medical Exam Expense Account.

City of Gardner - *Executive Department*

Mayor Michael J. Nicholson

RE: Free Cash Appropriation Request – Pool Filtration System Installation

Dear Madam President and Councilors,

Since the Council first approved funding for the new filtration system at the Greenwood Memorial Outdoor Pool in 2021, the cost of the installation increased severely between the product arrived and when it was installed. The device was ordered in April of 2021 and arrived in October of 2022 for installation.

The attached appropriation request is being put forward to cover the cost incurred for the installation of the filter.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

April 26, 2023

Hon. Elizabeth J. Kazinskas, Council President  
And City Councilors  
Gardner City Hall, Rm 121  
95 Pleasant St  
Gardner, MA 01440

RE: An Ordinance to Amend the Code of the City of Gardner, Chapter 306, thereof, entitled "Alcoholic Beverages," to add a new section 5 thereof, entitled, "Marijuana Retail Establishments" to increase the quota allowed and change the method for amending the quota allowed by the Code of the City of Gardner.

Dear Madam President and Councilors,

With the recent submission to the City Council regarding the change in quota for Retail Marijuana Establishments, the conversation was brought up about removing the quota portion from the City's Zoning Code and making the quota portion itself a general ordinance, to allow the City to adjust the number as the market may change without having to go through the full zoning amendment process.

The attached ordinance would add a section to the City's current alcoholic beverage operation chapter to govern both marijuana quotas aside from alcoholic beverage consumption, while still keeping the core sections of the City's current marijuana ordinance in the zoning code.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

**AN ORDINANCE TO AMEND THE CODE OF THE CITY OF GARDNER, CHAPTER 306 THEREOF, ENTITLED “ALCOHOLIC BEVERAGES,” TO ADD A NEW SECTION 5 THEREOF, ENTITLED, “MARIJUANA RETAIL ESTABLISHMENTS” TO INCREASE THE QUOTA ALLOWED AND CHANGE THE METHOD FOR AMENDING THE QUOTA ALLOWED BY THE CODE OF THE CITY OF GARDNER.**

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GARDNER AS FOLLOWS:

**SECTION 1:** That the Title of Chapter 306 of the Code of the City of Gardner shall be amended to state as follows:

Chapter 306. Alcoholic Beverages and Marijuana

**SECTION 2:** That the Chapter 306 of the of the Code of the City of Gardner shall be amended by adding a new Article II, entitled "Marijuana Establishments", and a new Section 5, entitled "Number of Allowed Marijuana Retail Establishments", immediately after the existing Section 4 of Chapter 306, as follows:

Article II. Marijuana Establishments

§306-5. Number of Allowed Marijuana Retail Establishments. The number of marijuana retail establishments shall not exceed 35% of liquor licenses issued in the City of Gardner for retail sale of alcoholic beverages not to be drunk on the premises where sold, said number to be rounded up to the next whole number.

**SECTION 3:** That this ordinance take effect upon passage and publication as required by law.

RE: Submission of Zoning Amendment Proposal- An Ordinance to Amend The Code Of The City Of Gardner, Chapter 675 Thereof, Entitled "Zoning," add "Sports Betting" to the Zoning Table of Uses.

Dear Madam President and Colleagues,

At the April 18<sup>th</sup>, 2023 Meeting of the City Council, we voted to grant the Mayor Leave to withdraw Item 10892 due to concerns regarding the process outlined in Chapter 40A, Section 5 of the General Laws.

We believe this proposal to have been in the best interest of the City of Gardner, as a way to build our economic base, provide for our residents, and plan for our future. We cannot stay stagnant as a City and must continue to do everything we can to better Gardner for ourselves and future generations of Gardnerites – which is what we believe this original proposal provided for the City.

Whereas Section 5 of Chapter 40A of the General Laws states that the City Council may initiate Zoning Amendments, we, as City Councilors, working in the best interest of the City and our Constituents, propose this ordinance and request that the City Council refer this Item to the Planning Board and schedule a joint public hearing.

We have attached the relevant section of the General Laws and the original proposal submitted by Mayor Nicholson that was formally withdrawn and removed by the City Council to this correspondence for supporting materials.

Respectfully submitted,

Dana Heath  
 Ward 2 Councilor

# Ordinance Document

**AN ORDINANCE TO AMEND THE CODE OF THE CITY OF GARDNER, CHAPTER 675 THEREOF, ENTITLED “ZONING,” TO ADD “SPORTS BETTING” TO THE ZONING TABLE OF USES.**

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GARDNER AS FOLLOWS:

**SECTION 1:** That Section 210(B) of Chapter 675, entitled “Word Usage and Definitions,” be amended by adding the following definition to its list:

Sports Betting Facility – A lot or structure operated by an entity licensed as a Sports Wagering Operator or Qualified Gaming Entity by the Massachusetts Gaming Commission under the provisions of M.G.L. c. 23N and 23K, as the same may be amended from time to time, to conduct sporting and sports wagering events, subject to and operated in accordance with the restrictions of such license. Sports Betting Facilities may be indoor or outdoor facilities.

**SECTION 2:** That Attachment 1 of Chapter 675 of the Code of the City of Gardner, entitled “Zoning- Table of Uses,” be amended by adding a new Section 54(a) immediately following Section 54, entitled “Sports Betting Facility” with the zoning district designations as follows:

| <b>Description of Use</b>                                                                                                                                                                                                       | <b>SFR1</b> | <b>RR2</b> | <b>GR3</b> | <b>COM1</b> | <b>COM2</b> | <b>IND1</b> | <b>IND2</b> |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|------------|------------|-------------|-------------|-------------|-------------|
| 54a. Sports Betting Facility, provided that any structure is so insulated and maintained as to confine noise to the premises, and is located not less than 100 feet from a residential district, excepting any access driveway. | NP          | NP         | NP         | SPPB        | SPPB        | SPPB        | NP          |

**SECTION 3:** This this ordinance take effect upon passage and publication as required by law.

**Chapter 40A**  
**Section 5**

| <b>Chapter 40A</b> | ZONING                                                           |
| <b>Section 5</b>   | ADOPTION OR CHANGE OF ZONING ORDINANCES OR BY-LAWS;<br>PROCEDURE |

Section 5. Zoning ordinances or by-laws may be adopted and from time to time changed by amendment, addition or repeal, but only in the manner hereinafter provided. Adoption or change of zoning ordinances or by-laws may be initiated by the submission to the city council or board of selectmen of a proposed zoning ordinance or by-law by a city council, a board of selectmen, a board of appeals, by an individual owning land to be affected by change or adoption, by request of registered voters of a town pursuant to section ten of chapter thirty-nine, by ten registered voters in a city, by a planning board, by a regional planning agency or by other methods provided by municipal charter. The board of selectmen or city council shall within fourteen days of receipt of such zoning ordinance or by-law submit it to the planning board for review.

No zoning ordinance or by-law or amendment thereto shall be adopted until after the planning board in a city or town, and the city council or a committee designated or appointed for the purpose by said council has each held a public hearing thereon, together or separately, at which interested persons shall be given an opportunity to be heard. Said public hearing shall be held within sixty-five days after the proposed zoning ordinance or by-law is submitted to

the planning board by the city council or selectmen or if there is none, within sixty-five days after the proposed zoning ordinance or by-law is submitted to the city council or selectmen. Notice of the time and place of such public hearing, of the subject matter, sufficient for identification, and of the place where texts and maps thereof may be inspected shall be published in a newspaper of general circulation in the city or town once in each of two successive weeks, the first publication to be not less than fourteen days before the day of said hearing, and by posting such notice in a conspicuous place in the city or town hall for a period of not less than fourteen days before the day of said hearing. Notice of said hearing shall also be sent by mail, postage prepaid to the department of housing and community development, the regional planning agency, if any, and to the planning board of each abutting city and town. The department of housing and community development, the regional planning agency, the planning boards of all abutting cities and towns and nonresident property owners who may not have received notice by mail as specified in this section may grant a waiver of notice or submit an affidavit of actual notice to the city or town clerk prior to town meeting or city council action on a proposed zoning ordinance, by-law or change thereto. Zoning ordinances or by-laws may provide that a separate, conspicuous statement shall be included with property tax bills sent to nonresident property owners, stating that notice of such hearings under this chapter shall be sent by mail, postage prepaid, to any such owner who files an annual request for such notice with the city or town clerk no later than January first, and pays a reasonable fee established by such ordinance or by-law. In cases involving boundary, density or use changes within a district, notice shall be sent to any such nonresident property owner who has filed such a request with the city or town clerk and whose property lies in the district where the change is sought. No defect in the form of any notice under this chapter shall invalidate any zoning ordinances or by-laws unless such defect is found to be misleading.

Prior to the adoption of any zoning ordinance or by-law or amendment thereto which seeks to further regulate matters established by section forty of chapter one hundred and thirty-one or regulations authorized thereunder relative to agricultural and aquacultural practices, the city or town clerk shall, no later than seven days prior to the city council's or town meeting's public hearing relative to the adoption of said new or amended zoning ordinances or by-laws, give notice of the said proposed zoning ordinances or by-laws to the farmland advisory board established pursuant to section forty of chapter one hundred and thirty-one.

No vote to adopt any such proposed ordinance or by-law or amendment thereto shall be taken until a report with recommendations by a planning board has been submitted to the town meeting or city council, or twenty-one days after said hearing has elapsed without submission of such report. After such notice, hearing and report, or after twenty-one days shall have elapsed after such hearing without submission of such report, a city council or town meeting may adopt, reject, or amend and adopt any such proposed ordinance or by-law. If a city council fails to vote to adopt any proposed ordinance within ninety days after the city council hearing or if a town meeting fails to vote to adopt any proposed by-law within six months after the planning board hearing, no action shall be taken thereon until after a subsequent public hearing is held with notice and report as provided.

Except as provided herein, no zoning ordinance or by-law or amendment thereto shall be adopted or changed except by a two-thirds vote of all the members of the town council, or of the city council where there is a commission form of government or a single branch, or of each branch where there are 2 branches, or by a two-thirds vote of a town meeting; provided, however, that the following shall be adopted by a vote of a simple majority of

all members of the town council or of the city council where there is a commission form of government or a single branch or of each branch where there are 2 branches or by a vote of a simple majority of town meeting:

(1) an amendment to a zoning ordinance or by-law to allow any of the following as of right: (a) multifamily housing or mixed-use development in an eligible location; (b) accessory dwelling units, whether within the principal dwelling or a detached structure on the same lot; or (c) open-space residential development;

(2) an amendment to a zoning ordinance or by-law to allow by special permit: (a) multi-family housing or mixed-use development in an eligible location; (b) an increase in the permissible density of population or intensity of a particular use in a proposed multi-family or mixed use development pursuant to section 9; (c) accessory dwelling units in a detached structure on the same lot; or (d) a diminution in the amount of parking required for residential or mixed-use development pursuant to section 9;

(3) zoning ordinances or by-laws or amendments thereto that: (a) provide for TDR zoning or natural resource protection zoning in instances where the adoption of such zoning promotes concentration of development in areas that the municipality deems most appropriate for such development, but will not result in a diminution in the maximum number of housing units that could be developed within the municipality; or (b) modify regulations concerning the bulk and height of structures, yard sizes, lot area, setbacks, open space, parking and building coverage requirements to allow for additional housing units beyond what would otherwise be permitted under the existing zoning ordinance or by-law; and

*[ Clause (4) of the fifth paragraph effective until July 29, 2021. For text effective July 29, 2021, see below.]*

(4) the adoption of a smart growth zoning district or starter home zoning district in accordance with section 3 of chapter 40R. Any amendment that requires a simple majority vote shall not be combined with an amendment that requires a two-thirds majority vote. If, in a city or town with a council of fewer than 25 members, there is filed with the clerk prior to final action by the council a written protest against a zoning change under this section, stating the reasons duly signed by owners of 50 per cent or more of the area of the land proposed to be included in such change or of the area of the land immediately adjacent extending 300 feet therefrom, no change of any such ordinance shall be adopted except by a two-thirds vote of all members.

*[ Clause (4) of the fifth paragraph as amended by 2021, 29, Sec. 11 effective July 29, 2021. For text effective until July 29, 2021, see above.]*

(4) the adoption of a smart growth zoning district or starter home zoning district in accordance with section 3 of chapter 40R.

*[ Two paragraphs following the fifth paragraph added by 2021, 29, Sec. 12 effective July 29, 2021.]*

Any amendment that requires a simple majority vote shall not be combined with an amendment that requires a two-thirds majority vote.

If, in a city or town with a council of fewer than 25 members, there is filed with the clerk prior to final action by the council a written protest against a zoning change under this section, stating the reasons duly signed by owners of 50 per cent or more of the area of the land proposed to be included in such change or of the area of the land immediately adjacent extending 300 feet therefrom, no change of any such ordinance shall be adopted except by a two-thirds vote of all members.

No proposed zoning ordinance or by-law which has been unfavorably acted upon by a city council or town meeting shall be considered by the city council or town meeting within two years after the date of such unfavorable action

unless the adoption of such proposed ordinance or by-law is recommended in the final report of the planning board.

When zoning by-laws or amendments thereto are submitted to the attorney general for approval as required by section thirty-two of chapter forty, he shall also be furnished with a statement which may be prepared by the planning board explaining the by-laws or amendments proposed, which statement may be accompanied by explanatory maps or plans.

The effective date of the adoption or amendment of any zoning ordinance or by-law shall be the date on which such adoption or amendment was voted upon by a city council or town meeting; if in towns, publication in a town bulletin or pamphlet and posting is subsequently made or publication in a newspaper pursuant to section thirty-two of chapter forty. If, in a town, said by-law is subsequently disapproved, in whole or in part, by the attorney general, the previous zoning by-law, to the extent that such previous zoning by-law was changed by the disapproved by-law or portion thereof, shall be deemed to have been in effect from the date of such vote. In a municipality which is not required to submit zoning ordinances to the attorney general for approval pursuant to section thirty-two of chapter forty, the effective date of such ordinance or amendment shall be the date passed by the city council and signed by the mayor or, as otherwise provided by ordinance or charter; provided, however, that such ordinance or amendment shall subsequently be forwarded by the city clerk to the office of the attorney general.

A true copy of the zoning ordinance or by-law with any amendments thereto shall be kept on file available for inspection in the office of the clerk of such city or town.

No claim of invalidity of any zoning ordinance or by-law arising out of any possible defect in the procedure of adoption or amendment shall be made in any legal proceedings and no state, regional, county or municipal officer shall refuse, deny or revoke any permit, approval or certificate because of any such

claim of invalidity unless legal action is commenced within the time period specified in sections thirty-two and thirty-two A of chapter forty and notice specifying the court, parties, invalidity claimed, and date of filing is filed together with a copy of the petition with the town or city clerk within seven days after commencement of the action.

**10892 – An Ordinance to Amend the Code of the City of Gardner, Chapter 675 thereof, entitled “Zoning,” to add “Sports Betting” to the Zoning Table of Uses.**

On a motion made by Councillor Aleksander Dernalowicz, seconded by Councillor George Tyros, it was voted on call of the roll, nine (9) yeas, President Elizabeth Kazinskas and Councillors James Boone, Craig Cormier, Ronald Cormier, Aleksander Dernalowicz, Karen Hardern, Judy Mack, George Tyros, and James Walsh to APPROVE the Mayor’s request to *leave to withdraw*.

**AN ORDINANCE TO AMEND THE CODE OF THE CITY OF GARDNER, CHAPTER 675 THEREOF, ENTITLED “ZONING,” TO ADD “SPORTS BETTING” TO THE ZONING TABLE OF USES.**

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GARDNER AS FOLLOWS:

**SECTION 1:** That Section 210(B) of Chapter 675, entitled “Word Usage and Definitions,” be amended by adding the following definition to its list:

Sports Betting Facility – An entity licensed by the Massachusetts Gaming Commission under the provisions of Chapter 173 of the Acts of 2022 of the General Laws to conduct sporting and wagering events.

**SECTION 2:** That Section 54 of Attachment 1 of Chapter 675 of the Code of the City of Gardner, entitled “Zoning- Table of Uses,” be adding the term “Sports Betting Facility” to the description of use as follows:

54. Indoor amusement, fitness, or recreational place or place of assembly, provided that the building is so insulated and maintained as to confine noise to the premises and is located not less than 100 feet from a residential district, or a sports betting facility.

**SECTION 2:** That Section 56 of Attachment 1 of Chapter 675 of the Code of the City of Gardner, entitled “Zoning- Table of Uses,” be adding the term “Sports Betting Facility” to the description of use as follows:

56. Public or commercial outdoor amusement or recreation use, or a sports betting facility, but not including outdoor drive-in movie theater.

**SECTION 3:** This this ordinance take effect upon passage and publication as required by law.

RE: Request for Leave to Withdraw – Item 10892

Dear Madam President and Councilors,

As a means to make sure all proper procedures were followed as laid out by the General Laws for Zoning Amendments to the City Ordinances and to allow for a greater amount of time for public dialogue and input on the aforementioned matter, I respectfully request leave to withdraw Item 10892 from the Council Calendar, with the intent that this later be put forward again for consideration following the procedures outlined in the General laws of the Commonwealth.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

**Subject:**

#10892 Final Report – An Ordinance to Amend the Code of the City of Gardner, Chapter 675 thereof, entitled “Zoning” to add “Sports Betting” to the Zoning Table of Uses.

Dear President Kazinskas:

At the Planning Board meeting held on Tuesday, April 11, 2023, the Planning Board voted unanimously (5 – 0) to recommend approving the proposed zoning amendment referenced above based on the information provided to them by the petitioner.

If the proposed amendment is approved, the Planning Board recommends the rewording of number 54 to read:

*Indoor amusement, fitness, recreational place, place of assembly, or a sports betting facility, provided that the building is so insulated and maintained as to confine noise to the premises and is located not less than 100 feet from a residential district.*

In addition, due to the potential significant scope and complexity of such a project if implemented under this proposed zoning amendment, the Board recommends changing the use table for number 54 from permitted by right (P) to Special Permit Planning Board (SPPB) for Commercial 1 and Commercial 2 zones; and number 56 from permitted by right (P) to Special Permit Planning Board (SPPB) for Commercial 2 and Industrial 1 zones.

Please feel free to contact Trevor Beauregard, Director of Community Development and Planning, if you have any questions or need additional information regarding this matter.

Sincerely,

Mark M. Schafron  
Chairman

RE: **Petition 10892** – An Ordinance to Amend the Code of the City of Gardner, Chapter 675 thereof, entitled “Zoning,” to add “Sports Betting” to the Zoning Table of Uses.

Dear President Kazinskas:

At its meeting on March 22, 2023, the Planning Board voted unanimously, 5-0, to recommend approving the proposed zoning amendment referenced above based on the information provided to them by the petitioner.

If the proposed amendment is approved, the Planning Board recommends the rewording of number 54 to read:

*Indoor amusement, fitness, recreational place, place of assembly, or a sports betting facility, provided that the building is so insulated and maintained as to confine noise to the premises and is located not less than 100 feet from a residential district.*

In addition, due to the potential significant scope and complexity of such a project if implemented under this proposed zoning amendment, the Board recommends changing the use table for number 54 from permitted by right (P) to Special Permit Planning Board (SPPB) for Commercial 1 and Commercial 2 zones; and number 56 from permitted by right (P) to Special Permit Planning Board (SPPB) for Commercial 2 and Industrial 1 zones.

The Planning Board looks forward to joining the City Council at the joint public hearing scheduled on Monday, April 3, 2023, at 6:30 p.m. Please contact Trevor Beauregard if you have any questions or need additional information.

Sincerely,

Mark M. Schafron, Planning Board Chairman

RE: Item #: 10892 - Planning Board Follow Up

Dear Madam President and Councilors,

At the Planning Board Meeting of March 22, 2023, the Planning Board recommended changing the proposal from a permitted use ("P") in the table to a use requiring a special permit ("SP").

The Administration is more than acceptable to this proposal and would be amenable to it being made.

RE: Joint Public Hearing Written Testimony – Item #10892: An Ordinance to Amend the Code of the City of Gardner, Chapter 675, thereof entitled “Zoning,” to add “Sports Betting” to the Zoning Table of Uses

Dear Madam President and Councilors,

I am writing in favor of the Administration’s proposed Zoning Amendment to add the term “Sports Betting,” to line items 54 and 56 the Zoning Table of Uses.

In May of 2018, the United States Supreme Court struck down the federal Professional and Amateur Sports Protection Act (“PASPA”)<sup>1</sup>, also known as the Bradley Act, as unconstitutional in their ruling of *Murphy v. National Collegiate Athletic Association*<sup>2</sup>. This federal statute had effectively outlawed sports betting nationwide, except for a few excluded states. The Supreme Court had ruled this act as unconstitutional, thus paving the way for several states to legalize sports betting.

In August of 2023, former Governor Charlie Baker signed House Bill 5164 into law, legalizing online, retail, and kiosk sports betting in the Commonwealth for residents ages 21 and older. Retail sports betting went live on January 31, 2023, and online sports betting launched on March 10, 2023. Kiosk sports betting will go live later this year.

There are currently three (3) approved retail sites and ten (10) approved mobile betting applications. When kiosk sports betting goes live later this year, they will be allowed across the Commonwealth in locations that follow a specific procedure as outlined by the new law.

The Supreme Court of the United States has ruled on several occasions, that under the First Amendment of the Constitution, a municipality cannot outright ban a particular industry or business from opening within its borders, but can limit where these businesses are located.

Since the City cannot bar this type of business from opening in Gardner, and since this type of activity is not currently listed in the City’s Zoning Table of Uses, it leaves the City open to

<sup>1</sup> 28 U.S.C. ch.178 §3701 et seq.

<sup>2</sup> *Murphy v. NCAA*, 138 S.Ct. 1461 (2018).

liability of not being able to control whether these types of facility are located in largely residential neighborhoods or in areas in the City that may not be suited for this type of activity.

As such, it is the request of my Administration that this use be added to the City Code's Zoning table of uses under Line 54: Indoor Amusement, and Line 56: Outdoor Amusement, as these items fit the closest to the realm of sports betting.

This amendment to the Zoning Table of Uses, does not waive the other requirements these locations would have to go through should any sports betting facility open in Gardner in the future.

Per the requirements of the sports betting enabling legislation, any sports betting facility would have to enter into a Host Community Agreement ("HCA") similar to cannabis facilities in the Commonwealth. The Expanded Gaming Act requires that all applicants for sports betting licenses must first submit to the Massachusetts Gaming commission:

"a signed agreement between the host community and the applicant setting forth the conditions to have a gaming establishment located within the host community; provided, however, that the agreement shall include a community impact fee for the host community and all stipulations of responsibilities between the host community and the applicant, including stipulations of known impacts from the development and operation of a gaming establishment."

Additionally, after the HCA is approved by the City Council and signed by the Mayor, the City Council must then annually vote to allow the proposed establishment to operate a sports betting facility within the City at its location.

Lastly, before any facility should open, they must also go through the regular requirements for site plan approval and Development Review Committee vetting, both listed in Chapter §675-1010 of the City Code.

As such, this action to add this type of use to the Zoning Ordinances still requires this type of industry to be heavily regulated and vetted by the City by both branches of its government and its boards and commissions.

This action is simply being put forward to protect the City in the long run and pre-plan should one of these facilities come to Gardner rather than waiting and reacting if this should ever come up.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

RE: Zoning Ordinance Proposal- Sports Betting Facilities

Dear Madam President and Councilors,

As you are likely aware, on August 10, 2022, former Governor Charlie Baker signed Chapter 173 of the Acts of 2022 into law, legalizing sports betting in the Commonwealth.

This new addition to the General Laws, some parts of which have already taken effect while others will within the next few months, allows for the opening of new facilities across the Commonwealth where individuals can gamble and place wagers on sporting games.

Currently, these types of facilities are not governed by our zoning ordinance, as they were not allowed prior to the passage of this act. The attached ordinance proposal is being presented to help protect the City so that we can regulate where facilities like this can go and make sure that in the event that a facility like this looks to open in Gardner, it locates in a location that fits this use rather than in a largely residential area that could cause disruptions to a neighborhood.

I believe it is in the best interest of the City to be proactive in this matter in order to make sure the City has the tools in place before any situations may arise.

Respectfully Submitted,

**AN ORDINANCE TO AMEND THE CODE OF THE CITY OF GARDNER, CHAPTER 675 THEREOF, ENTITLED "ZONING," TO ADD "SPORTS BETTING" TO THE ZONING TABLE OF USES.**

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GARDNER AS FOLLOWS:

**SECTION 1:** That Section 210(B) of Chapter 675, entitled "Word Usage and Definitions," be amended by adding the following definition to its list:

Sports Betting Facility – An entity licensed by the Massachusetts Gaming Commission under the provisions of Chapter 173 of the Acts of 2022 of the General Laws to conduct sporting and wagering events.

**SECTION 2:** That Section 54 of Attachment 1 of Chapter 675 of the Code of the City of Gardner, entitled "Zoning- Table of Uses," be adding the term "Sports Betting Facility" to the description of use as follows:

54. Indoor amusement, fitness, or recreational place or place of assembly, provided that the building is so insulated and maintained as to confine noise to the premises and is located not less than 100 feet from a residential district, or a sports betting facility.

**SECTION 2:** That Section 56 of Attachment 1 of Chapter 675 of the Code of the City of Gardner, entitled "Zoning- Table of Uses," be adding the term "Sports Betting Facility" to the description of use as follows:

56. Public or commercial outdoor amusement or recreation use, or a sports betting facility, but not including outdoor drive-in movie theater.

**SECTION 3:** This this ordinance take effect upon passage and publication as required by law.

RE: Text Amendment

Dear Mr. Mayor,

Please accept this letter as my full support for your proposed text amendment to our Zoning Ordinance regarding sports betting. I believe when new laws are enacted at a state level that a municipalities Zoning must change to reflect the new law, or be forced to react to a potential problem.

Do not hesitate to contact me should you need any further assistance.

**HOUSE . . . . . No. 5164**

**The Commonwealth of Massachusetts**

**In the One Hundred and Ninety-Second General Court  
(2021-2022)**

An Act regulating sports wagering.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1. Section 7 of chapter 4 of the General Laws is hereby amended by striking  
2 out clause Tenth, as appearing in the 2020 Official Edition, and inserting in place thereof the  
3 following clause:-

4           Tenth, "Illegal gaming", a banking or percentage game played with cards, dice, tiles,  
5 dominoes, or an electronic, electrical or mechanical device or machine for money, property,  
6 checks, credit or any representative of value, but excluding: (i) a lottery game conducted by the  
7 state lottery commission under sections 24, 24A and 27 of chapter 10; (ii) a game conducted  
8 under chapter 23K; (iii) sports wagering conducted under chapter 23N; (iv) pari-mutuel wagering  
9 on horse races under chapters 128A and 128C and greyhound races under said chapter 128C; (v)  
10 a game of bingo conducted under chapter 271; (vi) charitable gaming conducted under said  
11 chapter 271; and (vii) a fantasy contest conducted under section 11M½.

12           SECTION 2. Section 7 of chapter 4 of the General Laws is hereby amended by striking  
13 out clause Tenth, as inserted by section 1, and inserting in place thereof the following clause:-

**Item 10892      Withdrawn by the City Council - 4/18/2023**

10892

14            Tenth, “Illegal gaming”, a banking or percentage game played with cards, dice, tiles,  
15 dominoes, or an electronic, electrical or mechanical device or machine for money, property,  
16 checks, credit or any representative of value, but excluding: (i) a lottery game conducted by the  
17 state lottery commission under sections 24, 24A and 27 of chapter 10; (ii) a game conducted  
18 under chapter 23K; (iii) sports wagering conducted under chapter 23N; (iv) pari-mutuel wagering  
19 on horse races under chapters 128A and 128C; (v) a game of bingo conducted under chapter 271;  
20 and (vi) charitable gaming conducted under said chapter 271.

21            SECTION 3. Chapter 12 of the General Laws is hereby amended by inserting after  
22 section 11M the following section:-

23            Section 11M½. Notwithstanding sections 24, 24A and 27 of chapter 10, chapter 271 or  
24 any other general or special law to the contrary, a person or entity that offers fantasy contests for  
25 a cash prize to members of the public may offer a fantasy contest to residents of the  
26 commonwealth pursuant to and in accordance with regulations promulgated by the attorney  
27 general; provided further, for the purposes of section 7 of chapter 4, a fantasy contest shall not be  
28 considered illegal gaming. “Fantasy contest” includes any fantasy or simulated game or contest,  
29 including, but not limited to, any fantasy or simulated game or contest based on professional  
30 sports events in which: (i) the value of all prizes and awards offered to winning participants are  
31 established and made known to the participants in advance of the contest; (ii) all winning  
32 outcomes reflect the relative knowledge and skill of the participants and shall be determined  
33 predominantly by accumulated statistical results of the performance of individuals, including  
34 athletes in the case of sports events; and (iii) no winning outcome is based on the score, point  
35 spread, or any performance or performances of any single actual team or combination of such

**Item 10892      Withdrawn by the City Council - 4/18/2023**

10892

36 teams or solely on any single performance of an individual athlete or player in any single actual  
37 event.

38           SECTION 4. Section 4 of chapter 23K of the General Laws, as appearing in the 2020  
39 Official Edition, is hereby amended by inserting the following subsection:-

40           (42) regulate and enforce chapter 23N relating to sports wagering.

41           SECTION 5. The General Laws are hereby amended by inserting after chapter 23M the  
42 following chapter:-

43           CHAPTER 23N

44           AUTHORIZATION AND REGULATION OF SPORTS WAGERING

45           Section 1. This chapter shall be known and may be cited as the "Massachusetts Sports  
46 Wagering Act".

47           Section 2. Notwithstanding any general or special law to the contrary, the operation of  
48 sports wagering and ancillary activities shall be lawful when conducted in accordance with this  
49 chapter and the rules and regulations of the commission.

50           Section 3. As used in this chapter the following words shall, unless the context clearly  
51 requires otherwise, have the following meanings:

52           "Adjusted gross fantasy wagering receipts", the total gross receipts from fantasy contests  
53 as defined in section 11M1/2 of chapter 12, less only the total of all cash prizes paid to  
54 participants in the fantasy contests; provided, however, that the total of all cash prizes paid to

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

55 participants shall not include the cash equivalent of any merchandise or thing of value awarded  
56 as a prize.

57        “Adjusted gross sports wagering receipts”, the total gross receipts from sports wagering  
58 less the sum of: (i) the total of all winnings paid to participants; and (ii) all excise taxes paid  
59 pursuant to federal law; provided, however, that the total of all winnings paid to participants  
60 shall not include the cash equivalent of any merchandise or thing of value awarded as a prize.

61        “Affiliate”, a person who directly or indirectly controls, or is controlled by, or is under  
62 common control with, a specified person.

63        “Applicant”, a person who has applied for a license to engage in activity regulated under  
64 this chapter.

65        “Breaks”, the odd cents over any multiple of 10 cents of winnings per \$1 wagered.

66        “Category 1 license”, a license issued by the commission that permits the operation of  
67 sports wagering in person at a gaming establishment, as defined in section 2 of chapter 23K, and  
68 through not more than 2 individually-branded mobile applications or other digital platforms  
69 approved by the commission; provided, that the mobile applications or other digital platforms  
70 shall be qualified for and issued a category 3 license.

71        “Category 2 license”, a license issued by the commission that permits the operation of  
72 sports wagering in-person on the premises where either: (1) live horse racing is conducted in  
73 accordance with chapter 128A or (2) the licensee is authorized by law to conduct simulcast  
74 wagering on horse or greyhound racing, and through not more than 1 individually branded  
75 mobile application or other digital platform approved by the commission; provided, that the

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

76 mobile applications or other digital platforms shall be qualified for and issued a category 3  
77 license; provided further, that the commission may issue a category 2 license to: (1) a person or  
78 entity licensed by the commission in accordance with said chapter 128A to conduct a live horse  
79 racing meeting, (2) a running horse racing licensee that conducted simulcast wagering as of  
80 December 31, 2020 as authorized by law, or (3) a greyhound meeting licensee that conducted  
81 simulcast wagering as of December 31, 2020 as authorized by law; provided further, a category 2  
82 licensee shall make a capital investment of not less than \$7,500,000 within 3 years after  
83 receiving a sports wagering license.

84           “Category 3 license”, a license issued by the commission that permits the operation of  
85 sports wagering through a mobile application and other digital platforms approved by the  
86 commission.

87           “Close associate”, a person who holds a relevant financial interest in, or is entitled to  
88 exercise power in, the business of an applicant or licensee and, by virtue of that interest or  
89 power, is able to exercise a significant influence over the management or operation of a gaming  
90 establishment or business licensed under this chapter.

91           “Collegiate sport or athletic event”, a sport or athletic event offered or sponsored by, or  
92 played in connection with, a public or private institution that offers educational services beyond  
93 the secondary level.

94           “Collegiate tournament”, a series of collegiate sports or athletic events involving four or  
95 more collegiate teams that make up a single unit of competition.

96           “Commission”, the Massachusetts gaming commission established in section 3 of chapter  
97 23K.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

98            “Electronic sports”, a single or multiplayer video game played competitively for  
99 spectators.

100           “Governmental authority”, any governmental unit of a national, state or local body  
101 exercising governmental functions, except the United States government.

102           “License”, any license applied for or issued by the commission under this chapter,  
103 including, but not limited to: (i) an operator license or (ii) an occupational license.

104           “National criminal history background check”, a criminal history background check  
105 conducted using the criminal history record system maintained by the Federal Bureau of  
106 Investigation and based on fingerprint identification or any other method of positive  
107 identification.

108           “Occupational license”, a license required to be held by an employee of an operator when  
109 the employee performs duties directly related to the operation of sports wagering in the  
110 commonwealth in a supervisory role.

111           “Official league data”, statistics, results, outcomes and other data relating to a sporting  
112 event that is obtained pursuant to an agreement with the relevant sports governing body, or with  
113 an entity expressly authorized by the relevant sports governing body to provide such data to  
114 sports wagering operators, which authorizes the use of such data for determining the outcome of  
115 tier 2 sports wagers on such sporting event.

116           “Operator” or “sports wagering operator”, any entity permitted under this chapter to offer  
117 sports wagering to persons in the commonwealth through a category 1 license, category 2 license  
118 or category 3 license.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

119            “Operator license”, a category 1 license, category 2 license or category 3 license to  
120 operate sports wagering.

121            “Person”, an individual, corporation, association, operation, firm, partnership, trust or  
122 other form of business association.

123            “Personal biometric data”, any information about an athlete that is derived from that  
124 athlete’s physical or physiological characteristics, including, but not limited to, deoxyribonucleic  
125 acid, heart rate, blood pressure, perspiration rate, internal or external body temperature, hormone  
126 levels, glucose levels, hydration levels, vitamin levels, bone density, muscle density or sleep  
127 patterns.

128            “Players association”, a professional sports association recognized by a sports governing  
129 body that represents professional athletes.

130            “Professional sport or athletic event”, an event at which 2 or more persons participate in a  
131 sport or athletic event and receive compensation in excess of actual expenses for their  
132 participation in such event.

133            “Promotional gaming credit”, a sports wagering credit or other item issued by an operator  
134 to a patron to enable the placement of a sports wager.

135            “Qualified gaming entity”, an entity that: (i) holds a gaming license as defined in section  
136 2 of chapter 23K; (ii) (a) is licensed by the commission in accordance with chapter 128A to  
137 conduct a live horse racing meeting, (b) is a running horse racing licensee that conducted  
138 simulcast wagering as of December 31, 2020 as authorized by law or (c) is a greyhound meeting  
139 licensee that conducted simulcast wagering as of December 31, 2020 as authorized by law; or

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

140      (iii) offers an interactive sports wagering platform through a mobile application or other digital  
141      platform.

142              “Sports event” or “sporting event”, a professional sport or athletic event, collegiate sport  
143      or athletic event, a collegiate tournament, motor race event, electronic sports event or other event  
144      authorized by the commission under this chapter; provided, however, that “sporting event” shall  
145      not include: (i) high school and youth sports or athletic events; or (ii) a collegiate sport or athletic  
146      event involving 1 or more collegiate teams from the commonwealth unless they are involved in a  
147      collegiate tournament.

148              “Sports governing body”, an organization that is headquartered in the United States and  
149      prescribes final rules and enforces codes of conduct with respect to a sporting event and  
150      participants therein; provided, however, that, notwithstanding the foregoing, the commission  
151      shall adopt regulations to determine the governing body for electronic sports for the purposes of  
152      this chapter.

153              “Sports wager”, a wager on a sporting event or a portion of a sporting event.

154              “Sports wagering”, the business of accepting wagers on sporting events or portions of  
155      sporting events, other events, the individual performance statistics of athletes in a sporting event  
156      or other events or a combination of any of the same by any system or method of wagering  
157      approved by the commission including, but not limited to, mobile applications and other digital  
158      platforms; provided, that sports wagering shall not include the acceptance of any wager: (i) with  
159      an outcome dependent on the performance of an individual athlete in any collegiate sport or  
160      athletic event, including, but not limited, to in-game or in-play wagers; (ii) on a high school or  
161      youth sporting event; (iii) on injuries, penalties, player discipline or replay review; and provided

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

162 further, that sports wagering shall not include fantasy contests as defined in section 11M½ of  
163 chapter 12. Sports wagering shall include, but shall not be limited to, single-game bets, teaser  
164 bets, parlays, over-under, moneyline, pools, exchange wagering, in-game wagering, in-play bets,  
165 proposition bets and straight bets.

166           “Sports wagering account”, a financial record established by an operator for a patron in  
167 which the patron may deposit by any method approved by the commission and withdraw funds  
168 for sports wagering and other authorized purchases and to which the operator may credit  
169 winnings or other amounts due to or authorized by that patron; provided, however, that such  
170 account may be established and funded by the patron electronically through an approved mobile  
171 application or digital platform; and provided further, that a deposit into a sports wagering  
172 account shall not be made using a credit card.

173           “Tier 1 sports wager”, a sports wager that is determined solely by the final score or  
174 outcome of a sporting event and is placed before the sporting event has begun.

175           “Tier 2 sports wager”, a sports wager that is not a tier 1 sports wager.

176           “Wager”, a sum of money or thing of value risked on an uncertain occurrence.

177           Section 4. (a) The commission shall regulate the conduct of sports wagering under this  
178 chapter.

179           (b) The commission shall promulgate rules and regulations necessary for the  
180 implementation, administration and enforcement of this chapter. The commission may  
181 promulgate emergency rules and regulations in accordance with applicable procedures for the  
182 promulgation of emergency rules and regulations.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

183            (c) The commission shall promulgate regulations to prohibit: (i) the purchase or other use  
184 of any personal biometric data of an athlete for sports wagering or aiding a patron in placing a  
185 wager with sports wagering operators; and (ii) the following advertising, marketing and branding  
186 activities: (A) advertisements, marketing and branding in such a manner that it is deceptive,  
187 false, misleading, or untrue, or tends to deceive or create a misleading impression whether  
188 directly, or by ambiguity or omission; (B) use of unsolicited pop-up advertisements on the  
189 internet or by text message directed to an individual on the list of self-excluded persons  
190 established pursuant to paragraph (2) of subsection (e) of section 13; (C) any form of advertising,  
191 marketing or branding that the commission deems unacceptable or disruptive to the viewer  
192 experience at a sports event; (D) advertising, marketing and branding deemed to appeal directly  
193 to a person younger than 21 years old; and (E) advertising on any billboards, or any other public  
194 signage, which fails to comply with any federal, state or local law.

195            (d)(1) The commission may promulgate rules and regulations including, but not limited  
196 to, those governing the acceptance of wagers on a sports event, other event or a series of sports  
197 events; types of wagering receipts which may be used; methods of issuing receipts; methods of  
198 accounting to be used by operators; types of records to be kept; types of systems for wagering;  
199 and any other sports wagering-related issues.

200            (2) The commission shall promulgate rules and regulations regarding protections for  
201 patrons placing wagers and the promotion of social responsibility and responsible gaming that  
202 shall include, but not be limited to, a requirement that an operator: (i) implement responsible  
203 gaming programs that include comprehensive employee trainings on responding to  
204 circumstances in which individuals present signs of gambling addiction; (ii) assess, prevent and  
205 address problem gaming by an operator's consumers; (iii) permit a consumer to permanently

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

206      close an account registered to the consumer on any or all platforms owned or operated by the  
207      operator at any time and for any reason; (iv) offer consumers access to their account history and  
208      account details; (v) refrain from making claims as to a consumer's winnings or money earned  
209      that is not net of wagers placed; (vi) allow a consumer to withdraw funds without further  
210      solicitation or promotion in the manner in which the funds were deposited; (vii) annually submit  
211      a problem gaming plan for approval by the commission, in consultation with the department of  
212      public health, that includes the objectives of and timetables for implementing the plan,  
213      identification of the persons responsible for implementing and maintaining the plan, procedures  
214      for identifying consumers with suspected or known problem gaming behavior, procedures for  
215      providing information to consumers concerning problem gaming identification and resources,  
216      procedures to prevent gaming by minors and self-excluded persons and any other information the  
217      commission may require; and (viii) shall not offer or provide a line of credit to any consumer.

218            (3) The commission shall promulgate regulations that require mobile applications and  
219      digital platforms authorized for sports wagering to prominently display upon each entry into the  
220      application or platform the telephone number and website for a problem gambling hotline  
221      overseen by the department of public health.

222            (e) The commission shall: (i) determine the eligibility of a person to hold or continue to  
223      hold a license; (ii) issue all licenses; and (iii) maintain a record of all licenses issued under this  
224      chapter.

225            (f) The commission shall levy and collect all fees, surcharges, civil penalties and taxes on  
226      adjusted gross sports wagering receipts imposed by this chapter, except as otherwise provided  
227      under this chapter.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

228            (g) The commission shall have the authority to enforce this chapter and any rule or  
229 regulation of the commission and may request that the attorney general bring an action to enforce  
230 this chapter or any rule or regulation of the commission by civil action or petition for injunctive  
231 relief.

232            (h) The commission may hold hearings, administer oaths and issue subpoenas or  
233 subpoenas duces tecum in order to enforce this chapter and the rules and regulations of the  
234 commission.

235            (i) The commission may exercise any other powers necessary to effectuate this chapter  
236 and the rules and regulations of the commission.

237            Section 5. (a) A person shall not engage in any activity in connection with sports  
238 wagering in the commonwealth unless all required licenses have been obtained in accordance  
239 with this chapter and the rules and regulations of the commission.

240            (b) The commission shall not grant an operator license until it determines that each  
241 person who has control of the applicant meets all qualifications for licensure. For the purposes of  
242 this chapter, the following shall be considered to have control of an applicant: (i) a person who  
243 owns 10 per cent or more of a corporate applicant and who has the ability to control the activities  
244 of the corporate applicant; provided, however, that a bank or other licensed lending institution  
245 that holds a mortgage or other lien acquired in the ordinary course of business shall not be  
246 considered to have control of an applicant; (ii) a person who holds a beneficial or proprietary  
247 interest of 10 per cent or more of a non-corporate applicant's business operation and who has the  
248 ability to control the activities of the non-corporate applicant; and (iii) at the commission's

## Item 10892 Withdrawn by the City Council - 4/18/2023

10892

249 discretion, an executive, employee or agent having the power to exercise significant influence  
250 over decisions concerning the applicant's sports wagering operations in the commonwealth.

251 (c) A person having control of an applicant pursuant to subsection (b) shall submit to the  
252 commission an application in a form determined by the commission. Each such person who is a  
253 natural person shall also submit to the commission: (i) fingerprints for a national criminal records  
254 check by the department of state police and the Federal Bureau of Investigation; and (ii) a signed  
255 authorization for the release of the person's information by the department of state police and the  
256 Federal Bureau of Investigation; provided, however, that a person having control of an applicant  
257 who is a natural person that has submitted to a national criminal records check in any jurisdiction  
258 within the previous year shall not be required to submit to another national criminal records  
259 check if such person submits to the commission the results of such previous national criminal  
260 records check. Any applicant convicted of any disqualifying offense, as determined by the  
261 commission, shall not be licensed.

262 (d) Each person licensed under this chapter shall give the commission written notice not  
263 more than 30 days after any change to any material information provided in the application for a  
264 license or renewal.

265 (e) A commission employee shall not be an applicant for any license issued under this  
266 chapter.

267 Section 6. (a) A licensed qualified gaming entity may operate sports wagering upon the  
268 approval of the commission.

269 (b)(1) The commission shall issue a category 1 license to any holder of a gaming license,  
270 as defined in section 2 of chapter 23K, that meets the requirements of this chapter and the rules

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

271      and regulations of the commission; provided, however, that any holder of a category 1 license  
272      shall not be issued a category 2 license.

273            (2) The commission shall issue a category 2 license to: (i) any holder of a license to  
274      conduct a live horse racing meeting in accordance with chapter 128A; (ii) a running horse racing  
275      licensee that conducted simulcast wagering as of December 31, 2020 as authorized by law; or  
276      (iii) a greyhound meeting licensee that conducted simulcast wagering as of December 31, 2020  
277      as authorized by law; that meets the requirements of this chapter and the rules and regulations of  
278      the commission; provided, however, that any holder of a category 2 license shall not be issued a  
279      category 1 license; and provided further, that no more than 1 category 2 license shall be issued to  
280      any 1 person, entity, or affiliate or close associate of such person or entity.

281            (3) The commission may issue a category 3 license to any entity that offers sports  
282      wagering through a mobile application or other digital platform that meets the requirements of  
283      this chapter and the rules and regulations of the commission; provided, however, the commission  
284      shall issue no more than 7 category 3 licenses that are not connected to a category 1 or category  
285      2 license.

286            (4) A category 1 or category 2 licensee may enter into agreements related to mobile or  
287      digital sports wagering with a category 3 licensee pursuant to the approval of the commission.  
288      Nothing in this chapter shall require a category 3 licensee to partner with or have any  
289      commercial relationship with a category 1 or 2 licensee.

290            (c)(1) A qualified gaming entity may submit to the commission a request for a temporary  
291      license for the immediate commencement of sports wagering operations. Such request shall  
292      include an initial licensing fee of \$1,000,000 payable to the commission.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

293            (2) Upon receiving a request for a temporary license, the executive director of the  
294      commission shall review the request. If the executive director determines that the entity  
295      requesting the temporary license is a qualified gaming entity and has paid the sports wagering  
296      initial licensing fee pursuant to paragraph (1), the commission shall authorize the qualified  
297      gaming entity to conduct sports wagering for a period of 1 year under a temporary license or  
298      until a final determination on its operator license application is made.

299            (3) All sports wagering conducted under authority of a temporary license shall comply  
300      with the house rules adopted under section 10.

301            (d) Prior to issuing an operator license, the commission shall commence an investigation  
302      into the suitability of the applicant. The commission may use information obtained from the  
303      applicant pursuant to chapter 23K, chapter 128A, chapter 128C, or information from other  
304      jurisdictions where the applicant is authorized to conduct sports wagering. In evaluating the  
305      suitability of the applicant, the commission shall consider the overall reputation of the applicant  
306      including, but not limited to: (i) the integrity, honesty, good character and reputation of the  
307      applicant; (ii) the financial stability, integrity and background of the applicant; (iii) the business  
308      practices and the business ability of the applicant to establish and maintain a successful sports  
309      wagering operation; (iv) whether the applicant has a history of compliance with gaming or sports  
310      wagering licensing requirements in other jurisdictions; (v) whether the applicant, at the time of  
311      application, is a defendant in litigation involving its business practices; and (vi) the suitability of  
312      all parties in interest to the license, including affiliates and close associates, and the financial  
313      resources of the applicant.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

314            (e) The commission may deny an application, if the commission determines during its  
315 investigation that an applicant has failed to: (i) establish the applicant's integrity or the integrity  
316 of any affiliate, close associate, financial resources or any person required to be qualified by the  
317 commission; (ii) demonstrate responsible business practices in any jurisdiction; or (iii) overcome  
318 any other reason, as determined by the commission, as to why it would be injurious to the  
319 interests of the commonwealth to award the applicant an operator license.

320            (f) Upon application by a qualified gaming entity that is not denied pursuant to subsection  
321 (e) and payment of a \$5,000,000 licensing fee, the commission shall grant an operator license to  
322 a qualified gaming entity that provides the right to conduct sports wagering; provided, that the  
323 qualified gaming entity shall meet the requirements for licensure under this chapter and the rules  
324 and regulations of the commission. Such license shall be issued for a 5-year period, and may be  
325 renewed for 5-year periods upon payment of a \$5,000,000 renewal fee; provided, that the  
326 operator shall continue to meet all requirements under this chapter and the rules and regulations  
327 of the commission. The commission shall credit any initial licensing fee paid pursuant to  
328 paragraph (1) of subsection (c) to a successful applicant for an operator license against the  
329 licensing fee due under this subsection.

330            (g) An operator shall submit to the commission such documentation or information as the  
331 commission may require to demonstrate that the operator continues to meet the requirements of  
332 this chapter and the rules and regulations of the commission. An operator shall submit required  
333 documentation or information no later than 5 years after issuance of its operator license and  
334 every 5 years thereafter, or within lesser periods based on circumstances specified by the  
335 commission.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

336            (h) No licensee shall transfer an operator license, or any direct or indirect interest in the  
337 license, without the majority approval of the commission. A person seeking to acquire such  
338 license through a transfer shall qualify and otherwise be determined by the commission to be  
339 eligible for licensure under this chapter. The commission may reject a proposed license transfer  
340 or a proposed transfer of interest in the license to an unsuitable person and may reject a proposed  
341 transfer that, in the determination of the commission, would be injurious to the interests of the  
342 commonwealth. The commission may promulgate regulations governing this process which may  
343 include assessment of a fee to reflect the cost associated with reviewing the proposed transfer.

344            (i) Applications for operator licenses shall be public records under section 10 of chapter  
345 66; provided however, that trade secrets, competitively-sensitive or other proprietary information  
346 provided in the course of an application for an operator license under this chapter, the disclosure  
347 of which would place the applicant at a competitive disadvantage, may be withheld from  
348 disclosure under said section 10 of said chapter 66.

349            Section 7. (a) An applicant for an operator license shall pay to the commission a  
350 nonrefundable processing fee of \$200,000 for the costs associated with the processing of the  
351 application and investigation of the applicant; provided, however, that if the costs of the  
352 investigation exceed the initial application fee, the applicant shall pay the additional amount to  
353 the commission not more than 30 days after notification of insufficient fees or the application  
354 shall be rejected.

355            (b) All fees in this section shall be deposited into the Sports Wagering Control Fund  
356 established in section 14.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

357            Section 8. Section 8. (a) All persons employed by an operator to perform duties directly  
358 related to the operation of sports wagering in the commonwealth in a supervisory role shall  
359 maintain a valid occupational license issued by the commission. The commission shall issue such  
360 occupational license to a person who meets the requirements of this section.

361            (b) An occupational license authorizes the licensee to be employed in the capacity  
362 designated by the commission while the license is active. The commission may establish, by rule  
363 or regulation, job classifications with different requirements based on the extent to which a  
364 particular job impacts, or has the potential to impact, the lawful operation of sports wagering.

365            (c) An applicant for an occupational license shall submit any required application forms  
366 established by the commission and shall pay a nonrefundable application fee of \$100. An  
367 employer may pay an application fee on behalf of an applicant.

368            (d) Not later than March 1 of the third calendar year following the issuance or renewal of  
369 an occupational license, an occupational license holder shall pay a nonrefundable license renewal  
370 fee of \$100 and submit a renewal application on a form established by the commission. An  
371 employer may pay the license renewal fee on behalf of the licensed employee.

372            Section 9. Section 9. (a) The commission may deny a license to any applicant, reprimand  
373 any licensee or suspend or revoke a license if the applicant or licensee: (i) has knowingly made a  
374 false statement of a material fact to the commission; (ii) has had a license revoked by any  
375 governmental authority responsible for regulation of gaming activities; (iii) has been convicted  
376 of a felony or other crime involving embezzlement, theft, fraud, perjury, or a gambling-related  
377 offense; (iv) has not demonstrated to the satisfaction of the commission financial responsibility  
378 sufficient to adequately meet the requirements of the proposed enterprise; (v) has affiliates or

## Item 10892 Withdrawn by the City Council - 4/18/2023

10892

379 close associates that would not qualify for a license or whose relationship with the applicant may  
380 pose an injurious threat to the interests of the commonwealth in awarding an operator license to  
381 the applicant; or (vi) in the case of an operator or an applicant for an operator license, is not the  
382 true owner of the business or is not the sole owner and has not disclosed the existence or identity  
383 of other persons who have an ownership interest in the business.

384 (b) The commission may deny, suspend or revoke an operator license or reprimand any  
385 licensee if the applicant or licensee has not met the requirements of this chapter.

386 Section 10. (a) An operator shall adopt comprehensive house rules for game play  
387 governing sports wagering transactions with the operator's patrons. The house rules shall specify  
388 the amounts to be paid on winning wagers and the effect of sports event schedule changes. An  
389 operator shall not conduct sports wagering until the commission has approved the house rules  
390 and an operator shall not conduct sports wagering in a manner inconsistent with approved house  
391 rules.

392 (b) The house rules, together with any other information the commission deems  
393 appropriate, shall be accessible to any patrons of the sports wagering operator. The operator shall  
394 make copies readily available to patrons and shall post the house rules as required by the  
395 commission, including on a prominent place on the operator's public website and mobile  
396 application or other digital platform.

397 Section 11. (a) An operator shall employ commercially reasonable methods to: (i)  
398 prohibit the operator, directors, officers, owners and employees of the operator and any relative  
399 living in the same household as any such person from placing bets with the operator; (ii) prohibit  
400 athletes, coaches, referees, team owners, employees of a sports governing body or its member

## Item 10892 Withdrawn by the City Council - 4/18/2023

10892

401 teams and player and referee union personnel from wagering on any sporting event of their  
402 sport's governing body; provided, however, that the operator shall use lists of such persons that a  
403 sports governing body may provide to the commission to determine which persons are excluded  
404 from placing wagers under this subsection; and provided further, that the commission may use  
405 the list of barred employees from the operator and may work directly with a member team to  
406 determine the risk posed by certain employees for obtaining nonpublic confidential information  
407 on a sporting event and may remove an employee without knowledge of team strategy or game  
408 operations from such a list if the commission determines any such risk is de minimis; (iii)  
409 prohibit any individual with access to nonpublic confidential information held by the operator  
410 from placing wagers with the operator; (iv) prohibit persons from placing wagers as agents or  
411 proxies for others; and (v) maintain the security of wagering data, customer data and other  
412 confidential information from unauthorized access and dissemination; provided, however, that  
413 nothing in this chapter shall preclude the use of internet or cloud-based hosting of such data and  
414 information or disclosure as required by court order, other law or this chapter; and provided  
415 further, that such data and information shall be hosted in the United States.

416 (b) A sports governing body or players association representing athletes who participate  
417 in sporting events of the sports governing body may submit to the commission, in writing, by  
418 providing notice in a form and manner as the commission may require, a request to restrict, limit  
419 or exclude a certain type, form or category of sports wagering with respect to sporting events of  
420 the sports governing body, if the sports governing body or players association believes that such  
421 type, form or category of sports wagering with respect to sporting events of the sports governing  
422 body: (i) is contrary to public policy; (ii) unfair to consumers; (iii) may undermine the perceived  
423 integrity of the sports governing body, sporting events of the sports governing body or the

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

424 athletes participating therein; or (iv) affects the integrity of the sports governing body or sporting  
425 events of the sports governing body or the athletes participating therein.

426           The commission shall request comment from operators on all such requests. After giving  
427 due consideration to all comments received, the commission shall, upon a demonstration of good  
428 cause from the requestor, grant the request. The commission shall respond to a request  
429 concerning a particular event before the start of the event or, if it is not feasible to respond before  
430 the start of the event, not later than 7 days after the request is made; provided, however, that if  
431 the commission determines that the requestor is more likely than not to prevail in successfully  
432 demonstrating good cause for its request, the commission may provisionally grant the request  
433 until the commission makes a final determination as to whether the requestor has demonstrated  
434 good cause. Absent a provisional grant by the commission, an operator may continue to offer  
435 sports wagering on sporting events that are the subject of a request during the pendency of the  
436 consideration of the applicable request.

437           (c) The commission shall designate a state law enforcement entity to have primary  
438 responsibility for conducting, or assisting the commission in conducting, investigations into  
439 abnormal betting activity, match fixing and other conduct that corrupts a betting outcome of a  
440 sporting event for purposes of financial gain.

441           (d) The commission and operators shall use commercially reasonable efforts to cooperate  
442 with investigations conducted by sports governing bodies or law enforcement agencies,  
443 including, but not limited to, using commercially reasonable efforts to provide or facilitate the  
444 provision of anonymized account-level betting information and audio or video files relating to  
445 persons placing wagers. All disclosures under this section are subject to the obligation of an

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

446 operator to comply with all federal, state and local laws and regulations, including, but not  
447 limited to, laws and regulations relating to privacy and personally identifiable information.

448           (e) An operator shall immediately report to the commission any information relating to:

449       (i) criminal or disciplinary proceedings commenced against the operator in connection with its  
450 operations; (ii) abnormal betting activity or patterns that may indicate a concern with the  
451 integrity of a sporting event; (iii) any potential breach of the internal rules and codes of conduct  
452 pertaining to sports wagering of a relevant sports governing body; (iv) any other conduct that  
453 corrupts a betting outcome of a sporting event for purposes of financial gain, including, but not  
454 limited to, match fixing; or (v) suspicious or illegal wagering activities, including, but not limited  
455 to: (A) use of funds derived from illegal activity; (B) wagers to conceal or launder funds derived  
456 from illegal activity; (C) use of agents to place wagers; and (D) use of false identification. An  
457 operator shall immediately report information relating to conduct described in clauses (ii), (iii)  
458 and (iv) of this subsection to the relevant sports governing body.

459           (f) The commission and operators shall maintain the confidentiality of information  
460 provided by a sports governing body for purposes of investigating or preventing the conduct  
461 described in clauses (ii), (iii) and (iv) of subsection (e), unless disclosure is required by this  
462 chapter, the commission, other law or court order or unless the sports governing body consents to  
463 disclosure.

464           (g) With respect to any information provided by an operator to a sports governing body  
465 relating to conduct described in clauses (ii), (iii) and (iv) of subsection (e), a sports governing  
466 body shall: (i) only use such information for integrity purposes and shall not use the information  
467 for any commercial or other purpose; and (ii) maintain the confidentiality of such information,

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

468 unless disclosure is required by this chapter, the commission, other law or court order or unless  
469 the operator consents to disclosure; provided, however, that the sports governing body may make  
470 any disclosure necessary to conduct and resolve integrity-related investigations and may publicly  
471 disclose such information if required by its integrity policies or if deemed by the sports  
472 governing body in its reasonable judgment to be necessary to maintain the actual or perceived  
473 integrity of its sporting events, and subject in all cases to the sports governing body's compliance  
474 with federal, state and local laws and regulations, including, but not limited to, laws and  
475 regulations relating to privacy and personally identifiable information; and provided further, that  
476 prior to any such public disclosure that would identify the operator by name, the sports  
477 governing body shall provide the operator with notice of such disclosure and an opportunity to  
478 object to such disclosure.

479           (h) An operator shall maintain records of all wagers placed by its patrons, including: (i)  
480 personally identifiable information of a patron who places a sports wager through a mobile  
481 application or other digital platform or a patron who places an in-person sports wager that  
482 exceeds an amount determined by the commission; (ii) amount and type of the bet; (iii) the time  
483 the bet was placed; (iv) the location of the bet, including the Internet Protocol address if  
484 applicable; (v) the outcome of the bet; and (vi) records of abnormal betting activity for 3 years  
485 after a sporting event occurs and video camera recordings in the case of in-person wagers for at  
486 least 1 year after a sporting event occurs. An operator shall make these records available for  
487 inspection upon request of the commission or as required by court order.

488           (i) An operator shall use commercially reasonable efforts to maintain, in real time and at  
489 the account level, anonymized information for each patron, including: (i) the amount and type of  
490 bet; (ii) the time the bet was placed; (iii) the location of the bet, including the Internet Protocol

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

491 address if applicable; (iv) the outcome of the bet; and (v) records of abnormal betting activity.  
492 The commission may request the information in the form and manner as it requires. Nothing in  
493 this section shall require an operator to provide any information prohibited by federal, state or  
494 local laws or regulations, including, but not limited to, laws and regulations relating to privacy  
495 and personally identifiable information.

496       (j) If a sports governing body has notified the commission and demonstrated a need for  
497 access to the information described in subsection (i) for wagers placed on sporting events of the  
498 sports governing body for integrity monitoring purposes and demonstrated the capability to use  
499 the data for the purpose of effectively monitoring the integrity of sporting events of the sports  
500 governing body, an operator shall share, in a commercially reasonable frequency, form and  
501 manner, with the sports governing body or its designee the same information the operator is  
502 required to maintain pursuant to said subsection (i) with respect to sports wagers on sporting  
503 events of the sports governing body. A sports governing body and its designee shall only use  
504 information received pursuant to this section for integrity-monitoring purposes and shall not use  
505 information received pursuant to this section for any commercial or other purpose. Nothing in  
506 this section shall require an operator to provide any information that is prohibited by federal,  
507 state or local law or regulation, including, but not limited to, laws and regulations relating to  
508 privacy and personally identifiable information.

509       (k)(1) An operator shall conduct a background check on each newly hired employee.  
510 Background checks shall search for criminal history, charges or convictions involving corruption  
511 or manipulation of sporting events and association with organized crime.

## Item 10892 Withdrawn by the City Council - 4/18/2023

10892

512 (2) An operator shall conduct a single background check on any employee hired before  
513 the operator was issued an operator license. Background checks shall search for criminal history,  
514 charges or convictions involving corruption or manipulation of sporting events and association  
515 with organized crime.

516 Section 12. (a) An operator shall: (i) employ a monitoring system utilizing software to  
517 identify irregularities in volume or changes in odds that could signal suspicious activities and  
518 promptly report such information to the commission for further investigation; provided,  
519 however, that system requirements and specifications shall be developed according to industry  
520 standards and implemented by the commission as part of the minimum internal control  
521 standards; (ii) promptly report to the commission any facts or circumstances related to the  
522 operation of a sports wagering license that constitute a violation of state or federal law and  
523 promptly report to the appropriate state or federal authorities any suspicious betting over a  
524 threshold set by the operator that has been approved by the commission; (iii) conduct all sports  
525 wagering activities and functions in a manner that does not pose a threat to the public health,  
526 safety or welfare of the residents of the commonwealth; (iv) keep current in all payments and  
527 obligations to the commission; (v) prevent any person from tampering or interfering with the  
528 operation of any sports wagering; (vi) ensure that mobile sports wagering occurs only using a  
529 commission-approved mobile application or other digital platform to accept wagers initiated  
530 within the commonwealth; (vii) maintain sufficient cash and other supplies to conduct sports  
531 wagering at all times; (viii) maintain daily records showing the gross sports wagering receipts  
532 and adjusted gross sports wagering receipts of the operator from sports wagering; (ix) timely file  
533 with the commission any additional reports required by this chapter or by any rule or regulation;

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

534      and (x) use commercially reasonable efforts to prevent a person under 21 years old from placing  
535      a wager.

536              (b) Sports wagering operators may use any data source for determining:

537              (1) the results of any and all tier 1 sports wagers on any and all sporting events; and

538              (2) the results of any and all tier 2 sports wagers on sporting events of an organization  
539      that is not headquartered in the United States.

540              (c) A sports governing body may notify the commission that it desires sports wagering  
541      operators to use official league data to settle tier 2 sports wagers on sporting events of such  
542      sports governing body. The notification shall be made in the form and manner as the commission  
543      may require. Within 5 days of receipt of the notification, the commission shall notify each sports  
544      wagering operator of the requirement to use official league data to settle tier 2 sports wagers. If a  
545      sports governing body does not notify the commission of its desire to supply official league data,  
546      a sports wagering operator may use any data source for determining the results of any and all tier  
547      2 sports wagers on sporting events of the sports governing body.

548              (d) Within 60 days of the commission notifying a sport wagering operator of the  
549      requirement to use official league data to settle tier 2 sports wagers pursuant to subsection (c), or  
550      such longer period as may be agreed between the sports governing body and the applicable  
551      sports wagering operator, a sports wagering operator shall use only official league data to  
552      determine the results of tier 2 sports wagers on sporting events of that sports governing body,  
553      unless:

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

554            (1) the sports governing body or its designee cannot provide a feed of official league data  
555 to determine the results of a particular type of tier 2 sports wager, in which case a sports  
556 wagering operator may use any data source for determining the results of the applicable tier 2  
557 sports wager until such time a data feed becomes available from the sports governing body on  
558 commercially reasonable terms and conditions; or

559            (2) a sports wagering operator can demonstrate to the commission that the sports  
560 governing body or its designee will not provide a feed of official league data to the sports  
561 wagering operator on commercially reasonable terms and conditions.

562            (e) In evaluating whether official league data is offered on commercially reasonable  
563 terms and conditions for purposes of paragraphs (1) and (2) of subsection (d), the commission  
564 may consider factors, including, but not limited to:

565            (1) the availability of official league data to a sports wagering operator from more than 1  
566 authorized source;

567            (2) market information, including, but not limited to, price and other terms and conditions  
568 regarding the purchase by sports wagering operators of comparable data for the purpose of  
569 settling sports wagers in the commonwealth and other jurisdictions;

570            (3) the nature and quantity of data, including the quality and complexity of the process  
571 used for collecting the data; and

572            (4) the extent to which a sports governing body or its designee has made data used to  
573 settle tier 2 wagers available to sports wagering operators and any terms and conditions relating  
574 to the use of that data.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

575            (f) Notwithstanding subsection (d) or any provision of this subsection to the contrary,  
576 during the pendency of the determination of the commission as to whether a sports governing  
577 body or its designee may provide official league data on commercially reasonable terms, a sports  
578 wagering operator may use any data source to determine the results of tier 2 sports wagers. The  
579 determination shall be made within 120 days of the sports wagering operator notifying the  
580 commission that it requests to demonstrate that the sports governing body or its designee will not  
581 provide a feed of official league data to the sports wagering operator on commercially reasonable  
582 terms.

583            (g) A sports governing body may enter into commercial agreements with a sports  
584 wagering operator or other entity in which such sports governing body may share in the amount  
585 wagered or revenues derived from sports wagering on sporting events of the sports governing  
586 body. A sports governing body shall not be required to obtain a license or any other approval  
587 from the commission to lawfully accept such amounts or revenues.

588            Section 13. (a) Holders of category 1 and category 2 licenses may accept wagers on  
589 sports events and other events authorized pursuant to this chapter in person at authorized  
590 facilities.

591            (b) Holders of an operator license may accept wagers on sports events and other events  
592 authorized pursuant to this chapter from individuals physically located within the commonwealth  
593 using mobile applications or digital platforms approved by the commission, through the patron's  
594 sports wagering account. The branding for each mobile application or digital platform shall be  
595 determined by the operator. All bets authorized pursuant to this section must be initiated,  
596 received and otherwise made within the commonwealth. Consistent with the intent of the federal

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

597      Unlawful Internet Gambling Enforcement Act of 2006, 31 U.S.C. section 5361 to 5367,  
598      inclusive, the intermediate routing of electronic data related to a lawful intrastate wager  
599      authorized pursuant to this chapter shall not determine the location or locations in which the  
600      wager is initiated, received or otherwise made.

601              (c) An operator may: (i) accept wagers placed by other operators and (ii) place wagers  
602      with other operators; provided, that any operator that places a wager with another operator shall  
603      inform the operator accepting the wager that the wager is being placed by an operator and shall  
604      disclose the operator's identity.

605              (d) An operator shall not accept: (i) a wager from a person who is less than 21 years of  
606      age; or (ii) a credit card .

607              (e)(1) The commission or operator may ban any person from participating in the play or  
608      operation of any sports wagering consistent with rules and regulations promulgated by the  
609      commission. A list of all excluded patrons shall be kept by the commission and provided to each  
610      licensee. No patron on the exclusion list shall be permitted to conduct sports wagering pursuant  
611      to this chapter.

612              (2) The commission shall establish a list of self-excluded persons from sports wagering.  
613      A person may request their name to be placed on the list of self-excluded persons by filing a  
614      statement with the commission acknowledging that they are a problem gambler and by agreeing  
615      that, during any period of voluntary exclusion, they shall not collect any winnings or recover any  
616      losses resulting from any sports wagering. The commission shall adopt further regulations for the  
617      self-excluded persons list including procedures for placement, removal and transmittal of the list  
618      to sports wagering operators. The commission may revoke, limit, condition, suspend or fine a

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

619 sports wagering operator if the operator knowingly or recklessly fails to exclude or eject from its  
620 premises any person placed on the list of self-excluded persons. The list of self-excluded persons  
621 from sports wagering shall not be open to public inspection.

622           (3) An operator that operates sports wagering through a mobile application or other  
623 digital platform may allow patrons to set self-imposed limitations on sports wagering when the  
624 patron joins the mobile application or digital platform.

625           (f) No employee may place a sports wager at any facility or through any mobile  
626 application or digital platform owned or operated by their employer.

627           (g) Sections 24, 24A and 27 of chapter 10 of the General Laws shall not apply to an  
628 operator conducting sports wagering in accordance with this chapter.

629           (h) Unclaimed winning sports wagers shall be retained by the operator for the person  
630 entitled to the wager for 1 year after the game or event in which the wager was won. If no claim  
631 is made for the wager within 1 year, the cash or equivalent cash value of the wager shall be  
632 deposited in the Sports Wagering Control Fund established in section 15.

633           Section 14. (a) An excise is hereby imposed upon sports wagering operators in the  
634 commonwealth at the rate of: (i) 15 per cent of the operator's adjusted gross sports wagering  
635 receipts from the operation of in-person sports wagering; (ii) 20 per cent of the operator's  
636 adjusted gross sports wagering receipts from the operation of sports wagering through mobile  
637 applications and other digital platforms approved by the commission; and (iii) 15 per cent of the  
638 adjusted gross fantasy wagering receipts of a person or entity that offers fantasy contests, as  
639 defined in section 11M½. The accrual method of accounting shall be used for purposes of

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

640      calculating the amount of the tax owed by the licensee. The excise shall be paid to the  
641      commission at the time provided for filing the return pursuant to subsection (b).

642                    (b)(1) The excise imposed and collected pursuant to subsection (a) shall be due  
643      and payable to the commission in monthly installments on or before the fifteenth calendar day  
644      following the calendar month in which the adjusted gross sports wagering receipts were received.

645                    (2) On or before the fifteenth calendar day of each month, the operator shall complete and  
646      submit the return for the preceding month by electronic communication to the commission in a  
647      form prescribed by the commission that provides:

648                    (i) the total gross sports wagering receipts and adjusted gross sports wagering receipts  
649      from operation of sports wagering during that month;

650                    (ii) the total gross fantasy wagering receipts and adjusted gross fantasy wagering receipts  
651      from the offering of fantasy contests, as defined in section 11M½ of chapter 12, during that  
652      month;

653                    (iii) the tax amount for which an operator or a person or entity that offers fantasy  
654      contests, as defined in said section 11M½ of said chapter 12, is liable; and

655                    (iv) any additional information necessary in the computation and collection of the tax on  
656      adjusted gross sports wagering receipts and adjusted gross fantasy wagering receipts required by  
657      the commission.

658                    (3) The excise amount shown to be due shall be remitted by electronic funds transfer  
659      simultaneously with the filing of the return.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

660            (4) When an operator's adjusted gross sports wagering receipts for a month is a negative  
661      number because the winnings paid to wagerers and excise taxes paid pursuant to federal law  
662      exceed the operator's total gross receipts from sports wagering, the commission shall allow the  
663      operator to carry over the negative amount to returns filed for subsequent months. The negative  
664      amount of adjusted gross sports wagering receipts shall not be carried back to an earlier month  
665      and taxes previously received by the commission shall not be refunded unless the operator  
666      surrenders its license and the operator's last return reported negative adjusted gross sports  
667      wagering receipts.

668            (c) The excise on adjusted gross sports wagering receipts imposed by this section shall be  
669      in lieu of all other state and local taxes and fees imposed on the operation of, or the proceeds  
670      from operation of, sports wagering.

671            (d) Annually, not later than July 1, the commission shall publish on its website a report  
672      stating the amount in fees, surcharges and civil penalties received from operators and taxes  
673      received from operators and from people or entities that offer fantasy contests, as defined in  
674      section 11M½ of chapter 12.

675            Section 15. (a) There shall be established and set up on the books of the commonwealth a  
676      separate fund to be known as the Sports Wagering Control Fund. The commission shall be the  
677      trustee of the fund and shall expend money to finance the operational activities of the  
678      commission pertaining to sports wagering. The fund shall be credited with: (i) any appropriation,  
679      bond proceeds or other monies authorized by the general court and specifically designated to be  
680      credited thereto; (ii) the proceeds of any fees collected pursuant to this section unless otherwise  
681      specified; (iii) fees collected pursuant to sections 7 and 8; (iv) breaks; and (v) such additional

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

682 funds as are subject to the direction and control of the commission. All available money in the  
683 fund that is unexpended at the end of each fiscal year shall not revert to the General Fund and  
684 shall be available for expenditure in the subsequent fiscal year.

685           (b) The commission shall establish fees for any investigation into a violation of this  
686 chapter or regulation promulgated hereunder by a sports wagering operator to be paid by the  
687 sports wagering operator including, but not limited to, billable hours by commission staff  
688 involved in the investigation and the costs of services, equipment or other expenses that are  
689 incurred by the commission during the investigation.

690           (c) Any remaining costs of the commission necessary to maintain regulatory control over  
691 sports wagering operators that are not covered by: (i) the fees set forth in subsection (b); (ii) any  
692 other fees assessed pursuant to this chapter; or (iii) any other designated sources of funding, shall  
693 be annually assessed on sports wagering operators pursuant to this chapter in proportion to each  
694 operator's share of the commonwealth's total adjusted gross sports wagering receipts. Each  
695 operator shall pay the amount assessed against the operator not more than 30 days after the date  
696 of the notice of assessment from the commission.

697           (d) If the fees collected pursuant to subsections (b) and (c) exceed the cost required to  
698 maintain regulatory control, the surplus funds shall be credited in proportional shares against  
699 each sports wagering operator's next assessment.

700           (e) The commission shall annually assess and collect a \$1,000,000 fee in shares to be  
701 determined by the commission against each sports wagering operator that is not a category 1 or  
702 category 2 gaming licensee, as defined in section 2 of chapter 23K. The fee collected pursuant to  
703 this subsection shall be deposited into the Public Health Trust Fund established in section 58 of

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

704    said chapter 23K and shall be used for the costs of services and public health programs provided  
705    for in said section 58 of said chapter 23K.

706            Section 16. (a) The commission may assess a civil administrative penalty on an operator  
707    who fails to comply with any provision of this chapter, house rules or any regulation or order  
708    adopted by the commission; provided, however, that the noncompliance shall have occurred after  
709    the commission has given such operator written notice of the noncompliance and the time stated  
710    in the notice for coming into compliance has elapsed; provided further, that the commission may  
711    assess a penalty without providing written notice if the failure to comply: (i) was part of a pattern  
712    of noncompliance and not an isolated instance; (ii) was willful or neglectful and not the result of  
713    error; (iii) resulted in a significant breach to the integrity of the operator or the sports wagering  
714    laws of the commonwealth; or (iv) consisted of failure to promptly report to the commission any  
715    knowledge of evidence or circumstances that would cause a reasonable person to believe that a  
716    violation of this chapter has been committed. The civil administrative penalty shall be in addition  
717    to any other civil penalty that may be prescribed by law.

718            (b) For the purpose of determining whether such noncompliance was part of a pattern of  
719    noncompliance and not an isolated instance, the commission shall consider, but not be limited to;  
720    (i) whether the commission had previously notified the operator of such noncompliance on more  
721    than 1 occasion during the previous month or of any noncompliance with the same provision of a  
722    law, regulation, order, license or approval as the current noncompliance during the previous 6-  
723    month period; or (ii) whether the current and previous instances of noncompliance, considered  
724    together, indicate a potential threat to the integrity of the operator and sports wagering in the  
725    commonwealth or an interference with the commission's ability to efficiently and effectively  
726    regulate sports wagering in the commonwealth and enforce any regulation, license or order. If an

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

727 operator that has received a notice of noncompliance fails to come into compliance within the  
728 time period stated in the notice, the civil administrative penalty may be assessed by the  
729 commission upon the operator from the date of receipt of such notice.

730           (c) If the commission seeks to assess a civil administrative penalty on an operator, the  
731 commission shall cause to be served upon the operator, by service in hand or by certified mail,  
732 return receipt requested, a written notice of its intent to assess a civil administrative penalty that  
733 shall include: (i) a concise statement of the alleged act or omission for which such civil  
734 administrative penalty is sought to be assessed; (ii) each law, regulation, order, license or  
735 approval that has not been complied with as a result of such alleged act or omission; (iii) the  
736 amount that the commission seeks to assess as a civil administrative penalty for each alleged act  
737 or omission; (iv) a statement of the operator's right to an adjudicatory hearing on the proposed  
738 assessment; (v) the requirements the operator shall comply with to avoid being deemed to have  
739 waived the right to an adjudicatory hearing; and (vi) the manner of payment thereof if the  
740 operator elects to pay the penalty and waive an adjudicatory hearing. After written notice of  
741 noncompliance or intent to assess a civil administrative penalty has been given, each day  
742 thereafter during which noncompliance occurs or continues shall constitute a separate offense  
743 and shall be subject to a separate civil administrative penalty if reasonable efforts have not been  
744 made by the operator to promptly come into compliance.

745           (d) If the commission seeks to assess a civil administrative penalty on an operator, the  
746 operator shall have the right to an adjudicatory hearing under chapter 30A, the provisions of  
747 which shall apply except when they are inconsistent with the provisions of this chapter.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

748            (e) An operator shall be deemed to have waived its right to an adjudicatory hearing  
749 unless, not more than 21 days after the date of the commission's notice that the commission  
750 seeks to assess a civil administrative penalty, the operator files with the commission a written  
751 statement denying the occurrence of any of the acts or omissions alleged by the commission in  
752 the notice or asserting that the amount of the proposed civil administrative penalty is excessive.  
753 In an adjudicatory hearing authorized under chapter 30A, the commission shall be required to  
754 prove, by a preponderance of the evidence, the occurrence of each act or omission alleged by the  
755 commission in the notice.

756            (f) If an operator waives the right to an adjudicatory hearing, the proposed civil  
757 administrative penalty shall be final immediately upon such waiver. If a civil administrative  
758 penalty is assessed at the conclusion of an adjudicatory hearing, the civil administrative penalty  
759 shall be final upon the expiration of 30 days unless an action for judicial review of the decision is  
760 commenced under chapter 30A.

761            (g) An operator who institutes proceedings for judicial review of the final assessment of a  
762 civil administrative penalty shall place the full amount of the final assessment in an interest-  
763 bearing escrow account in the custody of the clerk or magistrate of the reviewing court. The  
764 establishment of an interest-bearing escrow account shall be a condition precedent to the  
765 jurisdiction of the reviewing court unless the party seeking judicial review demonstrates, in a  
766 preliminary hearing held not more than 20 days after the filing of the complaint, the presence of  
767 a substantial question for review by the court or the operator's inability to pay. Upon such a  
768 demonstration, the court may grant an extension or waiver of the interest-bearing escrow account  
769 requirement or may require, in lieu of such interest-bearing escrow account, the posting of a

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

770 bond payable directly to the commonwealth in the amount of 125 per cent of the assessed  
771 penalty.

772            If, after judicial review, in a case where the escrow account requirement has been waived,  
773 and in cases where a bond has been posted in lieu of such requirement, the court affirms, in  
774 whole or in part, the assessment of a civil administrative penalty, the commission shall be paid  
775 the amount thereof together with interest at the rate provided in section 6C of chapter 231. If,  
776 after judicial review in a case where an interest-bearing escrow account has been established, the  
777 court affirms the assessment of such penalty, in whole or in part, the commission shall be paid  
778 the amount thereof together with the accumulated interest in the interest-bearing escrow account.  
779 If the court sets aside the assessment of a civil administrative penalty in a case where the amount  
780 of such penalty has been deposited in an interest-bearing escrow account, the operator on whom  
781 the civil administrative penalty was assessed shall be repaid the amount so set aside, together  
782 with the accumulated interest thereon.

783            (h) Each operator who fails to timely pay a civil administrative penalty and each operator  
784 who issues a bond under this section and fails to timely pay to the commission the amount  
785 required for the bond, shall be liable to the commonwealth for up to 3 times the amount of the  
786 civil administrative penalty, together with costs, plus interest accrued from the time the civil  
787 administrative penalty became final and attorneys' fees, including all costs and attorneys fees  
788 incurred directly in the collection of the penalty. The rate of interest shall be the rate provided in  
789 section 6C of chapter 231. The commission may require that the amount of a civil administrative  
790 penalty imposed under this section exceed any economic benefit realized by a person.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

791            (i) The commission may impose conditions on, suspend or revoke an operator's license or  
792 reprimand or assess a fine on an operator upon a finding that the operator: (i) has committed a  
793 criminal or civil offense under this chapter or under any other law; (ii) is not in compliance with  
794 sports wagering regulations promulgated pursuant to this chapter; (iii) is under criminal  
795 investigation in another jurisdiction; (iv) has breached a condition of licensure; (v) has affiliates,  
796 close associates or employees that are not qualified or licensed under this chapter with whom the  
797 operator continues to conduct business or employ; (vi) is no longer capable of maintaining  
798 operations as a sports wagering operator; or (vii) whose business practice, upon a determination  
799 by the commission, is injurious to the policy objectives of this chapter.

800            Section 17. There shall be established and set up on the books of the commonwealth a  
801 Sports Wagering Fund which shall receive revenues collected pursuant to sections 6 and 14. The  
802 commission shall be the trustee of the fund and shall transfer monies from the fund as follows:

- 803            (1) 45 per cent to the General Fund;
- 804            (2) 17.5 per cent to the Workforce Investment Trust Fund established in section 18;
- 805            (3) 27.5 per cent to the Gaming Local Aid Fund established in section 63 of section 23K;
- 806            (4) 1 per cent to the Youth Development and Achievement Fund established in section  
807 19; and
- 808            (5) 9 per cent to the Public Health Trust Fund established in section 58 of section 23K.

809            Section 18. (a) There is hereby established and set up on the books of the commonwealth  
810 a separate fund to be known as the Workforce Investment Trust Fund. There shall be credited to  
811 the fund any sports wagering revenue transferred from the Sports Wagering Fund pursuant to

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

812 section 16. Monies transferred to the fund shall be continuously expended, without regard for  
813 fiscal year, exclusively for carrying out the purposes of this section. Money remaining in the  
814 fund at the end of a fiscal year shall not revert to the General Fund.

815           (b) The fund shall be administered by the secretary of housing and economic  
816 development. Money in the fund shall be competitively granted to develop and strengthen  
817 workforce opportunities for low-income communities and vulnerable youth and young adults in  
818 the commonwealth, including providing opportunities and strategies to promote stable  
819 employment and wage growth.

820           (c) Eligible grant recipients shall provide opportunities which: (i) target at risk youth,  
821 including resources to empower youth to succeed in the workforce; (ii) provide job skills  
822 trainings, including programs offering trainings in multiple languages and areas for development,  
823 including education and hands on skills; (iii) promote adult literacy, including strategies to  
824 master reading and writing and providing digital formats to increase accessibility; and (iv)  
825 provide English language learning programs to promote access to the workforce. The secretary  
826 of housing and economic development shall establish criteria to evaluate applications for the  
827 grant program; provided, that the criteria shall include, but shall not be limited to, at risk  
828 populations; provided further, that preference shall be given to eligible grant recipients providing  
829 opportunities for individuals who meet at least 2 of the following: (i) is under 30 years of age;  
830 (ii) is a victim of violence; (iii) is over 18 years of age and does not have a high school diploma;  
831 (iv) has been convicted of a felony; (v) has been unemployed or has had a family income below  
832 250 per cent of the federal poverty level for not less than 6 months; (vi) lives in a census tract  
833 where over 20 per cent of the populations fall below the federal poverty line; or (vii) is an  
834 immigrant, refugee or person of color.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

835            (d) Annually, not later than October 1, the secretary of housing and economic  
836 development shall provide a report of the grants given and a breakdown of expenditures made by  
837 the fund. The report shall be posted on the website of the executive office of housing and  
838 economic development.

839            Section 18. There shall be established and set up on the books of the commonwealth a  
840 fund to be known as the Youth Development and Achievement Fund. The fund shall be credited  
841 any monies transferred from the Sports Wagering Fund pursuant to section 16 and all monies  
842 credited to or transferred to the fund from any other fund or source. Expenditures from the fund  
843 shall be subject to appropriation and shall be expended equally for the following purposes:

844            (1) For the purposes of providing financial assistance to students from the commonwealth  
845 enrolled in and pursuing a program of higher education in any approved public or independent  
846 college, university, school of nursing or any other approved institution furnishing a program of  
847 higher education;

848            (2) For the purposes of funding after-school and out-of-school activities, including, but  
849 not limited to, youth athletics and other activities that improve student health, literacy programs,  
850 English language learning programs, academic tutoring, art, theater and music programs and  
851 community service programs; and

852            (3) For the purposes of providing matching grants to elementary and secondary youth  
853 sports, organizations, clubs and other school groups to attend events including, but not limited to,  
854 academic events and programs, cultural events and award ceremonies both nationally and  
855 internationally.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

856            Section 20. The commission shall conduct a study into the feasibility of allowing retail  
857 locations in the commonwealth to operate sports wagering kiosks. The study by the commission  
858 shall include, but not be limited to, an analysis of: (i) the economic impact of this chapter on  
859 retail establishments that serve alcoholic beverages for on premises consumption, such as  
860 restaurants and bars; (ii) which retail locations have the ability to operate a sports wagering  
861 kiosk; (iii) the economic impact to the commonwealth of authorizing retail locations to operate a  
862 sports wagering kiosk; (iv) the methods and availability of payouts of winnings by a sports  
863 wagering kiosks at retail locations; (v) the public health and safety impacts to the commonwealth  
864 of authorizing retail locations to operate a sports wagering kiosk; (vi) the potential effect of  
865 sports wagering kiosks at retail locations on problem gaming or gambling; (vii) the impact of  
866 sports wagering kiosks at retail locations on minors; (viii) the economic impact of authorizing  
867 this method of sports wagering on businesses owned by people of color; (ix) the public health  
868 and economic impact of this method of sports wagering as an alternative to the current black  
869 market, particularly in communities far from authorized in-person sports wagering; and (x)  
870 recommendations to ensure diversity, equity and inclusion are included in this method of sports  
871 wagering. As part of the study, the commission shall consult retailers, convenience stores,  
872 restaurants, women and minority owned businesses and small business owners. The commission  
873 shall report on its findings and submit any recommendations to the clerks of the house and  
874 senate, the house and senate committees on ways and means, the joint committee on consumer  
875 protection and professional licensure and the joint committee on economic development and  
876 emerging technologies no later than December 31, 2022.

877            Section 21. (a) The commission may impose on any person who violates this chapter a  
878 civil penalty not to exceed \$2,000 for each violation or \$5,000 for violations arising from the

## Item 10892 Withdrawn by the City Council - 4/18/2023

10892

879 same series of events. Such penalty shall be imposed on all persons and is not limited to persons  
880 licensed under this chapter.

881 (b) The commission may condition, suspend, reprimand, assess a fine or revoke an  
882 operator license upon a finding that a licensee: (i) has committed a criminal or civil offense  
883 under this chapter or under any other laws of the commonwealth; (ii) is not in compliance with  
884 sports wagering regulations; (iii) is under criminal investigation in another jurisdiction; (iv) has  
885 breached a condition of licensure; (v) has affiliates, close associates or employees that are not  
886 qualified or licensed under this chapter with whom the licensee continues to conduct business or  
887 employ; (vi) is no longer capable of maintaining operations as a sports wagering operator or data  
888 supplier; or (vii) whose business practice, upon a determination by the commission,  
889 is injurious to the policy objectives of this chapter.

890 Section 21. (a) Whoever, other than an operator under this chapter, engages in accepting,  
891 facilitating or operating a sports wagering operation shall be punished by imprisonment in the  
892 house of correction for not more than 90 days or by a fine not to exceed \$10,000, or both; and for  
893 a second offense, by imprisonment in the house of correction for not more than 6 months or by a  
894 fine of not more than \$50,000, or both; and in the case of a third or subsequent violation by  
895 imprisonment in the state prison for not less than 1 but not more than 5 years or by a fine of not  
896 less than \$25,000 and not more than \$100,000, or both.

897 Section 22. An operator shall not discharge, demote, suspend, threaten, harass or in any  
898 other manner discriminate against an employee because of any lawful act done by the employee  
899 to provide information, cause information to be provided or otherwise assist in an investigation

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

900 regarding any conduct that the employee reasonably believes constitutes a violation of this  
901 chapter.

902           Section 23. (a) The commission shall develop an annual research agenda in order to  
903 understand the social and economic effects of sports wagering in the commonwealth and to  
904 obtain scientific information relative to the neuroscience, psychology, sociology, epidemiology  
905 and etiology of sports wagering. The secretary of health and human services, with the advice and  
906 consent of the commission, may expend funds from the Public Health Trust Fund established in  
907 section 58 of chapter 23K to implement the objectives of the sports wagering research agenda;  
908 provided, however, that the objectives of the sports wagering research agenda shall, to the extent  
909 practicable, be substantially similar to the objectives of the research agenda established under  
910 section 71 of said chapter 23K. The sports wagering research agenda shall also include, but not  
911 be limited to: (i) an assessment of whether problem sports wagering is comorbid with problem  
912 gambling; (ii) an assessment as to whether the individuals participating in sports wagering are  
913 different than those who participate in other forms of gaming or gambling; (iii) an assessment of  
914 the impact of sports wagering on youth under the age of 25; (iv) an assessment of the impacts of  
915 sports wagering on college athletics and professional sports; and (v) the costs of implementing  
916 this chapter.

917           (b) Annually, the commission shall make scientifically-based recommendations that  
918 reflect the results of the research under clause (a) to the clerks of the senate and house of  
919 representatives, the senate and house committees on ways and means, the joint committee on  
920 economic development and emerging technologies, the joint committee on mental health,  
921 substance use and recovery and the joint committee on public health. The commission shall  
922 consider any such recommendations, research and findings in all decisions related to enhancing

**Item 10892      Withdrawn by the City Council - 4/18/2023**

10892

923      responsible gambling and mitigating problem sports wagering. The recommendations shall be  
924      posted on the commission's website.

925              SECTION 6. Chapter 128C of the General Laws is hereby amended by inserting the  
926      following new section:-

927              Section 9. Notwithstanding sections 1 to 8, inclusive, or any other general or special law  
928      to the contrary, no racing meeting licensee, including licensees holding racing meetings in  
929      connection with a state or county fair as defined in section 1 of chapter 128A, shall simulcast or  
930      accept a wager on greyhound dog racing, and a running horse racing meeting licensee shall  
931      conduct not less than 20 live racing days at a thoroughbred horse racing track, provided, the  
932      commission may waive this requirement as necessary and appropriate to ensure the financial  
933      ability of the licensee to develop and operate a race track.

934              SECTION 7. Section 1 of chapter 137 of the General Laws, as appearing in the 2018  
935      Official Edition, is hereby amended by inserting after the figure "23K", in line 3, the following  
936      words:- or sports wagering conducted pursuant to chapter 23N.

937              SECTION 8. Section 2 of said chapter 137, as so appearing, is hereby amended by  
938      inserting after the figure "23K", in line 3, the following words:- or an operator who offers sports  
939      wagering pursuant to chapter 23N.

940              SECTION 9. Section 3 of said chapter 137, as so appearing, is hereby amended by  
941      inserting after the figure "23K", in line 7, the following words:- or sports wagering conducted  
942      pursuant to chapter 23N.

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

943            SECTION 10. Section 1 of chapter 271 of the General Laws, as so appearing, is hereby  
944 amended by striking out, in line 4, the words “chapter 23K” and inserting in place thereof the  
945 following words:- chapters 23K and 23N.

946            SECTION 11. Section 2 of said chapter 271, as so appearing, is hereby amended by  
947 striking out, in line 4, the words “chapter 23K” and inserting in place thereof the following  
948 words:- chapters 23K and 23N.

949            SECTION 12. Section 3 of said chapter 271, as so appearing, is hereby amended by  
950 striking out, in line 1, the words “chapter 23K” and inserting in place thereof the following  
951 words:- chapters 23K and 23N.

952            SECTION 13. Section 5 of said chapter 271, as so appearing, is hereby amended by  
953 striking out, in line 1, the words “chapter 23K” and inserting in place thereof the following  
954 words:- chapters 23K and 23N.

955            SECTION 14. Section 5A of said chapter 271, as so appearing, is further amended by  
956 inserting after the words “chapter 23K”, in line 32, the following words:- or sports wagering  
957 conducted pursuant to chapter 23N.

958            SECTION 15. Section 5B of said chapter 271, as so appearing, is hereby amended by  
959 striking out, in line 58, the words “chapter 23K” and inserting in place thereof the following  
960 words:- chapters 23K and 23N.

961            SECTION 16. Section 8 of said chapter 271, as so appearing, is hereby amended by  
962 striking out, in lines 10 to 11, the words “other game of chance that is not being conducted in a  
963 gaming establishment licensed under chapter 23K” and inserting in place thereof the following

## Item 10892      Withdrawn by the City Council - 4/18/2023

10892

964 words:- other game that is not being conducted pursuant to chapter 23K and any other sports  
965 wagering that is not being conducted pursuant to chapter 23N.

966            SECTION 17. Section 17 of said chapter 271, as so appearing, is hereby amended by  
967 inserting after the words "chapter 23K", in line 27, the following words:- or for the purpose of  
968 sports wagering conducted in accordance with chapter 23N.

969            SECTION 18. Said chapter 271, as so appearing, is hereby further amended by striking  
970 out section 17A and inserting in place thereof the following section:-

971            Section 17A. Except as permitted under chapter 23N, whoever uses a telephone, internet  
972 or other communications technology or, being the occupant in control of premises where a  
973 telephone, internet or other communications technology is located or a subscriber for such  
974 communications technology, knowingly permits another to use a telephone, internet or other  
975 communications technology so located or for which such person subscribes, as the case may be,  
976 for the purpose of accepting wagers or bets, or buying or selling of pools, or for placing all or  
977 any portion of a wager with another, upon the result of a trial or contest of skill, speed or  
978 endurance of man, beast, bird or machine, or upon the result of an athletic game or contest, or  
979 upon the lottery called the numbers game, or for the purpose of reporting the same to a  
980 headquarters or booking office, or who under another name or otherwise falsely or fictitiously  
981 procures telephone, internet or other communications technology service for oneself or another  
982 for such purposes, shall be punished by a fine of not more than \$2,000 or by imprisonment for  
983 not more than 1 year; provided, however, that this section shall not apply to use of telephones or  
984 other devices or means to place wagers authorized pursuant to the provisions of section 5C of  
985 chapter 128A.

**Item 10892      Withdrawn by the City Council - 4/18/2023**

10892

986            SECTION 19. Section 19 of said chapter 271, as so appearing, is hereby amended by  
987 inserting after the words “chapter 23K”, in line 19, the following words:- and shall not apply to  
988 advertising of sports wagering conducted pursuant to chapter 23N.

989            SECTION 20. Section 20 of said chapter 271, as so appearing, is hereby amended by  
990 adding the following sentence:- Nothing in this section shall prohibit an operator licensed under  
991 chapter 23N from posting, advertising or displaying materials relevant to its sports wagering  
992 operations.

993            SECTION 21. Section 23 of said chapter 271, as so appearing, is hereby amended by  
994 inserting after the words “chapter 23K”, in line 31, the following words:- and shall not apply to  
995 sports wagering conducted pursuant to chapter 23N.

996            SECTION 22. Section 27 of said chapter 271, as so appearing, is hereby amended by  
997 inserting after the word “thereto”, in line 15, the following words:- ; provided, however, that  
998 such provisions shall not apply to sports wagering conducting pursuant to chapter 23N.

999            SECTION 23. Section 28 of said chapter 271, as so appearing, is hereby amended by  
1000 inserting after the word “prescribed”, in line 12, the following words:- ; provided, however, that  
1001 such provisions shall not apply to sports wagering conducted pursuant to chapter 23N.

1002            SECTION 24. Section 42 of said chapter 271, as so appearing, is hereby amended by  
1003 inserting after the word “both”, in line 4, the following words:- ; provided, however, that such  
1004 provisions shall not apply to sports wagering conducted pursuant to chapter 23N.

1005            SECTION 25. The Massachusetts gaming commission shall conduct a study on the  
1006 participation by minority business enterprises, women business enterprises and veteran business

**Item 10892      Withdrawn by the City Council - 4/18/2023**

10892

1007 enterprises in the sports wagering industry in the commonwealth. The study shall include, but not  
1008 be limited to, an analysis of: (i) participation in activities related to the regulation, licensing and  
1009 promotion of sports wagering operators; (ii) the level of participation of women, minority and  
1010 veteran employees working for sports wagering licensees and employers; (iii) the level of  
1011 participation by minority-owned and women-owned businesses that contract with or provide  
1012 services to sports wagering licensees and employers; (iv) any barriers to employment of women  
1013 and minorities in the sports wagering industry; and (v) methods for increasing racial and gender  
1014 diversity in the workforce in the sports wagering industry, including whether to set reasonable  
1015 and appropriate goals and procedures for increasing the number of minority business enterprises  
1016 providing sports wagering industry-related services to sports wagering licensees and employers.  
1017 The commission shall report on its findings and submit any recommendations to the clerks of the  
1018 senate and house of representatives, the house and senate committees on ways and means, the  
1019 joint committee on racial equity, civil rights, and inclusion and the joint committee on economic  
1020 development and emerging technologies not later than December 31, 2022.

1021           SECTION 26. Section 135 of chapter 219 of the acts of 2016 is hereby repealed.

1022           SECTION 27. Sections 2 and 6 shall take effect 1 year after the effective date of this act.

APR 26 PM 1:12

Hon. Elizabeth J. Kazinskas, Council President  
And City Councilors  
Gardner City Hall, Rm 121  
95 Pleasant Street  
Gardner, MA 01440

RE: Submission of Zoning Amendment Proposal- An Ordinance to Amend The Code Of The City Of Gardner, Chapter 675 Thereof, Entitled "Zoning," to amend section 1070 thereof entitled "Marijuana Establishments" to increase the quota allowed by the Code of the City of Gardner.

Dear Madam President and Colleagues,

At the April 18<sup>th</sup>, 2023 Meeting of the City Council, we voted to grant the Mayor Leave to withdraw Item 10893 due to concerns regarding the process outlined in Chapter 40A, Section 5 of the General Laws.

We believe this proposal to have been in the best interest of the City of Gardner, as a way to build our economic base, provide for our residents, and plan for our future. We cannot stay stagnant as a City and must continue to do everything we can to better Gardner for ourselves and future generations of Gardnerites – which is what we believe this original proposal provided for the City.

Whereas Section 5 of Chapter 40A of the General Laws states that the City Council may initiate Zoning Amendments, we, as City Councilors, working in the best interest of the City and our Constituents, propose this ordinance and request that the City Council refer this Item to the Planning Board and schedule a joint public hearing.

We have attached the relevant section so the General Laws and the original proposal submitted by Mayor Nicholson that was formally withdrawn and removed by the City Council to this correspondence for supporting materials.

Respectfully submitted,

Dana Heath  
Ward 2 Councilor

George Tyros  
Councilor At-Large

Karen Hardern  
Ward 4 Councilor

James Boone  
Councilor At-Large

Paul Tassone  
Ward 3 Councilor

# Ordinance Document

**AN ORDINANCE TO AMEND THE CODE OF THE CITY OF GARDNER, CHAPTER 675 THEREOF, ENTITLED "ZONING," TO AMEND SECTION 1070 THEREOF, ENTITLED, "MARIJUANA ESTABLISHMENTS" TO CHANGE THE METHOD TO INCREASE THE QUOTA ALLOWED BY THE CODE OF THE CITY OF GARDNER.**

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GARDNER AS FOLLOWS:

**SECTION 1:** Subsection (C)(8)(b) of Section 1070 of Chapter 675 of the Code of the City of Gardner be amended by replacing the paragraph in its entirety and amending the Ordinance as follows:

b) The number of marijuana retail establishments shall be limited to the amount specified by Section 5 of Chapter 306 of the Code of the City of Gardner, as the same may be amended from time to time. No permit, special permit or variance may be granted for a marijuana retail establishment which results in a violation of this limit;

**SECTION 2:** That this ordinance take effect upon passage and publication as required by law.

**Chapter 40A**  
**Section 5**  
**Of the**  
**General Laws**

|                    |                                                                  |
|--------------------|------------------------------------------------------------------|
| <b>Part I</b>      | ADMINISTRATION OF THE GOVERNMENT                                 |
| <b>Title VII</b>   | CITIES, TOWNS AND DISTRICTS                                      |
| <b>Chapter 40A</b> | ZONING                                                           |
| <b>Section 5</b>   | ADOPTION OR CHANGE OF ZONING ORDINANCES OR BY-LAWS;<br>PROCEDURE |

Section 5. Zoning ordinances or by-laws may be adopted and from time to time changed by amendment, addition or repeal, but only in the manner hereinafter provided. Adoption or change of zoning ordinances or by-laws may be initiated by the submission to the city council or board of selectmen of a proposed zoning ordinance or by-law by a city council, a board of selectmen, a board of appeals, by an individual owning land to be affected by change or adoption, by request of registered voters of a town pursuant to section ten of chapter thirty-nine, by ten registered voters in a city, by a planning board, by a regional planning agency or by other methods provided by municipal charter. The board of selectmen or city council shall within fourteen days of receipt of such zoning ordinance or by-law submit it to the planning board for review.

No zoning ordinance or by-law or amendment thereto shall be adopted until after the planning board in a city or town, and the city council or a committee designated or appointed for the purpose by said council has each held a public hearing thereon, together or separately, at which interested persons shall be given an opportunity to be heard. Said public hearing shall be held within sixty-five days after the proposed zoning ordinance or by-law is submitted to

the planning board by the city council or selectmen or if there is none, within sixty-five days after the proposed zoning ordinance or by-law is submitted to the city council or selectmen. Notice of the time and place of such public hearing, of the subject matter, sufficient for identification, and of the place where texts and maps thereof may be inspected shall be published in a newspaper of general circulation in the city or town once in each of two successive weeks, the first publication to be not less than fourteen days before the day of said hearing, and by posting such notice in a conspicuous place in the city or town hall for a period of not less than fourteen days before the day of said hearing. Notice of said hearing shall also be sent by mail, postage prepaid to the department of housing and community development, the regional planning agency, if any, and to the planning board of each abutting city and town. The department of housing and community development, the regional planning agency, the planning boards of all abutting cities and towns and nonresident property owners who may not have received notice by mail as specified in this section may grant a waiver of notice or submit an affidavit of actual notice to the city or town clerk prior to town meeting or city council action on a proposed zoning ordinance, by-law or change thereto. Zoning ordinances or by-laws may provide that a separate, conspicuous statement shall be included with property tax bills sent to nonresident property owners, stating that notice of such hearings under this chapter shall be sent by mail, postage prepaid, to any such owner who files an annual request for such notice with the city or town clerk no later than January first, and pays a reasonable fee established by such ordinance or by-law. In cases involving boundary, density or use changes within a district, notice shall be sent to any such nonresident property owner who has filed such a request with the city or town clerk and whose property lies in the district where the change is sought. No defect in the form of any notice under this chapter shall invalidate any zoning ordinances or by-laws unless such defect is found to be misleading.

Prior to the adoption of any zoning ordinance or by-law or amendment thereto which seeks to further regulate matters established by section forty of chapter one hundred and thirty-one or regulations authorized thereunder relative to agricultural and aquacultural practices, the city or town clerk shall, no later than seven days prior to the city council's or town meeting's public hearing relative to the adoption of said new or amended zoning ordinances or by-laws, give notice of the said proposed zoning ordinances or by-laws to the farmland advisory board established pursuant to section forty of chapter one hundred and thirty-one.

No vote to adopt any such proposed ordinance or by-law or amendment thereto shall be taken until a report with recommendations by a planning board has been submitted to the town meeting or city council, or twenty-one days after said hearing has elapsed without submission of such report. After such notice, hearing and report, or after twenty-one days shall have elapsed after such hearing without submission of such report, a city council or town meeting may adopt, reject, or amend and adopt any such proposed ordinance or by-law. If a city council fails to vote to adopt any proposed ordinance within ninety days after the city council hearing or if a town meeting fails to vote to adopt any proposed by-law within six months after the planning board hearing, no action shall be taken thereon until after a subsequent public hearing is held with notice and report as provided.

Except as provided herein, no zoning ordinance or by-law or amendment thereto shall be adopted or changed except by a two-thirds vote of all the members of the town council, or of the city council where there is a commission form of government or a single branch, or of each branch where there are 2 branches, or by a two-thirds vote of a town meeting; provided, however, that the following shall be adopted by a vote of a simple majority of

all members of the town council or of the city council where there is a commission form of government or a single branch or of each branch where there are 2 branches or by a vote of a simple majority of town meeting:

(1) an amendment to a zoning ordinance or by-law to allow any of the following as of right: (a) multifamily housing or mixed-use development in an eligible location; (b) accessory dwelling units, whether within the principal dwelling or a detached structure on the same lot; or (c) open-space residential development;

(2) an amendment to a zoning ordinance or by-law to allow by special permit: (a) multi-family housing or mixed-use development in an eligible location; (b) an increase in the permissible density of population or intensity of a particular use in a proposed multi-family or mixed use development pursuant to section 9; (c) accessory dwelling units in a detached structure on the same lot; or (d) a diminution in the amount of parking required for residential or mixed-use development pursuant to section 9;

(3) zoning ordinances or by-laws or amendments thereto that: (a) provide for TDR zoning or natural resource protection zoning in instances where the adoption of such zoning promotes concentration of development in areas that the municipality deems most appropriate for such development, but will not result in a diminution in the maximum number of housing units that could be developed within the municipality; or (b) modify regulations concerning the bulk and height of structures, yard sizes, lot area, setbacks, open space, parking and building coverage requirements to allow for additional housing units beyond what would otherwise be permitted under the existing zoning ordinance or by-law; and

*[ Clause (4) of the fifth paragraph effective until July 29, 2021. For text effective July 29, 2021, see below.]*

(4) the adoption of a smart growth zoning district or starter home zoning district in accordance with section 3 of chapter 40R. Any amendment that requires a simple majority vote shall not be combined with an amendment that requires a two-thirds majority vote. If, in a city or town with a council of fewer than 25 members, there is filed with the clerk prior to final action by the council a written protest against a zoning change under this section, stating the reasons duly signed by owners of 50 per cent or more of the area of the land proposed to be included in such change or of the area of the land immediately adjacent extending 300 feet therefrom, no change of any such ordinance shall be adopted except by a two-thirds vote of all members.

*[ Clause (4) of the fifth paragraph as amended by 2021, 29, Sec. 11 effective July 29, 2021. For text effective until July 29, 2021, see above.]*

(4) the adoption of a smart growth zoning district or starter home zoning district in accordance with section 3 of chapter 40R.

*[ Two paragraphs following the fifth paragraph added by 2021, 29, Sec. 12 effective July 29, 2021.]*

Any amendment that requires a simple majority vote shall not be combined with an amendment that requires a two-thirds majority vote.

If, in a city or town with a council of fewer than 25 members, there is filed with the clerk prior to final action by the council a written protest against a zoning change under this section, stating the reasons duly signed by owners of 50 per cent or more of the area of the land proposed to be included in such change or of the area of the land immediately adjacent extending 300 feet therefrom, no change of any such ordinance shall be adopted except by a two-thirds vote of all members.

No proposed zoning ordinance or by-law which has been unfavorably acted upon by a city council or town meeting shall be considered by the city council or town meeting within two years after the date of such unfavorable action

unless the adoption of such proposed ordinance or by-law is recommended in the final report of the planning board.

When zoning by-laws or amendments thereto are submitted to the attorney general for approval as required by section thirty-two of chapter forty, he shall also be furnished with a statement which may be prepared by the planning board explaining the by-laws or amendments proposed, which statement may be accompanied by explanatory maps or plans.

The effective date of the adoption or amendment of any zoning ordinance or by-law shall be the date on which such adoption or amendment was voted upon by a city council or town meeting; if in towns, publication in a town bulletin or pamphlet and posting is subsequently made or publication in a newspaper pursuant to section thirty-two of chapter forty. If, in a town, said by-law is subsequently disapproved, in whole or in part, by the attorney general, the previous zoning by-law, to the extent that such previous zoning by-law was changed by the disapproved by-law or portion thereof, shall be deemed to have been in effect from the date of such vote. In a municipality which is not required to submit zoning ordinances to the attorney general for approval pursuant to section thirty-two of chapter forty, the effective date of such ordinance or amendment shall be the date passed by the city council and signed by the mayor or, as otherwise provided by ordinance or charter; provided, however, that such ordinance or amendment shall subsequently be forwarded by the city clerk to the office of the attorney general.

A true copy of the zoning ordinance or by-law with any amendments thereto shall be kept on file available for inspection in the office of the clerk of such city or town.

No claim of invalidity of any zoning ordinance or by-law arising out of any possible defect in the procedure of adoption or amendment shall be made in any legal proceedings and no state, regional, county or municipal officer shall refuse, deny or revoke any permit, approval or certificate because of any such

claim of invalidity unless legal action is commenced within the time period specified in sections thirty-two and thirty-two A of chapter forty and notice specifying the court, parties, invalidity claimed, and date of filing is filed together with a copy of the petition with the town or city clerk within seven days after commencement of the action.

RE: Request for Leave to Withdraw – Item 10893

Dear Madam President and Councilors,

As a means to make sure all proper procedures were followed as laid out by the General Laws for Zoning Amendments to the City Ordinances and to allow for a greater amount of time for public dialogue and input on the aforementioned matter, I respectfully request leave to withdraw Item 10893 from the Council Calendar, with the intent that this later be put forward again for consideration following the procedures outlined in the General laws of the Commonwealth.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

RE: Written Testimony: Item #10893: An Ordinance to Amend the Code of the City of Gardner, Chapter 675 thereof, entitled "Zoning," to amend Section 1070 thereof, entitled "Marijuana Establishments" to increase the quota allowed by the Code of the City of Gardner

Dear Madam President, Councilors, Mr. Chairman, and Planning Board Members,

I am writing in support of the aforementioned zoning amendment proposal.

When the retail sale of cannabis products was legalized in the Commonwealth in 2019, several municipalities, including Gardner, took steps to heavily regulate the industry since we didn't really know what would happen once the cannabis industry became legalized.

Since then we have seen that commercial enterprises like these do not cause as much of a strain on our services as we had originally been concerned about and have not been a public safety concern at all for us.

This proposal seeks to loosen the market constraints in the City and simply let the economic market be the market. If the City does not have the capability of handling more up to four (4) retain cannabis stores, then the market will correct itself for that.

An example of this can be seen with the regular tobacco/vape smoke shops that used to exist in the Downtown area. These businesses, unregulated in terms of number of facilities that could open in the City, were not marketed by the City and simply opened and then consolidated from five (5) to one (1) on their own because that was all the market was able to carry.

The purpose of this amendment, while it also provides a financial benefit to the City through statutorily required sales tax and host community agreement fees, is simply to relax some of the regulations placed on this industry and let the City's economy play itself out. This does still regulate the retail cannabis industry to four (4) locations, but it at least looses the restriction of only being able to allow two (2) locations in the City.

Respectfully,

Michael J. Nicholson  
Mayor, City of Gardner

RE: An Ordinance to Amend the Code of the City of Gardner, Chapter 675 thereof, entitled "Zoning," to amend Section 1070 thereof, entitled, "Marijuana Establishments" to increase the quota allowed by the Code of the City of Gardner.

Dear Madam President and Councilors,

As you are aware, in 2018, the retail sale of cannabis products became legalized in the Commonwealth.

When the City adopted the sale of Marijuana into our ordinances in November of 2018, the ordinances limited the number of establishments that could open in the City for the retail sale of cannabis to twenty percent (20%) of "license issues for retail sale of alcohol not consumed on the premises." (Code of the City of Gardner 675-1070(C)(8)(b)).

Whereas the City is currently issued ten (10) liquor licenses that fit this category, this provision of the City Code limited the number of retail cannabis locations to two (2) locations in the City.

One of the main reasons this quota limit was drafted was due to uncertainty as to how this new market would run its course in the City and the Commonwealth as a whole. However, since then, we have seen that these businesses do not provide a detriment to the City, and have seen the financial benefit the City receives from this as well.

The City currently has one retail location open with Sanctuary, with a second location – Bloc Cannabis – permitted at the Timpany Crossroads location.

This attached ordinance amendment proposal would increase the number of locations allowed in the City from two (2) to four (4). It is the belief of the Administration that this would allow more economic activity in the City based on inquiries that we have seen, keep the industry within a workable range that we are seeing in market trends with the cannabis industry around the Commonwealth, and done with the full support of our public safety departments.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

Re: Retail Marijuana Ordinance

Dear Mayor,

After reviewing the proposed ordinance change from two retail dispensary licenses to four, I do not see any issue with this particular change moving forward. Retail marijuana dispensaries have been operating in the state for the past few years and are closely monitored and regulated by the Cannabis Control Commission. Any retail dispensaries are required to have pre-determined surveillance camera coverage (inside and outside) and purpose-built safes for stored retail product. This is in addition to physical security during operating hours.

The Gardner Police Department has responded to calls at the current recreational retail dispensary, but the vast majority of the calls are general service calls (accidents, lockouts, burglar alarms, etc.). The police department rarely deals with anything else there.

We have conducted "compliance checks" at Sanctuary using underage youths to enter and purchase cannabis products. Sanctuary has never failed a compliance check. In fact, no youth has ever made it past the front door. I have spoken to law enforcement in other host dispensary locations and have not heard of any major issues.

If there are any further questions or concerns, please do not hesitate to contact me.

Very truly yours,

Eric P. McAvene  
Chief of Police

RE: Marijuana Retail Establishments

Dear Mr. Mayor,

I believe the text amendment regarding the number of Marijuana Retail Establishments will only increase opportunities in the City for revenue, and jobs. From a Zoning standpoint I have seen no ill effects from the existing Marijuana Facility. I currently have an application for a Building permit for a second facility which would leave us with no additional licenses. This would in effect tie our hands regarding further growth. I am in full support of this proposal.

Do not hesitate to contact me should you need any further assistance.

Current Ordinance

City of Gardner, MA  
Friday, February 3, 2023

Chapter 675. Zoning

Article X. Supplemental Regulations

§ 675-1070. Marijuana establishments.

A. Purpose.

- (1) To provide for the placement of marijuana establishments in appropriate places and under conditions in accordance with the provisions of MGL c. 94G.
- (2) To minimize the adverse impacts of marijuana establishments on adjacent properties, residential neighborhoods, schools and other places where children congregate, local historic districts, and other sensitive land uses potentially incompatible with said establishments.
- (3) To regulate the siting, design, placement, security, safety, monitoring, modification, and discontinuance of marijuana establishments.

B. Applicability.

- (1) No marijuana establishment shall be established except in compliance with the provisions of § 675-410 (Schedule of permitted uses) and this § 675-1070 (Marijuana establishments).
- (2) Nothing in this section shall be construed to supersede federal and state laws governing the sale and distribution of Class 1 Controlled Substances.
- (3) If any provision of this section or the application of any such provision to any person or circumstance shall be held invalid, the remainder of this section, to the extent it can be given effect, or the application of those provisions to persons or circumstances other than those to which it is held invalid, shall not be affected thereby, and to this end the provisions of this section are severable.

C. General requirements and conditions for all marijuana establishments.

- (1) All marijuana establishments shall be contained within a building or structure.
- (2) The hours of operation of marijuana establishments shall be set by the special permit granting authority.
- (3) No marijuana establishment property line shall be located within 500 linear feet of a lot line where the following districts, activity, or uses occur:
  - (a) (Reserved)<sup>[1]</sup>
    - [1] *Editor's Note: Former Subsection C(3)(a), regarding nonconforming residential dwellings, was repealed 9-3-2019 by Ord. No. 1625.*
  - (b) Any church, public or private school or child-care facility; or place where minors frequent (e.g., a library, ball field, park, sports or family recreation facility, religious facility or the like);
  - (c) Any other marijuana establishment;
  - (d) Any drug or alcohol rehabilitation facility; or
  - (e) Any correctional facility, halfway house or similar facility.
- (4) No smoking, burning or consumption of any product containing marijuana or marijuana-related products shall be permitted on the premises of a marijuana establishment.

- (5) No marijuana establishment shall be located inside a building containing residential units, including transient housing such as motels and dormitories, or inside a movable or mobile structure such as a van or truck.
- (6) Marijuana establishments shall provide the Gardner Police and Fire Departments, Building Commissioner, Board of Health, and the special permit granting authority with the names, phone numbers and e-mail addresses of all management staff and key holders to whom one can provide notice if there are operating problems associated with the establishment.
- (7) The City shall have access at any time to inspect the premises of the marijuana establishment to ensure compliance with local and state regulations, excluding client health information protected under the Health Insurance Portability and Accountability Act of 1996.
- (8) Pursuant to MGL c. 94G, § 3(a)(2)(i) to (iii), the maximum number of licensed marijuana establishments in the City shall be consistent with the following provisions:
  - (a) Shall not prohibit one or more types of marijuana establishment;
  - (b) The number of marijuana retail establishments shall not exceed 20% of liquor licenses issued for retail sale of alcohol not consumed on the premises in the City of Gardner, said number to be rounded up to the next whole number;
  - (c) The number of marijuana establishments shall not prevent the conversion of a medical marijuana treatment center licensed or registered no later than July 1, 2017, to a marijuana establishment engaged in the same type of activity.  
[Amended 9-3-2019 by Ord. No. 1625]

D. Special permit requirements.

- (1) No special permit for any marijuana establishment shall be issued without site plan approval first having been obtained from the Planning Board, § 675-1010, Site plan review, of this chapter. In addition to the standards set forth within, the site plan must meet all dimensional, parking, landscaping, and signage requirements within this chapter.
- (2) A marijuana establishment shall only be allowed by special permit from the Gardner Planning Board in accordance with MGL c. 40A, § 9, subject to the following statements, regulations, requirements, conditions and limitations.
- (3) A special permit for a marijuana establishment shall be limited to one or more of the following uses that shall be specified by the special permit granting authority:
  - (a) Marijuana cultivator;
  - (b) Marijuana product manufacturer;
  - (c) Marijuana retailer;
  - (d) Marijuana testing facility;
  - (e) Marijuana transportation or distribution facility; and
  - (f) Any other type of licensed marijuana-related business.
- (4) In addition to the application requirements set forth above, a special permit application for a marijuana establishment shall include the following:
  - (a) The name and address of each owner of the establishment;
  - (b) Copies of all required licenses and permits issued to the applicant by the Commonwealth of Massachusetts Cannabis Control Commission and any of its other agencies for the establishment;
  - (c) Evidence of the applicant's right to use the site of the establishment for the establishment, such as a purchase and sale agreement, deed, owner's authorization, or lease;
  - (d) Proposed security measures for the marijuana establishment, including lighting, fencing, gates and alarms, etc., to ensure the safety of persons and to protect the premises from theft. A letter

from the City of Gardner Police Chief, or designee, acknowledging review and approval of the marijuana establishment security plan is required. To the extent allowed by law, all such documents shall be confidential.

- (5) Mandatory findings. The special permit granting authority shall not issue a special permit for a marijuana establishment unless it finds that:
    - (a) The establishment is designed to minimize any adverse impacts on abutters and other parties in interest, as defined in MGL c. 40A, § 11.
    - (b) The establishment demonstrates that it will meet all the permitting requirements of all applicable agencies within the Commonwealth of Massachusetts and will comply with all applicable state laws and regulations; and
    - (c) The applicant has satisfied all the conditions and requirements set forth herein.
  - (6) A special permit granted under this section shall have a term limited to the duration of the applicant's ownership or leasehold of the premises as a marijuana establishment. A special permit may be transferred only with the approval of the special permit granting authority in the form of an amendment to the special permit with all information required in this § 675-1070.
- E. Abandonment or discontinuance of use.
- (1) A special permit shall lapse if not exercised within one year of issuance.
  - (2) A marijuana establishment shall be required to remove all personal property, including but not limited to all material, plants, equipment, accessories, paraphernalia, and any other property no later than the earliest of:
    - (a) Prior to surrendering its state-issued licenses or permits; or
    - (b) Within six months of ceasing operations.

RE: Submission of Zoning Amendment Proposal- An Ordinance to Amend The Code Of The City Of Gardner, Chapter 675 Thereof, Entitled "Zoning," To Change The Classifications Of Certain Parcels Of Land Along Route 140

Dear Madam President and Colleagues,

At the April 18<sup>th</sup>, 2023 Meeting of the City Council, we voted to grant the Mayor Leave to withdraw Item 10891 due to concerns regarding the process outlined in Chapter 40A, Section 5 of the General Laws.

We believe this proposal to have been in the best interest of the City of Gardner, as a way to build our economic base, provide for our residents, and plan for our future. We cannot stay stagnant as a City and must continue to do everything we can to better Gardner for ourselves and future generations of Gardnerites – which is what we believe this original proposal provided for the City.

Whereas Section 5 of Chapter 40A of the General Laws states that the City Council may initiate Zoning Amendments, we, as City Councilors, working in the best interest of the City and our Constituents, propose this ordinance and request that the City Council refer this Item to the Planning Board and schedule a joint public hearing.

We have attached the relevant section of the General Laws and the original proposal submitted by Mayor Nicholson that was formally withdrawn and removed by the City Council to this correspondence for supporting materials.

Respectfully submitted,

Dana Heath  
Ward 2 Councilor

George Tyros  
Councilor At-Large

Karen Hardern  
Ward 4 Councilor

James Boone  
Councilor At-Large

Paul Tassone  
Ward 3 Councilor

# Ordinance Document

**AN ORDINANCE TO AMEND THE CODE OF THE CITY OF GARDNER, CHAPTER 675  
THEREOF, ENTITLED "ZONING," TO CHANGE THE CLASSIFICATIONS OF CERTAIN  
PARCELS OF LAND ALONG ROUTE 140.**

WHEREAS, the City of Gardner is the owner of two parcels of land comprising approximately 177 acres as herein described on Green Street, also known as Route 140, which are currently vacant land zoned as Rural Residential 2; and

WHEREAS, the City of Gardner has few large parcels of land available for commercial development; and

WHEREAS, pursuant to the purposes of Gardner's Zoning Ordinance as stated in Chapter 675, Section 110, it would promote the general welfare of Gardner's inhabitants and increase the amenities of the City to allow economic development of the subject parcels for commercial uses, which are expected to increase employment opportunities, retail services and the City's tax base; and

WHEREAS, it would also promote the purposes of Gardner's Zoning Ordinance to protect the health and safety of its inhabitants by limiting residential development along the Route 140 corridor to reduce the number of potential single family driveways with direct access to Route 140, as a means of improving traffic safety; and

WHEREAS, a change in the subject parcels' zoning designation to the Commercial 2 zoning district will best meet these public purposes;

NOW, THEREFORE, The Undersigned Petitioners request that the City Council enact the following Ordinance:

**BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GARDNER AS FOLLOWS:**

**PREAMBLE:** That "An Ordinance Establishing the Boundaries of the City with Regulations and Restrictions to be Enforced and to be known as the Zoning Code" (Chapter 675) adopted by the City Council December 9, 1970 and amended several times thereafter be further amended as follows:

**SECTION 1:** By changing the zoning district classification from Rural Residential 2 to Commercial 2 for two (2) parcels of land situated northerly and southerly of Route 140 Street, being parcels M47-22-4 and a portion of M47-24-1 (that portion west of bike trail parcel M42-20-7 as designated by maps submitted herewith) on the City of Gardner Assessor's Map.

Total area of proposed zoning change being approximately 177 acres.

**SECTION 2:** This Ordinance shall become effective upon passage and publication as required by law. Any claims of invalidity by reason of any defect in the procedure of adoption may only be made ninety days after the posting or the second publication.

|--------------------|------------------------------------------------------------------|
| <b>Part I</b>      | ADMINISTRATION OF THE GOVERNMENT                                 |
| <b>Title VII</b>   | CITIES, TOWNS AND DISTRICTS                                      |
| <b>Chapter 40A</b> | ZONING                                                           |
| <b>Section 5</b>   | ADOPTION OR CHANGE OF ZONING ORDINANCES OR BY-LAWS;<br>PROCEDURE |

Section 5. Zoning ordinances or by-laws may be adopted and from time to time changed by amendment, addition or repeal, but only in the manner hereinafter provided. Adoption or change of zoning ordinances or by-laws may be initiated by the submission to the city council or board of selectmen of a proposed zoning ordinance or by-law by a city council, a board of selectmen, a board of appeals, by an individual owning land to be affected by change or adoption, by request of registered voters of a town pursuant to section ten of chapter thirty-nine, by ten registered voters in a city, by a planning board, by a regional planning agency or by other methods provided by municipal charter. The board of selectmen or city council shall within fourteen days of receipt of such zoning ordinance or by-law submit it to the planning board for review.

No zoning ordinance or by-law or amendment thereto shall be adopted until after the planning board in a city or town, and the city council or a committee designated or appointed for the purpose by said council has each held a public hearing thereon, together or separately, at which interested persons shall be given an opportunity to be heard. Said public hearing shall be held within sixty-five days after the proposed zoning ordinance or by-law is submitted to

the planning board by the city council or selectmen or if there is none, within sixty-five days after the proposed zoning ordinance or by-law is submitted to the city council or selectmen. Notice of the time and place of such public hearing, of the subject matter, sufficient for identification, and of the place where texts and maps thereof may be inspected shall be published in a newspaper of general circulation in the city or town once in each of two successive weeks, the first publication to be not less than fourteen days before the day of said hearing, and by posting such notice in a conspicuous place in the city or town hall for a period of not less than fourteen days before the day of said hearing. Notice of said hearing shall also be sent by mail, postage prepaid to the department of housing and community development, the regional planning agency, if any, and to the planning board of each abutting city and town. The department of housing and community development, the regional planning agency, the planning boards of all abutting cities and towns and nonresident property owners who may not have received notice by mail as specified in this section may grant a waiver of notice or submit an affidavit of actual notice to the city or town clerk prior to town meeting or city council action on a proposed zoning ordinance, by-law or change thereto. Zoning ordinances or by-laws may provide that a separate, conspicuous statement shall be included with property tax bills sent to nonresident property owners, stating that notice of such hearings under this chapter shall be sent by mail, postage prepaid, to any such owner who files an annual request for such notice with the city or town clerk no later than January first, and pays a reasonable fee established by such ordinance or by-law. In cases involving boundary, density or use changes within a district, notice shall be sent to any such nonresident property owner who has filed such a request with the city or town clerk and whose property lies in the district where the change is sought. No defect in the form of any notice under this chapter shall invalidate any zoning ordinances or by-laws unless such defect is found to be misleading.

Prior to the adoption of any zoning ordinance or by-law or amendment thereto which seeks to further regulate matters established by section forty of chapter one hundred and thirty-one or regulations authorized thereunder relative to agricultural and aquacultural practices, the city or town clerk shall, no later than seven days prior to the city council's or town meeting's public hearing relative to the adoption of said new or amended zoning ordinances or by-laws, give notice of the said proposed zoning ordinances or by-laws to the farmland advisory board established pursuant to section forty of chapter one hundred and thirty-one.

No vote to adopt any such proposed ordinance or by-law or amendment thereto shall be taken until a report with recommendations by a planning board has been submitted to the town meeting or city council, or twenty-one days after said hearing has elapsed without submission of such report. After such notice, hearing and report, or after twenty-one days shall have elapsed after such hearing without submission of such report, a city council or town meeting may adopt, reject, or amend and adopt any such proposed ordinance or by-law. If a city council fails to vote to adopt any proposed ordinance within ninety days after the city council hearing or if a town meeting fails to vote to adopt any proposed by-law within six months after the planning board hearing, no action shall be taken thereon until after a subsequent public hearing is held with notice and report as provided.

Except as provided herein, no zoning ordinance or by-law or amendment thereto shall be adopted or changed except by a two-thirds vote of all the members of the town council, or of the city council where there is a commission form of government or a single branch, or of each branch where there are 2 branches, or by a two-thirds vote of a town meeting; provided, however, that the following shall be adopted by a vote of a simple majority of

all members of the town council or of the city council where there is a commission form of government or a single branch or of each branch where there are 2 branches or by a vote of a simple majority of town meeting:

(1) an amendment to a zoning ordinance or by-law to allow any of the following as of right: (a) multifamily housing or mixed-use development in an eligible location; (b) accessory dwelling units, whether within the principal dwelling or a detached structure on the same lot; or (c) open-space residential development;

(2) an amendment to a zoning ordinance or by-law to allow by special permit: (a) multi-family housing or mixed-use development in an eligible location; (b) an increase in the permissible density of population or intensity of a particular use in a proposed multi-family or mixed use development pursuant to section 9; (c) accessory dwelling units in a detached structure on the same lot; or (d) a diminution in the amount of parking required for residential or mixed-use development pursuant to section 9;

(3) zoning ordinances or by-laws or amendments thereto that: (a) provide for TDR zoning or natural resource protection zoning in instances where the adoption of such zoning promotes concentration of development in areas that the municipality deems most appropriate for such development, but will not result in a diminution in the maximum number of housing units that could be developed within the municipality; or (b) modify regulations concerning the bulk and height of structures, yard sizes, lot area, setbacks, open space, parking and building coverage requirements to allow for additional housing units beyond what would otherwise be permitted under the existing zoning ordinance or by-law; and

*[ Clause (4) of the fifth paragraph effective until July 29, 2021. For text effective July 29, 2021, see below.]*

(4) the adoption of a smart growth zoning district or starter home zoning district in accordance with section 3 of chapter 40R. Any amendment that requires a simple majority vote shall not be combined with an amendment that requires a two-thirds majority vote. If, in a city or town with a council of fewer than 25 members, there is filed with the clerk prior to final action by the council a written protest against a zoning change under this section, stating the reasons duly signed by owners of 50 per cent or more of the area of the land proposed to be included in such change or of the area of the land immediately adjacent extending 300 feet therefrom, no change of any such ordinance shall be adopted except by a two-thirds vote of all members.

*[ Clause (4) of the fifth paragraph as amended by 2021, 29, Sec. 11 effective July 29, 2021. For text effective until July 29, 2021, see above.]*

(4) the adoption of a smart growth zoning district or starter home zoning district in accordance with section 3 of chapter 40R.

*[ Two paragraphs following the fifth paragraph added by 2021, 29, Sec. 12 effective July 29, 2021.]*

Any amendment that requires a simple majority vote shall not be combined with an amendment that requires a two-thirds majority vote.

If, in a city or town with a council of fewer than 25 members, there is filed with the clerk prior to final action by the council a written protest against a zoning change under this section, stating the reasons duly signed by owners of 50 per cent or more of the area of the land proposed to be included in such change or of the area of the land immediately adjacent extending 300 feet therefrom, no change of any such ordinance shall be adopted except by a two-thirds vote of all members.

No proposed zoning ordinance or by-law which has been unfavorably acted upon by a city council or town meeting shall be considered by the city council or town meeting within two years after the date of such unfavorable action

unless the adoption of such proposed ordinance or by-law is recommended in the final report of the planning board.

When zoning by-laws or amendments thereto are submitted to the attorney general for approval as required by section thirty-two of chapter forty, he shall also be furnished with a statement which may be prepared by the planning board explaining the by-laws or amendments proposed, which statement may be accompanied by explanatory maps or plans.

The effective date of the adoption or amendment of any zoning ordinance or by-law shall be the date on which such adoption or amendment was voted upon by a city council or town meeting; if in towns, publication in a town bulletin or pamphlet and posting is subsequently made or publication in a newspaper pursuant to section thirty-two of chapter forty. If, in a town, said by-law is subsequently disapproved, in whole or in part, by the attorney general, the previous zoning by-law, to the extent that such previous zoning by-law was changed by the disapproved by-law or portion thereof, shall be deemed to have been in effect from the date of such vote. In a municipality which is not required to submit zoning ordinances to the attorney general for approval pursuant to section thirty-two of chapter forty, the effective date of such ordinance or amendment shall be the date passed by the city council and signed by the mayor or, as otherwise provided by ordinance or charter; provided, however, that such ordinance or amendment shall subsequently be forwarded by the city clerk to the office of the attorney general.

A true copy of the zoning ordinance or by-law with any amendments thereto shall be kept on file available for inspection in the office of the clerk of such city or town.

No claim of invalidity of any zoning ordinance or by-law arising out of any possible defect in the procedure of adoption or amendment shall be made in any legal proceedings and no state, regional, county or municipal officer shall refuse, deny or revoke any permit, approval or certificate because of any such

claim of invalidity unless legal action is commenced within the time period specified in sections thirty-two and thirty-two A of chapter forty and notice specifying the court, parties, invalidity claimed, and date of filing is filed together with a copy of the petition with the town or city clerk within seven days after commencement of the action.

# Legal Opinion Providing Spot Zoning Analysis

City of Gardner - *Executive Department*

Mayor Michael J. Nicholson

April 26, 2023

City Councilors Heath, Tyros, Hardern, Boone, and Tassone  
Gardner City Hall, Rm 121  
95 Pleasant St  
Gardner, MA 01440

RE: Spot Zoning Legal Opinion

Dear Councilors,

You have requested the legal opinion that the Administration requested regarding a spot zoning analysis of the former Zoning Amendment Proposal that was listed as Item 10891 that was voted to be withdrawn by the City Council at their meeting of April 18, 2023.

Due to the nature of this request, the Administration requested an opinion by an attorney recognized as a zoning expert.

The City Solicitor's Office is certainly able to answer any further questions. This was done just as a matter of due diligence and double checking the City's work.

Please note this opinion was requested before the original proposal was withdrawn, but received after that vote took place- which explains the wording of "pending before the City Council" referenced in the opinion.

The opinion is attached to this letter.

Respectfully Submitted,

A handwritten signature in blue ink, appearing to read "Michael J. Nicholson", is written over a horizontal line.

Michael J. Nicholson  
Mayor, City of Gardner

Re: Petition #10891, Zoning Map Amendment  
Spot Zoning Opinion

Dear Mayor Nicholson:

I am writing in response to your request for an opinion on whether the Zoning Map Amendment petition under consideration by the City Council would be subject to a claim of invalidation due to application of the “spot zoning” doctrine, so-called.

I have reviewed the original and amended petitions filed, and have viewed the recorded joint City Council and Planning Board meeting and the Public Welfare Committee meeting. I was unable to find a recording of the Traffic Commission meeting. The original petition raised no concern of spot zoning. The amended petition, which asks for a change of zoning district from RR2 to COM2 on just two City-owned parcels constituting 177 acres, does raise a question of spot zoning given that there are only two parcels involved, both singled out and across the street from each other. After examination, however, it is my opinion that in this instance the amendment does not constitute spot zoning due to the ownership<sup>1</sup> of the two parcels by the City of Gardner and the fact that their rezoning to commercial use is in furtherance of the public welfare.

---

<sup>1</sup> One case gives caution that maximization of the municipality’s sale price for the parcels cannot be the sole reason for the zoning action. “The question presented is whether, on the facts of this case, there is a municipal exception to that principle — a different rule when the parcel owner is the municipality itself rather than a private party. The town seeks to raise money from the sale for its general fund. Is that goal enough, untethered from any land planning purpose? I find that it is not. Zoning must be based on permissible land use planning objectives, *[citations omitted]*, and “[t]here must be a showing of some substantial relation between the zoning code amendment and the general objectives of the enabling act” *id.* at 309. Simply raising money for the town’s general fund is not within the objectives of that act, and is thus outside

In general, “illegal spot zoning occurs only where there is “a singling out of one lot for different treatment from that accorded to similar surrounding land indistinguishable from it in character, all for the economic benefit of [or detriment to] the owner of that lot,” Lanner v. Bd. of Appeal of Tewksbury, 348 Mass. at 229. However, even if one lot is singled out, it is perfectly acceptable for a zoning amendment to benefit or harm a landowner, **provided that the zoning also advances a valid public purpose.** See Bd. of Appeals of Hanover v. Hous. Appeals Comm., 363 Mass. 339, 361-62 (1973). Thus, whether or not a lot with the same or substantially similar characteristics to surrounding lots receives different zoning treatment, so long as there is a valid public purpose or benefit related to the differing treatment. “A court will invalidate a zoning by-law only if it is shown to be arbitrary and unreasonable, or substantially unrelated to the public health, safety, morals or general welfare.” Shortsleeve v. Town of Edgartown, 4 LCR 14, 16 (Mass. Land Ct. 1996).

When Tewksbury rezoned five acres of privately owned farmland to allow for the development of a supermarket, a claim of spot zoning failed because the opening of a supermarket was in furtherance of the public welfare, and thus in accord with the purposes of the zoning enabling act. “[T]he amending power may not be invoked solely to confer an economic benefit upon the owner of a comparatively small area within an essentially residential district. *[citations omitted]*. The test is whether there has been shown any substantial relation between the amendment and the furtherance of any of the general objects of the enabling act. *[citations omitted]*. The promotion of the public welfare, as that term is fairly broadly construed, is chief among the purposes of the enabling statute.” Lanner v. Board of Appeal, 348 Mass. 220, 228 (1964).

A similar spot zoning claim failed when Brimfield rezoned a parcel occupied by the town’s largest employer, and only manufacturing enterprise, as industrial so that it could expand its operations, resulting in further hiring and preventing the manufacturer from leaving the town, as this zoning amendment promoted the public welfare. “It is clear that the petitioners have not sustained the heavy burden of proof placed upon one attempting to invalidate a zoning by-law as spot zoning. As was emphasized in Crall v. Leominster, 362 Mass. 95, 103 (1972): “To sustain that burden they must prove facts which compel a conclusion that the question whether the amendment falls within the enabling statute is not even fairly debatable.” Raymond v. Building Inspector of Brimfield, 3 Mass. App. Ct. 38, 43 (1975).

North Attleborough rezoned a 37-acre residential parcel to commercial upon petition of an affected landowner, who intended to construct a shopping mall. Although the private landowner benefitted, the court found that this did not constitute spot zoning as the reclassification promoted

---

the “public purposes” that zoning contemplates.” McLeod v. Town of Swampscott, 2014 Mass. LCR LEXIS 28, at \*26 (Land Ct. Mar. 4, 2014).

the Town's economic interests. "The trial judge found that the town previously had rezoned sixty acres of commercial land to residential use and that the present amendment compensates for the loss of those sixty commercial acres. Further, it serves to increase the town's tax base and will likely increase the availability of retail services and employment opportunities. Citing *Martin v. Rockland*, 1 Mass. App. Ct. 167, 169, 294 N.E.2d 469 (1973), and *Sullivan v. Acton*, 38 Mass. App. Ct. 113, 117, 645 N.E.2d 700 (1995), for the respective propositions that "commercial development is a proper public goal that is appropriately achieved through zoning" and that it is proper to "concentrate future development in a particular area," the trial judge concluded: "[The] locus, a parcel of vacant land adjacent to a commercial district on a main thoroughfare connecting two major metropolitan areas, can reasonably be viewed as [\*\*\*8] an 'obvious area' for the expansion of an existing commercial zone." We agree." *Rando v. Town of N. Attleborough*, 44 Mass. App. Ct. 603, 606 (1998).

Spot zoning claims were also rejected in adoption of a flood plain control district in Amherst ("A municipality validly may enact and amend a flood plain zoning by-law so long as there is a 'substantial relation between the amendment and the furtherance of the general objects of the enabling act.'" *Andrews v. Town of Amherst*, 68 Mass. App. Ct. 365, 375 (2007)), and in a Boston historic preservation district ("[T]he record shows, not an indiscriminate assignment of different zoning classifications, see *National Amusements, Inc. v. Boston*, 29 Mass. App. Ct. 305, 312, 560 N.E.2d 138 (1990), but calculated efforts by public authorities, with much support by the citizenry, to preserve within reason the historic residential character of the Triangle. This is a goal surely within the purview of the enabling act." *Fabiano v. City of Boston*, 49 Mass. App. Ct. 281, 286 (2000)).

Where the parcel is owned by the municipality, the Court usually grants deference to choices made as part of the legislative process. This has included an eight acre parcel rezoned to install an incinerator, *Gilmore v. Quincy*, 346 Mass. 22 (1963) and rezoning to permit construction of affordable housing by the local housing authority, *Lamarre v. Commissioner of Pub. Works*, 324 Mass. 542 (1949).

So long as there is a reasonable relation between the zoning action and the public interest, the Court will not delve into the actual motivations of voters or legislators. "If the reasonableness of a zoning bylaw is even "fairly debatable, the judgment of the local legislative body responsible for the enactment must be sustained." *Crall v. Leominster*, 362 Mass. 95, 101, 284 N.E.2d 610 (1972). Such an analysis is not affected by consideration of the various possible motives that may have inspired legislative action. See *Merriam v. Secretary of the Commonwealth*, 375 Mass. 246, 253, 376 N.E.2d 838 (1978), quoting *Morgan v. Banas*, 331 Mass. 694, 698, 122 N.E.2d 369 (1954) ("courts cannot, for the purpose of determining the validity of legislation, receive evidence of the inducements and motives of the legislators in enacting it"); *Simon v. Needham*, 311 Mass. 560, 566, 42 N.E.2d 516 (1942) ("action of the voters is not to be invalidated simply because someone presented a reason that was unsound or insufficient in law to support the conclusion for which it was urged"); *Boston v. Talbot*, 206 Mass. 82, 91, 91 N.E. 1014 (1910), quoting *Soon Hing v. Crowley*, 113 U.S. 703, 710-711, 28 L. Ed. 1145, 5 S. Ct. 730 (1885) ("courts cannot inquire into the motives of the legislators in passing [enactments] . . . The

diverse character of such motives, and the impossibility of penetrating into the hearts of men and ascertaining the truth, precludes all such inquiries as impracticable and futile"). Durand v. IDC Bellingham, L.L.C., 440 Mass. 45, 51-52 (2003).

In the present case, Gardner owns two parcels which border on Route 140, a main thoroughfare running through the City and connecting it to Winchendon and Westminster. Gardner would like these two parcels developed commercially for the promotion of economic growth and an increase of employment in the City. These two parcels represent a very limited number of high acreage parcels available in the City for potential commercial development. In addition, a traffic study noted that the current residential zoning of the parcels in this area of Route 140 could lead to multiple driveway entrances for single family residences, which would decrease traffic safety on the roadway pursuant to a regional study. Though singled out from the surrounding parcels, there is a colorable argument that these parcels differ due to the lack of watershed property on either parcel, as opposed to their neighbors, and are not held for public use under Chapter 93. These parcels also do not have any history of residential use.

The purpose of Gardner's zoning ordinance is "to promote the general welfare of the City of Gardner, to protect the health and safety, convenience and general welfare of its inhabitants, to encourage the most appropriate use of land throughout the City, to preserve the cultural, historical and agricultural heritage of the community, to increase the amenities of the City, and to reduce the hazard from fire by regulating the location and use of buildings and the area of open space around them..." §675-110. Zoning amendments designed to increase economic development and employment unquestionably fall within the "general welfare" purposes of the zoning ordinance.

For these reasons, it is my opinion that if the proposed zoning map amendment were challenged, that the amendment would not constitute impermissible spot zoning.

Sincerely,

**Christine M. Tree, Esq.**

Correspondence from  
Mayor Nicholson  
Withdrawn by City  
Council on April 18,  
2023

**10891 – An Ordinance to Amend the Code of the City of Gardner, Chapter 675 Thereof, entitled “Zoning,” to Change the Classification of Certain Parcels of Land Along Route 140.**

On a motion made by Councillor Aleksander Dernalowicz, seconded by Councillor George Tyros, it was voted on call of the roll, nine (9) yeas, President Elizabeth Kazinskas and Councillors James Boone, Craig Cormier, Ronald Cormier, Aleksander Dernalowicz, Karen Hardern, Judy Mack, George Tyros, and James Walsh to APPROVE the Mayor’s request to *leave to withdraw*.

**AN ORDINANCE TO AMEND THE CODE OF THE CITY OF GARDNER, CHAPTER 675 THEREOF, ENTITLED “ZONING,” TO change the Classifications OF certain parcels of land along ROUTE 140.**

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GARDNER AS FOLLOWS:

**PREAMBLE:** That “An Ordinance Establishing the Boundaries of the City with Regulations and Restrictions to be Enforced and to be known as the Zoning Code” (Chapter 675) adopted by the City Council December 9, 1970 and amended several times thereafter be further amended as follows:

**SECTION 1:** By changing the classification from Rural Residential 2 to Commercial 2 for two (2) parcels of land situated northerly and southerly of Route 140 Street, being parcels M47-22-4 and M47-24-1 (that portion west of bike trail parcel M42-20-7) on the City of Gardner Assessor’s Map.

Total area of proposed zoning change being approximately 177 acres.

**SECTION 2:** This Ordinance shall become effective upon passage and publication as required by law. Any claims of invalidity by reason of any defect in the procedure of adoption may only be made ninety days after the posting or the second publication.

RE: Request for Leave to Withdraw – Item 10891

Dear Madam President and Councilors,

As a means to make sure all proper procedures were followed as laid out by the General Laws for Zoning Amendments to the City Ordinances and to allow for a greater amount of time for public dialogue and input on the aforementioned matter, I respectfully request leave to withdraw Item 10891 from the Council Calendar, with the intent that this later be put forward again for consideration following the procedures outlined in the General laws of the Commonwealth.

Respectfully Submitted,

A handwritten signature in blue ink, appearing to read "Michael J. Nicholson".

Michael J. Nicholson

RE: **Petition 10891** – An Ordinance to Amend the Code of the City of Gardner, Chapter 675 Thereof, entitled “Zoning,” to Change the Classification of Certain Parcels of Land Along Route 140 from RR2 to Comm 2.

Dear President Kazinskas:

At the Planning Board meeting held on Tuesday, April 11, 2023, the Board voted by a 3-2 majority to recommend **not** approving the proposed zoning amendment noted above. The importance of maintaining the historic and current recreational uses of the City’s open space identified in the Open Space and Recreation Plan, especially those in close proximity to our watershed land remains the reasoning that the majority of the Board does not support this proposed amendment.

In addition, while understanding the premise behind the petitioner’s desire for additional developable commercial property for economic growth within the City, Board members noted other undeveloped commercial properties in the City and the number of vacancies in the current commercial/retail inventory that should be a higher priority. Lastly, the majority of the Board feel strongly that this location, given its current and historical uses, is not a practical location for commercial growth.

Please contact Trevor Beauregard if you have any questions or need additional information.

Sincerely,

Mark M. Schafron, Planning Board Chairman

RE: Written Testimony: Item #10891: An Ordinance to Amend the Code of the City of Gardner, Chapter 675 Thereof, entitled "Zoning," to Change the Classification of Certain Parcels of Land Along Route 140.

Dear Madam President, Councilors, Mr. Chairman, and Planning Board Members,

I am writing in support of the proposal listed as Item #10891: An Ordinance to Amend the Code of the City of Gardner, Chapter 675 Thereof, entitled "Zoning," to Change the Classification of Certain Parcels of Land Along Route 140.

Over the last three (3) years, Gardner has seen unprecedented economic growth, and we as a City should be doing everything we can to tap into this new attention that the City has been receiving to build our economic base, relieve some of the burden we place on our residential tax payers, provide for increased job creation, and create measures that improve the overall public safety of highly trafficked areas.

This proposal, submitted by my Administration, takes all of those factors into effect in order to act in the best interest of the City.

Gardner is a very "land poor" community. While we have seen growth, we struggle to attract larger companies and corporations to the City, because we simply do not have the land to put them. It is the goal of the Administration, in the event that the aforementioned zoning ordinance is approved, to place the land out for a competitive request for proposal ("RFP") process to try and attract a new commercial base for the City.

This area was chosen due to the high number of traffic incidents causing a large public safety concern. Issues of speed and road design in the area simply do not make the area conducive to increased residential housing. With the current zoning as Rural Residential 3, the potential for new houses in the area would not only place a large burden on City services but would also severely increase public safety concerns by adding additional traffic to the area in a way that is not as easily controlled and regulated by the City as a commercial location can be through site plan approval.

It has been no secret that over the last three (3) years, my administration has made a concerted effort to get properties back on the tax rolls. This proposal helps mitigate severe public safety concerns regarding traffic in the area, while also upholding our fiduciary responsibility we have to our residents by getting these underutilized properties back on the tax rolls to help boost our economic base.

### SECTION BREAKDOWN:

### PART A: FEEDBACK FROM PLANNING BOARD MEETING

At the Planning Board Meetings of March 22, 2023 and March 29, 2023, the question was raised about the existence of Watershed Land within the proposal.

Put simply, these parcels were originally included, because the §632-3 of the Code of the City of Gardner already provides protection to watershed land, by prohibiting the City from selling land designated as Watershed. (See Attachment A)

However, I understand this concern and would absolutely be amenable to the proposal being reduced to only parcels M47-22-4 and M47-24-1, as these two parcels are completely outside of the watershed land in the area. (See Attachment B) (See Attachment C)

This would require that the following parcels be removed from the proposed ordinance amendment: M42-8-8, M42-8-5, M42-20-7, R42-21-1, R37-1-2, M42-14-6, M42-25-1, M37-20-10, M42-25-3, and R37-16-27. (See Attachment D).

This reduces the total number of acres included by 285.5, from 462.5 acres to 177.

### PART B: PUBLIC SAFETY CONCERNS

At their meeting of February 2, 2023, the Traffic Commission voted to recommend that the Administration look into ways to reduce or eliminate future residential house development along the section of Route 140 between Green Street and the border with the Town of Winchendon.

This idea was originally proposed in 2010, when the Montachusett Regional Planning Commission (“MRPC”) performed a study for the City of Gardner and the Towns of Ashburnham and Winchendon regarding the future growth at the location. While this study primarily focused on the section of Route 140 between Green Street and Pearl Street, the Commission and the Administration as a whole found many similarities between this section of 140 and the section proposed in the ordinance amendment.

***MRPC 140 Study:***

This study found that as things currently stand – as no changes have been made since the study was published- there is potential for 792 new single-family homes to be constructed in this area with the current zoning being designated as Rural Residential 2. (See Attachment E) This study also stated that at that rate of growth in this area there would be a strain on the existing water infrastructure that exists in the area. (See Attachment E)

The study then broke this down further, stating that with the Rural Residential 2 Zoning Designation requiring a minimum of 150 feet of frontage and 60,000 square feet minimum lot size, 792 homes could be constructed in that area, leading to 1,862 new residents and 319 new students based on data from the 2000 Census. Utilizing data from the water and sewer departments, they estimate that this amount of residential development would require the use of 368,494 gallons of water per day. Whereas there are currently no water or sewer utilities in this area (See Attachments F and G) these units would likely have to be on well and septic systems, which would not be sustainable to the area environmentally, nor would the current staffing in the City’s Health Department be adequate for the required inspections of such systems.

Furthermore, should this build out occur, there would be a substantial amount of increased traffic in the area which the area would not be able to support with the current safety lay out and infrastructure.

***Relation between MRPC 140 Study and the Area of Route 140 from Green St to Winchendon:***

Like the area of Route 140 that was studied in the MRPC Build Out Analysis Report, this area of 140 has large public safety and city service strain concerns as well.

This section of Route 140 is also zoned as Rural Residential 2. As such, the requirements there are a minimum of 150 feet of frontage and a minimum lot size of 60,000 square feet. With a total area of 177 acres of land proposed in this amendment, which is the equivalent of 7,710,120 square feet or 129 building lots.

While some areas of the location may be wet or unbuildable, unbuildable and wetland portions of a lot can still be considered when obtaining the minimum lot size and only restrict where the structures on that property can go.

According to the 2020 Census, the average number of people per household in the Commonwealth is 2.5 to 4. Utilizing this data to extrapolate what this would mean for the City, this could bring in between 323 and 516 new residents. Utilizing our 2020 Census data that our

school aged population currently makes up 17.3% of our total population, this could mean an additional 56 to 90 students enrolled in our schools.

Additionally, Article VII of Chapter 675 of the City Code does not allow for properties in the City to have shared driveways. (See Attachment H) As we have seen with developments in similar areas in the City, build out would likely result in new cul-du-sacs being constructed, adding new roads. At a required 150 feet frontage requirement under the Rural Residential 2 Zoning, and area enough for 129 lots, this would likely require the creation of 19,350 feet of road, or an additional 4 miles. The City currently pays approximately \$1.2 million per mile in pavement to maintain roads and \$100 per round of snow and ice treatment per mile, the number of rounds for which is dependent on the type of storm that the City is experiencing.

Furthermore, like the area reviewed in the MRPC Buildout Analysis Study of Route 140, this area also does not have public utilities. The Department of Public Works currently estimates that it costs between \$300 and \$500 to install one foot of utility pipe in the ground. With the distance between where each utility ends to this location, it would require an approximate investment of \$5 million to \$7 million per utility to get the infrastructure out to this location, let alone additional infrastructure that would have to run to the potential homes that could be constructed under the current zoning.

If the change to Commercial 2 Zoning were to occur, the developer would bear the full cost of all of this, while still having only one or two meters in the area and a significantly lesser drain on the amount of water used each day rather than a few hundred new residents living there full time.

***Traffic Safety Concerns Route 140 from Green Street to Winchendon:***

The concerns raised by the Traffic Commission recently came from the increased number of very serious accidents that have occurred in the area. While the Gardner Police Department and the Department of Public Works are in discussion regarding safety improvements with the Massachusetts Department of Transportation ("MassDOT"), adding additional driveways for residences in the area would only exacerbate the problem.

According to data from the Gardner Fire Department, over the last ten (10) years, there have been 191 motor vehicle accidents in the Route 140 corridor, of which, 125 resulted in injuries to the drivers and passengers involved. (See Attachment I)

Route 140 is simply not constructed as a location for residential development.

Adding additional residential units to the area, and thus increasing traffic out of driveways and common streets onto a four-lane divided highway is just not in the best interest of public safety. Our public safety departments spend enough time dealing with accidents on this road already without adding additional permanent traffic to the location.

While commercial development will also likely increase traffic, this can be much more regulated by the City to add new safety improvements to their traffic plans through the site plan approval for commercial development required by Chapter 675 of the City Code. In the past this process

has required things such as turning lanes, traffic lights, lighting fixtures, parking lot layout, ingress and egress locations, and more- all of which can be done with commercial development and not with residential development.

### **PART C: HOUSING PRODUCTION CONCERNS**

At previous meetings of the City Council, concerns were raised regarding this proposal restricting residential development.

While, it is true that this proposal would remove the ability for new single family homes to be constructed in the area, it is also true that Gardner needs more housing units. The City also needs to develop in a smart way that meets the City's need for growth while also taking public safety concerns into account and providing for enough economic opportunity for the residents who live here and are moving here.

In Gardner there are currently 520 housing units in construction or under renovation after being vacant for more than eighteen (18) months. (See Attachment J) This is also a very conservative number as some of these projects are still in the early proposal stage due to recent ongoing RFP processes. Once those are completed, this number will increase between 65 units at a minimum to upwards of 87 units.

None of the units numbered above include the temporary housing that the Commonwealth is looking at utilizing in Gardner for a six (6) month period to house migrant refugees from the Bolivarian Republic of Venezuela and Ukraine, as this is being done through private agreements with the Commonwealth and only for a temporary basis of under a year.

We are doing everything we can in the City to promote housing growth and production and play our part in the current housing crisis that the Commonwealth is seeing.

However, the location where this zoning amendment is proposed is simply not the smart growth location for this to take place, due to the safety concerns listed above.

The Administration has also begun talks with the Healey – Driscoll Administration regarding state owned properties being utilized for later housing production, however these discussions are still very early on in the process.

### **PART D: LEASE/SALE METHOD FOR PROPERTY**

It is the goal of the Administration to place the property listed in this proposal out for a competitive sale to help grow the City's economic base.

As has been stated several times before, the process for the City to sell or lease any land owned it owns is severely regulated by Chapter 30B of the General Laws and monitored by the Office of the Inspector General.

The process would be as follows:

1. The Administration would have to obtain a recent survey of the location to determine its accurate meets and bounds and then get a current appraisal on the property.
  - a. The Administration has begun the process of obtaining a survey for the City owned locations so we can have those for our record regardless of what the outcome of this vote is.
  - b. The Administration has not begun the process of obtaining an appraisal of the property.
2. The Administration would then send a proposal to the City Council requesting that the City Council vote to declare the land surplus for disposition for a minimum price amount.
  - a. Per the requirements of the General Laws, the minimum asking price set by vote of the City Council must be at the appraised value unless the Administration can provide documented reasons, approved by the Office of the Inspector General, why it is in the best public interest for the City to sell or lease the property for under what it is appraised at.
  - b. It is the goal of the Administration to list the property for its appraised value.
3. If approved for disposition by the City Council, the Administration would then issue a competitive Request for Proposal solicitation, requesting parties to submit their bids for sale as well as a description of what their intended use of the property would be.
  - a. The General Laws require that this solicitation be posted in the Central Register and twice in a newspaper of general circulation.
  - b. The Administration would also utilize the services of our on-call real estate broker to help market the property.
  - c. The General Laws require that this solicitation be public for a minimum of thirty (30) days.
4. After the deadline to receive the proposals has passed, there is a public listing of everyone who has submitted proposals in response to the solicitation. The documentation that is submitted is not yet opened until after the review is completed, but a public listing of all submitters is then made available for public review.
  - a. Note that Chapter 30B of the General Laws require that the proposed use of the location (known as the Technical Proposal) and the monetary offer that is submitted (known as the Price Proposal) must be in separately sealed envelopes and the price proposals cannot be opened until after the technical proposals are all evaluated.
5. A committee of three (3) to five (5) individuals is then selected who will conduct the preliminary review of the proposals that have been submitted.
  - a. These individuals then review the technical proposals that have been submitted and score the responses based on a rubric to determine which proposal has the highest and best use of the land and is in the best interest of the City.
  - b. The committee members then submit all of their review materials to the Mayor's Office for final review.

6. After the initial review is done, my Office will conduct a final review of the materials submitted and the documentation of the initial review.
7. After this final review of the technical proposals is completed, the price proposals are opened by my Office and the City Purchasing Director.
  - a. The proposals are then weighed fully based on their score in the technical review process and the offers submitted along with them.
8. An award is then made by the Administration to the proposal that received the highest technical score alongside the highest price proposal.
  - a. At this point, all documentation associated with the process becomes subject to public records review.
9. If the award is a lease, it would then require City Council approval on the lease agreement. If the award is a sale, it would then go to the City's Law Department to conduct a closing.

As a result of all of the reasons listed above, it would be completely incorrect and inaccurate to say that this proposal relates to a specific project and organization as that cannot legally be done. This is a highly regulated process that is spelled out step by step by law.

**PART E: RECENT SALE OF CITY PROPERTIES AND ECONOMIC BENEFIT**

Over the last three (3) years, the City has sold more properties that are either unutilized by the City or have been taken through the tax title process in this period of time than it has since 1983.

Table E-1 shows the increased amount of tax collection the City is now receiving without any work being done on those properties yet.

**TABLE E-1: City Land Sales since 2020**

| <u>Location</u>                     | <u>Assessment</u> | <u>Annual Tax Collection</u> |
|-------------------------------------|-------------------|------------------------------|
| 53 School St                        | \$ 223,700.00     | \$ 3,608.28                  |
| 73 Stuart St                        | \$ 72,400.00      | \$ 1,167.81                  |
| 177 West St                         | \$ 49,700.00      | \$ 801.66                    |
| 14 Leamy St                         | \$ 58,400.00      | \$ 941.99                    |
| 73 East Broadway                    | \$ 1,895,700.00   | \$ 30,577.64                 |
| Nichols St                          | \$ 92,100.00      | \$ 1,485.57                  |
| Catherine St                        | \$ 62,000.00      | \$ 1,000.06                  |
| 20 Rock St                          | \$ 56,600.00      | \$ 912.96                    |
| Chelsea St                          | \$ 57,300.00      | \$ 924.25                    |
| <b>TOTAL INCREASED TAX REVENUE:</b> | <b>\$</b>         | <b>\$ 41,420.23</b>          |

Both parcels in this proposed Zoning Amendment are currently owned by the City. At a current tax rate of \$16.13 per thousand dollars of valuation, the following would be added to the City's tax base without anything happening on the site:

**TABLE E-2: Proposed Land Tax Assessments**

| <b>Parcel</b>                                | <b>Assessment</b> | <b>Annual Tax Collection</b> |
|----------------------------------------------|-------------------|------------------------------|
| M47-22-4                                     | \$ 424,000.00     | \$ 6,839.12                  |
| M47-24-1                                     | \$ 334,100.00     | \$ 5,389.03                  |
| <b>TOTAL POTENTIAL TAX REVENUE INCREASE:</b> |                   | <b>\$ 12,228.15</b>          |

**PART F: CURRENT ECONOMIC INTEREST IN GARDNER**

Gardner has seen unprecedented economic growth and development over the last three (3) years. In 2022 alone, 33 businesses opened their doors in Gardner and \$420 million of real estate sales was undertaken.

Since January 1, 2023, six (6) businesses have opened their doors and a substantial amount of additional development, particularly in the Downtown, is going to be taking place this summer with large commercial buildings that were recently constructed.

While the main impetus for this zoning change was due to significant traffic safety concerns in the area, Commercial 2 designation was selected as a proposed zoning designation, because of the interest the City has seen from larger corporations that require a minimum lot size that we no longer furnish unless we start to get creative in our development processes.

Since I have been in office, there have been twelve (12) different developers who have asked for land of a minimum of 100 acres – including hotels, restaurant plazas, shopping centers, youth entertainment facilities, sports betting facilities, and others, who the City has had to turn away because we don't have the land. This means turning away economic opportunities, an increased tax base, and job creation from Gardner.

The Administration is looking to capitalize on this new attention Gardner is receiving and find ways to meet all of these goals for the City in a way that allows the City to also mitigate concerns that we have in this location, creating a situation that is truly and fully in the best interest of the City, our departments, and our residents.

**PART G: WATERSHED CONCERNS**

Working with the City Engineer's Office, whose purview it is to determine the locations of watershed in the City, we have determined that Parcels M47-22-4 and M47-24-1 are not located within the watershed.

***Definition of Watershed:***

Chapter 632 of the City Code defines watershed land as:

*Those areas of land that lie adjacent to the City water supply sources, including but not limited to Crystal Lake, Perley Brook Reservoir and Marm John's Pond, as*

*located and bounded as shown on map of the City of Gardner watershed as updated and on file in the office of the City Engineer. Said map and explanatory matter thereon are hereby made part of this chapter. (See Attachment A)*

The City Engineer has interpreted this to follow the same definitions provided in the Code of Massachusetts Regulations under 310 CMR 22.00 as Zones A, B, and C.

Zone A is defined as

- A. land area between the surface water source and the upper boundary of the bank;*
- B. the land area within a 400 foot lateral distance from the upper boundary of the bank of a Class A surface water source, as defined in 314 CMR 4.05(3)(a); and*
- C. the land area within a 200 foot lateral distance from the upper boundary of the bank of a tributary or associated surface water body.*

Zone B is defined as:

*land area within one-half mile of the upper boundary of the bank of a Class A surface water source, as defined in 314 CMR 4.05(3)(a), or edge of watershed, whichever is less. Zone B always includes the land area within a 400 ft lateral distance from the upper boundary of the bank of a Class A surface water source.*

Zone C is defined as:

*land area not designated as Zone A or B within the watershed of a Class A surface water source, as defined in 314 CMR 4.05(3)(a).*

In Attachment B, the City Engineer has provided a Map of the area showing these three zones to include the full extent of the City's watershed as they relate to this proposal. (See Attachment K)

As can be seen from this Map, M47-22-4 and M47-24-1 fall completely outside the City's watershed area, as defined by the City Code and the Code of Massachusetts Regulations.

***City Engineer Map Designations:***

Section 632-2 of the City Code ties the definition of watershed lands to the maps on file in the Office of the City Engineer. In conducting research into these maps, it is the determination of the Administration that the aforementioned parcels are not considered watershed land.

The City Engineer was able to find a map from 1945 that shows all watershed areas located within the City. This map shows that the area of parcels M47-22-4 and M47-24-1 not to be included in any watershed locations, even before Route 140 was constructed. (See Attachment L)

This is further seen on the City Engineers Map from 1954 that also shows all watershed lands within the City as well as City owned land abutting watershed lands. This map specifically states

that parcels M47-22-4 and M47-24-1 are “Not Watershed Lands” directly on the map itself. (See Attachment M)

This was further articulated in the 1958 map that shows this specific area of the City. Directly written on this map is the language “Not Watershed” on both parcels M47-22-4 and M47-24-1. (See Attachment N).

As such, all watershed maps held by the Office of The City Engineer, match the definitions listed in Chapter 632 of the City’s Zoning Code and 310CMR 22.00, showing that parcels M47-22-4 and M47-24-1 are NOT considered watershed lands.

#### *Protection of Land that IS designated as Watershed Land*

While Parcels M47-22-4 and M47-24-1 are not included in the City’s watershed, other parcels in the original proposal are.

Section 3 of Chapter 632 of the City Code does provide further protection of these parcels by placing a legal prohibition on the City being able to sell watershed land. (See Attachment A)

#### *Zoning - Surface Water Protection Overlay District*

In 2011, the City created a Surface Water Protection Zoning Overlay District, now codified in Section 550 of Chapter 675 of the City Code. This Overlay District regulates and restricts what can and cannot be done in areas designated by the overlay. However, a Zoning Ordinance does not create watershed land, as both the City Code and the Code of Massachusetts Regulations define watershed lands through a scientific definition based on the topography of an area.

The definition of the Surface Water Protection Overlay District does, for the most part, mimic the definitions of watershed land, except for the fact that it changes Zone C, to Zone C+. However, this still does not change the fact that the watershed ends at Zone C, even if zoning regulations control what occurs in the area abutting Zone C even further. (See Attachment O)

Furthermore, the Surface Water Protection Overlay District does allow for uses to take place within the overlay district, several of which are allowed withing Commercial 2 zoned areas, through special permit by the Planning Board. (See Attachment O - §675-550(F)(2))

As such, even though Parcel M47-24-1 is located fully within this overlay district and a small portion of Parcel M47-22-4 is located in the overlay, it is the determination of the Administration that this does not make these parcels watershed lands as they still do not meet the definitions for watershed land by the City, Commonwealth, and Federal government. Rather, they are simply further regulated on what can and cannot be done on the areas of these parcels that are included in the Surface Water Protection Overlay District.

This has been confirmed by the City Engineer and the City Building Commissioner acting in his capacity as the City Zoning Enforcement Officer.

Furthermore, if this Zoning Amendment were to pass, it would not remove the provisions of this overlay from these parcels or this area, as the overlay exists independently of the underlying zoning of the area.

**PART H: OPEN SPACE AND RECREATION:**

Page 32 of the 2015 Open Space and Recreation Plan states:

*Properties can experience various degrees of protection and by several methods:*

- *Private lands can be protected in perpetuity or for a specified time through deed restrictions or conservation easements.*
- *Lands under special taxation programs (Chapter 61, 61A, or 61B) are actively managed by their owners for forestry, agricultural, horticultural, or recreational use. These lands have limited protection.*
- *Lands acquired for watershed and aquifer protection are usually permanently protected open space.*
- *Public recreation and conservation lands may be permanently protected open space, provided they have been dedicated to such use by deed.*
- *Municipal properties may be protected via a City Council vote to acquire them as protected properties.*
- *Private, public, and non-profit conservation and recreation lands are protected under Article 97 of the Articles of Amendment to the State Constitution. (See Attachment P)*

Working with the City Engineer's Office, the Administration has determined that these parcels do not relate to parcels listed in this zoning amendment proposal – particularly parcels M47-22-4 and M47-24-1, as listed above.

These lands are both publicly owned by the City so would only relate to the following criteria:

*1: Lands acquired for watershed and aquifer protection are usually permanently protected open space.*

Parcel M47-24-1 was acquired by the City in May of 1888 without mention of conservation, watershed, or protection. The parcel was initially required should Gardner Public Schools ever need the land. This has since been deemed surplus by the School Department and placed under the care and control of the City Administration. (See Attachment Q)

The same can be said for Parcel M47-22-4, which was acquired by the City in 1937, from Harriet Heywood for “consideration paid”. (See attachment R)

Furthermore, as defined above in this document, neither parcel is considered to be watershed land. Even if they were to be considered aquifer protection, there is no documentation as such and the plan even states that these parcels are only “usually” protected. As stated in the section above, the City's Surface Water Protection Overlay District does allow for uses to take place

within the overlay district, rather than providing an outright protection and prohibition of any use. (See Attachment O)

***2: Public recreation and conservation lands may be permanently protected open space, provided they have been dedicated to such use by deed.***

As is evident in the Deed of Parcel M47-22-4 (See Attachment R) and M47-24-1 (See Attachment Q) there are no deed restrictions that require these parcels to be listed as protected open space, recreational, or conservation land.

***3: Municipal properties may be protected via a City Council vote to acquire them as protected properties.***

There are no such votes by the City Council on record for these properties.

Furthermore, on the City's official listing of properties under the ownership of the City, it does not list any parcels in this area as being under the custody, care, and control of the City's Conservation Commission, aside from M47-24-9, which was not included in the original proposal. (See Attachment S)

***4: Private, public, and non-profit conservation and recreation lands are protected under Article 97 of the Articles of Amendment to the State Constitution.***

This Constitutional Amendment provides additional protection for land that has been designated as conservation land in the Commonwealth through an official process of designating the land as conservation land.

This process has been done in the City in locations previously, and is also currently being done in neighboring communities. This process would require that a conservation restriction be voted on for the property and filed with the Commonwealth, which has not been done for the aforementioned properties.

As is seen in Attachment S, there are only thirteen (13) City owned parcels with conservation restrictions located within the City, none of which are included in this proposal. (See Attachment S)

This is further backed by the fact that around 2010, the previous Administration was approached by members of the Patrick – Murray Administration about potentially creating conservation protections to land in this area of the City in return for compensation at a rate of up to \$500 per acre placed in a restriction. However, the previous Administration chose not to undertake this offer and thus no protections were ever voted on by the City Council for this land since then, nor was there any formal intent given to protect the land, but rather a denial of an offer to do so.

***Part H Conclusion:***

As such, none of the parcels listed in the proposed zoning amendment – particularly M47-22-4 and M47-24-1 – should be considered protected open space and recreational lands. Furthermore, Table 2 of Appendix C of the 2015 Open Space and Recreation Plan lists 58 parcels that have a priority ranking for obtaining conservation restrictions for them- these parcels are not included in this list. (See Attachment T)

### **PART I: OPEN SPACE AND RECREATION PLAN**

At the Planning Board Meeting of March 29, 2023, the question was raised regarding the weight of the City's 2015 Open Space and Recreation Plan.

The resolution that the City Council voted to adopt in order to endorse the City's 2015 Open Space and Recreation plan stated the following:

*WHEREAS, the OSRP proposal does not seek nor require funding directly, but simply makes recommendations for preservation, maintenance, and for expansion of open space and recreation activities within City boundaries; (emphasis added)*  
(See Attachment U)

This action recognizes that the Open Space and Recreation Plan is truly only a plan rather than a binding document. Similar to the City's Urban Renewal Plan, Housing Production Plan, Master Plan, Economic Development Plan, and other planning documents that the City has created, these plans help guide the City in what the City should look to do, rather than bind the City to specific actions.

This is reaffirmed in the Plan Summary of the 2015 Open Space and Recreation Plan which identifies the plan as a "comprehensive planning document that *guides* future policies and actions." (See Attachment V)

Such demarcation is further validated on the Commonwealth's Division of Conservation Services website describing Open Space and Recreation Plans which identifies these types of documents as "tools through which a community plans for the future." (See Attachment W)

As a result of all of the above, the City's Open Space and Recreation Plan helps guide the City's Administration on potential actions that the drafting committee believed the City should take but is not a binding document that regulates what the City can do.

### **CONCLUSION:**

If we as a City want to revitalize our economy, grow our tax base, lessen the tax burden on our residents, provide jobs for those who live here, and provide resources to meet our growing population, then something like this must be done or the City will soon be left behind without reaching its true and full potential.

It is the full opinion of the Administration that this proposal is truly in the best interest of the City and I respectfully request its approval.

The City needs to undertake a smart growth approach to its future in order to fully solidify the City's economic needs not only for now, but for the next generation. This is not a question about whether or not the parcels listed should be protected open space or not. There is currently nothing stopping the City from simply selling the land as is- it would just have to be for housing rather than commercial purposes due to the current Rural Residential 2 Zoning designation.

Should you require any further information, please do not hesitate to contact me at any time.

Respectfully Submitted,

Michael J. Nicholson  
Mayor, City of Gardner

## Chapter 632. Watershed Lands

[HISTORY: Adopted by the City Council of the City of Gardner 11-16-1981 by Ord. No. 761. Amendments noted where applicable.]

### § 632-1. Purpose.

The purpose of this chapter is to promote and preserve the health and safety of the inhabitants of the City of Gardner by regulating and restricting the use and control of watershed lands as hereinafter defined.

### § 632-2. Definitions.

As used in this chapter, the following terms shall have the meanings indicated:

#### OIL STORAGE TANKS

Tanks, drums or other devices used for the storage of any petroleum-based product.

#### WATERSHED LANDS

Those areas of land that lie adjacent to the City water supply sources, including but not limited to Crystal Lake, Perley Brook Reservoir and Marm John's Pond, as located and bounded as shown on map of the City of Gardner watershed as updated and on file in the office of the City Engineer. Said map and explanatory matter thereon are hereby made part of this chapter.

### § 632-3. Sale of City-owned watershed land.

The City shall not hereinafter be authorized to sell or otherwise dispose of in fee any City-owned watershed lands.

### § 632-4. Oil storage tanks.

[Amended 11-18-2013 by Ord. No. 1563]

- A. Oil storage tanks presently located on watershed lands shall be regularly inspected by the Director of Public Health for evidence of rupture or spills.
- B. Any oil storage tanks installed after the adoption of this chapter shall have inspection manholes located outside of and at each end of the tank. The Director of Public Health may also require, in his discretion, additional inspection manholes. Such inspection manholes shall reach the soil level at the bottom of said tanks and shall regularly be inspected by the Director of Public Health. No oil storage tank shall be installed without the plans therefor being previously approved by said Director of Public Health.

### § 632-5. Sale of timber on City-owned watershed lands.

[Amended 11-18-2013 by Ord. No. 1563]

All revenues derived from the sale of timber or other resources on City-owned watershed land shall be deposited in the Water Reserve Account; provided, however, that 5% of such revenues each year shall be used for forest conservation purposes, under the direction of the Director of Public Works.

**AN ORDINANCE TO AMEND THE CODE OF THE CITY OF GARDNER, CHAPTER 675 THEREOF, ENTITLED "ZONING," TO CHANGE THE CLASSIFICATIONS OF CERTAIN PARCELS OF LAND ALONG ROUTE 140.**

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GARDNER AS FOLLOWS:

**PREAMBLE:** That "An Ordinance Establishing the Boundaries of the City with Regulations and Restrictions to be Enforced and to be known as the Zoning Code" (Chapter 675) adopted by the City Council December 9, 1970 and amended several times thereafter be further amended as follows:

**SECTION 1:** By changing the classification from Rural Residential 2 to Commercial 2 for two (2) parcels of land situated northerly and southerly of Route 140 Street, being parcels M47-22-4 and M47-24-1 (that portion west of bike trail parcel M42-20-7) on the City of Gardner Assessor's Map.

Total area of proposed zoning change being approximately 177 acres.

**SECTION 2:** This Ordinance shall become effective upon passage and publication as required by law. Any claims of invalidity by reason of any defect in the procedure of adoption may only be made ninety days after the posting or the second publication.

## ROUTE 140 NORTH CORRIDOR BUILDOUT ANALYSIS

### INTRODUCTION

As development occurs in the Route 140 Corridor and surrounding areas, the roadway will witness an inevitable increase in traffic volumes. In planning for future transportation improvements, it is useful to ask such questions as: How much overall growth can the Corridor accommodate? What are the most likely places where growth will occur? What type of growth seems appropriate for the area? And, does it make sense to alter local regulations to promote a different development pattern?

One way to address these questions is through the use of a "Buildout Analysis". A buildout analysis seeks to determine the maximum amount of new growth that could occur if all available land attains its full development potential. The analysis relies upon the zoning regulations in effect and takes into account environmental factors that limit the development potential of a site. The results do not provide a timeframe for predicting when a certain amount of growth may occur, but rather it attempts to quantify the maximum amount of development that can occur if no changes are made to alter the outcomes.

The results are useful to transportation planners, who will better understand the land use changes that will take place over time. It is then possible to identify future roadway improvements that will be necessary, program improvements over time, and make budgeting decisions as traffic reaches certain milestones.

For the Route 140 Corridor, the Steering Committee identified the study area most likely to contribute directly to traffic increases. Winchendon and Gardner initially identified a  $\frac{1}{2}$  mile corridor on each side of the roadway, and Westminster chose a  $\frac{1}{4}$  mile offset. After looking at an initial round of buildout results, the representatives from each community modified the study area by adding in specific parcels and zoning districts where future growth could have a measureable effect on traffic volumes. Maps 1-3 display the community study areas, and Map 4 contains the entire Corridor study area.

### BUILDOUT METHODOLOGY

A buildout analysis consists of two discrete phases: mapping, and quantifying development. The process would not be possible without good geographic information and skillful GIS staff. Each community provided up-to-date parcel and zoning coverages, and the state mapping agency, MassGIS, provided accurate environmental and land use data.

Environmental data is a crucial element of a buildout analysis. Certain lands, because of environmental sensitivity, are considered unsuitable for development; these include wetlands, ponds, flood plains, and steep slopes. In addition, Massachusetts has adopted a regulatory program to protect perennial rivers and streams; under the River Protection Act, no development can occur within the "Riverfront Area", a swath two hundred feet wide from each bank. The buildout analysis interprets these lands as unavailable for development.

The buildout maps display the zoning scheme currently in effect in the three communities. For simplicity, these fall into a residential, commercial, or industrial district. Staff also reviewed the communities' zoning regulations to determine if other land use controls might affect the development potential of the corridor. In Gardner, the Water Supply Protection Overlay District (WSPOD) falls within the northern portion of the City and, by requiring large lots,

limits development to a greater degree than that permitted in the underlying Rural Residential district.

Gardner Scenic View

In addition, GIS staff aggregated land use/land cover data from MassGIS interpreted from 2005 aerial photography. The buildout analysis looks only at vacant land and removes land that is already developed, although it is possible over time for redevelopment to occur. The excluded land uses are active recreation, housing, transportation, commercial/industrial development, power lines, waste disposal, cemeteries, and public/institutional uses. Finally, land

that is permanently protected as open space is also excluded from future development; the parcel coverages from each community provided the source data for open space properties.

The buildout maps display all of this data and allow local officials to identify the location and current zoning of the developable land. The mapping software categorizes all land in the study area as developed, undevelopable, or developable, and calculates the area in each category by zoning district. Land that is developed or undevelopable (open space or environmentally constrained) is excluded from further analysis.

A buildout spreadsheet helps to quantify the amount of new development that can occur. MRPC conducted community-wide buildout analyses in all of its communities about 10 years ago; thus, the spreadsheets were already available for this study. Knowing the amount of developable land in each zoning district, and assuming zoning districts and regulations remain unchanged, the spreadsheet calculates the amount of possible new growth in each community.

Planners then calculated the buildout results under existing conditions, i.e. the "base case analysis". A significant benefit of the methodology is that it is relatively easy to achieve different results by modifying the assumptions. One can run alternative growth scenarios to quantify the changes that would occur by altering zoning regulations. Planners can play "What if" games. For example: What would happen if the Town re-zoned some residential property to a commercial district? Or What if the City promoted a high intensity mixed use concept at a particular node? These scenarios will be discussed shortly.

### BASE CASE BUILDOUT RESULTS

Table 1 displays information on existing conditions in the study area including acres of land in each community by zoning district for the three categories of Undevelopable, Developed, and Developable Land. Table 2 contains the buildout results for the base case scenario.

**Table 1**  
**Development Characteristics of the Route 140 North Corridor**

|                                 | Undevelopable   | Developed     | Developable     | Total           |
|---------------------------------|-----------------|---------------|-----------------|-----------------|
|                                 | Acres           | Acres         | Acres           | Acres           |
| <b>Gardner</b>                  |                 |               |                 |                 |

### Gardner

A shown in Table 1, only 25% of the study area in Gardner is available for development; 68.1% is undevelopable and 6.6% is already developed. Much of the undevelopable land is in public ownership by the City for water supply protection. While the amount of developable land is nearly four times greater than that occupied by existing development, the large amount of undevelopable land, and the presence of the low density watershed regulations, will help to retain an open character for the Gardner portion of the Route 140 Corridor.

Of the nearly 1,900 acres of developable land, 1,060 acres are in the Rural Residential district where new homes require large lots (60,000 sq. ft.). It is unlikely that the City will extend public water and sewer systems to these outlying areas. Another 80 acres are in a Single Family Residential District with a density of 3.5 units per ac. This density does require service by public water and sewer systems. Only 12% of the available land in the Gardner portion of the study area (159 ac.) is in a commercial or industrial district.

For the base case scenario, Table 2 indicates that Gardner could witness 792 new dwelling units and over 3.0 million square feet of non-residential development. Over 900 acres of Rural Residential land is within the WSPOD, which specifies a three-acre minimum lot size for a single family home. The low density is a valid means of protecting the water supply, and of course, has the effect of reducing the residential buildout.

The commercial and industrial districts allow a reasonable intensity of development. The analysis uses a factor termed "Effective FAR" to calculate the amount of non-residential development. The Effective FAR takes into account land needed for setbacks, open space percentages, and parking, and based on allowable stories, it is a measure that expresses the amount of building floor area a lot can accommodate. For example, in Gardner's Commercial 1 district, its Effective FAR of 0.33 means that a 10,000-sq. ft. lot could accommodate 3,300 sq. ft. of building floor area in compliance with zoning and parking codes. Exceeding the FAR would require structured parking, which is not economically feasible in today's market.

Table 2 also shows the possible impacts at full buildout of water demand, new residents, and new students. Based on a water consumption rate of 75 gallons per capita per day and 75 gallons per 1,000 sq. ft. of non-residential floor area, the new development would require 368,494 gallons of water per day. This is true whether or not development is tied into the municipal water system. However, it is unlikely that the commercial and industrial floor space at buildout would be possible without public water service. The number of new residents and new students are based on the number of people per household (2.95) and number of public school students per household (0.417) from the 2000 Census. The 792 new homes in the Corridor could generate 1,862 new residents and 319 new students.

### Westminster

Westminster comprises the smallest portion of the study area, 736 acres, since it only includes the area between the Route 2/140 intersection and the Gardner line. In contrast to Gardner, 61.5% of the study area is available for development and 25.5% is already developed. Only 13% of the land area is undevelopable due to environmental constraints. There is a fairly even distribution of buildable land across the three zoning categories: 172 acres of Commercial 1, 151 acres of Industrial 1, and 130 acres of Residential 1.

<sup>1</sup> FAR stands for Floor Area Ratio, i.e. the relationship of building floor area to lot area

For the base case scenario, 130 acres of developable land in Westminster's R-1 district could yield 98 new dwelling units using the minimum lot size of 50,000 sq. ft. This would generate 267 new residents and 52 new students based on multipliers of 2.73 people per household and 0.53 public school students per household from the 2000 Census. In Commercial 1, 172 acres of developable land could yield about 2.55 million square feet of floor

Westminster - Rt. 2 Area

area. In Industrial 1, 151 acres of developable land could result in 1.69 million sq. ft. of floor area. Altogether, this new growth would have a water demand of 338,142 gallons per day.

### Winchendon

Winchendon has the largest amount of developable land in the study area. This is partially due to incorporating large commercial and industrial districts that lie beyond the 1/2 mile corridor. Town representatives believed future development in these areas would have a significant impact on traffic growth and wished to assess the magnitude of growth current zoning would allow. 45.7% of the study area in Winchendon is available for development, or about 1,700 acres. About half of this land is zoned for residential use. With a two-acre minimum lot size in the Rural Residential district, the 827.5 developable acres would allow 350 dwelling units. This growth would increase the Town's population by 962 residents and add 202 students to the public school system (based on multipliers of 2.75 people and 0.576 students per household).

The Winchendon portion of the study area contains a large amount of developable land zoned for non-residential uses, about 400 acres for commercial development and 479 acres for industrial development. Combined, there are 876 acres of developable land that has a potential buildout of 20.7 million sq. ft. of floor space. Clearly, such a large amount of development would have major consequences on traffic along Route 140. Water demand from all future development would exceed 1.6 million gallons per day.

### Study Area Summary

On the whole, the Buildout Analysis reveals that there is a significant amount of room available for new growth in the Route 140 Corridor. Of the 9,659 acres in the entire study area, over half (56.3%) is undevelopable; however, 35.8% of the total acreage is developable, which is 4.6 times as much as the land already developed (7.9% of the study area). While Gardner has the most land, 68.4% of it is undevelopable. Winchendon has the most developable land in the study area, 1,703 acres, which comprises 50% of all developable land.

Furthermore, 65% of the developable commercial and industrial land in the study area is in Winchendon. Combined all three communities offer 1,358 ac. of developable commercial and industrial land, which can accommodate 28.0 million sq. ft. of non-residential floor space. Winchendon's potential 20.7 million sq. ft. of floor space comprises 74% of the commercial and industrial development at buildout in the study area. Gardner's 3.0 million sq. ft. and Westminster's 4.2 million sq. ft. comprise 15.1% and 10.9% respectively of the Corridor's potential commercial and industrial build-out.

Residentially, about 2,100 acres is developable, which comprises 61% of all developable land. Gardner contains 54%, and Winchendon 40%, of the total developable residential land. This residential property in the study area could accommodate 1,240 new dwelling units. Gardner has 1,140 acres of developable residential land and would yield the largest number of new units, 792, or 64% of the total units.

### ALTERNATIVE GROWTH SCENARIOS

As noted above, it is possible to modify the data and assumptions in the Buildout Analysis to test different growth policies. For example, local officials might wish to see the results from re-zoning residential land to a commercial district, increasing minimum lot size requirements in a residential district, or establishing a high density mixed-use zoning district at a transportation node to encourage a more compact, pedestrian-scale, village-style development. The Steering Committee considered this opportunity, and members from Gardner and Winchendon proposed an alternative development scenario for their communities. In Westminster, local officials believe the existing zoning pattern is a good one. Developable land along Route 140 is already zoned for commercial and industrial purposes, and near-by residential developments limit opportunities for re-zoning.

### Winchendon Alternative Growth Scenario

Winchendon officials want to explore the possibility of future opportunities for economic development along Route 140 in the southern part of Town by re-zoning land from Rural Residential to Commercial 1. This area coincides with Winchendon's "Gateway Overlay District", where

Winchendon - Gateway Area

special development standards apply to minimize the traffic impacts of new development. It includes the area along the westerly side of Route 140 from the southern end of the C-1 district to the Gardner line with a depth of 500'; on the easterly side, it includes the area bounded by Route 140, the Gardner line, and the North Central Pathway rail trail. Map 5 displays the revised zoning boundaries used in the alternative buildout analysis.

The new district contains 347.4 acres, of which 251.5 ac. are developable according to the GIS analysis. Keeping the zoning standards of the C-1 district constant, the land would accommodate 5.4 million sq. ft. of commercial floor area. Correspondingly, the residentially zoned acreage in the Winchendon portion of the study area falls to 581.1 acres, resulting in a decrease of 104 dwelling units at buildout. Table 3 compares the Winchendon study area buildout under the base and alternative scenarios.

**Table 3  
Winchendon Commercial Development Scenario**

|                          | Base Scenario | Gateway Scenario | Change    |
|--------------------------|---------------|------------------|-----------|
| Developable Acres in RR  | 827.5         | 581.1            | -246.4    |
| Developable Acres in C-1 | 396.7         | 643.0            | 246.4     |
| New Dwelling Units       | 350           | 246              | -104      |
| Commercial Floor Area    | 8,708,588     | 14,117,454       | 5,408,866 |
| Industrial Floor Area    | 12,025,905    | 12,025,905       | 0         |
| New Residents            | 962           | 676              | -286      |
| New Students             | 202           | 142              | -60       |
| Water Demand             | 1,627,257     | 2,011,435        | 384,178   |

Winchendon could view the possibility of re-zoning this portion of the study area as an opportunity to achieve greater economic development. Winchendon has a great deal of land already zoned for commercial and industrial purposes in the area, and officials should consider the effect on those properties of encouraging commercial development here. A less intensive alternative Winchendon could consider is to adopt a planned development bylaw that would allow large projects by special permit within the Gateway Overlay district. For example, a planned business development bylaw could allow a large shopping plaza or big-box retail outlet subject to reasonable regulations to protect residential abutters.

In either case, the presence of the highway affords excellent access to developable property. The re-zoning scenario would increase the amount of developable land in C-1 by about 250 acres. Correspondingly, the number of potential dwelling units would decrease by more than 100, lessening the demand for municipal services and school education costs. The idea of allowing some commercial or industrial development here has merit and local officials could explore it further. This buildout analysis at least provides an initial basis for understanding the long-range land use consequences of the decision.

**Gardner Alternative Growth Scenario**

Gardner - Matthews St. Area

In 2006, Martin Wolons proposed a high-density, mixed use development concept along the westerly side of Route 140 in the vicinity of Pearl and Matthews Streets. The developer sought approval under the state's "Smart Growth" statute, MGL Chapter 40R, which promotes multi-family housing, including affordable units, to create town center-style developments. In return for encouraging housing production, a community receives incentive

payments from the state. Chapter 10R requires approval of a discrete zoning district by the local legislative body to demonstrate community support and establish local standards for design. The project consisted of 650 units of housing and 200,000 square feet of commercial space on 114 acres. Because of poor economic conditions, the developer abandoned the project. Since the site remains vacant, has good highway access, and is near public water and sewer systems, Gardner Steering Committee members asked to run an alternative growth scenario at this location to help understand possible impacts of a large development here.

With several parcels under common ownership, the analysis incorporates the same area as the 10R project. Map 6 displays the revised zoning boundaries used in this scenario. Rather than a predominantly residential project, this hypothetical development assumes a mix of light industrial and office uses, termed the LI-O scenario<sup>2</sup>. The GIS analysis determined that 82.3 acres of the site are developable. The LI-O scenario allocates 50% of the developable land for light industry and 50% for office and research and development. Industrial uses tend to favor extensive one-story buildings and have a relatively low parking demand; office and research uses favor multi-story buildings and have a higher parking demand due to the employee-intensive nature of such businesses. Combining these uses, the LI-O scenario assumes an overall Effective FAR of 0.5 for the district. Table 4 displays the results of this scenario.

**Table 4  
Gardner Mixed-Use Development Scenario**

|                           | Base Scenario | LI-O Scenario | Change    |
|---------------------------|---------------|---------------|-----------|
| Developable Acres in RR   | 1,061.3       | 979.06        | -82.3     |
| Developable Acres in LI-O | 0             | 82.3          | 82.3      |
| New Dwelling Units        | 792           | 742           | -50       |
| New LI-O Floor Area       | 0             | 1,792,058     | 1,792,058 |
| New Residents             | 1,862         | 1,744         | -118      |
| New Students              | 319           | 298           | -21       |
| Water Demand              | 368,444       | 359,639       | -8,805    |

The proposed Light Industry-Office scenario could yield an additional 1.8 million sq. ft. of non-residential floor space at buildout. This location is currently zoned RR and is outside the WSPOD; removing the land from RR could reduce the number of dwelling units by 50 units. This scenario provides an interesting counter-point to the chapter 10R project, which contained 650 dwelling units and 200,000 sq. ft. of retail space. Assuming the previous developer had proposed a realistic concept based on infrastructure capacity and the site's physical conditions, it is plausible that the location could also accommodate an intensive industrial park or office/research complex. Gardner officials may wish to examine surrounding land uses to assess whether such a use would be compatible with the neighborhood and consider alternative development schemes, e.g. including a residential or commercial component.

<sup>2</sup> To create a residential component, Gardner's Smart Growth Planned Unit Development (SGPUD) allows up to 50% of a tract to consist of residential uses.

## LAND USE GOAL

The following land use goal sets an overall growth policy for communities to plan and develop the Route 140 Corridor to achieve the highest and best use of the available land and public infrastructure for the benefit of the three communities:

*Communities connected by Route 140 should proactively plan together for future growth. Through innovative zoning measures communities will foster a sustainable pattern of development, one that preserves roadway capacity and public safety, promotes economic development, conserves resources, and achieves high standards of design.*

## RECOMMENDATIONS

The preceding analysis documents the considerable amount of developable land in the Corridor and the large potential for economic growth. Most communities welcome new economic development because it creates jobs and adds to the local tax base without overwhelming municipal services. However, such growth should not occur at the expense of community character, environmental excellence, or quality of life. Despite the vast potential for new growth in the Corridor, the challenge is not to just recruit new business but to achieve high quality development. The following recommendations offer techniques to balance economic opportunity and preserve community character so that residents may enjoy the benefits of new growth.

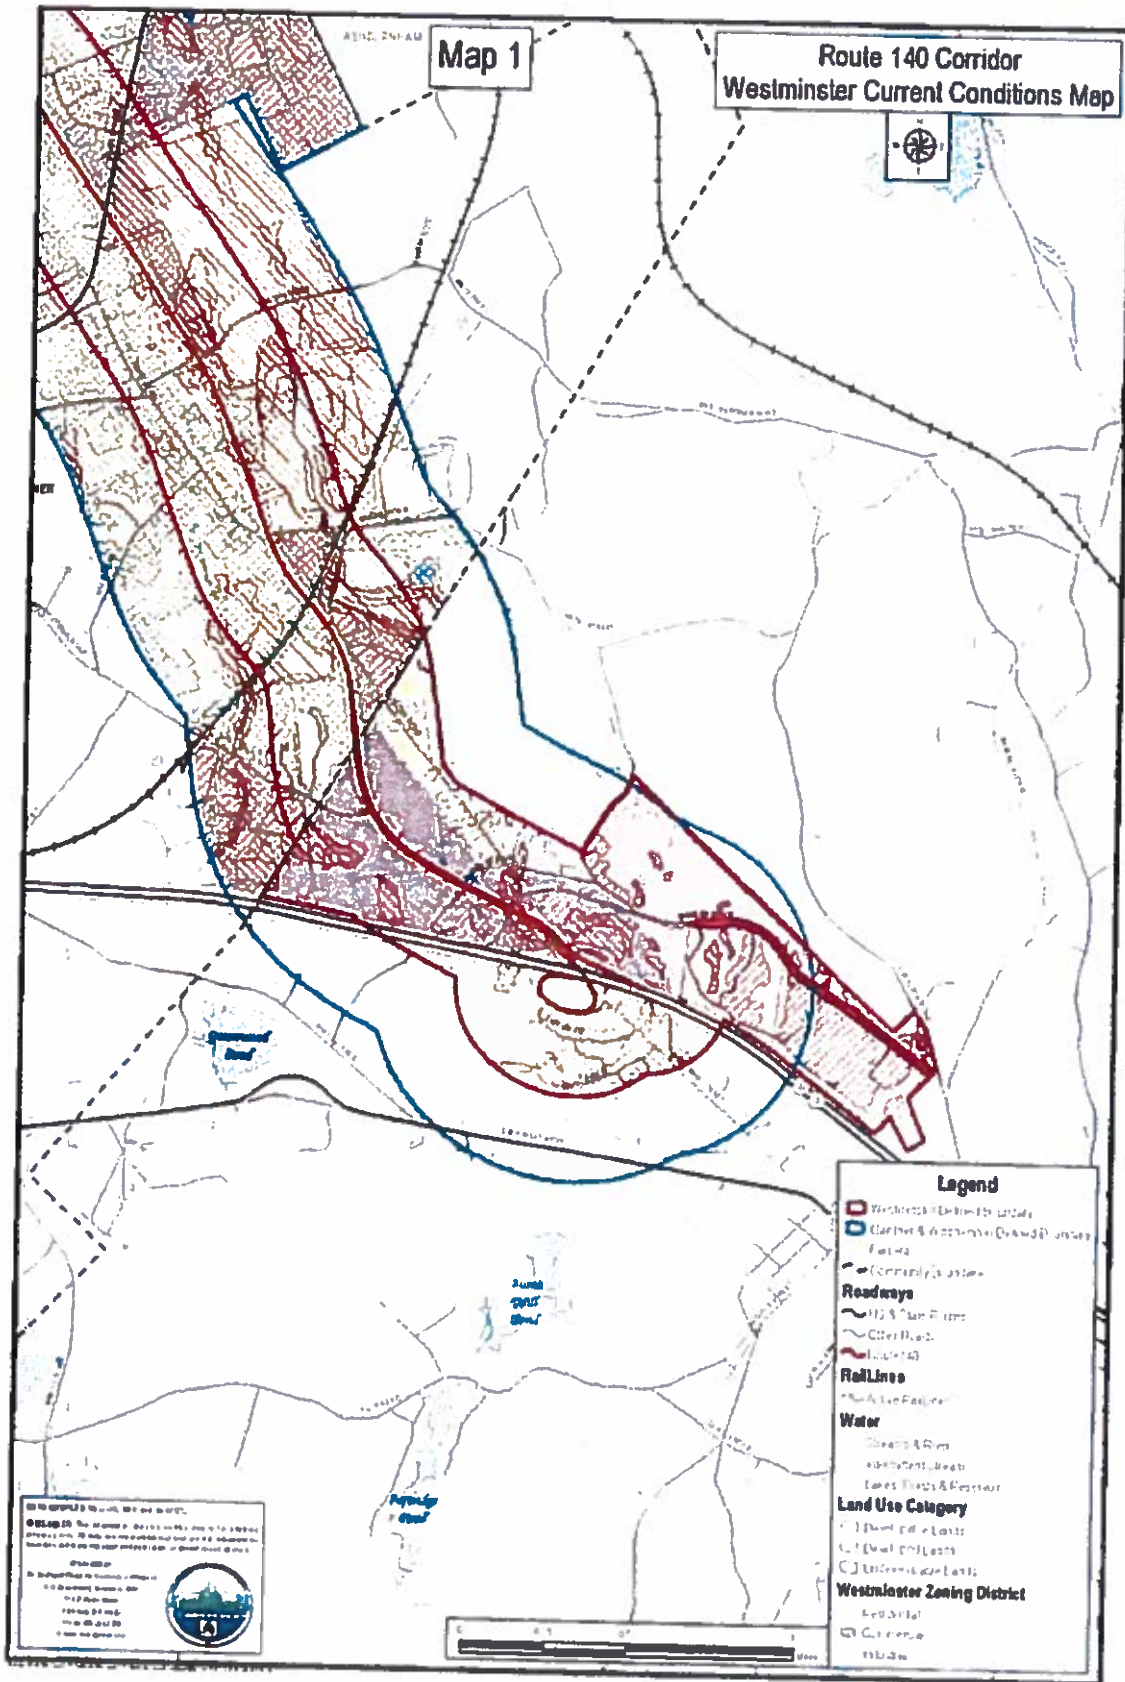

1. Implement access management controls by limiting the number of curb cuts directly onto Route 140, requiring common driveways where feasible, and connecting adjoining properties through internal access roads to lower the number of turning movements onto the highway. Winchendon's Gateway Overlay District is a good example of a regulation that seeks to control access to Route 140 and avoid commercial sprawl.
2. Modify land use controls to allow a higher intensity of development at key intersections where roadway capacity exists and water and sewer services are available.
3. Preserve scenic views through strategic purchases of open space, acquisition of view easements, or requirements for photo-simulation during site plan review to consider alternative building configurations.
4. Review sign regulations to insure that signs permitted in commercial and industrial districts minimize visual clutter. Restrict billboards and other non-accessory signs.
5. Authorize sharing of parking or reducing parking requirements when complementary uses have different peak hours of parking demand.
6. Require traffic impact studies for large-scale developments.
7. Review development design standards to achieve high quality development, for example:
  - ❖ Add landscaping requirements in parking lots, along road frontage, and around buildings.
  - ❖ Establish protective buffers adjacent to residential uses.
  - ❖ Set architectural standards to promote visual interest, such as pitched roofs, exterior building materials, awnings, etc.
  - ❖ Require screening of dumpsters, utility structures, and outdoor storage areas.
  - ❖ Provide safe, pleasant, and accessible paths for pedestrians within new developments and from adjacent neighborhoods.

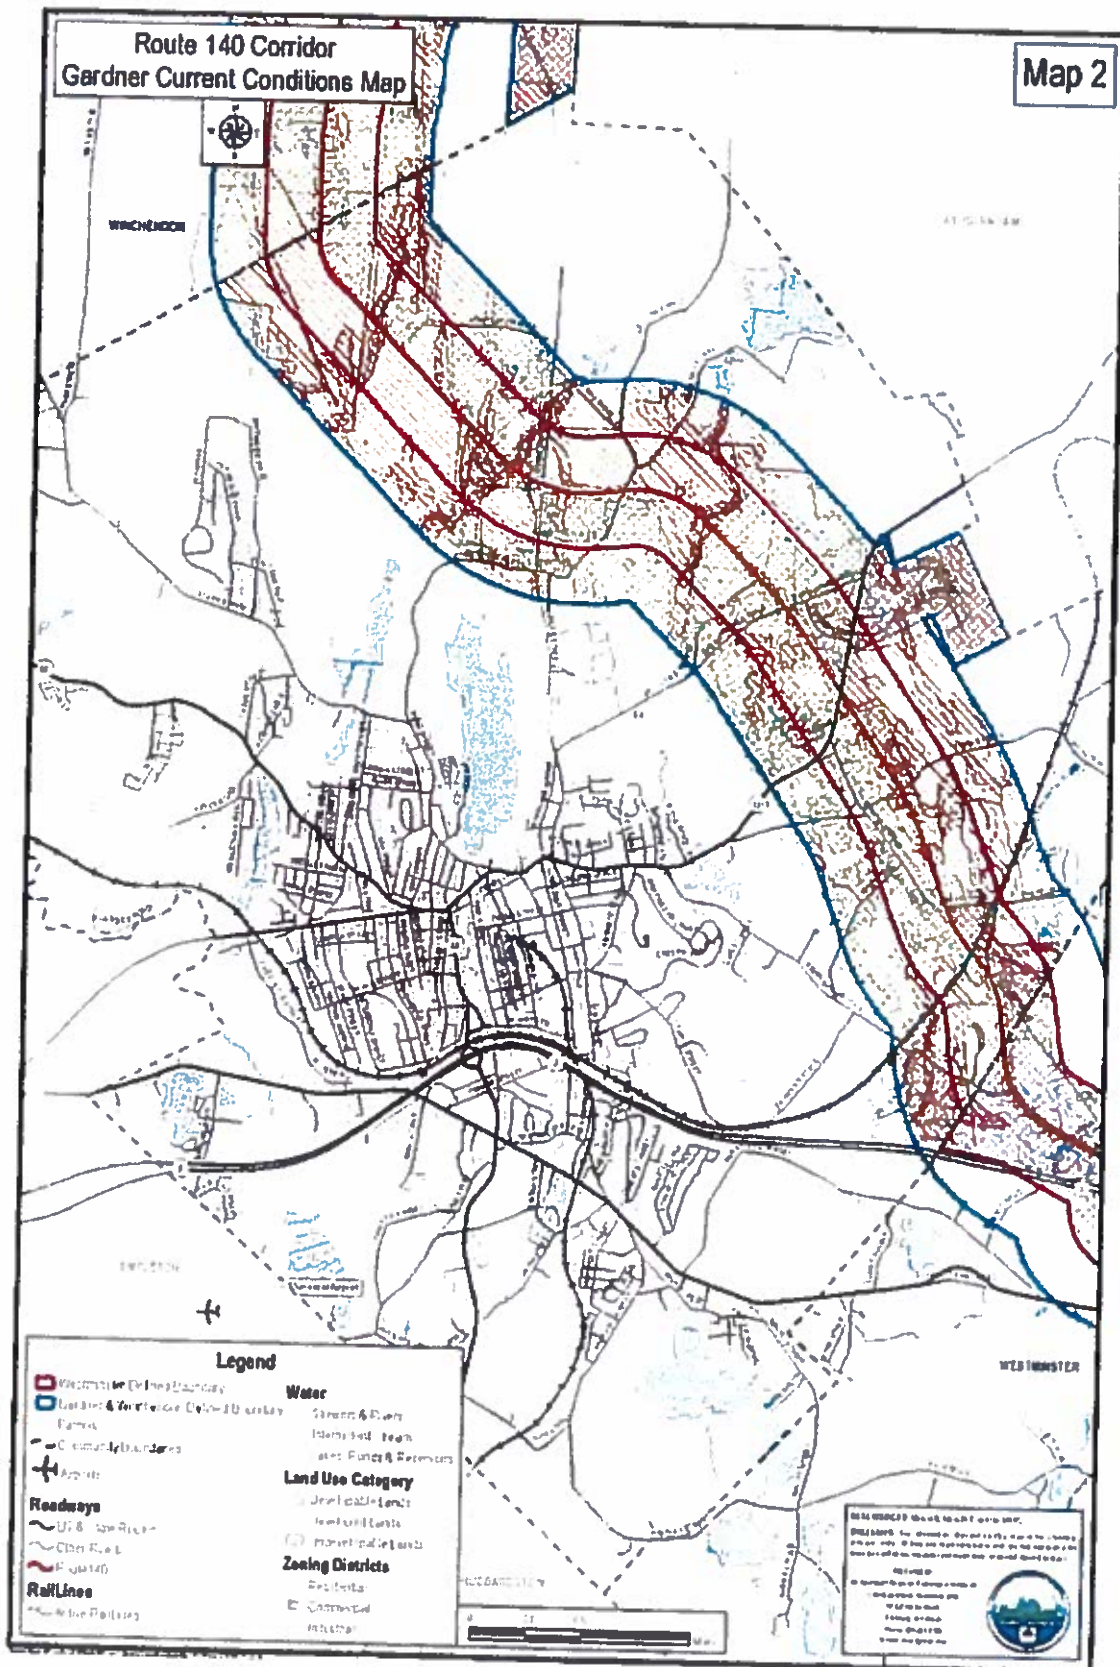

- ❖ Use Low Impact Development (LID) stormwater management techniques to contain and purify runoff on-site and improve development aesthetics.
- ❖ Set lighting requirements and use fixtures with cutoffs to curtail light impacts.
- ❖ Place wiring underground.

MRPC could take the lead by creating a process to develop model design standards applicable to similar highway corridors throughout its Region.

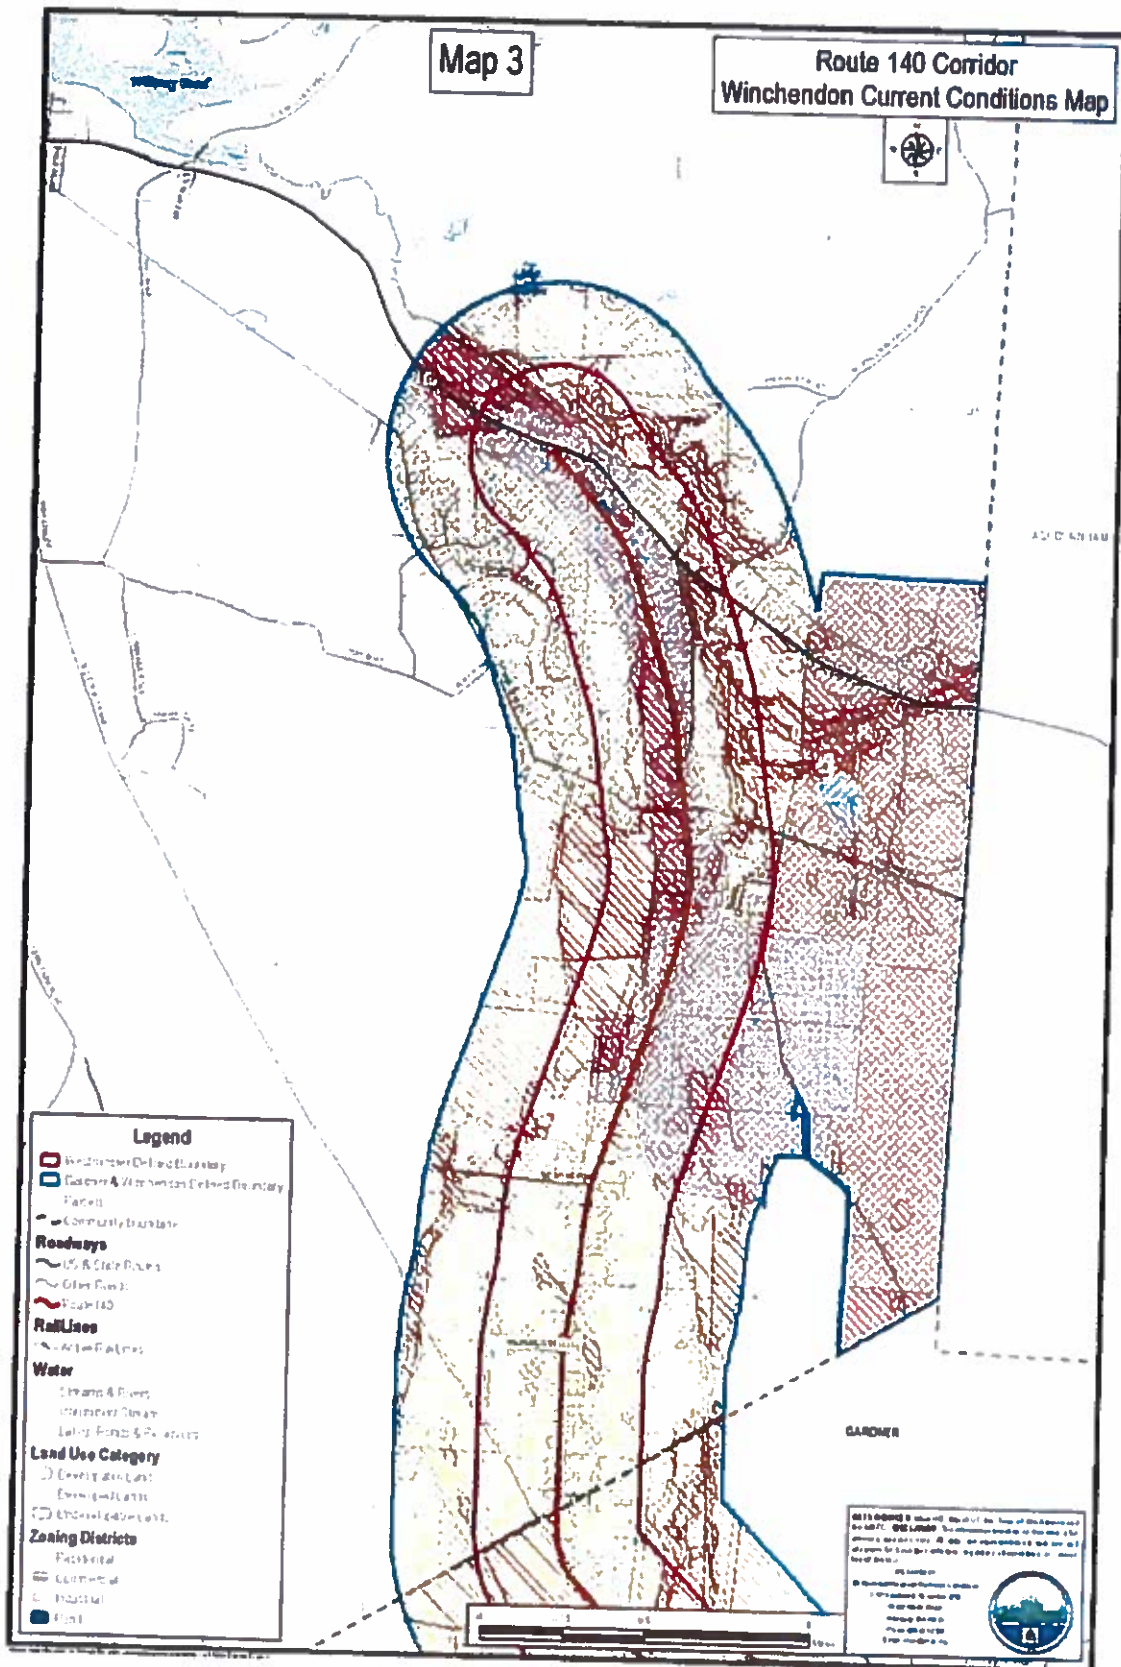

8. Continue to analyze re-zoning opportunities in Winchendon and Gardner as outlined in the alternative growth scenarios discussed above.
9. Provide connecting links to the North Central Pathway rail trail as a way to promote commuter access by bicycle. Continue to extend the trail along its entire proposed 16-mile length for recreational use and as a tourism attraction.
10. Work with MassDOT to pursue nomination of Route 140 as a Scenic Byway. Once approved, communities are eligible for additional federal grants for planning, marketing, roadway improvements, and public amenities. After preparing a Management Plan, implementation funding may be used for a variety of projects such as: constructing links to nearby recreation areas, installing historic markers, building off-road parking areas, developing informational kiosks, preserving scenic vistas, etc. The Scenic Byway Program is an avenue for obtaining funds for enhancement projects based on a management plan that has been informed through significant public participation. It has no regulatory effect on private property.
11. Pool resources to develop a regional marketing strategy to tout the assets present in the Corridor for economic development. Consider a unique moniker for Route 140 that evokes an image of beauty, local history, and community resourcefulness.
12. Work cooperatively to protect public water supplies. A portion of Gardner's public water supply watershed for Crystal Lake extends across the city line into Winchendon. An important goal of Gardner's "Open Space and Recreation Plan" is to seek regional cooperation and develop inter-municipal agreements to assure protection of its water supply. As growth takes place in south Winchendon, the two communities should execute an inter-municipal agreement that encourages sustainable resource management and best practices for new development to minimize any potential water quality degradation. As a regional issue, MRPC could assist in drafting an acceptable agreement that would advance the land use and environmental goals of each community.
13. Develop alternatives to frequent driveway openings onto Route 140. The Buildout Maps reveal that residential zoning districts occupy large stretches of Route 140. The danger exists that over time, individual lots with single family homes will each have a driveway with access onto Route 140. Homeowners will enter and exit these lots on a frequent basis interfering with the smooth flow of traffic and creating unsafe travel conditions, especially in severe weather. Communities should encourage alternatives to individual driveways, such as common driveways, subdivision roads, and frontage roads parallel to Route 140, to provide controlled points of access onto the highway.
14. Consider larger setbacks from the highway for residential uses. As traffic growth increases along Route 140, traffic noise and congestion will make abutting property less desirable for single family homes. This impact can be mitigated by deeper front setbacks and landscape buffers to help maintain lot privacy.
15. Explore regional zoning regulations to enhance inter-municipal cooperation in managing development in order to protect the character of the corridor. Since Route 140 is a regional asset and engine for economic growth, the communities may wish to explore adoption of a

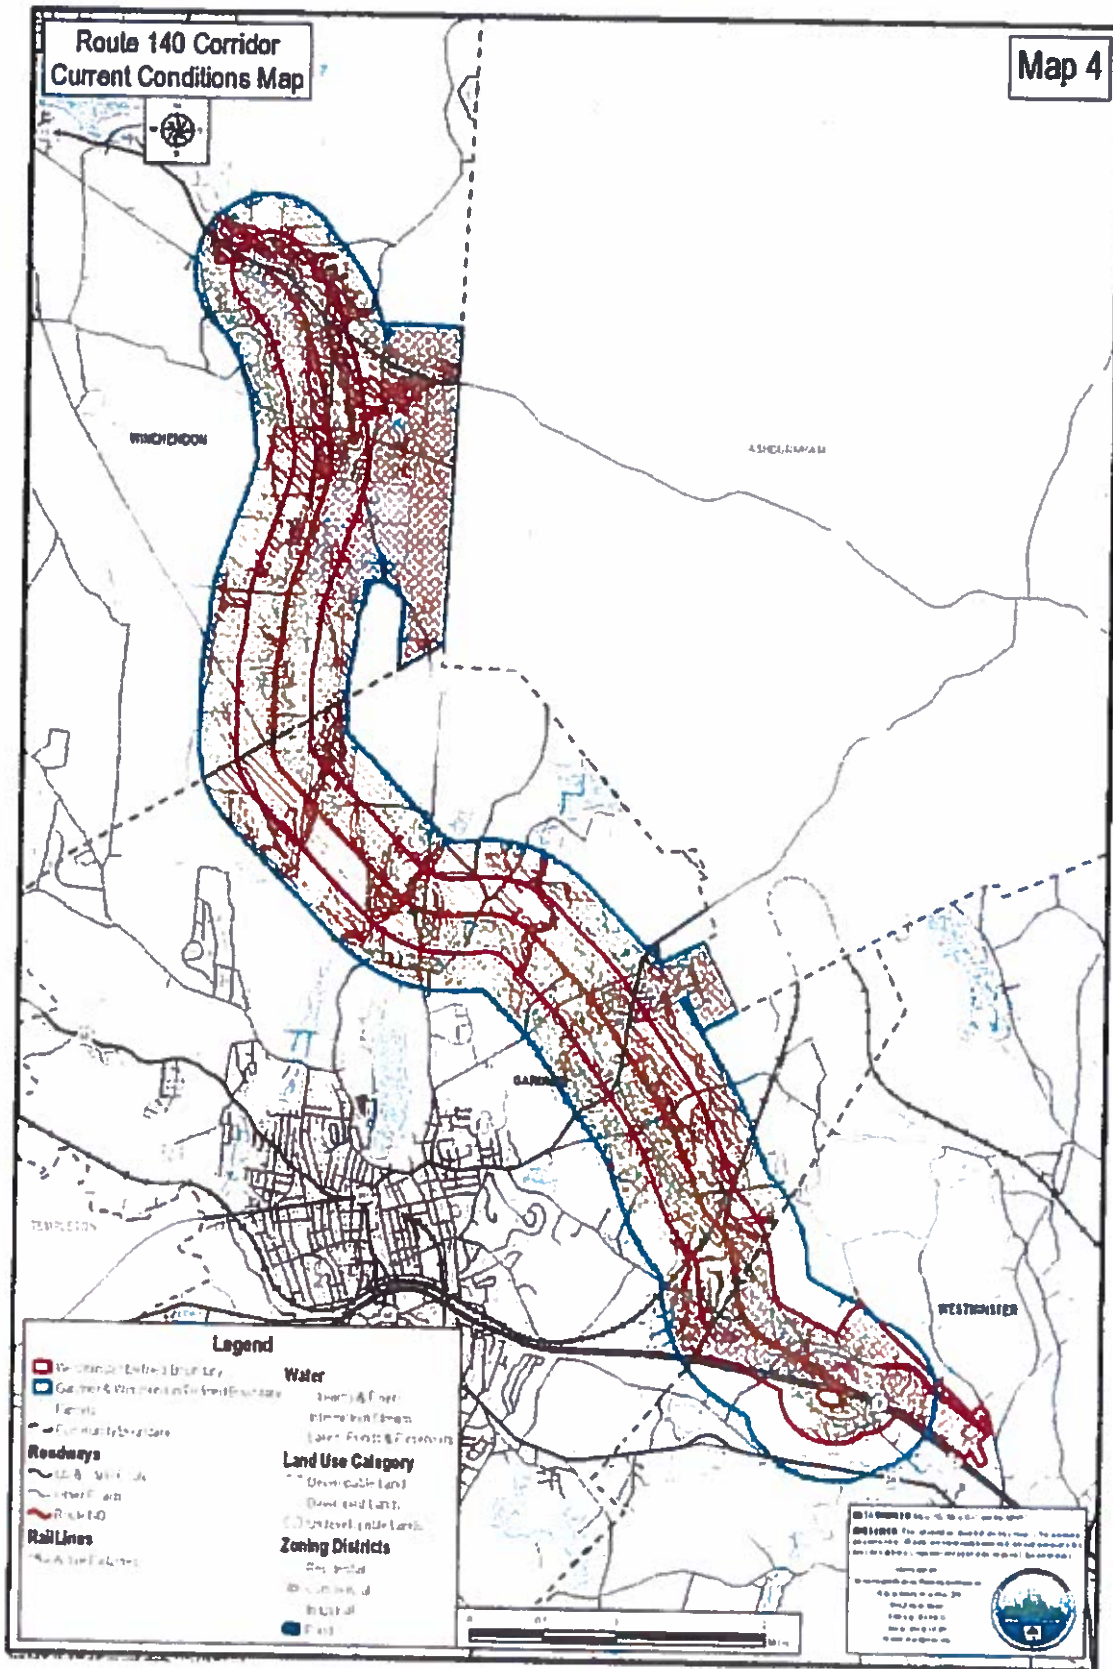

regional Highway Corridor Overlay District. MRPC could also assist in this endeavor. Such an approach would allow for inter-community consultation on major development projects, establish common design and development standards, and encourage access management techniques to preserve roadway capacity and protect motorist safety. This concept has worked well in the Blackstone Valley where three communities adopted a model Route 146 Corridor Overlay District zoning bylaw. Each community decides which uses are most appropriate for its section of the Route 146 Corridor, and the Overlay District establishes consistent design standards to manage development along the roadway to protect its scenic, historical, and natural resource values.

## Chapter 675. Zoning

## Article VII. Off-Street Parking, Loading and Drive-Through Standards

## § 675-710. Definitions.

For the purposes of this article, the following terms shall have the following meanings:

**ACCESS DRIVEWAY**

The travel lane that allows motor vehicles ingress from the street and egress from the site.

**BUILDING SERVICE AREA**

A room or rooms in a building used to house electrical or mechanical equipment necessary to provide central utility service to the building, such as a boiler room.

**DRIVE-THROUGH**

Consists of stacking lanes and drive-up window to allow a drive-through facility to provide such products or service(s).

**DRIVE-THROUGH FACILITY**

An establishment that provides or dispenses products or services, through an attendant or an automated machine, to persons remaining in vehicles that are in designated stacking lanes. A drive-through may be in combination with other uses, such as a bank, personal service shop, retail store, eating establishment or gas station.

**INTERIOR DRIVEWAY**

A travel lane located within the perimeter of a parking lot which is not used to directly enter or leave parking spaces. An interior driveway shall not include any part of the access driveway.

**MANEUVERING AISLE**

A travel lane located within the perimeter of a parking lot by which motor vehicles directly enter and leave parking spaces.

**NET FLOOR AREA**

The total of all floor areas of a building, not including storage areas, stairways, elevator wells, rest rooms, common hallways and building service areas.

**PARKING STALL LENGTH OF LINE**

The longitudinal dimension of the stall measured parallel to the angle of parking.

**STACKING LANE**

An on-site queuing or pass-through lane for motorized vehicles that is separated from other vehicular traffic and pedestrian circulation by barriers, markings, or signage.

**WIDTH OF PARKING STALL**

The linear dimensions measured across the stall and parallel to the maneuvering aisle.

## § 675-720. General provisions.

Except as otherwise provided in this article, no building or structure shall be located upon any lot and no activity shall be conducted upon any lot unless the required parking facilities are provided on site in

accordance with this article.

- A. Change of use. For all zoning districts, except COM1, a change in use where the existing use (or in the case of a vacancy, the next previous use) did not provide for the number of on-site parking spaces required by this chapter, then the proposed use shall only have to provide an additional number of parking spaces equal to the increase, if any, between the number required under this chapter for the existing use and the number required for the proposed use.
- B. Commercial 1 Districts.
- (1) For COM1 Districts, no additional parking is required for the following:
    - (a) A change in use or rearrangement of uses in an existing building that does not increase the total floor area within the building.
    - (b) The replacement of an amount of floor area equal to that in existence at the time of enactment of this amendment to this chapter.
    - (c) The addition of a second story to one-story buildings.
    - (d) Federal, state or municipal uses.
  - (2) Having applied Subsection B(1)(a), (b), (c) and (d) immediately above, an increase in total floor area that results in a net increase in the number of required parking spaces may be accommodated off site when adequate municipal parking facilities are available to serve the land use. Adequacy of municipal parking facilities shall be determined via the site plan review application and review procedures, § 675-1010, Site plan review, of this chapter. A major entrance of the land use should be within 500 feet of the municipal parking facility. Shared parking opportunities should be recognized where the same parking space can be utilized by two or more different land uses due to differences in principal hours for the uses involved.
- C. Residential uses.
- (1) Each parking area may have one access driveway which shall be a maximum of 24 feet wide.
  - (2) Each parking area may have one additional access driveway for each 200 feet of frontage, provided that all such access driveways shall be at least 200 feet apart on the parking area measured from the center line of each access driveway.
  - (3) No parking space or other paved surface, other than an access driveway(s) shall be located within five feet of any lot line.

### § 675-730. Undetermined uses.

Where the use of a building or buildings has not been determined at the time of application for a building permit or special permit, the plan shall demonstrate that the parking requirements applicable to the most intensive use allowed in the district where such undetermined use is to be located can be provided, however, that the number of parking spaces actually built need not exceed the number required by the actual use or uses of the building.

### § 675-740. Relief from parking regulations.

In the following instances, relief from parking regulations may be granted:

- A. By special permit from the Zoning Board of Appeals, pursuant to § 675-1170, Special permits:
- (1) In the case of a change from a nonconforming use to a conforming use, that the benefits of a change to a conforming use outweigh the lack of parking spaces; or
  - (2) In the case of a change from one conforming use to another conforming use, that the lack of parking spaces will not create undue congestion or traffic hazards on or off the site.

- B. By the Planning Board pursuant to § 675-1010, Site plan review, or where it is acting as the special permit granting authority pursuant to § 675-1170, Special permits, where it determines the grant of a waiver would not be detrimental to the functioning of the site and would not create undue congestion of traffic hazards on or off the site.

§ 675-750. Schedule of parking uses; loading areas.

- A. Comparable use requirements. Where a use is not specifically included in the schedule of parking uses, it is intended that the regulations for the most nearly comparable use specified shall apply.
- B. Schedule of parking uses.

| Principal Use                                                      | Parking Spaces Required                                                                                                                                                                                      |
|--------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Dwelling                                                           | 1 per dwelling unit with 1 or fewer bedrooms; 2 per dwelling unit with 2 or more bedrooms                                                                                                                    |
| Home occupation                                                    | 1 per nonresident employee                                                                                                                                                                                   |
| Motel or hotel                                                     | 1 per room plus 1 per 400 square feet of public meeting area and restaurant space                                                                                                                            |
| Bed-and-breakfast                                                  | 2 spaces, plus 1 per guest unit                                                                                                                                                                              |
| Assisted living; nursing home; group/rest home; rooming house      | 1 per 2 beds                                                                                                                                                                                                 |
| Educational/schools                                                |                                                                                                                                                                                                              |
| Nursery/child care                                                 | 3 per 1,000 gross square feet                                                                                                                                                                                |
| Elementary/middle/junior                                           | 1.2 per employee                                                                                                                                                                                             |
| High school                                                        | 0.25 per student                                                                                                                                                                                             |
| College and university                                             | 1.2 per 1,000 gross square feet                                                                                                                                                                              |
| Hospital                                                           | 3 per patient bed                                                                                                                                                                                            |

| Fast-food restaurant                                               | 1 per 70 square feet of net floor area                                                                                                                                                                       |
| Religious; club or lodge; civic center or other place of assembly  | 1 per 75 square feet of assembly area or 1 per 4 seats, whichever is greater                                                                                                                                 |
| Motor vehicle general and body repair                              | 1 per each service bay plus 1 per employee                                                                                                                                                                   |
| Motor vehicle light service                                        | 2 per service bay plus 1 per employee                                                                                                                                                                        |
| Mixed use                                                          | Sum of various uses computed separately                                                                                                                                                                      |
| Public transit station                                             | 1 per 250 square feet devoted to office and public uses plus sum of other uses computed separately                                                                                                           |
| Transportation terminal                                            | 1 per 250 square feet devoted to office use plus 1 per company vehicle operating from premises                                                                                                               |
| Veterinary clinic/kennel, commercial                               | 2 per 1,000 square feet plus 1 per employee                                                                                                                                                                  |

Principal Use  
Industrial/manufacturing

Parking Spaces Required

1 per 2,000 square feet of net floor area for the first 20,000 square feet, plus 1 per each additional 10,000 square feet

- C. Loading areas. One or more off-street loading areas shall be provided for any business that may be regularly serviced by tractor-trailer trucks and other similar delivery vehicles, so that adequate areas shall be provided to accommodate all delivery vehicles expected at the premises at any one time. Loading areas shall be located at either the side or rear of each building and shall be designed to avoid conflicts with vehicles and pedestrians using the site or vehicles and pedestrians using adjacent sites.

§ 675-760. Standard dimensional regulations for off-street parking facilities.

Off-street parking facilities shall be laid out and striped in compliance with the following minimum provisions:

| Angle of Parking | Width of Parking Stall (feet) | Parking Stall Length of Line (feet) | Width of Maneuvering Aisle (feet) |
|------------------|-------------------------------|-------------------------------------|-----------------------------------|
| 90° (2-way)      | 9.0                           | 18                                  | 24                                |
| 60° (1-way)      | 10.4                          | 22                                  | 18                                |
| 45° (1-way)      | 12.7                          | 25                                  | 14                                |
| Parallel (1-way) | 8.0                           | 22                                  | 14                                |
| Parallel (2-way) | 8.0                           | 22                                  | 18                                |

§ 675-770. Design requirements for parking lots, facilities and drive-throughs.

A. Parking location and layout.

- (1) To the extent feasible, parking areas shall not be located to the forward of any building front line on the lot.

- (a) Notwithstanding the above, the Planning Board may grant permission during site plan review to locate not more than eight parking spaces in front of the principal building, where such location promotes a better site layout. As condition of such permission, the Board may require that provisions be made for a common access way linking the property with existing or future adjacent uses.

- (2) Required parking spaces, loading areas and driveways shall be provided and maintained with suitable grading, paved surfaces and adequate drainage. No parking space or other paved surface, other than an access driveway(s) or walkway(s), shall be located within 10 feet of any lot line, and notwithstanding the foregoing, no parking space or other paved surface other than an access driveway(s) or walkway(s) shall be located within the limits of a landscaped buffer area.

- (3) Each parking area may have one access driveway which shall be at least 24 feet wide at its narrowest point but not more than 36 feet wide at its widest point. Each parking area may have one

Item 10891 **Withdrawn by Vote of the City Council - 4/18/2023** 10891

additional access driveway for each 200 feet of frontage, provided that all such access driveways shall be at least 200 feet apart on the parking area measured from the center line of each access driveway. In the case of an access driveway which shall be used for one-way traffic only, the minimum width may be reduced to 14 feet at its narrowest point.

- (4) Interior driveways, other than maneuvering aisles, shall be at least 20 feet wide for two-way traffic and 14 feet for one-way traffic.
  - (5) Adequate provisions for snow removal and/or snow storage must be made and indicated on site plans. Landscaped areas may not be used for snow storage.
- B. Lighting and landscaping requirements. All surface parking areas containing more than eight spaces shall be laid out and enhanced by landscaping in accordance with the following standards:**
- (1) Parking areas, loading areas, storage areas, refuse storage and disposal areas, and service areas shall be screened from view, to the extent feasible, from all public ways and from adjacent properties, using planted buffers, berms, natural contours, fences or a combination of the above.
  - (2) Parking areas shall contain 150 square feet of planted areas per 1,000 square feet of parking proposed, appropriately situated throughout the parking area to break up large expanses of pavement.
  - (3) Screening.
    - (a) Parking areas shall be screened along their perimeters from adjacent streets and properties using a combination of the following:
      - [1] A buffer strip of at least 10 feet in width of densely planted shrubs or trees which are at least 2.5 feet high at the time of planting and are of a type that may be expected to form a year-round screen; parking areas containing more than 25 spaces shall require a planted buffer strip of 20 feet in width.
      - [2] A wall, barrier, or fence of uniform appearance. There shall be a landscaped strip with a minimum width of three feet between the base of the wall, barrier, or fence and any street or abutting property. The wall, barrier, or fence is recommended to be three feet in height and shall not be more than six feet in height.
      - [3] A landscaped earth berm at least three feet in height and 18 feet in width.
      - [4] The screening as required herein shall be located so as not to conflict with any corner visibility requirements or any other City ordinances. Such screening may be interrupted by entrances or exits.
  - (4) All artificial lighting shall be not more than 11 feet in height in pedestrian areas, and 20 feet in parking areas, and shall be arranged and shielded to prevent direct glare from the light source onto any public way or any other property. All parking areas which are used at night shall be lighted as evenly and fully as possible. The Planning Board shall require that the applicant provide the type, energy efficiency, and intensity (lumens) of all proposed and replacement lighting for the parking areas.
- C. Structured parking design guidelines. Placement of off-street parking spaces in structures is encouraged to limit impervious surfaces, promote efficient use of land, and enhance streetscapes. Parking structures are subject to the following performance standards:**
- (1) Parking structures shall be no more than 40 feet in height. The height and mass of the structure should be consistent with the urban design fabric within which the structure is to be located.
  - (2) The exterior facade should maintain a horizontal line throughout. The sloping nature of the interior structure, necessary in the design of parking structures, should not be repeated on the exterior facade.
  - (3) Facades that face public rights-of-way should incorporate a repeating pattern that includes color change, texture change and material change, each of which should be integral parts of the structure, not superficially applied trim, graphics, or paint. In addition, vertical elements should be incorporated into the exterior facade design to create a repeating pattern. This can be accomplished using

Item 10891 **Withdrawn by Vote of the City Council - 4/18/2023** 10891  
 reveals, projecting ribs, or offsets. All such elements should repeat at intervals of no more than 30 feet.

- (4) A wall or other screening of sufficient height to screen parked vehicles and which exhibits a visually pleasing character should be provided. In commercial districts with an existing or planned urban design fabric, ground-level retail use is encouraged to enhance the streetscape. Where retail is not practical, other amenities, such as an art wall, are encouraged as means of enhancing the streetscape. The ground level of the structure should never consist of a featureless length of a wall.
  - (5) Pedestrian entrances should be well defined and attractive.
  - (6) Areas of vehicular entry should be located on the side or the rear of the structure wherever possible to attract less attention. The presence and appearance of garage entrances should be minimized so that they do not dominate the street frontage.
  - (7) Building should take advantage of site topography to minimize the vehicular entry where possible.
  - (8) Interior and exterior lighting shall be arranged to ensure public safety and shielded to prevent direct glare onto any public way or any other property. The Planning Board shall require the applicant to provide the type and intensity (lumens) of all proposed lighting for the parking structure.
- D. Drive-through performance and design standards.
- (1) Purpose. The purpose of this section is to protect the health, safety, welfare and convenience of residents, minimize traffic congestion, and maintain the architectural integrity of the surrounding area by requiring performance standards for the construction and operation of drive-through facilities.
  - (2) Administration.
    - (a) Drive-through facilities may be allowed by special permit from the Gardner Planning Board in the Commercial 1, Commercial 2, and in some cases Industrial 1 Zoning Districts, provided the facility meets the requirements of this Article VII and the dimensional requirements for the underlying zoning. The Planning Board shall follow the procedural requirements for special permits as set forth in MGL c. 40A, § 9, and Article XI, § 675-1170, of the City of Gardner Zoning Code.
    - (b) No special permit for any drive-through facilities shall be issued without site plan approval first having been obtained from the Planning Board, § 675-1010, Site plan review, of the Zoning Code. In addition to the standard set forth within, the site plan must meet all dimensional, parking, landscaping, and signage requirements within the City of Gardner Zoning Code.
  - (3) Performance and design standards. Drive-through facilities shall comply with the performance and design standards set forth in this section. The Planning Board may impose additional conditions or alter performance and design standards if it finds that a substantially better design will result from such additional or alternate standards. In so doing, the Planning Board shall consider how such additions or alterations will impact public safety, character of the neighborhood, and the environment.
    - (a) Traffic impact study (TIS). The Planning Board shall require that a traffic impact study (TIS) be prepared by a registered professional engineer who is a member of the Institute of Transportation Engineers (ITE). The purpose of a TIS is to document existing traffic conditions in the vicinity of the proposed drive-through facility, to describe the volume and effect of projected traffic generated by the proposed project, and to identify measures to mitigate any adverse impacts on traffic, as stated in the following:
      - [1] Existing traffic conditions: average daily and peak-hour volumes, average and peak speeds, sight distances, appropriate and pertinent accident data, levels of service of intersections and streets likely to be affected by the proposed project. Generally, such data shall be presented for all streets and intersections adjacent to or within 500 feet of the project's boundaries. The data will be no more than 24 months old upon submittal unless other data is specifically approved by the Planning Board.
      - [2] Projected impact of proposed project: projected peak-hour and daily traffic generated by the drive-through on roads and ways in the vicinity; sight lines at the intersections of the proposed driveways and streets; existing and proposed traffic controls in the vicinity;

Item 10891 **Withdrawn by Vote of the City Council - 4/18/2023** 10891  
 projected postdevelopment traffic volumes and levels of service of intersections and streets likely to be affected by proposed project.

(b) Site development plan.

- [1] The site development plan, prepared by a registered professional civil engineer and registered land surveyor, shall comply with the development plan requirements identified in § 675-1010 of the City of Gardner Zoning Code and shall accompany the site plan review and special permit applications.
- [2] The proposed site development plan shall incorporate recommendations of the traffic impact study. The following guidelines shall be used to evaluate compliance with the standards herein:
  - [a] Requires a minimum of two stacking lanes: one lane to be used for product or service delivery and one, at a minimum, to be used as an outlet for traffic flow and public safety vehicle access. No matter how many stacking lanes are used for product or service delivery, a minimum of one stacking lane shall be included in the design as an outlet for traffic flow and public safety vehicle access.
  - [b] Entrances to stacking lane(s) shall be clearly marked and shall be a minimum of 40 feet from the intersection with the public street. The distance shall be measured from the property line along the street to the beginning of the entrance.
  - [c] Each stacking lane shall be 10 feet in width along all portions of the lane(s).
    - [i] Fast-food restaurants shall have a minimum of 10 spaces for stacking cars accessing the ordering window or speaker. If pickup/payment windows are provided separately, the stacking distance between windows and/or speaker(s) shall be a minimum of two stacking spaces.
    - [ii] Banks, service and retail establishments shall have a minimum of five stacking spaces for cars accessing a drive-through window or speaker.
  - [d] Stacking lanes shall be delineated from traffic aisles, other stacking lanes and parking areas with striping, curbing, landscaping and the use of alternative paving materials or raised medians.
  - [e] Stacking lanes shall be designed to prevent congestion, both on site and on adjacent streets. Stacking lane layout:
    - [i] Shall be integrated with the on-site circulation pattern;
    - [ii] Shall minimize conflicts between pedestrian and vehicular traffic by providing physical and visual separation between the two;
    - [iii] Shall be located at the side or rear of buildings;
    - [iv] Shall provide an emergency bypass or exit;
    - [v] Shall not impede or impair access into or out of parking spaces;
    - [vi] Shall not impede or impair vehicular or pedestrian traffic movement;
    - [vii] Shall not interfere with required loading and trash storage areas;
    - [viii] Shall not enter or exit directly into a public right-of-way.
  - [f] Locate buildings with drive-through along the front lot line closest to the street edge whenever possible.
  - [g] Layout of outdoor service equipment, menu signs and speaker boards.
    - [i] There shall be one sign permitted for each stacking lane used for product or service delivery.

Item 10891 **Withdrawn by Vote of the City Council - 4/18/2023** 10891

- (i) Signs shall be a maximum of 40 square feet, with a maximum height of seven feet, and shall follow requirements of Article IX, Signs and Advertising Devices. P.O.S. signs placed on a menu sign shall not cause the menu sign to exceed these maximum standards.
- (iii) Menu signs and speaker boards shall be physically shielded from any public street and residential properties by landscaping or other means.
- (iv) Outdoor speakers shall be directed away from abutting properties.
- (h) Trash receptacles should be placed strategically within the drive-through layout to minimize litter on site.
- (i) Provide sufficient setbacks, buffer, and screening from residential or other abutting properties, including sound- and light-attenuating barriers when appropriate.

**CITY OF GARDNER****FIRE DEPARTMENT  
70 CITY HALL AVENUE  
GARDNER, MA 01440-2671****OFFICE OF FIRE CHIEF  
GREGORY F. LAGOY****(978) 632-1616 Ext. 5  
FAX (978) 630-4028**

March 28, 2023

Mayor Michael Nicholson  
City of Gardner  
95 Pleasant St.  
Gardner, MA 01440

Good afternoon Mr. Mayor,

After researching Fire Department Incident data, I have found the following regarding Motor Vehicle Accidents on Route 140/Green Street (#827 &amp; up) from 2013 through 2023:

Total Fire Department responses for all types of MVA's - 191  
Of those, total number that were reported as having injuries - 125

If you would like any more information regarding this data, please feel free to contact me.

Respectfully,

A handwritten signature in black ink, appearing to read "G F L", written over a horizontal line.

Gregory F. Lagoy  
Fire Chief

## Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

- (4) Assisted living facilities.
- (5) Convenience retail.
- (6) Business or professional office.
- (7) Restaurant.
- (8) Office building.
- D. Density and dimensional requirements.
- (1) The minimum common open space requirement of the overall tract in the RR2 shall be 30%, exclusive of areas located in floodplains and wetlands. In the COM2, IND1 and IND2, the minimum common open space requirement of the overall tract is 20%, exclusive of areas located in floodplains and wetlands.
- (2) Multifamily residential structures shall contain no more than eight units per building and shall be clustered to foster neighborhood connections. Residential density shall not exceed 20 units per acre, to be calculated exclusive of areas located in flood zones and wetlands.
- (3) The area developed for residential use shall not exceed 50% of the overall tract, exclusive of areas located in floodplains and wetlands.
- (4) Setbacks. Industrial uses shall be set back a minimum of 20 feet from commercial uses and 50 feet from residential uses. The Planning Board retains the authority to increase minimum setbacks at its discretion in the interest of safety, circulation, or other factors.
- (5) Maximum building height shall be 65 feet.
- E. Parking and other requirements.
- (1) Parking shall be in accordance with those requirements set forth in § 675-750, Schedule of parking uses. The Planning Board may allow for shared use parking if the applicant can prove the specified parking demand will occur at different and offsetting times of day. The use of shared parking is encouraged to reduce impervious surfaces and enhance overall design of the development.
- (2) Proposed developments which include over 12 residential units shall require 20% of the overall number of units to be affordable to persons and families earning 80% or less of the area's median income, and these units shall remain affordable for a minimum period of 30 years.
- F. Site plan review. All developments proposed for SGPUD shall undergo site plan review. For the convenience of the applicant, site plan review and applications for a special permit pursuant to this section shall be held concurrently. The applicant will be responsible for submitting a request and meeting all submission requirements concurrently in order to streamline notice and hearing requirements.

### § 675-550 Surface Water Protection Overlay District.

- A. Purpose. The purpose of the Surface Water Protection Overlay District is to:
- (1) Promote the health, safety, and general welfare of the community by ensuring an adequate quality and quantity of drinking water for the residents, institutions, and businesses;
- (2) Preserve and protect existing and potential sources of drinking water supplies;
- (3) Conserve the natural resources of the City; and
- (4) Prevent temporary and permanent contamination of the environment.
- B. Authority. The Surface Water Protection Overlay Districts are adopted pursuant to authority provided by MGL c. 40A and the Home Rule Amendment, Article 89 of the Amendments to the Constitution of the commonwealth.
- C. Definitions. For the purposes of this section, the following words and phrases shall be defined as follows. References to statutes and regulations shall be deemed a reference to such law or regulation as of the effective date of this section.

#### AUTOMOBILE GRAVEYARD AND JUNKYARD

An establishment or place of business which is used, maintained, or operated for storing, keeping, buying, or selling wrecked, scrapped, ruined, or dismantled motor vehicles or motor vehicle parts, as defined in MGL c. 140B, § 1.

#### CMR

Code of Massachusetts Regulations.

#### COMMERCIAL FERTILIZER

Any substance containing one or more recognized plant nutrients which is used for its plant nutrient content and which is designed for use or claimed to have value in promoting plant growth, except unmanipulated animal and vegetable manures, marl, lime, limestone, wood ashes, and gypsum, as defined in MGL c. 12B, § 64.

# Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

Massachusetts Department of Environmental Protection.

## HAZARDOUS MATERIAL

Any substance or mixture of physical, chemical, or infectious characteristics posing a significant, actual, or potential hazard to water supplies or other hazards to human health if such substance or mixture were discharged to land or water. Hazardous materials include, without limitation, synthetic organic chemicals, petroleum products, heavy metals, radioactive or infectious wastes, acids and alkalis, solvents and thinners in quantities greater than normal household use, and all substances defined as hazardous or toxic under MGL c. 21C and 21E and 310 CMR 30.00.

## HAZARDOUS WASTE

Any waste defined in the Massachusetts Hazardous Waste Regulations, 310 CMR 30.010. This includes, but is not limited to, waste oil, waste solvents, waste oil-based paint and waste pesticides.

## IMPERVIOUS SURFACE

Material or structure on, above, or below the ground that does not allow precipitation or surface water to penetrate directly into the soil.

## LANDFILL

A facility established in accordance with a valid site assignment for the purposes of disposing solid waste into or on the land, pursuant to 310 CMR 19.006.

## MGL

Massachusetts General Laws.

## NONSANITARY WASTEWATER

Wastewater discharges from industrial and commercial facilities containing wastes from any activity other than collection of sanitary sewage, including but not limited to activities specified in the Standard Industrial Classification (SIC) codes set forth in 310 CMR 15.004(6).

## OPEN DUMP

A facility operated or maintained in violation of the Resource Conservation and Recovery Act [42 U.S.C. § 4004(a) and (b)], 42 U.S.C. § 6901 et seq., or state regulations and criteria for solid waste disposal.

## PETROLEUM PRODUCT

Petroleum or petroleum by-product, including but not limited to fuel oil, gasoline, diesel, kerosene, aviation jet fuel, aviation gasoline, lubricating oils, oily sludge, oil refuse, oil mixed with other wastes, crude oils, or other liquid hydrocarbons regardless of specific gravity. "Petroleum product" shall not include liquefied petroleum gas, including but not limited to liquefied natural gas, propane or butane.

## POTENTIAL DRINKING WATER SOURCES

Areas that could provide significant potable water in the future.

## RECHARGE AREAS

Areas that collect precipitation or surface water and carry it to aquifers. Recharge areas include DEP-approved Zone I, Zone II, or Zone III areas.

## SEPTAGE

The liquid, solid, and semisolid contents of privies, chemical toilets, cesspools, holding tanks, or other sewage waste receptacles. "Septage" does not include any material that is a hazardous waste as defined by 310 CMR 30.000.

## SLUDGE

The solid, semisolid, and liquid residue that results from a process of wastewater treatment or drinking water treatment. "Sludge" does not include grit, screening, or grease and oil which are removed at the headworks of a facility.

## SURFACE WATER PROTECTION OVERLAY DISTRICT

Those land areas designated on a map adopted pursuant to this section that provide recharge to an existing or planned public drinking water supply well. The Surface Water Protection District includes all areas designated as a Zone A and Zone B as approved by the DEP and Zone C.

## TREATMENT WORKS

Any and all devices, processes and properties, real or personal, used in the collection, pumping, transmission, storage, treatment, disposal, recycling, reclamation, or reuse of waterborne pollutants, but not including any works receiving a hazardous waste from off the site of the works for the purpose of treatment, storage, or disposal.

## VERY SMALL QUANTITY GENERATOR

Any public or private entity, other than residential, which produces less than 27 gallons (100 kilograms) a month of hazardous waste or waste oil, but not including any acutely hazardous waste as defined in 310 CMR 30.136.

## WASTE OIL RETENTION FACILITY

Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

## Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

has adequate protection to contain a spill, seepage, or discharge of petroleum waste products in accordance with MGL c. 21, § 52A.

**ZONE A**

The land area between the surface water source and the upper boundary of the bank, and the land area within a 400-foot lateral distance from the upper boundary of the bank of a Class A surface water source, as defined in 314 CMR 4.05(3)(a), and the land area within a 200-foot lateral distance from the upper boundary of the bank of a tributary or associated surface water body.

**ZONE B**

The land area within 1/2 mile of the upper boundary of the bank of a Class A surface water source, as defined in 314 CMR 4.05(3)(a), or edge of watershed, whichever is less. However, Zone B shall always include the land area within a 400-foot lateral distance from the upper boundary of the bank of the Class A surface water source.

**ZONE C+**

The land area not within Zone A and Zone B delineated on a map titled "City of Gardner Water Supply Protection Districts" prepared by the Engineering Department, dated revised January 5, 2011.

- D. Establishment of districts. The Surface Water Protection Overlay Districts, which consist of Zone A, Zone B and Zone C+, are herein established as overlay districts. These districts are described on a map titled "City of Gardner Water Supply Protection Districts," prepared for the Gardner Engineering Department, dated revised January 5, 2011. The map is on file in the office of the City Engineer. Said map is hereby incorporated as part of the Zoning Map of Gardner, Massachusetts, on file in the City Clerk's office.
- E. Boundary disputes.
- (1) Resolution of boundary disputes. If the location of the district boundary in relation to a particular parcel is in doubt, resolution of boundary disputes shall be through a special permit application to the Planning Board as special permit granting authority (SPGA). Any application for a special permit for this purpose shall be accompanied by adequate documentation.
  - (2) Burden of proof. The burden of proof shall be upon the owner(s) of the land to demonstrate that the location of the district boundary with respect to a parcel(s) of land is uncertain. At the request of the owner(s), the SPGA may engage a professional engineer or land surveyor or other qualified expert to determine more accurately the boundaries of the district with respect to individual parcels of land and may charge the owner(s) for the cost of the investigation.
  - (3) Lot divided by district line. Where the boundary line of the Surface Water Protection Overlay District divides a lot or parcel, the requirements established by this section shall apply only to the portion of the lot or parcel located within the district.
  - (4) Amendment of map. Amendments to the map of the Surface Water Protection Overlay District require City Council approval.
- F. Use regulations. The Surface Water Protection Overlay Districts are overlay districts superimposed over the underlying districts set forth in this chapter. Within a Surface Water Protection Overlay District, the requirements of the underlying district continue to apply, except where the requirements of the Surface Water Protection Overlay District are more stringent.
- (1) Prohibited uses in Zones A, B and C+. The following uses are prohibited within Zone A, Zone B and Zone C+ of the Surface Water Protection Overlay District:
    - (a) Facilities that, through their acts or processes, generate, treat, store or dispose of hazardous waste that is subject to MGL c. 21C and 310 CMR 30.000, except for the following:
      - [1] Very small quantity generators, as defined by 310 CMR 30.000; and
      - [2] Treatment works approved by the Department designed in accordance with 314 CMR 5.00 for the treatment of contaminated groundwater or surface water.
    - (b) Uncovered or uncontained storage of fertilizers.
    - (c) Uncovered or uncontained storage of road or parking lot de-icing and sanding materials.
    - (d) Storage or disposal of snow or ice, removed from highways and streets, outside of Zone A, that contains de-icing chemicals.
    - (e) Uncovered or uncontained storage of manure.
    - (f) Junk and salvage operations.
    - (g) Aboveground storage of liquid hazardous material, as defined in MGL c. 21E, or liquid propane or liquid petroleum products, except as follows:
      - [1] The storage is incidental to normal household use, outdoor maintenance, or the heating of a structure; use of emergency generators; or a response action conducted or performed in accordance with MGL c.

## Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

the and 314 CMR 4.000 and which is exempt from a groundwater discharge permit pursuant to 314 CMR 5.05(14); and

- (3) The storage is either in a container(s) or aboveground tank(s) within a building or outdoors in a covered container(s) or aboveground tank(s) in an area that has a containment system designed and operated to hold either 10% of the total possible storage capacity of all containers or 110% of the largest container's storage capacity, whichever is greater. However, these storage requirements do not apply to the replacement of existing tanks or systems for the keeping, dispensing or storing of gasoline, provided that the replacement is performed in accordance with applicable state and local requirements.

(h) Treatment or disposal works subject to 314 CMR 3.00 or 5.00, except the following:

- (1) The replacement or repair of an existing treatment or disposal works that will not result in a design capacity greater than the design capacity of the existing treatment or disposal works;

- (2) Treatment or disposal works for sanitary sewage if necessary to treat existing sanitary sewage discharges in noncompliance with 310 CMR 15.000, the State Environmental Code, Title 5: Standard Requirements for the Siting, Construction, Inspection, Upgrade and Expansion of On-Site Sewage Treatment and Disposal Systems and for the Transport and Disposal of Septage, provided that the facility owner demonstrates to the Department's satisfaction that there are no feasible siting locations outside of Zone A. Any such facility shall be permitted in accordance with 314 CMR 5.00 and shall be required to disinfect the effluent. The Department may also require the facility to provide a higher level of treatment prior to discharge;

- (3) Treatment works approved by the DEP designed for the treatment of contaminated groundwater or surface water and operated in compliance with 314 CMR 5.05(3) or (13); and

- (4) Discharge by a public water system of waters incidental to water treatment processes.

(2) Uses prohibited in Zone A but allowed by special permit in Zone B and C+:

- (a) Sand and gravel excavation operations;

- (b) Motor vehicle repair operations;

- (c) Cemeteries (human and animal) and mausoleums;

- (d) Solid waste combustion facilities or handling facilities as defined at 310 CMR 16.00;

- (e) Land uses that result in the rendering impervious of more than 15%, or more than 20% with artificial recharge, or 2,500 square feet of any lot, whichever is greater;

- (f) Commercial outdoor washing of vehicles and commercial car washes; and

- (g) All underground storage tanks.

G. Special permit procedures.

- (1) Special permit granting authority. The special permit granting authority (SPGA) shall be the Planning Board. A special permit may be granted if the SPGA determines that the intent of this section as well as the specific criteria set forth in this Subsection G are met. In making such determination, the SPGA shall consider the simplicity, reliability, and feasibility of the control measures proposed and the degree of threat to surface water quality which would result if the control measures failed.

- (2) Rules and regulations. The Planning Board may adopt and from time to time amend rules and regulations which shall prescribe the size, form, content, and style of the plans and procedures for submission and approval of such special permit. These rules and regulations shall be filed with the City Clerk.

- (3) Review by other boards and officials. Whenever an application for a special permit is filed with the Planning Board under this section, said Board shall transmit, within six working days of the filing of the completed application, copies of the application, accompanying site plan, and other documentation to the Board of Health, Conservation Commission, Building Commissioner, Director of Public Works, Fire Chief, and the City Engineer for their consideration, review, and report. The copies necessary to fulfill this requirement shall be furnished by the applicant. An application shall not be deemed complete until all copies of required information and documentation have been filed with the Planning Board. The Planning Board shall notify applicants by registered mail, within 14 days of submittal, of incomplete application status, and the applicant shall have 14 days from the mailing of such notice to complete an application. Failure to complete an application within such time shall result in a return of all materials to the applicant, without prejudice. Reports from other boards and officials shall be submitted to the Planning Board by the date of the public hearing, but in any case, within 35 days of receipt of the reviewing party of all the required materials; failure of these reviewing parties to make recommendations after having received copies of all such required materials shall be deemed a lack of opposition thereto. If the public hearing by the Planning Board is held prior to the expiration of the thirty-five-day period, the Planning Board shall continue the public hearing to permit the formal submission of reports and recommendations within that thirty-five-day period. The decision/findings of the Planning Board shall contain, in writing, an explanation for any departures from the recommendations of any reviewing party.

## Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

5.02.01. All applications for special permits shall contain the information listed below, unless waived or modified by the SPGA, with reasons therefor:

- (a) A site plan, submitted on twenty-four-inch-by-thirty-six-inch sheets, on a minimum scale of one-inch equals 40 feet, and prepared by a registered professional engineer and a registered land surveyor. Site plans submitted under this section shall also include the following:
- [1] All property lines;
  - [2] All adjacent public streets;
  - [3] All existing and proposed buildings, structures, parking areas, and service areas;
  - [4] All facilities for sewage, refuse, and other waste disposal;
  - [5] Facilities for surface water drainage, both temporary and permanent;
  - [6] Future expansion areas;
  - [7] Provisions to prevent contamination of surface water by petroleum products;
  - [8] Drainage recharge features and provisions to prevent loss of recharge;
  - [9] Provisions to prevent soil compaction;
  - [10] Provisions to prevent seepage from sewer pipes;
  - [11] Location of wetlands, streams, water bodies and floodplain;
  - [12] Existing drainage patterns;
  - [13] Existing woodlands;
  - [14] Areas having slopes exceeding 15%;
  - [15] Areas to be disturbed by construction;
  - [16] Areas where earth and other materials subject to erosion will be temporarily stockpiled;
  - [17] Areas to be used for disposal or storage of construction debris, stones, stumps, etc., if within the district;
  - [18] Temporary and permanent erosion control measures planned, such as sediment basins, stormwater basins, diversion, riprap, stabilization seeding, etc.;
  - [19] Temporary work roads to be used during projects;
  - [20] Location and size of septic system; and
  - [21] Method to contain spillage in fuel filling areas.
- (b) A storm drainage plan showing:
- [1] Locations of drains and culverts and names of streams, rivers, ponds or reservoirs in the City into which they flow;
  - [2] Discharge peaks and expected velocities at drain or culvert outlets;
  - [3] Conditions above and below outlets and expected flow velocities;
  - [4] Supporting computations for the above; and
  - [5] A grading plan showing existing topography and planned grade along existing and/or proposed street or highway profiles.
- (c) A siltation and sedimentation control plan, including:
- [1] Sediment and erosion control structures such as diversions, waterways, slope stabilization structures, sediment basins, etc., in sufficient detail to implement their installation, together with referred standards for soil erosion and sediment as appropriate, and design calculations as required for each structure;
  - [2] Seeding and/or sodding requirements for all exposed areas, including seedbed preparation, seed mixtures, lime, fertilizer and mulching requirements with referenced standards;
  - [3] Schedule or sequence of operation with starting dates for clearing and/or grading, timing for storm drain and culvert installation, duration of exposure of soils and critical area stabilizations, both temporary and permanent. Indicate date when critical areas stabilization, paving, seeding, mulching, or sodding is to be completed; and
  - [4] General notes for sediment control that spell out the procedures for implementing the plan.

## Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

(d) The technical reference to be used to prepare and review site plans is "Guidelines for Soil and Water Conservation in Urbanizing Areas of Massachusetts," United States Department of Agriculture, Soil Conservation Service, Amherst, Massachusetts. Specific guidelines to be used include, but are not limited to:

- [1] Limit grading to only those areas actively undergoing current construction;
- [2] The smallest practical area of land should be exposed at one time during development;
- [3] Limit the length of time graded areas are exposed;
- [4] Provide temporary or permanent stabilization of disturbed areas at the earliest opportunity. Limit exposure to less than 60 days;
- [5] Retain and protect as much of the natural vegetation as possible;
- [6] Permanent improvements such as streets, utilities, storm sewers, vegetated waterways, and other features of the development should be scheduled for installation to the greatest extent possible before removing the vegetative cover from an area scheduled for building construction;
- [7] Protect all fill slopes and cut slopes exceeding five feet in height from storm runoff through the use of diversion berms, drop chutes and other acceptable means;
- [8] Rough-graded rights-of-way awaiting installation of utilities and/or pavement should be protected by the installation of interceptor berms across the right-of-way to reduce the length of slope between berms to not more than 250 feet; and
- [9] On sites where the above procedures are impractical or not acceptable, where the topography permits, install sediment basins, desilting basins, or silt traps to remove sediment from runoff waters.

(e) A narrative statement detailing all the information set forth below, if applicable:

- [1] A complete list of all chemicals, pesticides, fuels, or other potentially hazardous materials, including but not limited to road salt or de-icing chemicals, manure, and fertilizers or soil conditioners, to be used or stored on the premises in quantities greater than associated with normal household use, accompanied by a description of the measures proposed to protect all storage containers from vandalism, corrosion, and leakage and to provide for control of spills.
- [2] A description of all potentially hazardous wastes to be generated in quantities greater than associated with normal household use, accompanied by a description of the measures proposed to protect all waste storage containers from vandalism, corrosion, and leakage and to provide for control of spills.
- [3] For underground or aboveground storage of hazardous materials, certification by a registered professional engineer that such storage facilities or containers are:
  - [a] In compliance with all applicable federal or state regulations;
  - [b] In compliance with design specifications, as prepared by a registered professional engineer; and
  - [c] Designed with secondary containment adequate to contain a spill the size of the container's total storage capacity.
- [4] For any proposed activity on a lot which will render more than 15% of the total lot area or more than 2,500 square feet impervious, a system for groundwater recharge must be provided that does not degrade surface water quality, by stormwater infiltration basins or similar system covered with natural vegetation. Dry wells shall be used only where other methods are infeasible. Such basins and wells shall be preceded by oil, grease and sediment traps to facilitate removal of contaminants.
- [5] For stockpiling or disposal of snow from outside the district, earthmoving and alteration, storage of sludge or septage, manure storage, treatment works, and/or discharge of process wastewater, a narrative statement, prepared by a registered professional engineer, assessing the impacts, if any, of the proposed activity on surface water and surface water quality on the premises, adjacent to the premises, and on any well field(s) down gradient from the proposed activity or use, accompanied by a description of the measures proposed to protect such well fields.

#### H. Decision.

- (1) Special permits shall be granted only if the SPGA determines, after reviewing the recommendations of the reviewing parties delineated in Subsection G(3), that:
  - (a) Surface water quality resulting from on-site wastewater disposal or other operations on site shall not fall below the more restrictive of federal or state standards for drinking water or, if existing surface water quality is already below those standards, on-site disposal or operations shall result in no further deterioration; and
  - (b) Activities shall be designed to avoid substantial disturbance of the soils, topography, drainage, vegetation, and other water-related natural characteristics of the site to be developed.
- (2) Powers of the SPGA. The Planning Board may approve, approve with conditions, or deny an application for a special permit that is governed, in any manner, by the provisions of this section.

**Item 10891 - Withdrawn by Vote of the City Council - 4/18/2023**

to be made. They shall be enforced in accordance with the regulations of the Surface Water Protection Overlay District without a written advisory report from the Gardner Board of Health.

**I. Miscellaneous provisions.**

- (1) Relation to Groundwater Protection Overlay Districts. In those instances where a surface water supply is located near a groundwater well, the Zone A, Zone B and Zone C+ established herein and the Zone II established to protect the wellhead in § 675-520 may overlap one another. In such cases of overlap, the more stringent regulation shall apply.
- (2) Notice of enforcement. Written notice of any violations of this section shall be given by the Building Commissioner to the responsible person as soon as possible after detection of a violation or a continuing violation. Notice to the assessed owner of the property shall be deemed notice to the responsible person. Such notice shall specify the requirement or restriction violated and the nature of the violation and may also identify the actions necessary to remove or remedy the violations and preventive measures required for avoiding future violations and a schedule of compliance. A copy of such notice shall be submitted to the Planning Board, Board of Health, Conservation Commission, City Engineer, Department of Public Works, and the Water Department.
- (3) Costs. The cost of containment, cleanup, or other action of compliance shall be borne by the owner and operator of the premises.

**§ 675-560 Large-Scale Ground-Mounted Solar Photovoltaic Overlay District.**

**A. Purpose and applicability.**

- (1) The purpose of this section is to promote the creation of new large-scale ground-mounted solar photovoltaic installations by providing standards for the placement, design, construction, operation, monitoring, modification and removal of such installations that address public safety and minimize impacts on scenic, natural and historic resources and to provide adequate financial assurance for the eventual decommissioning of such installations.
- (2) The provisions set forth in this section shall apply to the construction, operation and/or repair of large-scale ground-mounted solar photovoltaic installations.
- (3) This section applies to large-scale ground-mounted solar photovoltaic installations proposed to be constructed after the effective date of this section. This section also pertains to physical modifications that materially alter the type, configuration, or size of these installations or related equipment.

**B. Designation of overlay locations.** The overlay locations designated by Gardner City Council, in accordance with MGL c. 40A, § 5, where ground-mounted large-scale solar photovoltaic installations may be sited as of right. Said overlay locations are shown on the Zoning Map of Gardner, Massachusetts, pursuant to MGL c. 40A, § 4. This map is hereby made a part of this chapter and is on file in the office of the City Clerk.

**C. Definitions.** As used in this section, the following terms shall have the meanings indicated:

**AS-OF-RIGHT SITING**

Development may proceed without the need for a special permit, variance, amendment, waiver, or other discretionary approval. As-of-right development shall be subject to site plan review to determine conformance with local zoning ordinances. Projects cannot be prohibited but can be reasonably regulated by the Building Commissioner and/or person designated by the Planning Board.

**LARGE-SCALE GROUND-MOUNTED SOLAR PHOTOVOLTAIC INSTALLATION**

A solar photovoltaic system that is structurally mounted on the ground and is not roof mounted and has a minimum nameplate capacity of 250 kW DC.

**ON-SITE SOLAR PHOTOVOLTAIC INSTALLATION**

A solar photovoltaic installation that is constructed at a location where other uses of the underlying property occur.

**RATED NAMEPLATE CAPACITY**

The maximum rated output of electric power production of the photovoltaic system in direct current (DC).

**SITE PLAN REVIEW**

Review by the Planning Board pursuant to § 675-1010 of this chapter.

**SOLAR PHOTOVOLTAIC ARRAY**

An arrangement of solar photovoltaic panels.

**D. General requirements for all large-scale solar power generation installations.** The following requirements are common to all solar photovoltaic installations to be sited in designated overlay locations:

- (1) Compliance with laws, ordinances and regulations. The construction and operation of all large-scale solar photovoltaic installations shall be consistent with all applicable local, state and federal requirements, including but not limited to all applicable safety, construction, electrical, and communications requirements. All buildings and fixtures forming part of a solar photovoltaic installation shall be constructed in accordance with the State Building Code.

# Attachment P

**Section 5 INVENTORY OF LANDS****A) OVERVIEW**

For the purpose of this report, Open Space is defined as any substantially undeveloped property with conservation or recreation interest whether owned by a public entity, non-profit, or private party. Property intended primarily for recreation, whether developed or undeveloped and whether or not it includes open space (ex – Greenwood Pool) is included in the inventory.

Protected and unprotected properties are included and identified. A protected open space and recreation property has provision to reduce the risk of destruction or degradation on the property. Unprotected properties lack those provisions and are therefore more vulnerable to loss or conversion to non-open space and recreation uses.

Properties can experience various degrees of protection and by several methods:

- Private lands can be protected in perpetuity or for a specified time through deed restrictions or conservation easements.
- Lands under special taxation programs (Chapter 61, 61A, or 61B) are actively managed by their owners for forestry, agricultural, horticultural, or recreational use. These lands have limited protection.
- Lands acquired for watershed and aquifer protection are usually permanently protected open space.
- Public recreation and conservation lands may be permanently protected open space, provided they have been dedicated to such use by deed.
- Municipal properties may be protected via a City Council vote to acquire them as protected properties.
- Private, public, and non-profit conservation and recreation lands are protected under Article 97 of the Articles of Amendment to the State Constitution.

**B) LANDS OF CONSERVATION INTEREST**

The primary objective of this section is to consider all valuable open land and identify those parcels that are protected open space, and those that are not protected and therefore vulnerable to some type of development. The vulnerable open space parcels are then prioritized to direct future preservation activities by the City, State and private conservation groups.

Fayerweather John A. to Westons Inhabitants (Stamp Not cancelled)

Know all men by these presents that we, John A. Fayerweather, Mrs M. Child & D. M. Hemenway of all of Westons in the County of Worcester and State of Massachusetts, in consideration of One Dollar to us paid by the Inhabitants of the Town of Westons aforesaid, the receipt whereof is hereby acknowledged, do hereby give, grant, bargain, sell and convey unto the said Inhabitants of the Town of Westons, the right to enter a pipe into the well situated on the land of said Fayerweather, Child, & Hemenway, which said land is located on the corner of Milk and Phillips Streets in said Westons and also the right to lay the pipe under ground from said well to or across said Phillips Street as may be desired by said Inhabitants, and also the right to draw water from said well through said pipe at any and all times when needed for the purpose of extinguishing fires and fire purposes, also the right to enter upon the premises of said grantors pipe may

## ROUTE 140 NORTH CORRIDOR BUILDOUT ANALYSIS

### INTRODUCTION

As development occurs in the Route 140 Corridor and surrounding areas, the roadway will witness an inevitable increase in traffic volumes. In planning for future transportation improvements, it is useful to ask such questions as: How much overall growth can the Corridor accommodate? What are the most likely places where growth will occur? What type of growth seems appropriate for the area? And, does it make sense to alter local regulations to promote a different development pattern?

One way to address these questions is through the use of a "Buildout Analysis". A buildout analysis seeks to determine the maximum amount of new growth that could occur if all available land attains its full development potential. The analysis relies upon the zoning regulations in effect and takes into account environmental factors that limit the development potential of a site. The results do not provide a timeframe for predicting when a certain amount of growth may occur, but rather it attempts to quantify the maximum amount of development that can occur if no changes are made to alter the outcomes.

The results are useful to transportation planners, who will better understand the land use changes that will take place over time. It is then possible to identify future roadway improvements that will be necessary, program improvements over time, and make budgeting decisions as traffic reaches certain milestones.

For the Route 140 Corridor, the Steering Committee identified the study area most likely to contribute directly to traffic increases. Winchendon and Gardner initially identified a  $\frac{1}{2}$  mile corridor on each side of the roadway, and Westminster chose a  $\frac{1}{4}$  mile offset. After looking at an initial round of buildout results, the representatives from each community modified the study area by adding in specific parcels and zoning districts where future growth could have a measureable effect on traffic volumes. Maps 1-3 display the community study areas, and Map 4 contains the entire Corridor study area.

### BUILDOUT METHODOLOGY

A buildout analysis consists of two discrete phases: mapping, and quantifying development. The process would not be possible without good geographic information and skillful GIS staff. Each community provided up-to-date parcel and zoning coverages, and the state mapping agency, MassGIS, provided accurate environmental and land use data.

Environmental data is a crucial element of a buildout analysis. Certain lands, because of environmental sensitivity, are considered unsuitable for development; these include wetlands, ponds, flood plains, and steep slopes. In addition, Massachusetts has adopted a regulatory program to protect perennial rivers and streams; under the River Protection Act, no development can occur within the "Riverfront Area", a swath two hundred feet wide from each bank. The buildout analysis interprets these lands as unavailable for development.

The buildout maps display the zoning scheme currently in effect in the three communities. For simplicity, these fall into a residential, commercial, or industrial district. Staff also reviewed the communities' zoning regulations to determine if other land use controls might affect the development potential of the corridor. In Gardner, the Water Supply Protection Overlay District (WSPOD) falls within the northern portion of the City and, by requiring large lots,

limits development to a greater degree than that permitted in the underlying Rural Residential district.

Gardner Scenic View

In addition, GIS staff aggregated land use/land cover data from MassGIS interpreted from 2005 aerial photography. The buildout analysis looks only at vacant land and removes land that is already developed, although it is possible over time for redevelopment to occur. The excluded land uses are active recreation, housing, transportation, commercial/industrial development, power lines, waste disposal, cemeteries, and public/institutional uses. Finally, land

that is permanently protected as open space is also excluded from future development; the parcel coverages from each community provided the source data for open space properties.

The buildout maps display all of this data and allow local officials to identify the location and current zoning of the developable land. The mapping software categorizes all land in the study area as developed, undevelopable, or developable, and calculates the area in each category by zoning district. Land that is developed or undevelopable (open space or environmentally constrained) is excluded from further analysis.

A buildout spreadsheet helps to quantify the amount of new development that can occur. MRPC conducted community-wide buildout analyses in all of its communities about 10 years ago; thus, the spreadsheets were already available for this study. Knowing the amount of developable land in each zoning district, and assuming zoning districts and regulations remain unchanged, the spreadsheet calculates the amount of possible new growth in each community.

Planners then calculated the buildout results under existing conditions, i.e. the "base case analysis". A significant benefit of the methodology is that it is relatively easy to achieve different results by modifying the assumptions. One can run alternative growth scenarios to quantify the changes that would occur by altering zoning regulations. Planners can play "What if" games. For example: What would happen if the Town re-zoned some residential property to a commercial district? Or What if the City promoted a high intensity mixed use concept at a particular node? These scenarios will be discussed shortly.

### BASE CASE BUILDOUT RESULTS

Table 1 displays information on existing conditions in the study area including acres of land in each community by zoning district for the three categories of Undevelopable, Developed, and Developable Land. Table 2 contains the buildout results for the base case scenario.

**Table 1**  
**Development Characteristics of the Route 140 North Corridor**

|                                 | Undevelopable   | Developed     | Developable     | Total           |
|---------------------------------|-----------------|---------------|-----------------|-----------------|

### Gardner

A shown in Table 1, only 25% of the study area in Gardner is available for development; 68.1% is undevelopable and 6.6% is already developed. Much of the undevelopable land is in public ownership by the City for water supply protection. While the amount of developable land is nearly four times greater than that occupied by existing development, the large amount of undevelopable land, and the presence of the low density watershed regulations, will help to retain an open character for the Gardner portion of the Route 140 Corridor.

Of the nearly 1,900 acres of developable land, 1,060 acres are in the Rural Residential district where new homes require large lots (60,000 sq. ft.). It is unlikely that the City will extend public water and sewer systems to these outlying areas. Another 80 acres are in a Single Family Residential District with a density of 3.5 units per ac. This density does require service by public water and sewer systems. Only 12% of the available land in the Gardner portion of the study area (159 ac.) is in a commercial or industrial district.

For the base case scenario, Table 2 indicates that Gardner could witness 792 new dwelling units and over 3.0 million square feet of non-residential development. Over 900 acres of Rural Residential land is within the WSPOD, which specifies a three-acre minimum lot size for a single family home. The low density is a valid means of protecting the water supply, and of course, has the effect of reducing the residential buildout.

The commercial and industrial districts allow a reasonable intensity of development. The analysis uses a factor termed "Effective FAR" to calculate the amount of non-residential development. The Effective FAR takes into account land needed for setbacks, open space percentages, and parking, and based on allowable stories, it is a measure that expresses the amount of building floor area a lot can accommodate. For example, in Gardner's Commercial 1 district, its Effective FAR of 0.33 means that a 10,000-sq. ft. lot could accommodate 3,300 sq. ft. of building floor area in compliance with zoning and parking codes. Exceeding the FAR would require structured parking, which is not economically feasible in today's market.

Table 2 also shows the possible impacts at full buildout of water demand, new residents, and new students. Based on a water consumption rate of 75 gallons per capita per day and 75 gallons per 1,000 sq. ft. of non-residential floor area, the new development would require 368,494 gallons of water per day. This is true whether or not development is tied into the municipal water system. However, it is unlikely that the commercial and industrial floor space at buildout would be possible without public water service. The number of new residents and new students are based on the number of people per household (2.95) and number of public school students per household (0.417) from the 2000 Census. The 792 new homes in the Corridor could generate 1,862 new residents and 319 new students.

### Westminster

Westminster comprises the smallest portion of the study area, 736 acres, since it only includes the area between the Route 2/140 intersection and the Gardner line. In contrast to Gardner, 61.5% of the study area is available for development and 25.5% is already developed. Only 13% of the land area is undevelopable due to environmental constraints. There is a fairly even distribution of buildable land across the three zoning categories: 172 acres of Commercial 1, 151 acres of Industrial 1, and 130 acres of Residential 1.

<sup>1</sup> FAR stands for Floor Area Ratio, i.e. the relationship of building floor area to lot area

| Grand Total                        | 3,454.99               |               | 28,027,312                 |              |                         | 1,240          | 2,333,893 | 3,091         | 572          |

For the base case scenario, 130 acres of developable land in Westminster's R-1 district could yield 98 new dwelling units using the minimum lot size of 50,000 sq. ft. This would generate 267 new residents and 52 new students based on multipliers of 2.73 people per household and 0.53 public school students per household from the 2000 Census. In Commercial 1, 172 acres of developable land could yield about 2.55 million square feet of floor

Westminster - Rt. 2 Area

area. In Industrial 1, 151 acres of developable land could result in 1.69 million sq. ft. of floor area. Altogether, this new growth would have a water demand of 338,142 gallons per day.

### Winchendon

Winchendon has the largest amount of developable land in the study area. This is partially due to incorporating large commercial and industrial districts that lie beyond the 1/2 mile corridor. Town representatives believed future development in these areas would have a significant impact on traffic growth and wished to assess the magnitude of growth current zoning would allow. 45.7% of the study area in Winchendon is available for development, or about 1,700 acres. About half of this land is zoned for residential use. With a two-acre minimum lot size in the Rural Residential district, the 827.5 developable acres would allow 350 dwelling units. This growth would increase the Town's population by 962 residents and add 202 students to the public school system (based on multipliers of 2.75 people and 0.576 students per household).

The Winchendon portion of the study area contains a large amount of developable land zoned for non-residential uses, about 400 acres for commercial development and 479 acres for industrial development. Combined, there are 876 acres of developable land that has a potential buildout of 20.7 million sq. ft. of floor space. Clearly, such a large amount of development would have major consequences on traffic along Route 140. Water demand from all future development would exceed 1.6 million gallons per day.

### Study Area Summary

On the whole, the Buildout Analysis reveals that there is a significant amount of room available for new growth in the Route 140 Corridor. Of the 9,659 acres in the entire study area, over half (56.3%) is undevelopable; however, 35.8% of the total acreage is developable, which is 4.6 times as much as the land already developed (7.9% of the study area). While Gardner has the most land, 68.4% of it is undevelopable. Winchendon has the most developable land in the study area, 1,703 acres, which comprises 50% of all developable land.

Furthermore, 65% of the developable commercial and industrial land in the study area is in Winchendon. Combined all three communities offer 1,358 ac. of developable commercial and industrial land, which can accommodate 28.0 million sq. ft. of non-residential floor space. Winchendon's potential 20.7 million sq. ft. of floor space comprises 74% of the commercial and industrial development at buildout in the study area. Gardner's 3.0 million sq. ft. and Westminster's 4.2 million sq. ft. comprise 15.1% and 10.9% respectively of the Corridor's potential commercial and industrial build-out.

Residentially, about 2,100 acres is developable, which comprises 61% of all developable land. Gardner contains 54%, and Winchendon 40%, of the total developable residential land. This residential property in the study area could accommodate 1,240 new dwelling units. Gardner has 1,140 acres of developable residential land and would yield the largest number of new units, 792, or 64% of the total units.

### ALTERNATIVE GROWTH SCENARIOS

As noted above, it is possible to modify the data and assumptions in the Buildout Analysis to test different growth policies. For example, local officials might wish to see the results from re-zoning residential land to a commercial district, increasing minimum lot size requirements in a residential district, or establishing a high density mixed-use zoning district at a transportation node to encourage a more compact, pedestrian-scale, village-style development. The Steering Committee considered this opportunity, and members from Gardner and Winchendon proposed an alternative development scenario for their communities. In Westminster, local officials believe the existing zoning pattern is a good one. Developable land along Route 140 is already zoned for commercial and industrial purposes, and near-by residential developments limit opportunities for re-zoning.

### Winchendon Alternative Growth Scenario

Winchendon officials want to explore the possibility of future opportunities for economic development along Route 140 in the southern part of Town by re-zoning land from Rural Residential to Commercial 1. This area coincides with Winchendon's "Gateway Overlay District", where

Winchendon - Gateway Area

special development standards apply to minimize the traffic impacts of new development. It includes the area along the westerly side of Route 140 from the southern end of the C-1 district to the Gardner line with a depth of 500'; on the easterly side, it includes the area bounded by Route 140, the Gardner line, and the North Central Pathway rail trail. Map 5 displays the revised zoning boundaries used in the alternative buildout analysis.

The new district contains 347.4 acres, of which 251.5 ac. are developable according to the GIS analysis. Keeping the zoning standards of the C-1 district constant, the land would accommodate 5.4 million sq. ft. of commercial floor area. Correspondingly, the residentially zoned acreage in the Winchendon portion of the study area falls to 581.1 acres, resulting in a decrease of 104 dwelling units at buildout. Table 3 compares the Winchendon study area buildout under the base and alternative scenarios.

**Table 3  
Winchendon Commercial Development Scenario**

|                          | Base Scenario | Gateway Scenario | Change    |
|--------------------------|---------------|------------------|-----------|
| Developable Acres in RR  | 827.5         | 581.1            | -246.4    |
| Developable Acres in C-1 | 396.7         | 643.0            | 246.4     |
| New Dwelling Units       | 350           | 246              | -104      |
| Commercial Floor Area    | 8,708,588     | 14,117,454       | 5,408,866 |
| Industrial Floor Area    | 12,025,905    | 12,025,905       | 0         |
| New Residents            | 962           | 676              | -286      |
| New Students             | 202           | 142              | -60       |
| Water Demand             | 1,627,257     | 2,011,435        | 384,178   |

Winchendon could view the possibility of re-zoning this portion of the study area as an opportunity to achieve greater economic development. Winchendon has a great deal of land already zoned for commercial and industrial purposes in the area, and officials should consider the effect on those properties of encouraging commercial development here. A less intensive alternative Winchendon could consider is to adopt a planned development bylaw that would allow large projects by special permit within the Gateway Overlay district. For example, a planned business development bylaw could allow a large shopping plaza or big-box retail outlet subject to reasonable regulations to protect residential abutters.

In either case, the presence of the highway affords excellent access to developable property. The re-zoning scenario would increase the amount of developable land in C-1 by about 250 acres. Correspondingly, the number of potential dwelling units would decrease by more than 100, lessening the demand for municipal services and school education costs. The idea of allowing some commercial or industrial development here has merit and local officials could explore it further. This buildout analysis at least provides an initial basis for understanding the long-range land use consequences of the decision.

**Gardner Alternative Growth Scenario**

Gardner - Matthews St. Area

In 2006, Martin Wolons proposed a high-density, mixed use development concept along the westerly side of Route 140 in the vicinity of Pearl and Matthews Streets. The developer sought approval under the state's "Smart Growth" statute, MGL Chapter 40R, which promotes multi-family housing, including affordable units, to create town center-style developments. In return for encouraging housing production, a community receives incentive

payments from the state. Chapter 10R requires approval of a discrete zoning district by the local legislative body to demonstrate community support and establish local standards for design. The project consisted of 650 units of housing and 200,000 square feet of commercial space on 114 acres. Because of poor economic conditions, the developer abandoned the project. Since the site remains vacant, has good highway access, and is near public water and sewer systems, Gardner Steering Committee members asked to run an alternative growth scenario at this location to help understand possible impacts of a large development here.

With several parcels under common ownership, the analysis incorporates the same area as the 10R project. Map 6 displays the revised zoning boundaries used in this scenario. Rather than a predominantly residential project, this hypothetical development assumes a mix of light industrial and office uses, termed the LI-O scenario<sup>2</sup>. The GIS analysis determined that 82.3 acres of the site are developable. The LI-O scenario allocates 50% of the developable land for light industry and 50% for office and research and development. Industrial uses tend to favor extensive one-story buildings and have a relatively low parking demand; office and research uses favor multi-story buildings and have a higher parking demand due to the employee-intensive nature of such businesses. Combining these uses, the LI-O scenario assumes an overall Effective FAR of 0.5 for the district. Table 4 displays the results of this scenario.

**Table 4  
Gardner Mixed-Use Development Scenario**

|                           | Base Scenario | LI-O Scenario | Change    |
|---------------------------|---------------|---------------|-----------|
| Developable Acres in RR   | 1,061.3       | 979.06        | -82.3     |
| Developable Acres in LI-O | 0             | 82.3          | 82.3      |
| New Dwelling Units        | 792           | 742           | -50       |
| New LI-O Floor Area       | 0             | 1,792,058     | 1,792,058 |
| New Residents             | 1,862         | 1,744         | -118      |
| New Students              | 319           | 298           | -21       |
| Water Demand              | 368,444       | 359,639       | -8,805    |

The proposed Light Industry-Office scenario could yield an additional 1.8 million sq. ft. of non-residential floor space at buildout. This location is currently zoned RR and is outside the WSPOD; removing the land from RR could reduce the number of dwelling units by 50 units. This scenario provides an interesting counter-point to the chapter 10R project, which contained 650 dwelling units and 200,000 sq. ft. of retail space. Assuming the previous developer had proposed a realistic concept based on infrastructure capacity and the site's physical conditions, it is plausible that the location could also accommodate an intensive industrial park or office/research complex. Gardner officials may wish to examine surrounding land uses to assess whether such a use would be compatible with the neighborhood and consider alternative development schemes, e.g. including a residential or commercial component.

<sup>2</sup> To create a residential component, Gardner's Smart Growth Planned Unit Development (SGPUD) allows up to 50% of a tract to consist of residential uses.

## LAND USE GOAL

The following land use goal sets an overall growth policy for communities to plan and develop the Route 140 Corridor to achieve the highest and best use of the available land and public infrastructure for the benefit of the three communities:

*Communities connected by Route 140 should proactively plan together for future growth. Through innovative zoning measures communities will foster a sustainable pattern of development, one that preserves roadway capacity and public safety, promotes economic development, conserves resources, and achieves high standards of design.*

## RECOMMENDATIONS

The preceding analysis documents the considerable amount of developable land in the Corridor and the large potential for economic growth. Most communities welcome new economic development because it creates jobs and adds to the local tax base without overwhelming municipal services. However, such growth should not occur at the expense of community character, environmental excellence, or quality of life. Despite the vast potential for new growth in the Corridor, the challenge is not to just recruit new business but to achieve high quality development. The following recommendations offer techniques to balance economic opportunity and preserve community character so that residents may enjoy the benefits of new growth.

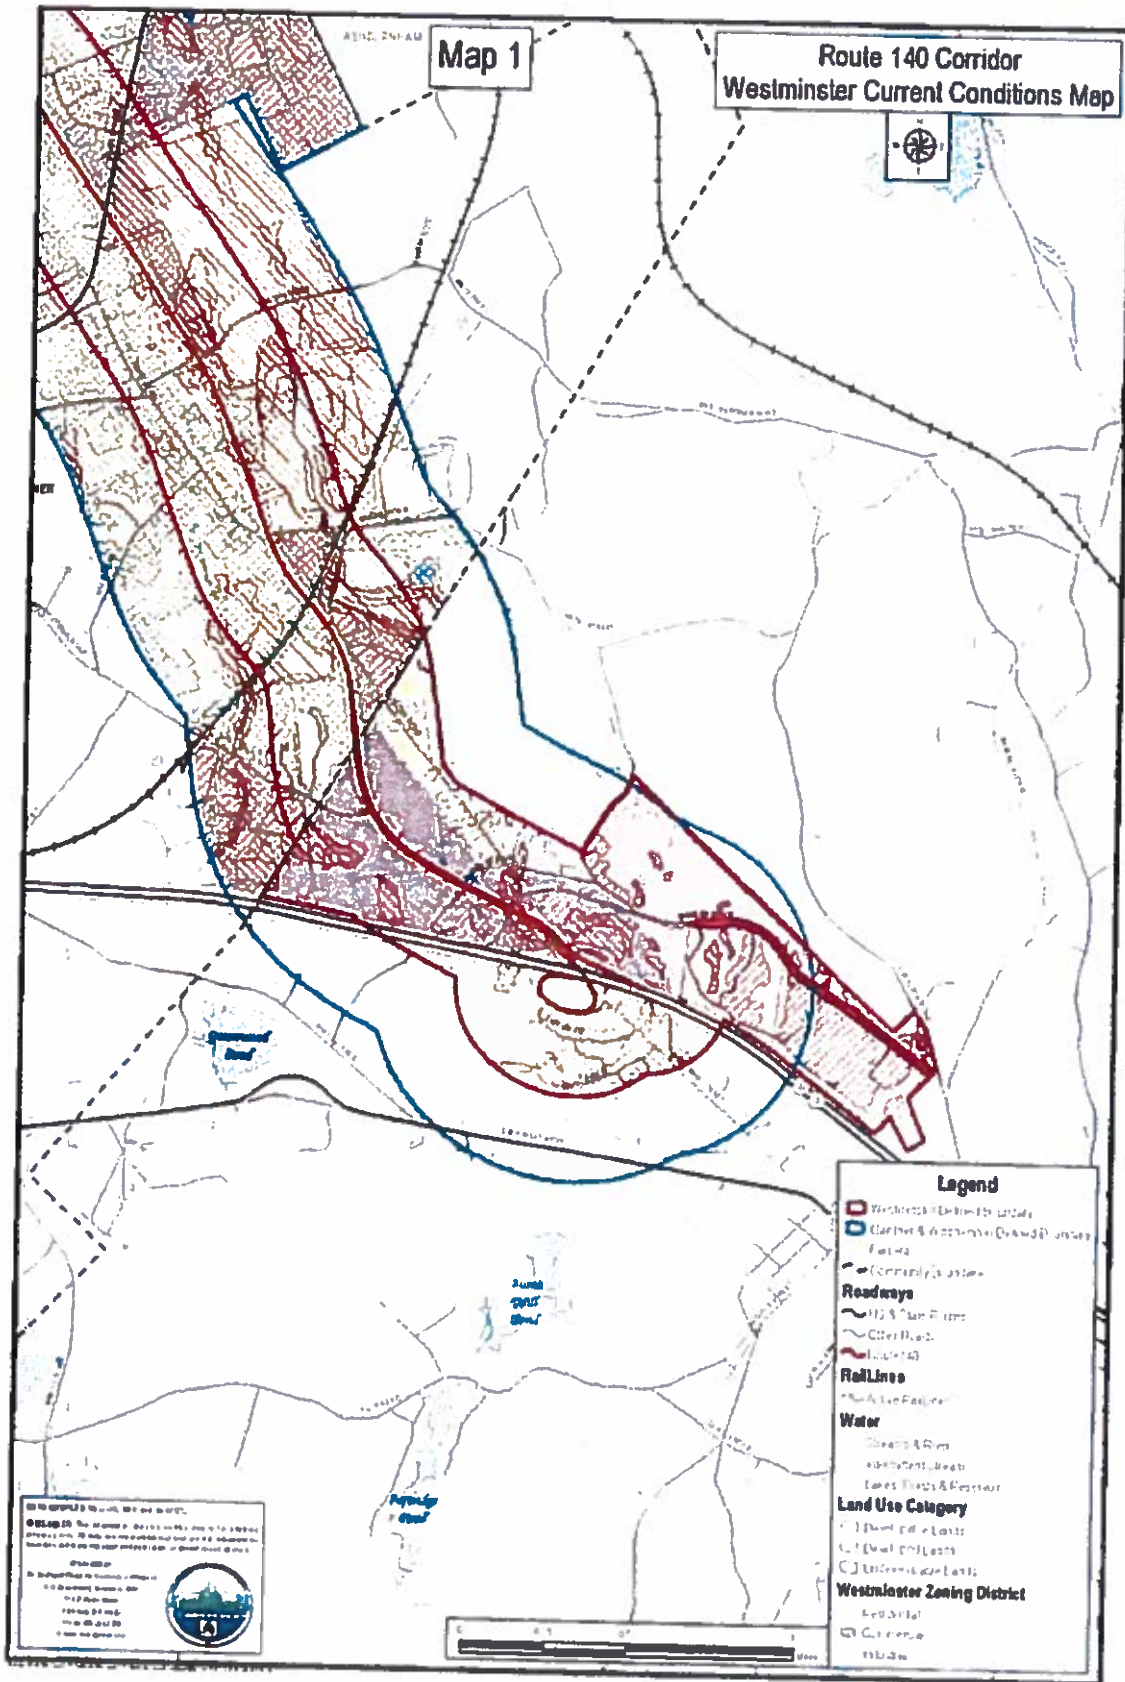

1. Implement access management controls by limiting the number of curb cuts directly onto Route 140, requiring common driveways where feasible, and connecting adjoining properties through internal access roads to lower the number of turning movements onto the highway. Winchendon's Gateway Overlay District is a good example of a regulation that seeks to control access to Route 140 and avoid commercial sprawl.
2. Modify land use controls to allow a higher intensity of development at key intersections where roadway capacity exists and water and sewer services are available.
3. Preserve scenic views through strategic purchases of open space, acquisition of view easements, or requirements for photo-simulation during site plan review to consider alternative building configurations.
4. Review sign regulations to insure that signs permitted in commercial and industrial districts minimize visual clutter. Restrict billboards and other non-accessory signs.
5. Authorize sharing of parking or reducing parking requirements when complementary uses have different peak hours of parking demand.
6. Require traffic impact studies for large-scale developments.
7. Review development design standards to achieve high quality development, for example:
  - ❖ Add landscaping requirements in parking lots, along road frontage, and around buildings.
  - ❖ Establish protective buffers adjacent to residential uses.
  - ❖ Set architectural standards to promote visual interest, such as pitched roofs, exterior building materials, awnings, etc.
  - ❖ Require screening of dumpsters, utility structures, and outdoor storage areas.
  - ❖ Provide safe, pleasant, and accessible paths for pedestrians within new developments and from adjacent neighborhoods.

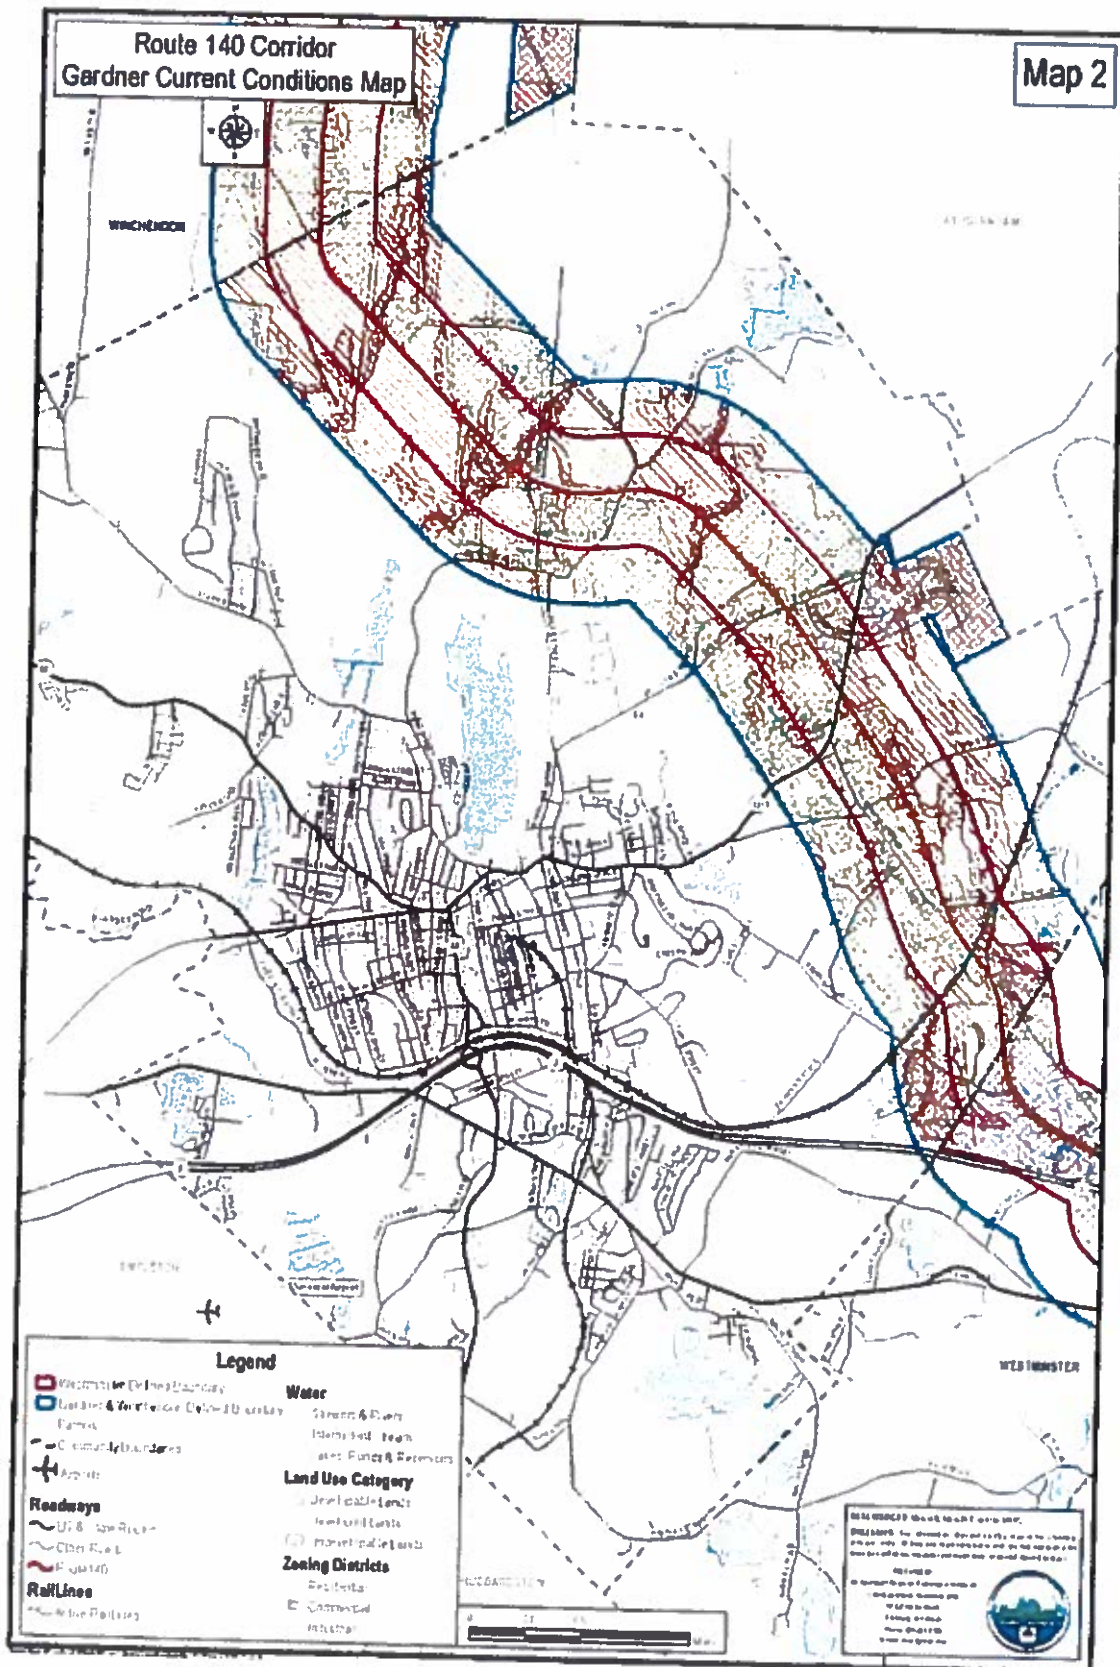

- ❖ Use Low Impact Development (LID) stormwater management techniques to contain and purify runoff on-site and improve development aesthetics.
- ❖ Set lighting requirements and use fixtures with cutoffs to curtail light impacts.
- ❖ Place wiring underground.

MRPC could take the lead by creating a process to develop model design standards applicable to similar highway corridors throughout its Region.

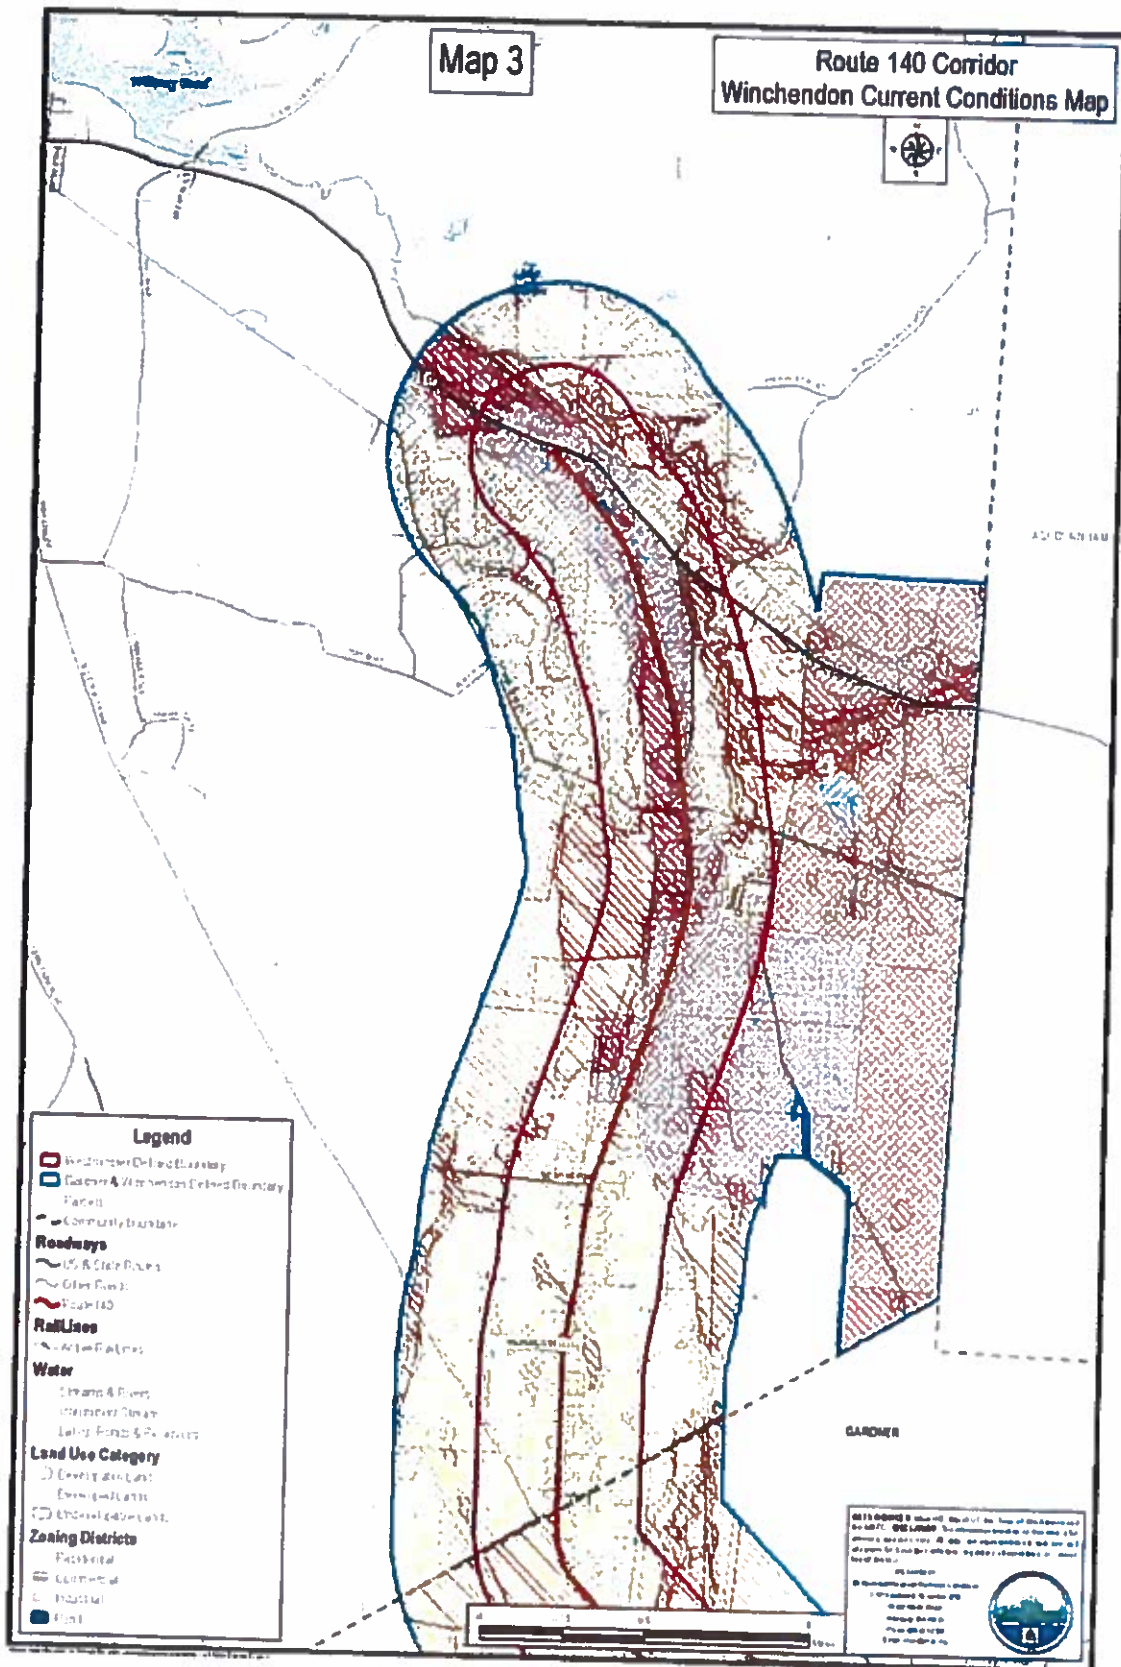

8. Continue to analyze re-zoning opportunities in Winchendon and Gardner as outlined in the alternative growth scenarios discussed above.
9. Provide connecting links to the North Central Pathway rail trail as a way to promote commuter access by bicycle. Continue to extend the trail along its entire proposed 16-mile length for recreational use and as a tourism attraction.
10. Work with MassDOT to pursue nomination of Route 140 as a Scenic Byway. Once approved, communities are eligible for additional federal grants for planning, marketing, roadway improvements, and public amenities. After preparing a Management Plan, implementation funding may be used for a variety of projects such as: constructing links to nearby recreation areas, installing historic markers, building off-road parking areas, developing informational kiosks, preserving scenic vistas, etc. The Scenic Byway Program is an avenue for obtaining funds for enhancement projects based on a management plan that has been informed through significant public participation. It has no regulatory effect on private property.
11. Pool resources to develop a regional marketing strategy to tout the assets present in the Corridor for economic development. Consider a unique moniker for Route 140 that evokes an image of beauty, local history, and community resourcefulness.
12. Work cooperatively to protect public water supplies. A portion of Gardner's public water supply watershed for Crystal Lake extends across the city line into Winchendon. An important goal of Gardner's "Open Space and Recreation Plan" is to seek regional cooperation and develop inter-municipal agreements to assure protection of its water supply. As growth takes place in south Winchendon, the two communities should execute an inter-municipal agreement that encourages sustainable resource management and best practices for new development to minimize any potential water quality degradation. As a regional issue, MRPC could assist in drafting an acceptable agreement that would advance the land use and environmental goals of each community.
13. Develop alternatives to frequent driveway openings onto Route 140. The Buildout Maps reveal that residential zoning districts occupy large stretches of Route 140. The danger exists that over time, individual lots with single family homes will each have a driveway with access onto Route 140. Homeowners will enter and exit these lots on a frequent basis interfering with the smooth flow of traffic and creating unsafe travel conditions, especially in severe weather. Communities should encourage alternatives to individual driveways, such as common driveways, subdivision roads, and frontage roads parallel to Route 140, to provide controlled points of access onto the highway.
14. Consider larger setbacks from the highway for residential uses. As traffic growth increases along Route 140, traffic noise and congestion will make abutting property less desirable for single family homes. This impact can be mitigated by deeper front setbacks and landscape buffers to help maintain lot privacy.
15. Explore regional zoning regulations to enhance inter-municipal cooperation in managing development in order to protect the character of the corridor. Since Route 140 is a regional asset and engine for economic growth, the communities may wish to explore adoption of a

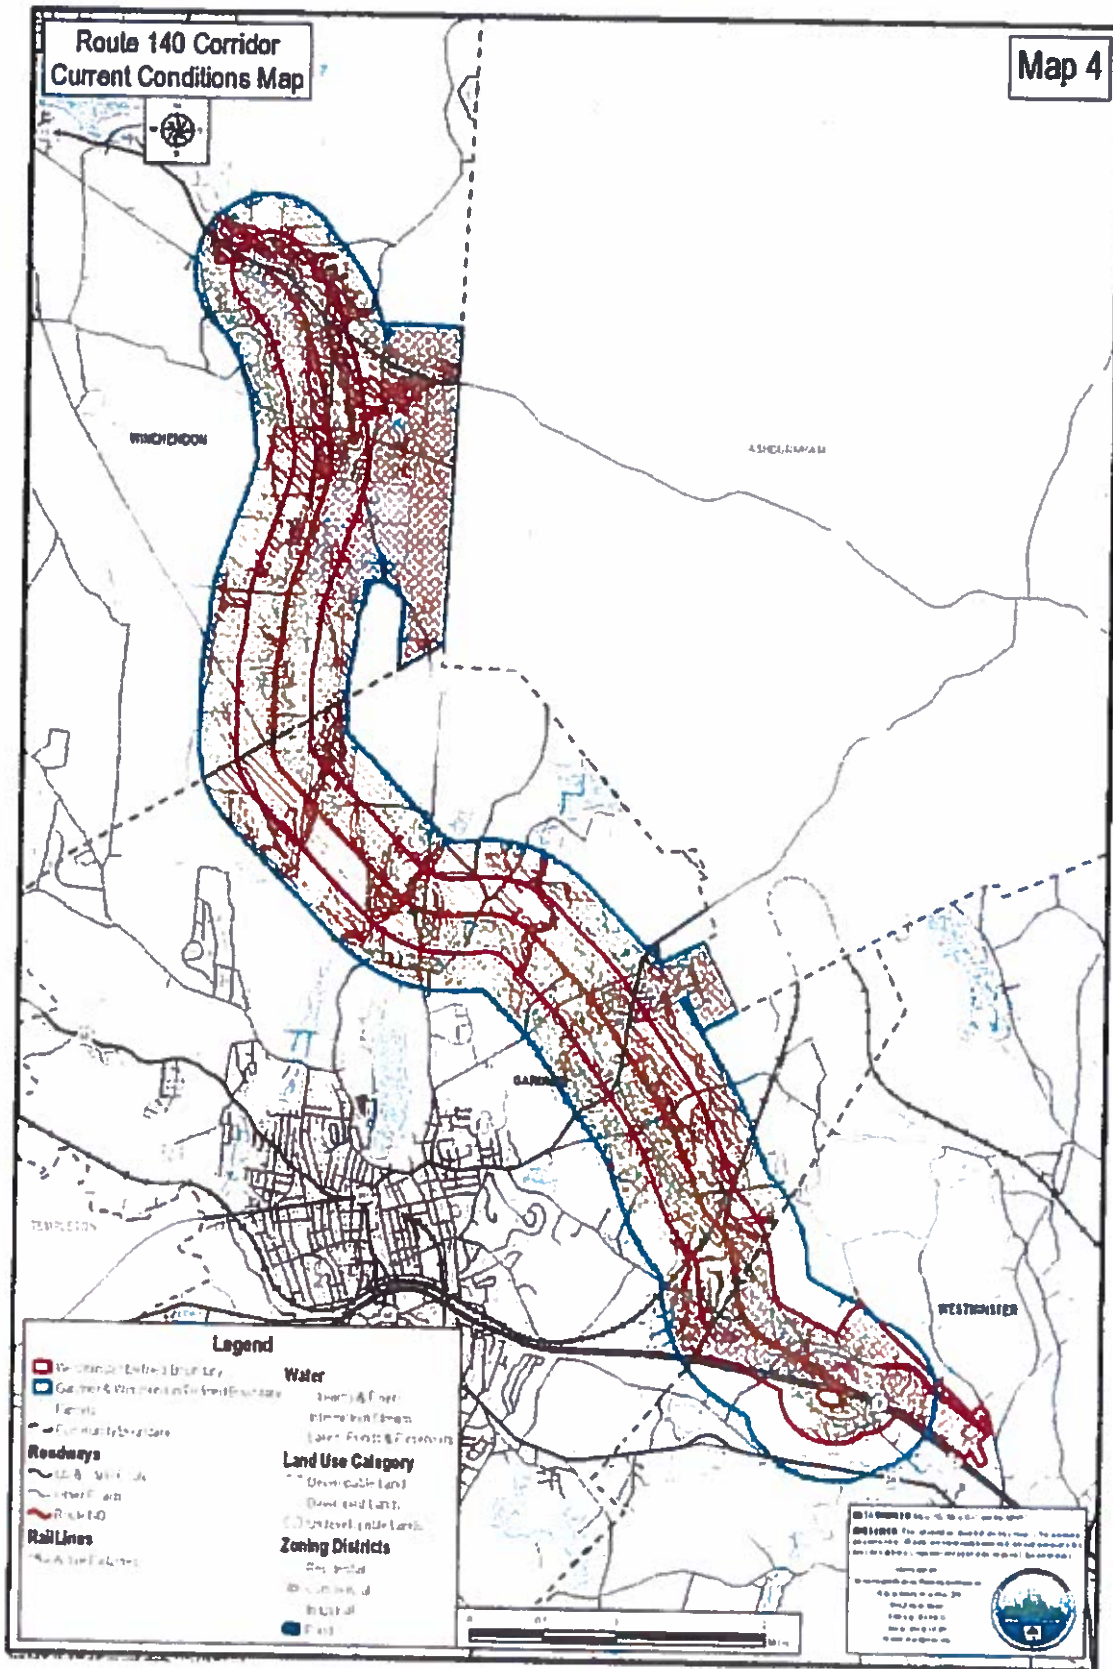

regional Highway Corridor Overlay District. MRPC could also assist in this endeavor. Such an approach would allow for inter-community consultation on major development projects, establish common design and development standards, and encourage access management techniques to preserve roadway capacity and protect motorist safety. This concept has worked well in the Blackstone Valley where three communities adopted a model Route 146 Corridor Overlay District zoning bylaw. Each community decides which uses are most appropriate for its section of the Route 146 Corridor, and the Overlay District establishes consistent design standards to manage development along the roadway to protect its scenic, historical, and natural resource values.

## Chapter 675. Zoning

## Article VII. Off-Street Parking, Loading and Drive-Through Standards

## § 675-710. Definitions.

For the purposes of this article, the following terms shall have the following meanings:

**ACCESS DRIVEWAY**

The travel lane that allows motor vehicles ingress from the street and egress from the site.

**BUILDING SERVICE AREA**

A room or rooms in a building used to house electrical or mechanical equipment necessary to provide central utility service to the building, such as a boiler room.

**DRIVE-THROUGH**

Consists of stacking lanes and drive-up window to allow a drive-through facility to provide such products or service(s).

**DRIVE-THROUGH FACILITY**

An establishment that provides or dispenses products or services, through an attendant or an automated machine, to persons remaining in vehicles that are in designated stacking lanes. A drive-through may be in combination with other uses, such as a bank, personal service shop, retail store, eating establishment or gas station.

**INTERIOR DRIVEWAY**

A travel lane located within the perimeter of a parking lot which is not used to directly enter or leave parking spaces. An interior driveway shall not include any part of the access driveway.

**MANEUVERING AISLE**

A travel lane located within the perimeter of a parking lot by which motor vehicles directly enter and leave parking spaces.

**NET FLOOR AREA**

The total of all floor areas of a building, not including storage areas, stairways, elevator wells, rest rooms, common hallways and building service areas.

**PARKING STALL LENGTH OF LINE**

The longitudinal dimension of the stall measured parallel to the angle of parking.

**STACKING LANE**

An on-site queuing or pass-through lane for motorized vehicles that is separated from other vehicular traffic and pedestrian circulation by barriers, markings, or signage.

**WIDTH OF PARKING STALL**

The linear dimensions measured across the stall and parallel to the maneuvering aisle.

## § 675-720. General provisions.

Except as otherwise provided in this article, no building or structure shall be located upon any lot and no activity shall be conducted upon any lot unless the required parking facilities are provided on site in

accordance with this article.

- A. Change of use. For all zoning districts, except COM1, a change in use where the existing use (or in the case of a vacancy, the next previous use) did not provide for the number of on-site parking spaces required by this chapter, then the proposed use shall only have to provide an additional number of parking spaces equal to the increase, if any, between the number required under this chapter for the existing use and the number required for the proposed use.
- B. Commercial 1 Districts.
- (1) For COM1 Districts, no additional parking is required for the following:
    - (a) A change in use or rearrangement of uses in an existing building that does not increase the total floor area within the building.
    - (b) The replacement of an amount of floor area equal to that in existence at the time of enactment of this amendment to this chapter.
    - (c) The addition of a second story to one-story buildings.
    - (d) Federal, state or municipal uses.
  - (2) Having applied Subsection B(1)(a), (b), (c) and (d) immediately above, an increase in total floor area that results in a net increase in the number of required parking spaces may be accommodated off site when adequate municipal parking facilities are available to serve the land use. Adequacy of municipal parking facilities shall be determined via the site plan review application and review procedures, § 675-1010, Site plan review, of this chapter. A major entrance of the land use should be within 500 feet of the municipal parking facility. Shared parking opportunities should be recognized where the same parking space can be utilized by two or more different land uses due to differences in principal hours for the uses involved.
- C. Residential uses.
- (1) Each parking area may have one access driveway which shall be a maximum of 24 feet wide.
  - (2) Each parking area may have one additional access driveway for each 200 feet of frontage, provided that all such access driveways shall be at least 200 feet apart on the parking area measured from the center line of each access driveway.
  - (3) No parking space or other paved surface, other than an access driveway(s) shall be located within five feet of any lot line.

### § 675-730. Undetermined uses.

Where the use of a building or buildings has not been determined at the time of application for a building permit or special permit, the plan shall demonstrate that the parking requirements applicable to the most intensive use allowed in the district where such undetermined use is to be located can be provided, however, that the number of parking spaces actually built need not exceed the number required by the actual use or uses of the building.

### § 675-740. Relief from parking regulations.

In the following instances, relief from parking regulations may be granted:

- A. By special permit from the Zoning Board of Appeals, pursuant to § 675-1170, Special permits:
- (1) In the case of a change from a nonconforming use to a conforming use, that the benefits of a change to a conforming use outweigh the lack of parking spaces; or
  - (2) In the case of a change from one conforming use to another conforming use, that the lack of parking spaces will not create undue congestion or traffic hazards on or off the site.

- B. By the Planning Board pursuant to § 675-1010, Site plan review, or where it is acting as the special permit granting authority pursuant to § 675-1170, Special permits, where it determines the grant of a waiver would not be detrimental to the functioning of the site and would not create undue congestion of traffic hazards on or off the site.

§ 675-750. Schedule of parking uses; loading areas.

- A. Comparable use requirements. Where a use is not specifically included in the schedule of parking uses, it is intended that the regulations for the most nearly comparable use specified shall apply.

- B. Schedule of parking uses.

| Principal Use                                                      | Parking Spaces Required                                                                                                                                                                                      |
|--------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Dwelling                                                           | 1 per dwelling unit with 1 or fewer bedrooms; 2 per dwelling unit with 2 or more bedrooms                                                                                                                    |
| Home occupation                                                    | 1 per nonresident employee                                                                                                                                                                                   |
| Motel or hotel                                                     | 1 per room plus 1 per 400 square feet of public meeting area and restaurant space                                                                                                                            |
| Bed-and-breakfast                                                  | 2 spaces, plus 1 per guest unit                                                                                                                                                                              |
| Assisted living; nursing home; group/rest home; rooming house      | 1 per 2 beds                                                                                                                                                                                                 |
| Educational/schools                                                |                                                                                                                                                                                                              |
| Nursery/child care                                                 | 3 per 1,000 gross square feet                                                                                                                                                                                |
| Elementary/middle/junior                                           | 1.2 per employee                                                                                                                                                                                             |
| High school                                                        | 0.25 per student                                                                                                                                                                                             |
| College and university                                             | 1.2 per 1,000 gross square feet                                                                                                                                                                              |
| Hospital                                                           | 3 per patient bed                                                                                                                                                                                            |
| Convenience retail                                                 | 2 per 1,000 square feet of gross floor area                                                                                                                                                                  |
| Retail store                                                       | 1 per 200 square feet of net floor area for store with gross floor area up to 5,000 square feet of net floor area and 1 per 250 per 1,000 square feet of net floor area greater than 5,000 of net floor area |
| Bank                                                               | 1 per 200 square feet of net floor area                                                                                                                                                                      |
| Business or professional office and personal service establishment | 1 per 300 square feet of net floor area                                                                                                                                                                      |

| Restaurant                                                         | 1 per 4 seats                                                                                                                                                                                                |
| Fast-food restaurant                                               | 1 per 70 square feet of net floor area                                                                                                                                                                       |
| Religious; club or lodge; civic center or other place of assembly  | 1 per 75 square feet of assembly area or 1 per 4 seats, whichever is greater                                                                                                                                 |
| Motor vehicle general and body repair                              | 1 per each service bay plus 1 per employee                                                                                                                                                                   |
| Motor vehicle light service                                        | 2 per service bay plus 1 per employee                                                                                                                                                                        |
| Mixed use                                                          | Sum of various uses computed separately                                                                                                                                                                      |
| Public transit station                                             | 1 per 250 square feet devoted to office and public uses plus sum of other uses computed separately                                                                                                           |
| Transportation terminal                                            | 1 per 250 square feet devoted to office use plus 1 per company vehicle operating from premises                                                                                                               |
| Veterinary clinic/kennel, commercial                               | 2 per 1,000 square feet plus 1 per employee                                                                                                                                                                  |

Principal Use  
Industrial/manufacturing

Parking Spaces Required

1 per 2,000 square feet of net floor area for the first 20,000 square feet, plus 1 per each additional 10,000 square feet

- C. Loading areas. One or more off-street loading areas shall be provided for any business that may be regularly serviced by tractor-trailer trucks and other similar delivery vehicles, so that adequate areas shall be provided to accommodate all delivery vehicles expected at the premises at any one time. Loading areas shall be located at either the side or rear of each building and shall be designed to avoid conflicts with vehicles and pedestrians using the site or vehicles and pedestrians using adjacent sites.

§ 675-760. Standard dimensional regulations for off-street parking facilities.

Off-street parking facilities shall be laid out and striped in compliance with the following minimum provisions:

| Angle of Parking | Width of Parking Stall (feet) | Parking Stall Length of Line (feet) | Width of Maneuvering Aisle (feet) |
|------------------|-------------------------------|-------------------------------------|-----------------------------------|
| 90° (2-way)      | 9.0                           | 18                                  | 24                                |
| 60° (1-way)      | 10.4                          | 22                                  | 18                                |
| 45° (1-way)      | 12.7                          | 25                                  | 14                                |
| Parallel (1-way) | 8.0                           | 22                                  | 14                                |
| Parallel (2-way) | 8.0                           | 22                                  | 18                                |

§ 675-770. Design requirements for parking lots, facilities and drive-throughs.

A. Parking location and layout.

- (1) To the extent feasible, parking areas shall not be located to the forward of any building front line on the lot.

- (a) Notwithstanding the above, the Planning Board may grant permission during site plan review to locate not more than eight parking spaces in front of the principal building, where such location promotes a better site layout. As condition of such permission, the Board may require that provisions be made for a common access way linking the property with existing or future adjacent uses.

- (2) Required parking spaces, loading areas and driveways shall be provided and maintained with suitable grading, paved surfaces and adequate drainage. No parking space or other paved surface, other than an access driveway(s) or walkway(s), shall be located within 10 feet of any lot line, and notwithstanding the foregoing, no parking space or other paved surface other than an access driveway(s) or walkway(s) shall be located within the limits of a landscaped buffer area.

- (3) Each parking area may have one access driveway which shall be at least 24 feet wide at its narrowest point but not more than 36 feet wide at its widest point. Each parking area may have one

Item 10891 **Withdrawn by Vote of the City Council - 4/18/2023** 10891

additional access driveway for each 200 feet of frontage, provided that all such access driveways shall be at least 200 feet apart on the parking area measured from the center line of each access driveway. In the case of an access driveway which shall be used for one-way traffic only, the minimum width may be reduced to 14 feet at its narrowest point.

- (4) Interior driveways, other than maneuvering aisles, shall be at least 20 feet wide for two-way traffic and 14 feet for one-way traffic.
  - (5) Adequate provisions for snow removal and/or snow storage must be made and indicated on site plans. Landscaped areas may not be used for snow storage.
- B. Lighting and landscaping requirements. All surface parking areas containing more than eight spaces shall be laid out and enhanced by landscaping in accordance with the following standards:
- (1) Parking areas, loading areas, storage areas, refuse storage and disposal areas, and service areas shall be screened from view, to the extent feasible, from all public ways and from adjacent properties, using planted buffers, berms, natural contours, fences or a combination of the above.
  - (2) Parking areas shall contain 150 square feet of planted areas per 1,000 square feet of parking proposed, appropriately situated throughout the parking area to break up large expanses of pavement.
  - (3) Screening.
    - (a) Parking areas shall be screened along their perimeters from adjacent streets and properties using a combination of the following:
      - [1] A buffer strip of at least 10 feet in width of densely planted shrubs or trees which are at least 2.5 feet high at the time of planting and are of a type that may be expected to form a year-round screen; parking areas containing more than 25 spaces shall require a planted buffer strip of 20 feet in width.
      - [2] A wall, barrier, or fence of uniform appearance. There shall be a landscaped strip with a minimum width of three feet between the base of the wall, barrier, or fence and any street or abutting property. The wall, barrier, or fence is recommended to be three feet in height and shall not be more than six feet in height.
      - [3] A landscaped earth berm at least three feet in height and 18 feet in width.
      - [4] The screening as required herein shall be located so as not to conflict with any corner visibility requirements or any other City ordinances. Such screening may be interrupted by entrances or exits.
  - (4) All artificial lighting shall be not more than 11 feet in height in pedestrian areas, and 20 feet in parking areas, and shall be arranged and shielded to prevent direct glare from the light source onto any public way or any other property. All parking areas which are used at night shall be lighted as evenly and fully as possible. The Planning Board shall require that the applicant provide the type, energy efficiency, and intensity (lumens) of all proposed and replacement lighting for the parking areas.
- C. Structured parking design guidelines. Placement of off-street parking spaces in structures is encouraged to limit impervious surfaces, promote efficient use of land, and enhance streetscapes. Parking structures are subject to the following performance standards:
- (1) Parking structures shall be no more than 40 feet in height. The height and mass of the structure should be consistent with the urban design fabric within which the structure is to be located.
  - (2) The exterior facade should maintain a horizontal line throughout. The sloping nature of the interior structure, necessary in the design of parking structures, should not be repeated on the exterior facade.
  - (3) Facades that face public rights-of-way should incorporate a repeating pattern that includes color change, texture change and material change, each of which should be integral parts of the structure, not superficially applied trim, graphics, or paint. In addition, vertical elements should be incorporated into the exterior facade design to create a repeating pattern. This can be accomplished using

Item 10891 **Withdrawn by Vote of the City Council - 4/18/2023** 10891  
 reveals, projecting ribs, or offsets. All such elements should repeat at intervals of no more than 30 feet.

- (4) A wall or other screening of sufficient height to screen parked vehicles and which exhibits a visually pleasing character should be provided. In commercial districts with an existing or planned urban design fabric, ground-level retail use is encouraged to enhance the streetscape. Where retail is not practical, other amenities, such as an art wall, are encouraged as means of enhancing the streetscape. The ground level of the structure should never consist of a featureless length of a wall.
  - (5) Pedestrian entrances should be well defined and attractive.
  - (6) Areas of vehicular entry should be located on the side or the rear of the structure wherever possible to attract less attention. The presence and appearance of garage entrances should be minimized so that they do not dominate the street frontage.
  - (7) Building should take advantage of site topography to minimize the vehicular entry where possible.
  - (8) Interior and exterior lighting shall be arranged to ensure public safety and shielded to prevent direct glare onto any public way or any other property. The Planning Board shall require the applicant to provide the type and intensity (lumens) of all proposed lighting for the parking structure.
- D. Drive-through performance and design standards.
- (1) Purpose. The purpose of this section is to protect the health, safety, welfare and convenience of residents, minimize traffic congestion, and maintain the architectural integrity of the surrounding area by requiring performance standards for the construction and operation of drive-through facilities.
  - (2) Administration.
    - (a) Drive-through facilities may be allowed by special permit from the Gardner Planning Board in the Commercial 1, Commercial 2, and in some cases Industrial 1 Zoning Districts, provided the facility meets the requirements of this Article VII and the dimensional requirements for the underlying zoning. The Planning Board shall follow the procedural requirements for special permits as set forth in MGL c. 40A, § 9, and Article XI, § 675-1170, of the City of Gardner Zoning Code.
    - (b) No special permit for any drive-through facilities shall be issued without site plan approval first having been obtained from the Planning Board, § 675-1010, Site plan review, of the Zoning Code. In addition to the standard set forth within, the site plan must meet all dimensional, parking, landscaping, and signage requirements within the City of Gardner Zoning Code.
  - (3) Performance and design standards. Drive-through facilities shall comply with the performance and design standards set forth in this section. The Planning Board may impose additional conditions or alter performance and design standards if it finds that a substantially better design will result from such additional or alternate standards. In so doing, the Planning Board shall consider how such additions or alterations will impact public safety, character of the neighborhood, and the environment.
    - (a) Traffic impact study (TIS). The Planning Board shall require that a traffic impact study (TIS) be prepared by a registered professional engineer who is a member of the Institute of Transportation Engineers (ITE). The purpose of a TIS is to document existing traffic conditions in the vicinity of the proposed drive-through facility, to describe the volume and effect of projected traffic generated by the proposed project, and to identify measures to mitigate any adverse impacts on traffic, as stated in the following:
      - [1] Existing traffic conditions: average daily and peak-hour volumes, average and peak speeds, sight distances, appropriate and pertinent accident data, levels of service of intersections and streets likely to be affected by the proposed project. Generally, such data shall be presented for all streets and intersections adjacent to or within 500 feet of the project's boundaries. The data will be no more than 24 months old upon submittal unless other data is specifically approved by the Planning Board.
      - [2] Projected impact of proposed project: projected peak-hour and daily traffic generated by the drive-through on roads and ways in the vicinity; sight lines at the intersections of the proposed driveways and streets; existing and proposed traffic controls in the vicinity;

Item 10891 **Withdrawn by Vote of the City Council - 4/18/2023** 10891  
 projected postdevelopment traffic volumes and levels of service of intersections and streets likely to be affected by proposed project.

(b) Site development plan.

- [1] The site development plan, prepared by a registered professional civil engineer and registered land surveyor, shall comply with the development plan requirements identified in § 675-1010 of the City of Gardner Zoning Code and shall accompany the site plan review and special permit applications.
- [2] The proposed site development plan shall incorporate recommendations of the traffic impact study. The following guidelines shall be used to evaluate compliance with the standards herein:
  - [a] Requires a minimum of two stacking lanes: one lane to be used for product or service delivery and one, at a minimum, to be used as an outlet for traffic flow and public safety vehicle access. No matter how many stacking lanes are used for product or service delivery, a minimum of one stacking lane shall be included in the design as an outlet for traffic flow and public safety vehicle access.
  - [b] Entrances to stacking lane(s) shall be clearly marked and shall be a minimum of 40 feet from the intersection with the public street. The distance shall be measured from the property line along the street to the beginning of the entrance.
  - [c] Each stacking lane shall be 10 feet in width along all portions of the lane(s).
    - [i] Fast-food restaurants shall have a minimum of 10 spaces for stacking cars accessing the ordering window or speaker. If pickup/payment windows are provided separately, the stacking distance between windows and/or speaker(s) shall be a minimum of two stacking spaces.
    - [ii] Banks, service and retail establishments shall have a minimum of five stacking spaces for cars accessing a drive-through window or speaker.
  - [d] Stacking lanes shall be delineated from traffic aisles, other stacking lanes and parking areas with striping, curbing, landscaping and the use of alternative paving materials or raised medians.
  - [e] Stacking lanes shall be designed to prevent congestion, both on site and on adjacent streets. Stacking lane layout:
    - [i] Shall be integrated with the on-site circulation pattern;
    - [ii] Shall minimize conflicts between pedestrian and vehicular traffic by providing physical and visual separation between the two;
    - [iii] Shall be located at the side or rear of buildings;
    - [iv] Shall provide an emergency bypass or exit;
    - [v] Shall not impede or impair access into or out of parking spaces;
    - [vi] Shall not impede or impair vehicular or pedestrian traffic movement;
    - [vii] Shall not interfere with required loading and trash storage areas;
    - [viii] Shall not enter or exit directly into a public right-of-way.
  - [f] Locate buildings with drive-through along the front lot line closest to the street edge whenever possible.
  - [g] Layout of outdoor service equipment, menu signs and speaker boards.
    - [i] There shall be one sign permitted for each stacking lane used for product or service delivery.

Item 10891 **Withdrawn by Vote of the City Council - 4/18/2023** 10891

- (i) Signs shall be a maximum of 40 square feet, with a maximum height of seven feet, and shall follow requirements of Article IX, Signs and Advertising Devices. P.O.S. signs placed on a menu sign shall not cause the menu sign to exceed these maximum standards.
- (iii) Menu signs and speaker boards shall be physically shielded from any public street and residential properties by landscaping or other means.
- (iv) Outdoor speakers shall be directed away from abutting properties.
- (h) Trash receptacles should be placed strategically within the drive-through layout to minimize litter on site.
- (i) Provide sufficient setbacks, buffer, and screening from residential or other abutting properties, including sound- and light-attenuating barriers when appropriate.

**CITY OF GARDNER**

**FIRE DEPARTMENT  
70 CITY HALL AVENUE  
GARDNER, MA 01440-2671**

**OFFICE OF FIRE CHIEF  
GREGORY F. LAGOY**

**(978) 632-1616 Ext. 5  
FAX (978) 630-4028**

March 28, 2023

Mayor Michael Nicholson  
City of Gardner  
95 Pleasant St.  
Gardner, MA 01440

Good afternoon Mr. Mayor,

After researching Fire Department Incident data, I have found the following regarding Motor Vehicle Accidents on Route 140/Green Street (#827 & up) from 2013 through 2023:

Total Fire Department responses for all types of MVA's - 191  
Of those, total number that were reported as having injuries - 125

If you would like any more information regarding this data, please feel free to contact me.

Respectfully,

A handwritten signature in black ink, appearing to read "G F L", written over a horizontal line.

Gregory F. Lagoy  
Fire Chief

## Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

- (4) Assisted living facilities.
- (5) Convenience retail.
- (6) Business or professional office.
- (7) Restaurant.
- (8) Office building.
- D. Density and dimensional requirements.
- (1) The minimum common open space requirement of the overall tract in the RR2 shall be 30%, exclusive of areas located in floodplains and wetlands. In the COM2, IND1 and IND2, the minimum common open space requirement of the overall tract is 20%, exclusive of areas located in floodplains and wetlands.
- (2) Multifamily residential structures shall contain no more than eight units per building and shall be clustered to foster neighborhood connections. Residential density shall not exceed 20 units per acre, to be calculated exclusive of areas located in flood zones and wetlands.
- (3) The area developed for residential use shall not exceed 50% of the overall tract, exclusive of areas located in floodplains and wetlands.
- (4) Setbacks. Industrial uses shall be set back a minimum of 20 feet from commercial uses and 50 feet from residential uses. The Planning Board retains the authority to increase minimum setbacks at its discretion in the interest of safety, circulation, or other factors.
- (5) Maximum building height shall be 65 feet.
- E. Parking and other requirements.
- (1) Parking shall be in accordance with those requirements set forth in § 675-750, Schedule of parking uses. The Planning Board may allow for shared use parking if the applicant can prove the specified parking demand will occur at different and offsetting times of day. The use of shared parking is encouraged to reduce impervious surfaces and enhance overall design of the development.
- (2) Proposed developments which include over 12 residential units shall require 20% of the overall number of units to be affordable to persons and families earning 80% or less of the area's median income, and these units shall remain affordable for a minimum period of 30 years.
- F. Site plan review. All developments proposed for SGPUD shall undergo site plan review. For the convenience of the applicant, site plan review and applications for a special permit pursuant to this section shall be held concurrently. The applicant will be responsible for submitting a request and meeting all submission requirements concurrently in order to streamline notice and hearing requirements.

### § 675-550 Surface Water Protection Overlay District.

- A. Purpose. The purpose of the Surface Water Protection Overlay District is to:
- (1) Promote the health, safety, and general welfare of the community by ensuring an adequate quality and quantity of drinking water for the residents, institutions, and businesses;
- (2) Preserve and protect existing and potential sources of drinking water supplies;
- (3) Conserve the natural resources of the City; and
- (4) Prevent temporary and permanent contamination of the environment.
- B. Authority. The Surface Water Protection Overlay Districts are adopted pursuant to authority provided by MGL c. 40A and the Home Rule Amendment, Article 89 of the Amendments to the Constitution of the commonwealth.
- C. Definitions. For the purposes of this section, the following words and phrases shall be defined as follows. References to statutes and regulations shall be deemed a reference to such law or regulation as of the effective date of this section.

#### AUTOMOBILE GRAVEYARD AND JUNKYARD

An establishment or place of business which is used, maintained, or operated for storing, keeping, buying, or selling wrecked, scrapped, ruined, or dismantled motor vehicles or motor vehicle parts, as defined in MGL c. 140B, § 1.

#### CMR

Code of Massachusetts Regulations.

#### COMMERCIAL FERTILIZER

Any substance containing one or more recognized plant nutrients which is used for its plant nutrient content and which is designed for use or claimed to have value in promoting plant growth, except unmanipulated animal and vegetable manures, marl, lime, limestone, wood ashes, and gypsum, as defined in MGL c. 12B, § 64.

# Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

Massachusetts Department of Environmental Protection.

## HAZARDOUS MATERIAL

Any substance or mixture of physical, chemical, or infectious characteristics posing a significant, actual, or potential hazard to water supplies or other hazards to human health if such substance or mixture were discharged to land or water. Hazardous materials include, without limitation, synthetic organic chemicals, petroleum products, heavy metals, radioactive or infectious wastes, acids and alkalis, solvents and thinners in quantities greater than normal household use, and all substances defined as hazardous or toxic under MGL c. 21E and 21E and 310 CMR 30.00.

## HAZARDOUS WASTE

Any waste defined in the Massachusetts Hazardous Waste Regulations, 310 CMR 30.010. This includes, but is not limited to, waste oil, waste solvents, waste oil-based paint and waste pesticides.

## IMPERVIOUS SURFACE

Material or structure on, above, or below the ground that does not allow precipitation or surface water to penetrate directly into the soil.

## LANDFILL

A facility established in accordance with a valid site assignment for the purposes of disposing solid waste into or on the land, pursuant to 310 CMR 19.006.

## MGL

Massachusetts General Laws.

## NONSANITARY WASTEWATER

Wastewater discharges from industrial and commercial facilities containing wastes from any activity other than collection of sanitary sewage, including but not limited to activities specified in the Standard Industrial Classification (SIC) codes set forth in 310 CMR 15.004(6).

## OPEN DUMP

A facility operated or maintained in violation of the Resource Conservation and Recovery Act [42 U.S.C. § 4004(a) and (b)], 42 U.S.C. § 6901 et seq., or state regulations and criteria for solid waste disposal.

## PETROLEUM PRODUCT

Petroleum or petroleum by-product, including but not limited to fuel oil, gasoline, diesel, kerosene, aviation jet fuel, aviation gasoline, lubricating oils, oily sludge, oil refuse, oil mixed with other wastes, crude oils, or other liquid hydrocarbons regardless of specific gravity. "Petroleum product" shall not include liquefied petroleum gas, including but not limited to liquefied natural gas, propane or butane.

## POTENTIAL DRINKING WATER SOURCES

Areas that could provide significant potable water in the future.

## RECHARGE AREAS

Areas that collect precipitation or surface water and carry it to aquifers. Recharge areas include DEP-approved Zone I, Zone II, or Zone III areas.

## SEPTAGE

The liquid, solid, and semisolid contents of privies, chemical toilets, cesspools, holding tanks, or other sewage waste receptacles. "Septage" does not include any material that is a hazardous waste as defined by 310 CMR 30.000.

## SLUDGE

The solid, semisolid, and liquid residue that results from a process of wastewater treatment or drinking water treatment. "Sludge" does not include grit, screening, or grease and oil which are removed at the headworks of a facility.

## SURFACE WATER PROTECTION OVERLAY DISTRICT

Those land areas designated on a map adopted pursuant to this section that provide recharge to an existing or planned public drinking water supply well. The Surface Water Protection District includes all areas designated as a Zone A and Zone B as approved by the DEP and Zone C.

## TREATMENT WORKS

Any and all devices, processes and properties, real or personal, used in the collection, pumping, transmission, storage, treatment, disposal, recycling, reclamation, or reuse of waterborne pollutants, but not including any works receiving a hazardous waste from off the site of the works for the purpose of treatment, storage, or disposal.

## VERY SMALL QUANTITY GENERATOR

Any public or private entity, other than residential, which produces less than 27 gallons (100 kilograms) a month of hazardous waste or waste oil, but not including any acutely hazardous waste as defined in 310 CMR 30.136.

## WASTE OIL RETENTION FACILITY

Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

## Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

has adequate protection to contain a spill, seepage, or discharge of petroleum waste products in accordance with MGL c. 21, § 52A.

**ZONE A**

The land area between the surface water source and the upper boundary of the bank, and the land area within a 400-foot lateral distance from the upper boundary of the bank of a Class A surface water source, as defined in 314 CMR 4.05(3)(a), and the land area within a 200-foot lateral distance from the upper boundary of the bank of a tributary or associated surface water body.

**ZONE B**

The land area within 1/2 mile of the upper boundary of the bank of a Class A surface water source, as defined in 314 CMR 4.05(3)(a), or edge of watershed, whichever is less. However, Zone B shall always include the land area within a 400-foot lateral distance from the upper boundary of the bank of the Class A surface water source.

**ZONE C+**

The land area not within Zone A and Zone B delineated on a map titled "City of Gardner Water Supply Protection Districts" prepared by the Engineering Department, dated revised January 5, 2011.

- D. Establishment of districts. The Surface Water Protection Overlay Districts, which consist of Zone A, Zone B and Zone C+, are herein established as overlay districts. These districts are described on a map titled "City of Gardner Water Supply Protection Districts," prepared for the Gardner Engineering Department, dated revised January 5, 2011. The map is on file in the office of the City Engineer. Said map is hereby incorporated as part of the Zoning Map of Gardner, Massachusetts, on file in the City Clerk's office.
- E. Boundary disputes.
- (1) Resolution of boundary disputes. If the location of the district boundary in relation to a particular parcel is in doubt, resolution of boundary disputes shall be through a special permit application to the Planning Board as special permit granting authority (SPGA). Any application for a special permit for this purpose shall be accompanied by adequate documentation.
  - (2) Burden of proof. The burden of proof shall be upon the owner(s) of the land to demonstrate that the location of the district boundary with respect to a parcel(s) of land is uncertain. At the request of the owner(s), the SPGA may engage a professional engineer or land surveyor or other qualified expert to determine more accurately the boundaries of the district with respect to individual parcels of land and may charge the owner(s) for the cost of the investigation.
  - (3) Lot divided by district line. Where the boundary line of the Surface Water Protection Overlay District divides a lot or parcel, the requirements established by this section shall apply only to the portion of the lot or parcel located within the district.
  - (4) Amendment of map. Amendments to the map of the Surface Water Protection Overlay District require City Council approval.
- F. Use regulations. The Surface Water Protection Overlay Districts are overlay districts superimposed over the underlying districts set forth in this chapter. Within a Surface Water Protection Overlay District, the requirements of the underlying district continue to apply, except where the requirements of the Surface Water Protection Overlay District are more stringent.
- (1) Prohibited uses in Zones A, B and C+. The following uses are prohibited within Zone A, Zone B and Zone C+ of the Surface Water Protection Overlay District:
    - (a) Facilities that, through their acts or processes, generate, treat, store or dispose of hazardous waste that is subject to MGL c. 21C and 310 CMR 30.000, except for the following:
      - [1] Very small quantity generators, as defined by 310 CMR 30.000; and
      - [2] Treatment works approved by the Department designed in accordance with 314 CMR 5.00 for the treatment of contaminated groundwater or surface water.
    - (b) Uncovered or uncontained storage of fertilizers.
    - (c) Uncovered or uncontained storage of road or parking lot de-icing and sanding materials.
    - (d) Storage or disposal of snow or ice, removed from highways and streets, outside of Zone A, that contains de-icing chemicals.
    - (e) Uncovered or uncontained storage of manure.
    - (f) Junk and salvage operations.
    - (g) Aboveground storage of liquid hazardous material, as defined in MGL c. 21E, or liquid propane or liquid petroleum products, except as follows:
      - [1] The storage is incidental to normal household use, outdoor maintenance, or the heating of a structure; use of emergency generators; or a response action conducted or performed in accordance with MGL c.

## Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

the and the CMR 4.000 and which is exempt from a groundwater discharge permit pursuant to 314 CMR 5.05(14); and

- (3) The storage is either in a container(s) or aboveground tank(s) within a building or outdoors in a covered container(s) or aboveground tank(s) in an area that has a containment system designed and operated to hold either 10% of the total possible storage capacity of all containers or 110% of the largest container's storage capacity, whichever is greater. However, these storage requirements do not apply to the replacement of existing tanks or systems for the keeping, dispensing or storing of gasoline, provided that the replacement is performed in accordance with applicable state and local requirements.

- (h) Treatment or disposal works subject to 314 CMR 3.00 or 5.00, except the following:

- (1) The replacement or repair of an existing treatment or disposal works that will not result in a design capacity greater than the design capacity of the existing treatment or disposal works;

- (2) Treatment or disposal works for sanitary sewage if necessary to treat existing sanitary sewage discharges in noncompliance with 310 CMR 15.000, the State Environmental Code, Title 5: Standard Requirements for the Siting, Construction, Inspection, Upgrade and Expansion of On-Site Sewage Treatment and Disposal Systems and for the Transport and Disposal of Septage, provided that the facility owner demonstrates to the Department's satisfaction that there are no feasible siting locations outside of Zone A. Any such facility shall be permitted in accordance with 314 CMR 5.00 and shall be required to disinfect the effluent. The Department may also require the facility to provide a higher level of treatment prior to discharge;

- (3) Treatment works approved by the DEP designed for the treatment of contaminated groundwater or surface water and operated in compliance with 314 CMR 5.05(3) or (13); and

- (4) Discharge by a public water system of waters incidental to water treatment processes.

- (2) Uses prohibited in Zone A but allowed by special permit in Zone B and C+:

- (a) Sand and gravel excavation operations;

- (b) Motor vehicle repair operations;

- (c) Cemeteries (human and animal) and mausoleums;

- (d) Solid waste combustion facilities or handling facilities as defined at 310 CMR 16.00;

- (e) Land uses that result in the rendering impervious of more than 15%, or more than 20% with artificial recharge, or 2,500 square feet of any lot, whichever is greater;

- (f) Commercial outdoor washing of vehicles and commercial car washes; and

- (g) All underground storage tanks.

- G. Special permit procedures.

- (1) Special permit granting authority. The special permit granting authority (SPGA) shall be the Planning Board. A special permit may be granted if the SPGA determines that the intent of this section as well as the specific criteria set forth in this Subsection G are met. In making such determination, the SPGA shall consider the simplicity, reliability, and feasibility of the control measures proposed and the degree of threat to surface water quality which would result if the control measures failed.

- (2) Rules and regulations. The Planning Board may adopt and from time to time amend rules and regulations which shall prescribe the size, form, content, and style of the plans and procedures for submission and approval of such special permit. These rules and regulations shall be filed with the City Clerk.

- (3) Review by other boards and officials. Whenever an application for a special permit is filed with the Planning Board under this section, said Board shall transmit, within six working days of the filing of the completed application, copies of the application, accompanying site plan, and other documentation to the Board of Health, Conservation Commission, Building Commissioner, Director of Public Works, Fire Chief, and the City Engineer for their consideration, review, and report. The copies necessary to fulfill this requirement shall be furnished by the applicant. An application shall not be deemed complete until all copies of required information and documentation have been filed with the Planning Board. The Planning Board shall notify applicants by registered mail, within 14 days of submittal, of incomplete application status, and the applicant shall have 14 days from the mailing of such notice to complete an application. Failure to complete an application within such time shall result in a return of all materials to the applicant, without prejudice. Reports from other boards and officials shall be submitted to the Planning Board by the date of the public hearing, but in any case, within 35 days of receipt of the reviewing party of all the required materials; failure of these reviewing parties to make recommendations after having received copies of all such required materials shall be deemed a lack of opposition thereto. If the public hearing by the Planning Board is held prior to the expiration of the thirty-five-day period, the Planning Board shall continue the public hearing to permit the formal submission of reports and recommendations within that thirty-five-day period. The decision/findings of the Planning Board shall contain, in writing, an explanation for any departures from the recommendations of any reviewing party.

## Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

5.02.01. All applications for special permits shall contain the information listed below, unless waived or modified by the SPGA, with reasons therefor:

- (a) A site plan, submitted on twenty-four-inch-by-thirty-six-inch sheets, on a minimum scale of one-inch equals 40 feet, and prepared by a registered professional engineer and a registered land surveyor. Site plans submitted under this section shall also include the following:
- [1] All property lines;
  - [2] All adjacent public streets;
  - [3] All existing and proposed buildings, structures, parking areas, and service areas;
  - [4] All facilities for sewage, refuse, and other waste disposal;
  - [5] Facilities for surface water drainage, both temporary and permanent;
  - [6] Future expansion areas;
  - [7] Provisions to prevent contamination of surface water by petroleum products;
  - [8] Drainage recharge features and provisions to prevent loss of recharge;
  - [9] Provisions to prevent soil compaction;
  - [10] Provisions to prevent seepage from sewer pipes;
  - [11] Location of wetlands, streams, water bodies and floodplain;
  - [12] Existing drainage patterns;
  - [13] Existing woodlands;
  - [14] Areas having slopes exceeding 15%;
  - [15] Areas to be disturbed by construction;
  - [16] Areas where earth and other materials subject to erosion will be temporarily stockpiled;
  - [17] Areas to be used for disposal or storage of construction debris, stones, stumps, etc., if within the district;
  - [18] Temporary and permanent erosion control measures planned, such as sediment basins, stormwater basins, diversion, riprap, stabilization seeding, etc.;
  - [19] Temporary work roads to be used during projects;
  - [20] Location and size of septic system; and
  - [21] Method to contain spillage in fuel filling areas.
- (b) A storm drainage plan showing:
- [1] Locations of drains and culverts and names of streams, rivers, ponds or reservoirs in the City into which they flow;
  - [2] Discharge peaks and expected velocities at drain or culvert outlets;
  - [3] Conditions above and below outlets and expected flow velocities;
  - [4] Supporting computations for the above; and
  - [5] A grading plan showing existing topography and planned grade along existing and/or proposed street or highway profiles.
- (c) A siltation and sedimentation control plan, including:
- [1] Sediment and erosion control structures such as diversions, waterways, slope stabilization structures, sediment basins, etc., in sufficient detail to implement their installation, together with referred standards for soil erosion and sediment as appropriate, and design calculations as required for each structure;
  - [2] Seeding and/or sodding requirements for all exposed areas, including seedbed preparation, seed mixtures, lime, fertilizer and mulching requirements with referenced standards;
  - [3] Schedule or sequence of operation with starting dates for clearing and/or grading, timing for storm drain and culvert installation, duration of exposure of soils and critical area stabilizations, both temporary and permanent. Indicate date when critical areas stabilization, paving, seeding, mulching, or sodding is to be completed; and
  - [4] General notes for sediment control that spell out the procedures for implementing the plan.

## Item 10891 Withdrawn by Vote of the City Council - 4/18/2023

(d) The technical reference to be used to prepare and review site plans is "Guidelines for Soil and Water Conservation in Urbanizing Areas of Massachusetts," United States Department of Agriculture, Soil Conservation Service, Amherst, Massachusetts. Specific guidelines to be used include, but are not limited to:

- [1] Limit grading to only those areas actively undergoing current construction;
- [2] The smallest practical area of land should be exposed at one time during development;
- [3] Limit the length of time graded areas are exposed;
- [4] Provide temporary or permanent stabilization of disturbed areas at the earliest opportunity. Limit exposure to less than 60 days;
- [5] Retain and protect as much of the natural vegetation as possible;
- [6] Permanent improvements such as streets, utilities, storm sewers, vegetated waterways, and other features of the development should be scheduled for installation to the greatest extent possible before removing the vegetative cover from an area scheduled for building construction;
- [7] Protect all fill slopes and cut slopes exceeding five feet in height from storm runoff through the use of diversion berms, drop chutes and other acceptable means;
- [8] Rough-graded rights-of-way awaiting installation of utilities and/or pavement should be protected by the installation of interceptor berms across the right-of-way to reduce the length of slope between berms to not more than 250 feet; and
- [9] On sites where the above procedures are impractical or not acceptable, where the topography permits, install sediment basins, desilting basins, or silt traps to remove sediment from runoff waters.

(e) A narrative statement detailing all the information set forth below, if applicable:

- [1] A complete list of all chemicals, pesticides, fuels, or other potentially hazardous materials, including but not limited to road salt or de-icing chemicals, manure, and fertilizers or soil conditioners, to be used or stored on the premises in quantities greater than associated with normal household use, accompanied by a description of the measures proposed to protect all storage containers from vandalism, corrosion, and leakage and to provide for control of spills.
- [2] A description of all potentially hazardous wastes to be generated in quantities greater than associated with normal household use, accompanied by a description of the measures proposed to protect all waste storage containers from vandalism, corrosion, and leakage and to provide for control of spills.
- [3] For underground or aboveground storage of hazardous materials, certification by a registered professional engineer that such storage facilities or containers are:
  - [a] In compliance with all applicable federal or state regulations;
  - [b] In compliance with design specifications, as prepared by a registered professional engineer; and
  - [c] Designed with secondary containment adequate to contain a spill the size of the container's total storage capacity.
- [4] For any proposed activity on a lot which will render more than 15% of the total lot area or more than 2,500 square feet impervious, a system for groundwater recharge must be provided that does not degrade surface water quality, by stormwater infiltration basins or similar system covered with natural vegetation. Dry wells shall be used only where other methods are infeasible. Such basins and wells shall be preceded by oil, grease and sediment traps to facilitate removal of contaminants.
- [5] For stockpiling or disposal of snow from outside the district, earthmoving and alteration, storage of sludge or septage, manure storage, treatment works, and/or discharge of process wastewater, a narrative statement, prepared by a registered professional engineer, assessing the impacts, if any, of the proposed activity on surface water and surface water quality on the premises, adjacent to the premises, and on any well field(s) down gradient from the proposed activity or use, accompanied by a description of the measures proposed to protect such well fields.

#### H. Decision.

- (1) Special permits shall be granted only if the SPGA determines, after reviewing the recommendations of the reviewing parties delineated in Subsection G(3), that:
  - (a) Surface water quality resulting from on-site wastewater disposal or other operations on site shall not fall below the more restrictive of federal or state standards for drinking water or, if existing surface water quality is already below those standards, on-site disposal or operations shall result in no further deterioration; and
  - (b) Activities shall be designed to avoid substantial disturbance of the soils, topography, drainage, vegetation, and other water-related natural characteristics of the site to be developed.
- (2) Powers of the SPGA. The Planning Board may approve, approve with conditions, or deny an application for a special permit that is governed, in any manner, by the provisions of this section.

**Item 10891 - Withdrawn by Vote of the City Council - 4/18/2023**

to be made. They shall be enforced in accordance with the regulations of the Surface Water Protection Overlay District without a written advisory report from the Gardner Board of Health.

**I. Miscellaneous provisions.**

- (1) Relation to Groundwater Protection Overlay Districts. In those instances where a surface water supply is located near a groundwater well, the Zone A, Zone B and Zone C+ established herein and the Zone II established to protect the wellhead in § 675-520 may overlap one another. In such cases of overlap, the more stringent regulation shall apply.
- (2) Notice of enforcement. Written notice of any violations of this section shall be given by the Building Commissioner to the responsible person as soon as possible after detection of a violation or a continuing violation. Notice to the assessed owner of the property shall be deemed notice to the responsible person. Such notice shall specify the requirement or restriction violated and the nature of the violation and may also identify the actions necessary to remove or remedy the violations and preventive measures required for avoiding future violations and a schedule of compliance. A copy of such notice shall be submitted to the Planning Board, Board of Health, Conservation Commission, City Engineer, Department of Public Works, and the Water Department.
- (3) Costs. The cost of containment, cleanup, or other action of compliance shall be borne by the owner and operator of the premises.

**§ 675-560 Large-Scale Ground-Mounted Solar Photovoltaic Overlay District.**

**A. Purpose and applicability.**

- (1) The purpose of this section is to promote the creation of new large-scale ground-mounted solar photovoltaic installations by providing standards for the placement, design, construction, operation, monitoring, modification and removal of such installations that address public safety and minimize impacts on scenic, natural and historic resources and to provide adequate financial assurance for the eventual decommissioning of such installations.
- (2) The provisions set forth in this section shall apply to the construction, operation and/or repair of large-scale ground-mounted solar photovoltaic installations.
- (3) This section applies to large-scale ground-mounted solar photovoltaic installations proposed to be constructed after the effective date of this section. This section also pertains to physical modifications that materially alter the type, configuration, or size of these installations or related equipment.

**B. Designation of overlay locations.** The overlay locations designated by Gardner City Council, in accordance with MGL c. 40A, § 5, where ground-mounted large-scale solar photovoltaic installations may be sited as of right. Said overlay locations are shown on the Zoning Map of Gardner, Massachusetts, pursuant to MGL c. 40A, § 4. This map is hereby made a part of this chapter and is on file in the office of the City Clerk.

**C. Definitions.** As used in this section, the following terms shall have the meanings indicated:

**AS-OF-RIGHT SITING**

Development may proceed without the need for a special permit, variance, amendment, waiver, or other discretionary approval. As-of-right development shall be subject to site plan review to determine conformance with local zoning ordinances. Projects cannot be prohibited but can be reasonably regulated by the Building Commissioner and/or person designated by the Planning Board.

**LARGE-SCALE GROUND-MOUNTED SOLAR PHOTOVOLTAIC INSTALLATION**

A solar photovoltaic system that is structurally mounted on the ground and is not roof mounted and has a minimum nameplate capacity of 250 kW DC.

**ON-SITE SOLAR PHOTOVOLTAIC INSTALLATION**

A solar photovoltaic installation that is constructed at a location where other uses of the underlying property occur.

**RATED NAMEPLATE CAPACITY**

The maximum rated output of electric power production of the photovoltaic system in direct current (DC).

**SITE PLAN REVIEW**

Review by the Planning Board pursuant to § 675-1010 of this chapter.

**SOLAR PHOTOVOLTAIC ARRAY**

An arrangement of solar photovoltaic panels.

**D. General requirements for all large-scale solar power generation installations.** The following requirements are common to all solar photovoltaic installations to be sited in designated overlay locations:

- (1) Compliance with laws, ordinances and regulations. The construction and operation of all large-scale solar photovoltaic installations shall be consistent with all applicable local, state and federal requirements, including but not limited to all applicable safety, construction, electrical, and communications requirements. All buildings and fixtures forming part of a solar photovoltaic installation shall be constructed in accordance with the State Building Code.

## Section 5 INVENTORY OF LANDS

### A) OVERVIEW

For the purpose of this report, Open Space is defined as any substantially undeveloped property with conservation or recreation interest whether owned by a public entity, non-profit, or private party. Property intended primarily for recreation, whether developed or undeveloped and whether or not it includes open space (ex – Greenwood Pool) is included in the inventory.

Protected and unprotected properties are included and identified. A protected open space and recreation property has provision to reduce the risk of destruction or degradation on the property. Unprotected properties lack those provisions and are therefore more vulnerable to loss or conversion to non-open space and recreation uses.

Properties can experience various degrees of protection and by several methods:

- Private lands can be protected in perpetuity or for a specified time through deed restrictions or conservation easements.
- Lands under special taxation programs (Chapter 61, 61A, or 61B) are actively managed by their owners for forestry, agricultural, horticultural, or recreational use. These lands have limited protection.
- Lands acquired for watershed and aquifer protection are usually permanently protected open space.
- Public recreation and conservation lands may be permanently protected open space, provided they have been dedicated to such use by deed.
- Municipal properties may be protected via a City Council vote to acquire them as protected properties.
- Private, public, and non-profit conservation and recreation lands are protected under Article 97 of the Articles of Amendment to the State Constitution.

### B) LANDS OF CONSERVATION INTEREST

The primary objective of this section is to consider all valuable open land and identify those parcels that are protected open space, and those that are not protected and therefore vulnerable to some type of development. The vulnerable open space parcels are then prioritized to direct future preservation activities by the City, State and private conservation groups.

RESOLUTION  
OPEN SPACE AND RECREATION PLAN 2015 - 2019 UPDATE

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GARDNER AS FOLLOWS:

WHEREAS, the City Council has reviewed the proposals prepared by the Open Space and Recreation Committee for inclusion within the Open Space and Recreation Plan (OSRP) 2015-2019 Update; and

**WHEREAS, the OSRP proposal does not seek nor require funding directly, but simply makes recommendations for preservation, maintenance, and for expansion of open space and recreation activity within City boundaries; and**

WHEREAS, the Open Space and Recreation Committee performed or reviewed all matters relating to the OSRP update at numerous publicly posted meetings, and further sponsored a city-wide survey and conducted two advertised public meetings for the primary purpose of soliciting public input regarding matters appropriate to the OSRP; and

WHEREAS, the OSRP has been developed and updated in accordance with requirements of the Massachusetts Executive Office of Energy and Environmental Affairs, Division of Conservation Services; and

WHEREAS, the City Council supports the activity as being consistent with the City's goal of promoting quality programs for its citizens;

NOW THEREFORE, the City Council hereby extends its support and endorses the City's Open Space and Recreation Plan 2015-2019 Update to be submitted to the Commonwealth of Massachusetts, Division of Conservation Services.

# Attachment V

Section 1 **PLAN SUMMARY**

The Open Space and Recreation Plan (OSRP) is a comprehensive planning document that guides future policies and actions by examining the City's need for new or improved conservation areas and recreational facilities. The overall purpose of the 2015 - 2019 OSRP is to provide Gardner's residents with a diverse system of interconnected open space areas and quality recreational opportunities that protect natural resources, promote public health, and enhance the quality of life. Enhancing the quality of life in a community must maintain a careful balance between equity, environment and economy.

Having an OSRP is very important for a number of reasons. A comprehensive plan identifies open space and recreation assets; prioritizes needs; identifies goals, objectives and actions; and allows the City to participate in state and federal grant programs to make capital improvements to recreational facilities and to protect open spaces.

The Open Space and Recreation Plan Committee built this plan on previous OSRP's; consultation with City Departments, in particular the Engineering, Public Works and Planning Departments; and nearly one year of public outreach. During this public outreach and planning, five specific goals were identified:

- Protect and improve the quality of existing open spaces, parks and recreational opportunities.
- Selective expansion of open spaces, parks and recreational opportunities.
- Protect water resources and improve water quality.
- Accommodate new growth where the environment can best support it.
- Increase public awareness and stewardship of the City's water resources, forests, parks and conservation areas.

Public outreach and planning also highlighted four new initiatives that resulted in several key actions contained in the plan:

- Sustain the recent focus on improved maintenance of recreational facilities.
- Insure parks and playgrounds are safe and family friendly.
- Upgrade existing sidewalks and build connections between existing sidewalks.
- Improve coordination of municipal efforts and better support volunteer initiatives.

## Open Space and Recreation Plans

Find details on Open Space and Recreation Plans (OSRPs) and links to resources you may find helpful in preparing your community's OSRP.

Open Space and Recreation Plans are a tool through which a community plans for the future of its conservation and recreation resources. OSRPs are informed by a thorough public participation process and reflect the needs of its community members. The plans are reviewed and approved by the Commonwealth to ensure that they conform to the OSRP requirements. When a community has an approved OSRP, it becomes eligible for DCS grant programs for up to seven years.

### OSRP Review Process

1. Mail a hard copy of your OSRP, with a cover letter naming a contact person, to:  
Melissa Cryan  
Division of Conservation Services  
100 Cambridge Street, Suite 900  
Boston, MA 02114
2. Send an electronic copy of your OSRP to [melissa.cryan@mass.gov](mailto:melissa.cryan@mass.gov) (<mailto:melissa.cryan@mass.gov>)
3. OSRPs are reviewed in order received for completeness and conformity with OSRP requirements
4. A conditional approval letter is sent, which details remaining items that need to be addressed prior to plan receiving final approval
5. Once those items are addressed, and a hard copy of the plan with the changes/additions is mailed to DCS, a final approval letter is sent

### CREDITS

The Montachusett Regional Planning Commission (MRPC) provided assistance for this project with funding provided by the Massachusetts Department of Housing and Community Development (DHCD) under the District Local Technical Assistance (DLTA) program. Under Chapter 205 of the Acts of 2006, the DLTA program enables staff of Regional Planning Agencies to provide technical assistance to communities for "any subject within regional planning expertise".

## ROUTE 140 NORTH CORRIDOR BUILDOUT ANALYSIS

### INTRODUCTION

As development occurs in the Route 140 Corridor and surrounding areas, the roadway will witness an inevitable increase in traffic volumes. In planning for future transportation improvements, it is useful to ask such questions as: How much overall growth can the Corridor accommodate? What are the most likely places where growth will occur? What type of growth seems appropriate for the area? And, does it make sense to alter local regulations to promote a different development pattern?

One way to address these questions is through the use of a "Buildout Analysis". A buildout analysis seeks to determine the maximum amount of new growth that could occur if all available land attains its full development potential. The analysis relies upon the zoning regulations in effect and takes into account environmental factors that limit the development potential of a site. The results do not provide a timeframe for predicting when a certain amount of growth may occur, but rather it attempts to quantify the maximum amount of development that can occur if no changes are made to alter the outcomes.

The results are useful to transportation planners, who will better understand the land use changes that will take place over time. It is then possible to identify future roadway improvements that will be necessary, program improvements over time, and make budgeting decisions as traffic reaches certain milestones.

For the Route 140 Corridor, the Steering Committee identified the study area most likely to contribute directly to traffic increases. Winchendon and Gardner initially identified a ½ mile corridor on each side of the roadway, and Westminster chose a ¼ mile offset. After looking at an initial round of buildout results, the representatives from each community modified the study area by adding in specific parcels and zoning districts where future growth could have a measureable effect on traffic volumes. Maps 1-3 display the community study areas, and Map 4 contains the entire Corridor study area.

### BUILDOUT METHODOLOGY

A buildout analysis consists of two discrete phases: mapping, and quantifying development. The process would not be possible without good geographic information and skillful GIS staff. Each community provided up-to-date parcel and zoning coverages, and the state mapping agency, MassGIS, provided accurate environmental and land use data.

Environmental data is a crucial element of a buildout analysis. Certain lands, because of environmental sensitivity, are considered unsuitable for development; these include wetlands, ponds, flood plains, and steep slopes. In addition, Massachusetts has adopted a regulatory program to protect perennial rivers and streams; under the River Protection Act, no development can occur within the "Riverfront Area", a swath two hundred feet wide from each bank. The buildout analysis interprets these lands as unavailable for development.

The buildout maps display the zoning scheme currently in effect in the three communities. For simplicity, these fall into a residential, commercial, or industrial district. Staff also reviewed the communities' zoning regulations to determine if other land use controls might affect the development potential of the corridor. In Gardner, the Water Supply Protection Overlay District (WSPOD) falls within the northern portion of the City and, by requiring large lots,

limits development to a greater degree than that permitted in the underlying Rural Residential district.

Gardner Scenic View

In addition, GIS staff aggregated land use/land cover data from MassGIS interpreted from 2005 aerial photography. The buildout analysis looks only at vacant land and removes land that is already developed, although it is possible over time for redevelopment to occur. The excluded land uses are active recreation, housing, transportation, commercial/industrial development, power lines, waste disposal, cemeteries, and public/institutional uses. Finally, land coverages from each community provided the source data for open space properties.

that is permanently protected as open space is also excluded from future development; the parcel coverages from each community provided the source data for open space properties.

The buildout maps display all of this data and allow local officials to identify the location and current zoning of the developable land. The mapping software categorizes all land in the study area as developed, undevelopable, or developable, and calculates the area in each category by zoning district. Land that is developed or undevelopable (open space or environmentally constrained) is excluded from further analysis.

A buildout spreadsheet helps to quantify the amount of new development that can occur. MRPC conducted community-wide buildout analyses in all of its communities about 10 years ago; thus, the spreadsheets were already available for this study. Knowing the amount of developable land in each zoning district, and assuming zoning districts and regulations remain unchanged, the spreadsheet calculates the amount of possible new growth in each community.

Planners then calculated the buildout results under existing conditions, i.e. the "base case analysis". A significant benefit of the methodology is that it is relatively easy to achieve different results by modifying the assumptions. One can run alternative growth scenarios to quantify the changes that would occur by altering zoning regulations. Planners can play "What if" games. For example: What would happen if the Town re-zoned some residential property to a commercial district? Or What if the City promoted a high intensity mixed use concept at a particular node? These scenarios will be discussed shortly.

### BASE CASE BUILDOUT RESULTS

Table 1 displays information on existing conditions in the study area including acres of land in each community by zoning district for the three categories of Undevelopable, Developed, and Developable Land. Table 2 contains the buildout results for the base case scenario.

| Percent                         | 56.5%         | 7.9%      | 35.8%       | 100%     |

Gardner

As shown in Table 1, only 25% of the study area in Gardner is available for development; 68.4% is undevelopable and 6.6% is already developed. Much of the undevelopable land is in public ownership by the City for water supply protection. While the amount of developable land is nearly four times greater than that occupied by existing development, the large amount of undevelopable land, and the presence of the low density watershed regulations, will help to retain an open character for the Gardner portion of the Route 140 Corridor.

Of the nearly 1,300 acres of developable land, 1,060 acres are in the Rural Residential district where new homes require large lots (60,000 sq. ft.). It is unlikely that the City will extend public water and sewer systems to these outlying areas. Another 80 acres are in a Single Family Residential District with a density of 3.5 units per ac. This density does require service by public water and sewer systems. Only 12% of the available land in the Gardner portion of the study area (159 ac.) is in a commercial or industrial district.

For the base case scenario, Table 2 indicates that Gardner could witness 792 new dwelling units and over 3.0 million square feet of non-residential development. Over 300 acres of Rural Residential land is within the WSPOD, which specifies a three-acre minimum lot size for a single family home. The low density is a valid means of protecting the water supply, and of course, has the effect of reducing the residential buildout.

The commercial and industrial districts allow a reasonable intensity of development. The analysis uses a factor termed "Effective FAR" to calculate the amount of non-residential development. The Effective FAR takes into account land needed for setbacks, open space percentages, and parking, and based on allowable stories, it is a measure that expresses the amount of building floor area a lot can accommodate. For example, in Gardner's Commercial 1 district, its Effective FAR of 0.33 means that a 10,000-sq. ft. lot could accommodate 3,300 sq. ft. of building floor area in compliance with zoning and parking codes. Exceeding the FAR would require structured parking, which is not economically feasible in today's market.

Table 2 also shows the possible impacts at full buildout of water demand, new residents, and new students. Based on a water consumption rate of 75 gallons per capita per day and 75 gallons per 1,000 sq. ft. of non-residential floor area, the new development would require 368,494 gallons of water per day. This is true whether or not development is tied into the municipal water system. However, it is unlikely that the commercial and industrial floor space at buildout would be possible without public water service. The number of new residents and new students are based on the number of people per household (2.35) and number of public school students per household (0.417) from the 2000 Census. The 792 new homes in the Corridor could generate 1,862 new residents and 319 new students.

Westminster

Westminster comprises the smallest portion of the study area, 796 acres, since it only includes the area between the Route 2/140 intersection and the Gardner line. In contrast to Gardner, 61.5% of the study area is available for development and 25.5% is already developed. Only 13% of the land area is undevelopable due to environmental constraints. There is a fairly even distribution of buildable land across the three zoning categories: 172 acres of Commercial 1, 151 acres of Industrial 1, and 190 acres of Residential 1.

<sup>1</sup> FAR stands for Floor Area Ratio, i.e. the relationship of building floor area to lot area.

Table 2  
Route 140 North Base Case Buildout Analysis

|                                    | Developable Area (Ac.) | Effective FAR | Square Feet of Floor Space | Build Factor | Min. Lot Size (Sq. ft.) | Dwelling Units | Water Use | New Residents | New Students |

| Grand Total                        | 3,454.99               |               | 28,027,312                 |              |                         | 1,240          | 2,333,893 | 3,091         | 572          |

For the base case scenario, 130 acres of developable land in Westminster's R-1 district could yield 98 new dwelling units using the minimum lot size of 50,000 sq. ft. This would generate 267 new residents and 52 new students based on multipliers of 2.73 people per household and 0.53 public school students per household from the 2000 Census. In Commercial 1, 172 acres of developable land could yield about 2.55 million square feet of floor

Westminster - Rt. 2 Area

area. In Industrial 1, 151 acres of developable land could result in 1.69 million sq. ft. of floor area. Altogether, this new growth would have a water demand of 338,142 gallons per day.

### Winchendon

Winchendon has the largest amount of developable land in the study area. This is partially due to incorporating large commercial and industrial districts that lie beyond the ½ mile corridor. Town representatives believed future development in these areas would have a significant impact on traffic growth and wished to assess the magnitude of growth current zoning would allow. 45.7% of the study area in Winchendon is available for development, or about 1,700 acres. About half of this land is zoned for residential use. With a two-acre minimum lot size in the Rural Residential district, the 827.5 developable acres would allow 350 dwelling units. This growth would increase the Town's population by 962 residents and add 202 students to the public school system (based on multipliers of 2.75 people and 0.576 students per household).

The Winchendon portion of the study area contains a large amount of developable land zoned for non-residential uses, about 400 acres for commercial development and 479 acres for industrial development. Combined, there are 876 acres of developable land that has a potential buildout of 20.7 million sq. ft. of floor space. Clearly, such a large amount of development would have major consequences on traffic along Route 140. Water demand from all future development would exceed 1.6 million gallons per day.

### Study Area Summary

On the whole, the Buildout Analysis reveals that there is a significant amount of room available for new growth in the Route 140 Corridor. Of the 9,653 acres in the entire study area, over half (56.3%) is undevelopable; however, 35.8% of the total acreage is developable, which is 4.6 times as much as the land already developed (7.9% of the study area). While Gardner has the most land, 68.4% of it is undevelopable. Winchendon has the most developable land in the study area, 1,709 acres, which comprises 50% of all developable land.

Furthermore, 65% of the developable commercial and industrial land in the study area is in Winchendon. Combined all three communities offer 1,358 ac. of developable commercial and industrial land, which can accommodate 28.0 million sq. ft. of non-residential floor space. Winchendon's potential 20.7 million sq. ft. of floor space comprises 74% of the commercial and industrial development at buildout in the study area. Gardner's 3.0 million sq. ft. and Westminster's 4.2 million sq. ft. comprise 15.1% and 10.9% respectively of the Corridor's potential commercial and industrial build-out.

Residentially, about 2,100 acres is developable, which comprises 61% of all developable land. Gardner contains 54%, and Winchendon 40%, of the total developable residential land. This residential property in the study area could accommodate 1,240 new dwelling units. Gardner has 1,140 acres of developable residential land and would yield the largest number of new units, 792, or 64% of the total units.

### ALTERNATIVE GROWTH SCENARIOS

As noted above, it is possible to modify the data and assumptions in the Buildout Analysis to test different growth policies. For example, local officials might wish to see the results from re-zoning residential land to a commercial district, increasing minimum lot size requirements in a residential district, or establishing a high density mixed-use zoning district at a transportation node to encourage a more compact, pedestrian-scale, village-style development. The Steering Committee considered this opportunity, and members from Gardner and Winchendon proposed an alternative development scenario for their communities. In Westminster, local officials believe the existing zoning pattern is a good one. Developable land along Route 140 is already zoned for commercial and industrial purposes, and near-by residential developments limit opportunities for re-zoning.

### Winchendon Alternative Growth Scenario

Winchendon officials want to explore the possibility of future opportunities for economic development along Route 140 in the southern part of Town by re-zoning land from Rural Residential to Commercial 1. This area coincides with Winchendon's "Gateway Overlay District", where

Winchendon - Gateway Area

special development standards apply to minimize the traffic impacts of new development. It includes the area along the westerly side of Route 140 from the southern end of the C-1 district to the Gardner line with a depth of 500'; on the easterly side, it includes the area bounded by Route 140, the Gardner line, and the North Central Pathway rail trail. Map 5 displays the revised zoning boundaries used in the alternative buildout analysis.

The new district contains 347.4 acres, of which 251.5 ac. are developable according to the GIS analysis. Keeping the zoning standards of the C-1 district constant, the land would accommodate 5.4 million sq. ft. of commercial floor area. Correspondingly, the residentially zoned acreage in the Winchendon portion of the study area falls to 581.1 acres, resulting in a decrease of 104 dwelling units at buildout. Table 3 compares the Winchendon study area buildout under the base and alternative scenarios.

**Table 3  
Winchendon Commercial Development Scenario**

|                          | Base Scenario | Gateway Scenario | Change    |
|--------------------------|---------------|------------------|-----------|
| Developable Acres in RR  | 827.5         | 581.1            | -246.4    |
| Developable Acres in C-1 | 396.7         | 643.0            | 246.4     |
| New Dwelling Units       | 350           | 246              | -104      |
| Commercial Floor Area    | 8,708,588     | 14,117,454       | 5,408,866 |
| Industrial Floor Area    | 12,025,905    | 12,025,905       | 0         |
| New Residents            | 962           | 676              | -286      |
| New Students             | 202           | 142              | -60       |
| Water Demand             | 1,627,257     | 2,011,435        | 384,178   |

Winchendon could view the possibility of re-zoning this portion of the study area as an opportunity to achieve greater economic development. Winchendon has a great deal of land already zoned for commercial and industrial purposes in the area, and officials should consider the effect on those properties of encouraging commercial development here. A less intensive alternative Winchendon could consider is to adopt a planned development bylaw that would allow large projects by special permit within the Gateway Overlay district. For example, a planned business development bylaw could allow a large shopping plaza or big-box retail outlet subject to reasonable regulations to protect residential abutters.

In either case, the presence of the highway affords excellent access to developable property. The re-zoning scenario would increase the amount of developable land in C-1 by about 250 acres. Correspondingly, the number of potential dwelling units would decrease by more than 100, lessening the demand for municipal services and school education costs. The idea of allowing some commercial or industrial development here has merit and local officials could explore it further. This buildout analysis at least provides an initial basis for understanding the long-range land use consequences of the decision.

**Gardner Alternative Growth Scenario**

Gardner - Matthews St. Area

In 2006, Martin Wolons proposed a high-density, mixed use development concept along the westerly side of Route 140 in the vicinity of Pearl and Matthews Streets. The developer sought approval under the state's "Smart Growth" statute, MGL Chapter 40R, which promotes multi-family housing, including affordable units, to create town center-style developments. In return for encouraging housing production, a community receives incentive

payments from the state. Chapter 40R requires approval of a discrete zoning district by the local legislative body to demonstrate community support and establish local standards for design. The project consisted of 650 units of housing and 200,000 square feet of commercial space on 114 acres. Because of poor economic conditions, the developer abandoned the project. Since the site remains vacant, has good highway access, and is near public water and sewer systems, Gardner Steering Committee members asked to run an alternative growth scenario at this location to help understand possible impacts of a large development here.

With several parcels under common ownership, the analysis incorporates the same area as the 40R project. Map 6 displays the revised zoning boundaries used in this scenario. Rather than a predominantly residential project, this hypothetical development assumes a mix of light industrial and office uses, termed the LI-O scenario<sup>2</sup>. The GIS analysis determined that 82.3 acres of the site are developable. The LI-O scenario allocates 50% of the developable land for light industry and 50% for office and research and development. Industrial uses tend to favor extensive one-story buildings and have a relatively low parking demand; office and research uses favor multi-story buildings and have a higher parking demand due to the employee-intensive nature of such businesses. Combining these uses, the LI-O scenario assumes an overall Effective FAR of 0.5 for the district. Table 4 displays the results of this scenario.

**Table 4  
Gardner Mixed-Use Development Scenario**

|                           | Base Scenario | LI-O Scenario | Change    |
|---------------------------|---------------|---------------|-----------|
| Developable Acres in RR   | 1,061.3       | 979.06        | -82.3     |
| Developable Acres in LI-O | 0             | 82.3          | 82.3      |
| New Dwelling Units        | 792           | 742           | -50       |
| New LI-O Floor Area       | 0             | 1,792,058     | 1,792,058 |
| New Residents             | 1,862         | 1,744         | -118      |
| New Students              | 319           | 298           | -21       |
| Water Demand              | 368,444       | 359,639       | -8,805    |

The proposed Light Industry-Office scenario could yield an additional 1.8 million sq. ft. of non-residential floor space at buildout. This location is currently zoned RR and is outside the WSPOD; removing the land from RR could reduce the number of dwelling units by 50 units. This scenario provides an interesting counter-point to the chapter 40R project, which contained 650 dwelling units and 200,000 sq. ft. of retail space. Assuming the previous developer had proposed a realistic concept based on infrastructure capacity and the site's physical conditions, it is plausible that the location could also accommodate an intensive industrial park or office/research complex. Gardner officials may wish to examine surrounding land uses to assess whether such a use would be compatible with the neighborhood and consider alternative development schemes, e.g. including a residential or commercial component.

<sup>2</sup> To create a residential component, Gardner's Smart Growth Planned Unit Development (SGPUD) allows up to 50% of a tract to consist of residential uses.

## LAND USE GOAL

The following land use goal sets an overall growth policy for communities to plan and develop the Route 140 Corridor to achieve the highest and best use of the available land and public infrastructure for the benefit of the three communities:

*Communities connected by Route 140 should proactively plan together for future growth. Through innovative zoning measures communities will foster a sustainable pattern of development, one that preserves roadway capacity and public safety, promotes economic development, conserves resources, and achieves high standards of design.*

## RECOMMENDATIONS

The preceding analysis documents the considerable amount of developable land in the Corridor and the large potential for economic growth. Most communities welcome new economic development because it creates jobs and adds to the local tax base without overwhelming municipal services. However, such growth should not occur at the expense of community character, environmental excellence, or quality of life. Despite the vast potential for new growth in the Corridor, the challenge is not to just recruit new business but to achieve high quality development. The following recommendations offer techniques to balance economic opportunity and preserve community character so that residents may enjoy the benefits of new growth.

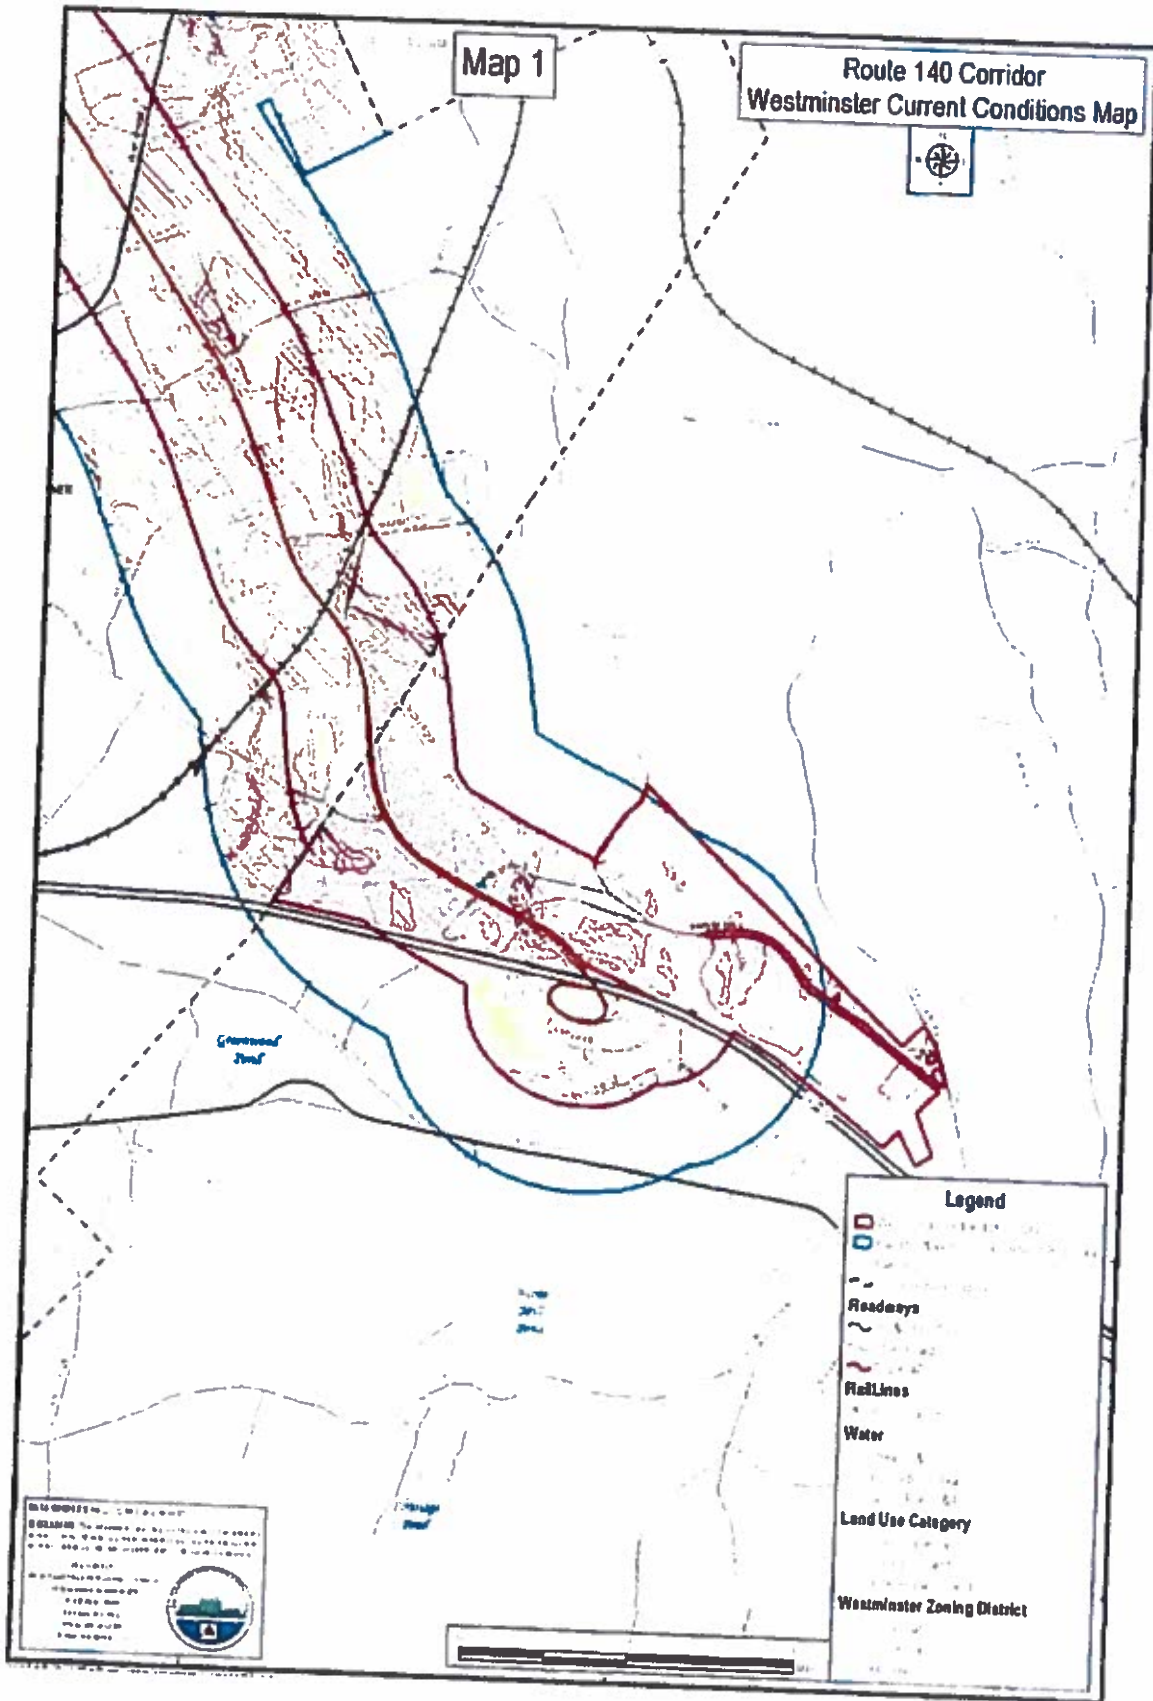

1. Implement access management controls by limiting the number of curb cuts directly onto Route 140, requiring common driveways where feasible, and connecting adjoining properties through internal access roads to lower the number of turning movements onto the highway. Winchendon's Gateway Overlay District is a good example of a regulation that seeks to control access to Route 140 and avoid commercial sprawl.
2. Modify land use controls to allow a higher intensity of development at key intersections where roadway capacity exists and water and sewer services are available.
3. Preserve scenic views through strategic purchases of open space, acquisition of view easements, or requirements for photo-simulation during site plan review to consider alternative building configurations.
4. Review sign regulations to insure that signs permitted in commercial and industrial districts minimize visual clutter. Restrict billboards and other non-accessory signs.
5. Authorize sharing of parking or reducing parking requirements when complementary uses have different peak hours of parking demand.
6. Require traffic impact studies for large-scale developments.
7. Review development design standards to achieve high quality development, for example:
  - ❖ Add landscaping requirements in parking lots, along road frontage, and around buildings.
  - ❖ Establish protective buffers adjacent to residential uses.
  - ❖ Set architectural standards to promote visual interest, such as pitched roofs, exterior building materials, awnings, etc.
  - ❖ Require screening of dumpsters, utility structures, and outdoor storage areas.
  - ❖ Provide safe, pleasant, and accessible paths for pedestrians within new developments and from adjacent neighborhoods.

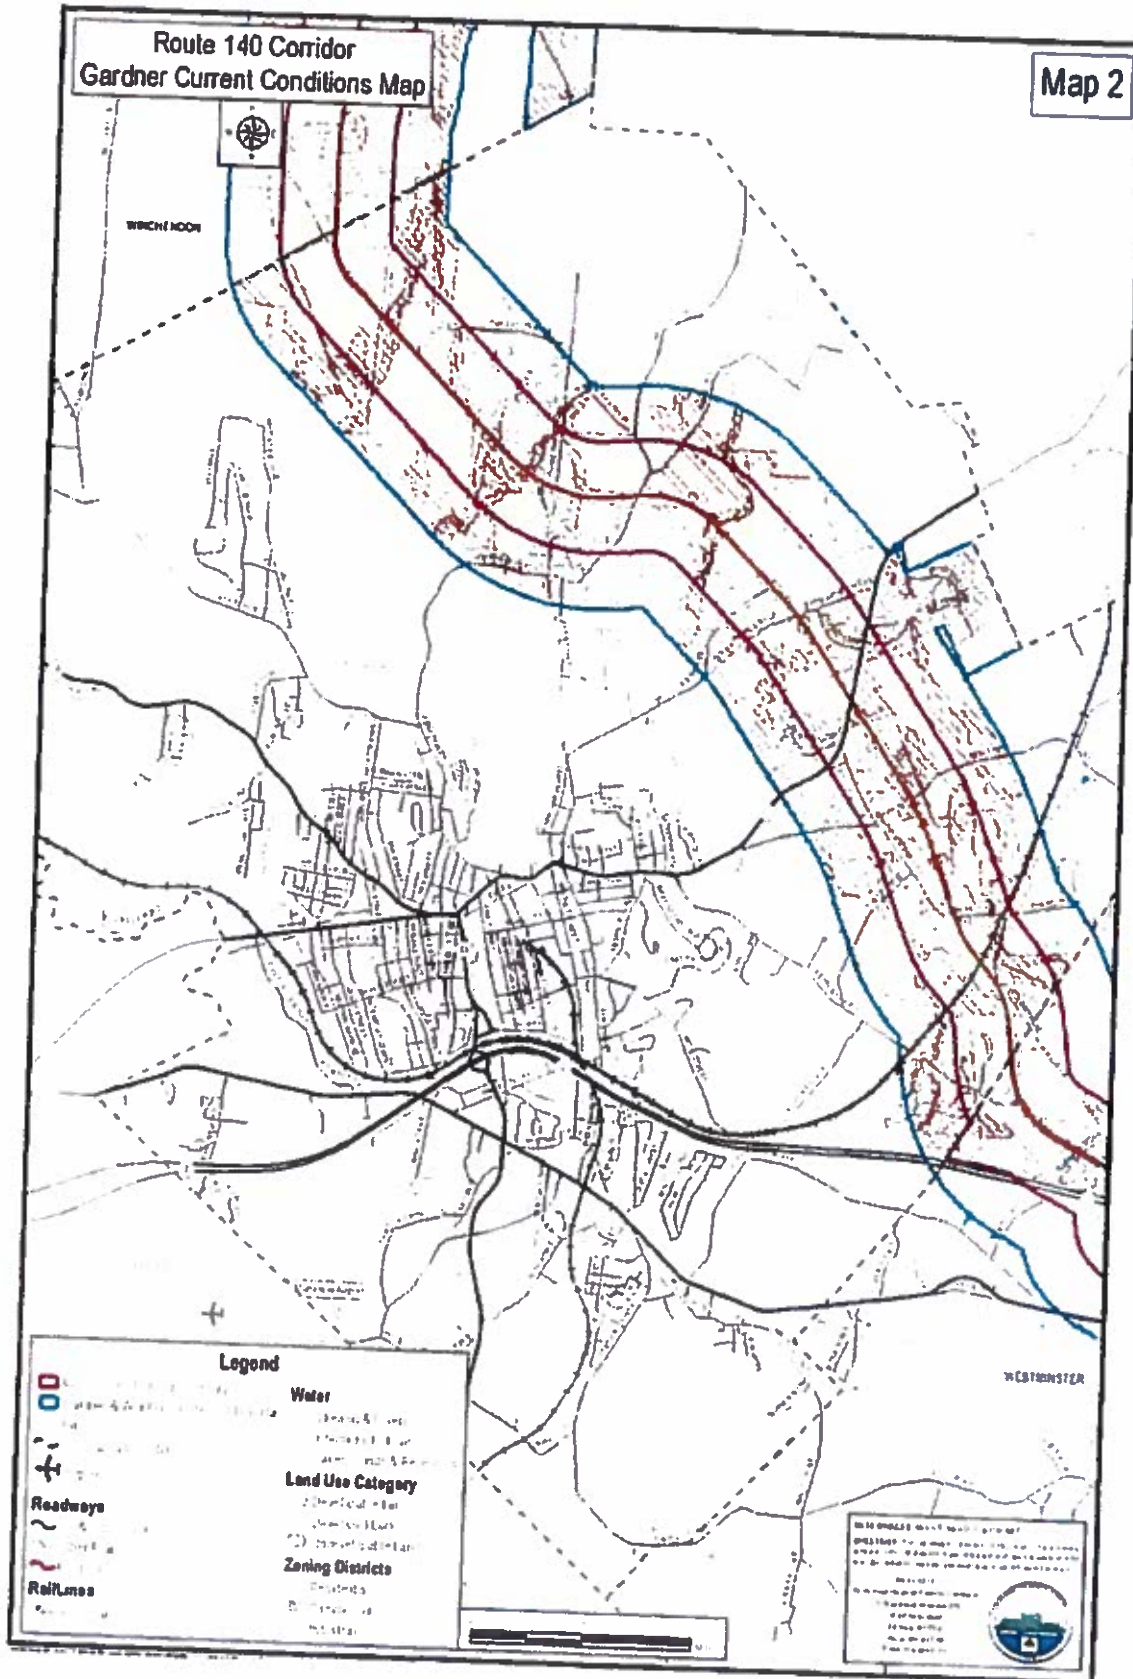

- ❖ Use Low Impact Development (LID) stormwater management techniques to contain and purify runoff on-site and improve development aesthetics.
- ❖ Set lighting requirements and use fixtures with cutoffs to curtail light impacts.
- ❖ Place wiring underground.

MRPC could take the lead by creating a process to develop model design standards applicable to similar highway corridors throughout its Region.

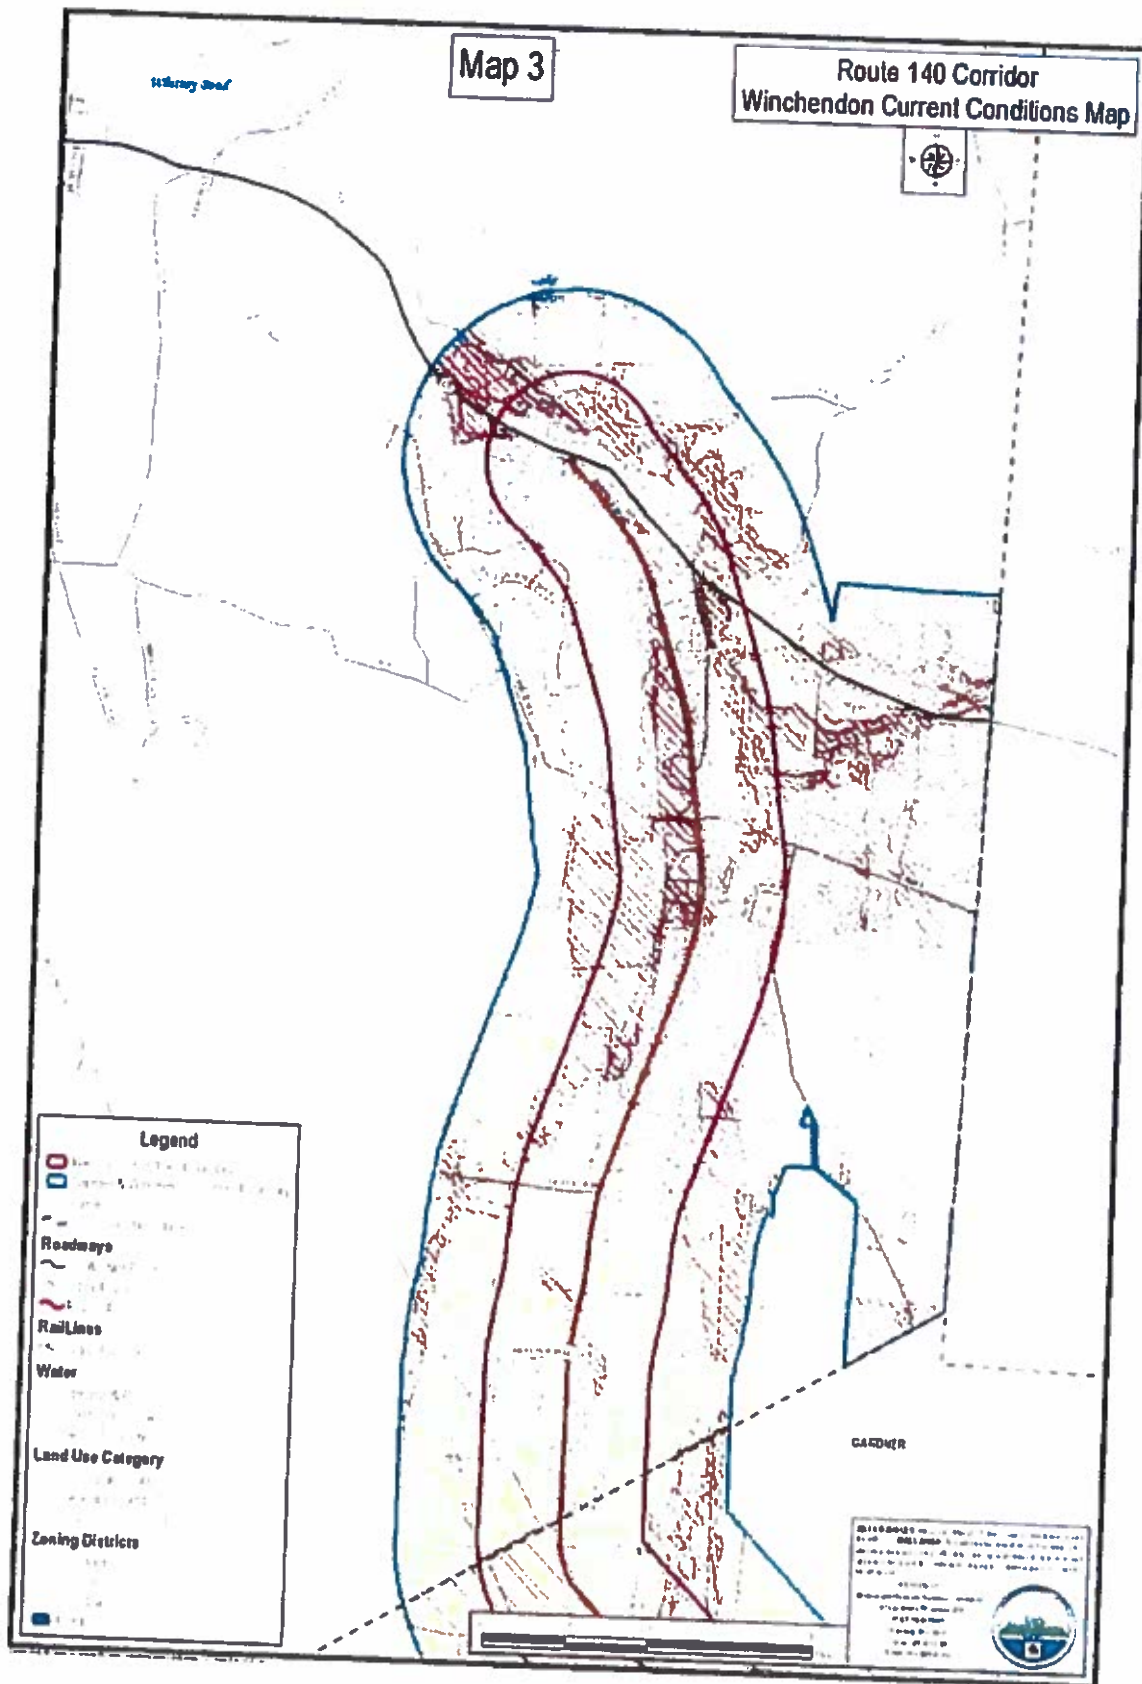

8. Continue to analyze re-zoning opportunities in Winchendon and Gardner as outlined in the alternative growth scenarios discussed above.
9. Provide connecting links to the North Central Pathway rail trail as a way to promote commuter access by bicycle. Continue to extend the trail along its entire proposed 16-mile length for recreational use and as a tourism attraction.
10. Work with MassDOT to pursue nomination of Route 140 as a Scenic Byway. Once approved, communities are eligible for additional federal grants for planning, marketing, roadway improvements, and public amenities. After preparing a Management Plan, implementation funding may be used for a variety of projects such as: constructing links to nearby recreation areas, installing historic markers, building off-road parking areas, developing informational kiosks, preserving scenic vistas, etc. The Scenic Byway Program is an avenue for obtaining funds for enhancement projects based on a management plan that has been informed through significant public participation. It has no regulatory effect on private property.
11. Pool resources to develop a regional marketing strategy to tout the assets present in the Corridor for economic development. Consider a unique moniker for Route 140 that evokes an image of beauty, local history, and community resourcefulness.
12. Work cooperatively to protect public water supplies. A portion of Gardner's public water supply watershed for Crystal Lake extends across the city line into Winchendon. An important goal of Gardner's "Open Space and Recreation Plan" is to seek regional cooperation and develop inter-municipal agreements to assure protection of its water supply. As growth takes place in south Winchendon, the two communities should execute an inter-municipal agreement that encourages sustainable resource management and best practices for new development to minimize any potential water quality degradation. As a regional issue, MRPC could assist in drafting an acceptable agreement that would advance the land use and environmental goals of each community.
13. Develop alternatives to frequent driveway openings onto Route 140. The Buildout Maps reveal that residential zoning districts occupy large stretches of Route 140. The danger exists that over time, individual lots with single family homes will each have a driveway with access onto Route 140. Homeowners will enter and exit these lots on a frequent basis interfering with the smooth flow of traffic and creating unsafe travel conditions, especially in severe weather. Communities should encourage alternatives to individual driveways, such as common driveways, subdivision roads, and frontage roads parallel to Route 140, to provide controlled points of access onto the highway.
14. Consider larger setbacks from the highway for residential uses. As traffic growth increases along Route 140, traffic noise and congestion will make abutting property less desirable for single family homes. This impact can be mitigated by deeper front setbacks and landscape buffers to help maintain lot privacy.
15. Explore regional zoning regulations to enhance inter-municipal cooperation in managing development in order to protect the character of the corridor. Since Route 140 is a regional asset and engine for economic growth, the communities may wish to explore adoption of a

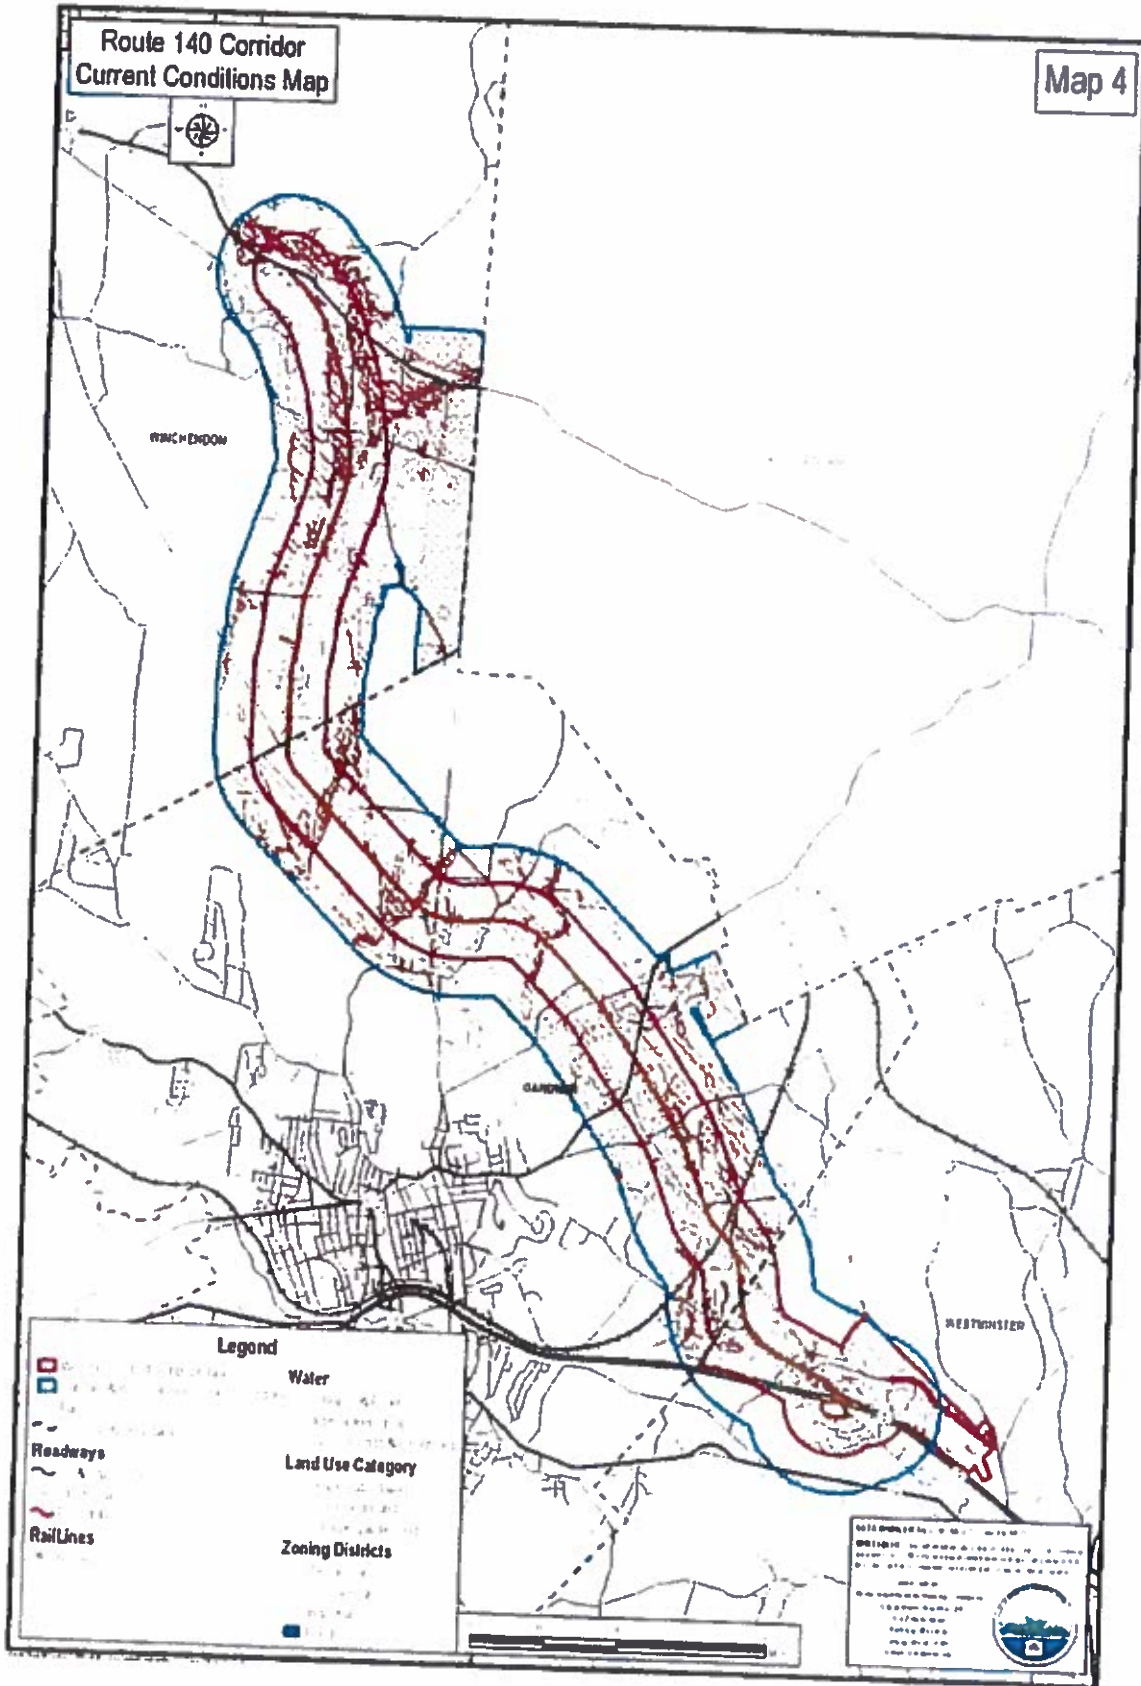

regional Highway Corridor Overlay District. MRPC could also assist in this endeavor. Such an approach would allow for inter-community consultation on major development projects, establish common design and development standards, and encourage access management techniques to preserve roadway capacity and protect motorist safety. This concept has worked well in the Blackstone Valley where three communities adopted a model Route 1-16 Corridor Overlay District zoning bylaw. Each community decides which uses are most appropriate for its section of the Route 1-16 Corridor, and the Overlay District establishes consistent design standards to manage development along the roadway to protect its scenic, historical, and natural resource values.

**QUITCLAIM DEED**

\*

I, Rebecca M. Perreault, of Gardner, Worcester County, Massachusetts

for consideration paid, and in full consideration of One and 00/100 Dollars (\$1.00)

Grant to Andre E. Guertin and Suzanne G. Guertin, husband and wife, as tenants by the entirety,

Of 582 Pearl Street, Gardner, Worcester County, Massachusetts

with QUITCLAIM COVENANTS

the land in Gardner, Worcester County, Massachusetts,

Parcel One

A Parcel of land situated on the northerly side of the so-called Winchendon Road (now known as Green Street) leading from said Gardner to Winchendon bounded and described as follows:

BEGINNING at a point located on the northerly line of said Winchendon Road, which point is located 500 feet easterly from a stone wall at land now or formerly of one Whitney;  
THENCE S. 30° E. along said Winchendon Road 660 feet to other land of grantor herein;  
THENCE N. 57.75° E. along said land of grantor herein, 860 feet, more or less, to a drill hole in a stone wall located on the southerly side of Old John Eaton Road;  
THENCE northerly along a stone wall at land now or formerly of Rector Reed, 790 feet, more or less, to the land of the Boston & Maine Railroad and land of grantor herein;  
THENCE southwesterly along said land of grantor herein 1,450 feet, more or less, to the place of beginning.

EXCEPTING therefrom, a certain parcel of land situated at 1263 Winchendon Road on the northeasterly side of said Winchendon Road a/k/a Green Street, Route #140, in Gardner, Worcester County, Massachusetts, bounded and described as follows:

BEGINNING at the most southerly corner thereof, at an iron pin in the northeasterly line of Winchendon Road, a/k/a Green Street, Route # 140, at a corner of land of The City of Gardner;  
THENCE N. 30° 07' 16" W. by said road line 250.00 feet to an iron pin at a corner of other land of Rebecca M. Perreault, the grantor herein;  
THENCE N. 57° 14' 13" E. 525.00 feet to an iron pin;

Green Street Gardner MA

CONTAINING 3.0099 acres or 131,110 square feet. Said excepted parcel being shown on a plan entitled "Plan of Land prepared for Rebecca M. Perreault, (owner: Book 3142, Page 278), Gardner, MA, dated March 31, 2005, prepared by Szoc Surveyors, 32 Pleasant Street, Gardner, MA (978-632-0233) 1 inch = 80 feet, recorded in the Worcester County Registry of Deeds in Plan Book 824 Plan 96.

For grantors title see deed from the City of Garder to Herve J. Perreault and Rebecca M. Perreault, husband and wife, as tenants by the entirety, dated July 21, 1948 and recorded in the Worcester County Registry of Deeds in Book 3142, Page 278.

**Parcel Two**

The land in the northerly part of Gardner located on the northeasterly side of Green Street, formerly known as Winchendon Road, and bounded and described as follows:

BEGINNING at a point on the northerly line of said Green Street 500 feet southeasterly from the junction of said northerly line of Green Street and a stonewall forming the westerly boundary of other land now or formerly of the City of Gardner;

THENCE northeasterly by land now or formerly of Herve Perreault 1,450 feet, more or less, to the junction of the southwesterly boundary of land now or formerly of the Worcester Division of the Boston & Maine Railroad and a stonewall forming the easterly boundary of said land now or formerly of Herve Perreault;

THENCE northwesterly along said southwesterly boundary of land now or formerly of the Worcester Division of the Boston & Maine Railroad approximately 800 feet;

THENCE southwesterly approximately 400 feet to a point 50 feet easterly from the easterly edge of Wilder Brook;

THENCE southwesterly by a line parallel to and 50 feet easterly of said Wilder Brook 1,800 feet, more or less, to the said northerly line of Green Street;

THENCE southeasterly along said northerly line of Green Street approximately 50 feet to the place of beginning.

CONTAINING 17 acres, more or less.

BEING THE SAME PREMISES conveyed to Herve J. Perreault by deed of the City of Gardner dated April 18, 1951 and recorded in the Worcester County Registry of Deeds in Book 4919, Page 422. I derive my title as devisee under the Will of Herve J. Perreault, see Worcester County Probate Docket #PR 0418 EP1. Herve J. Perreault became deceased on December 30, 1997. See Affidavit of No Estate Tax Due recorded in said Registry at Book 36139, Page 375.

Executed as a sealed instrument this 12 day of April, 2005

REBECCA PERREAU Rebecca Perreault  
Rebecca M. Perreault

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |        |    |             |  |      |             |        |           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |        |    |             |  |      |             |        |           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |        |    |             |  |      |             |        |           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |        |    |             |  |      |             |        |           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |        |    |             |  |      |             |        |           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |        |    |             |  |      |             |        |           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  |        |    |             |  |      |             |        |           | | Total Baths:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 0              |                |           |            |             |           |             |           |           |                     |       |           |             |             |                |    |             |        |    |          |       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  |        |    |             |  |      |             |        |           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 02             |                |           |            |             |           |             |           |           |                     |       |           |             |             |                |    |             |        |    |          |       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                |                |           |            |             |           |             |           |           |                     |       |           |             |             |                |    |             |        |    |          |       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |        |    |             |  |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |     |    |  |  |  |                  |   |    |     |    |  |                  |    |  |  |    |     |              |    |  |  |  |  |             |     |    |  |  |  |                |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |     |    |  |  |  |  |  |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |        |    |             |  |      |             |        |           |         |       |           |             |          |     |           |  |  |  |           |   |              |     |    |  |                 |    |           |  |   |     |                 |    |                |  |  |  |                 |     |               |  |  |  |            |    |                |     |    |  |                 |    |     |  |    |     |                 |    |                |  |  |  |                |     |      |  |  |  |                |    |            |     |    |  |            |    |         |  |    |     |                |   |         |  |  |  |              |
